The Nurses Training Program, established in 1948, has an enrollment at the present time of forty-three students. The college and the associated hospitals, the Jennie Stuart Memorial Hospital, Hopkinsville, and the Owensboro-Daviess County Hospital, Owensboro, are carrying forward a very effective program in nurses' training.

The associated hospitals are providing scholarships for these students in the amount of approximately \$100.00 per semester, fifteen from Jennie Stuart Memorial Hospital and twenty-eight from Owensboro-Daviess County Hospital.

9. Remodeling of Administration Building

The work is progressing as rapidly as possible on the remodeling of the Administration Building; however, we are short certain materials, namely: asphalt floor tile, fluorescent lights, Venetian blinds, interior pine doors, and exterior steel window frames. The lack of these materials has prevented us from finishing any room completely.

Deliveries on the above items are being pushed in every way possible and it is anticipated that the floor tile, light fixtures, and Venetian blinds will be delivered within ten days or two weeks. When these are installed, the Business Office can be moved into the new quarters.

On October 4, 1950, Mrs. Onie Bailey signed the deed to the property on Chestnut Street. Check was received by Murray State College for this property on October 12, made payable to Mrs. Onie Bailey in the amount of \$12,500.00, and was forwarded to her at the Kentucky Baptist Children's Home, Glendale, Kentucky, on October 12, 1950.

The purchase of this property has been consummated and title to the Bailey Property is now vested in the Commonwealth of Kentucky for the use and benefit of Murray State College. The Commonwealth of Kentucky now owns all property in the block between 15th and 16th streets and Main and Chestnut.

S. Army Deputy Commander, Headquarters Second Army, Fort George G. Meade, Maryland, on June 17, 1950.

President Woods read a letter to the Board, dated October 13, 1950, from P. R. Dwyer, Colonel, GSC, Individual Training and Education Section, Department of the Army, Washington, D. C., which stated that our application was in the current files of the Department of the Army, had been found to be in order, and would receive careful consideration.

Mr. Dwyer stated that the basic factors considered in locating new ROTC units were the accreditation of the institution, its curricula, the credit granted toward a degree for the ROTC courses, suitability and adequacy of facilities for a military science department, the number of male students enrolled, whether military training would be compulsory or voluntary, and the length of time an application for an ROTC unit had been on file with the Department of the Army.

Board Approved Action of President in Negotiating and Signing Contracts Between Murray State College and Veterans Administration

President Woods reported to the Board that the following contracts had been negotiated and signed by him between Murray State College and the Veterans Administration.

1. Contract No. V3027V-455 for regular students for the period September 14, 1950, through August 4, 1951. The tuition rate is \$6.16 per semester credit hour. This is \$0.20 per semester credit hour less than our previous contract with the Veterans Administration

The tuition rate is computed on the cost of teaching personnel plus a 15% allowance for administrative overhead and supplies.

2. Contract No. V3027V-418 for the trade courses offered at Murray State College had been negotiated for the period beginning July 1, 1950, through December 31, 1950.

The terms of this contract are the same as previous contracts for the training given in the trade courses.

3. Contract No. V3027-V265 for administering veterans tests was negotiated on August 2, 1950, at the rate of \$6.50 per test.

For the first quarter, July, August, and September, we had a deficit of \$259.15 in the operation of this testing program.

On October 12, 1950, the contract was renegotiated and the rate was changed to \$12.67 for each test.

It is believed that this increased rate will be sufficient to make the testing program self-supporting and will be able to absorb the deficit by charging the increased rate for the tests given during the remaining nine months, October 1, 1950, through June 30, 1951.

Motion was made by Mr. Winslow that the action of the President in negotiating and signing the above-listed contracts between Murray State College and the Veterans Administration be approved. President Woods Authorized by Board to Investigate Possibility of Including Non-Professional Workers at Murray State College in Social Security Program and at Proper Time Request Governor to Negotiate Agreement with Social Security Administration

President Woods discussed with the Board the matter of securing Social Security coverage for non-professional workers at Murray State College and recommended that this matter be taken up with the proper authorities in order for them to be included under Social Security. President Woods reported that non-professional workers were not included in the Teachers Retirement System of Kentucky.

Motion was made by Mr. Winslow that President Woods be authorized to investigate the possibility of non-professional workers at Murray State College being included in the Social Security program and, at the proper time, request the Governor of Kentucky to negotiate an agreement with the Social Security Administration which would allow non-professional workers at Murray State College to be covered by Social Security. This motion was seconded by Mr. Franklin and the roll was called on its adoption with the following result: Mr. Franklin, aye; General Meredith, aye; Mr. Winslow, aye; Mr. Hodgkin, aye.
