#### Objectives of Teacher Education

A primary objective of Murray State College is to produce graduates whose attitudes and abilities characterize them as competent teachers and potential educational leaders. The teacher-education objectives focus on the development of individuals who are in the process of becoming effective teachers. The faculty and administration of the college desire to develop teachers and educational leaders who:

- A. Are well-balanced persons who can make and implement intelligent judgments with respect to their environment.
- B. Evidence continual growth in understanding and acceptance of self, and are able to understand and accept others.
- C. Feel that groupness as well as individuality are basic to democracy; possess the ability to work alone or in cooperation with others; and perform effectively as a follower or as a leader.
- D. Can successfully guide students in achieving the self-discipline required for the accomplishment of worthwhile tasks.
- E. Are committed to meet the challenge of education in democracy.
- F. Keep their minds open to new knowledge and are able and eager to assist in investigation and research.
- G. Are grateful for the opportunity of participating in the moral, intellectual, and social development of those whom they teach.
- H. See themselves in and of the community in which they teach to a degree necessary to gain understanding of the culture patterns and values inherent in students; and, as well, are able and willing to contribute to the enrichment of life in the community.
- I. Feel that knowledge and application of knowledge are synthesized into effective abilities and desirable attitudes.
- J. Respect the dignity of work, and develop in students a sense of pride in achievement.
- K. Are able consistently to arrange experiences and environment conducive to the richest learning for all students, in full awareness of their great variation in capacity and interest.
- L. Have the ability to communicate effectively, and appreciate the importance of non-verbal communication in human relationships.
- M. Appreciate American ideals, and can instill in students a desire to strengthen the democratic principles of western society.
- N. Are serious students of societies and cultures elsewhere in the world.

- 0. View the cultured person as one who respects all areas of human activity; and seek to extend their own knowledge and its application, in as many areas as possible.
- P. Are able to assist students in making the necessary adjustments to the economic world appropriate to their interests and capabilities.
- Q. Develop in students a positive approach to physical well-being and intelligent living.

   U. Are interested in becoming sufficiently informed about total school operation to function intelligently on problems concerning curriculum, finance, plant, and personnel.

#### Major Assumptions and Beliefs

The program of teacher education at Murray State College is based on the following major assumptions and beliefs:

- A. Selection of teacher-education candidates, on the basis of carefully stated criteria, should be made as early as possible.
- B. Cafeful informal evaluation during the freshman year is prerequisite to wise selection for admission to teacher education.
- C. A strong program of general education forms the core of the student's educational background and provides a base and a broader perspective for his field of specialization.
- D. Guidance in the wise choice of electives broadens the educational background of a student and enables him to gain greater depth in chosen areas of specialization.
- E. The four-year sequence of professional courses provides for continual growth and results in a stronger teacher at the elementary level.
- F. A planned sequence of professional and academic courses suited to specialized curricula results in a stronger teacher at the secondary level.
- G. Laboratory experiences throughout the college program increase insight and enable the student to develop greater skill in teaching.
- H. Involvement in group situations in which one feels freedom to express opinions results in increased ability to use the group process and in more effective communication skills.
- I. The most significant professional laboratory experience is student teaching under the guidance of an excellent supervisor.
- J. The library provides opportunity for acquaintance with the literary heritage, with special emphasis on that which is considered to be man's best efforts.
- K. Students tend to reflect the characteristics exemplified by teachers.
- L. Students who participate in efforts to improve community life will better understand and serve the community.
- M. Students who have guidance in scheduling their activities and in limiting their responsibilities are more likely to become teachers who maintain a tolerable schedule of personal, professional, and civic involvement.
- N. A sound guidance program with a competent counselor helps students to keep values in focus.
- 0. The ability to solve problems and to do reflective thinking results from experiences in which practice or subsequent use is made possible.
- P. One gains pride in achievement, in person, or in an institution by having something of which to be proud.

#### VII. METAL STORAGE BUILDING

We have contracted to purchase one (1) each Used Metal Building with bow-string trusses, metal sides, 80' x 200' long from Mr. Thomas E. Madra, Cairo, Illinois, This building was formerly used as a soybean warehouse by Swift & Company.

Mr. Madra is to dismantle the building and load it on rail cars for \$11,500.00. We will pay the freight from Cairo to Murray which should be approximately \$400.00. We have contracted with Mr. Brown McClain to unload the building from the rail cars at Murray and deliver it to the Murray State College site and it is estimated this will cost approximately \$400.00.

This building will make an excellent storage or maintenance building and it was inspected by Mr. Brucker Miller of the Engineering Department of the Commonwealth of Kentucky, Mr. James Armbruster and the undersigned and we think it is an exceptionally good building and badly needed at Murray State College.

Site is being cleared to erect this building on the South-east corner of the land purchased from the Mid-South Clay Company which is located on the North side of Chestnut Street.

This building will be a very valuable addition for the operation of the Buildings and Grounds Department of Murray State College.

Payment will be made from funds which have accumulated in the Consolidated Educational Building Bond Account.

MURRAY STATE COLLEGE

RECOMMENDED BUDGET

FISCAL YEAR 1962--63

Murray State College Allocation of Registration Fees Fiscal Year 1962-63

The following budget is submitted for your consideration. This budget proposal is based on the following:

- 1. That we receive our full Legislative Appropriation of \$2,235,445.00 for the 1962-63 Fiscal Year.
- 2. a. That we have an enrollment equivalent to 3,664 full-time students for the 1962 Fall Semester. It is estimated that 364 of these students will receive scholarships of different nature, such as athletic, Board of Regents, string and band, leaving 3,300 full-time students who! will pay regular fees. That we have an enrollment equivalent to 3,564 full-time students for the 1963 Spring Semester. It is estimated that 364 of these students will receive scholarships of different nature, leaving 3,200 full-time students who will pay regular fees. That we have an enrollment of 1,300 full-time students for the 1963 Summer Session who will pay full registration fees.
  - b. We have included in this budget for operating expense <u>Incidental Fees</u> of \$10.00 for the two regular semesters and \$5.00 for the Summer Session. The remainder of \$55.00 for the two regular semesters and \$27.50 for the Summer session will be used to amortize bonded buildings. The Incidental Fee for the 1962-63 Fiscal Year will be as follows:

Fall and Spring Semesters \$65.00 each Summer Session 1963 32.50

- 3. a. That we have a balance of \$25,000.00 in our Revolving Fund to bring forward from the 1961-62 Fiscal Year and that the Department of Finance permits this amount to be used for operation and maintenance for the 1962-63 Fiscal Year.
  - b. If we do not receive our full Legislative appropriation, and we do not collect the full registration fees from as many students as listed in No. 2a above, and do not have \$25,000.00 in the Revolving Fund to bring forward from the 1961-62 Fiscal Year, it will be necessary to reduce the proposed expenditures listed in this budget in order to operate within the funds actually received.

THE INCIDENTAL FEES of \$65.00 for the regular semesters and \$32.50 for the Summer Session for the 1962-63 Fiscal Year are allocated as follows:

The Coroner stated that the boy did not drown as there was no water in the lungs but the cause of death was undetermined. Dr. Woods stated that he has been indirectly informed that the parents intend to sue. Mr. Doran suggested that Dr. Woods write the Attorney General for instructions if and when the parents file suit.

#### Alpha Gamma Rho--Fraternity House

Dr. Woods presented the following letter that he had received from the Alpha Gamma Rho Fraternity.

April 14, 1962

Dr. Ralph H. Woods, President Murray State College Murray, Kentucky

Dear Dr. Woods:

The Alpha Gamma Rho Colony at Murray State College would appreciate your presenting this request to the Board of Regents for their approval.

**REQUEST:** 

"That the Alpha Gamma Rho Colony at Murray State College be granted permission to rent or purchase property for housing."

This housing would be under strict supervision of a House Mother, Department of Agriculture and Dean of Students. It would meet the high qualities and standards in keeping with the policies of Murray State College.

The National Alpha Gamma Rho Fraternity requires that member chapters live in and operate a house as a group in order to obtain and maintain national status.

We shall be grateful for your serious consideration and help in obtaining approval of this request.

Sincerely, /s/ Billy L. Williams Billy L. Williams, President Alpha Gamma Rho

/s/ E. B. Howton E. B. Howton, Head Department of Agriculture

/s/ Arlie Scott Arlie Scott, Advisor

cc: J. Matt Sparkman P. W. Ordway

Dr. Woods stated that approximately two years ago he discussed with the Department of Finance the possibility of building some fraternity houses on campus. At that time it was the Department's feeling that we should endeavor to build dormitories to accommodate the bulk of our students.

Mr. Springer moved that the Board take this matter under advisement and request Dr. Woods to do further investigation and that no further action be taken at this time,

Mr. Long seconded and the motion carried unanimously.

#### Third Men's Dormitory named Hollis C. Franklin Hall.

Motion was made by Mr. Springer that the Third Men's Dormitory be named Hollis C. Franklin Hall. Mr. Hall seconded and the roll was called on the adoption of the motion with the following results: Mr. Blythe, aye; Mr. Doran, aye; Mr. Hall, aye; Mr. Long, aye; Mr. Springer, aye; and Mr. White, aye.

#### Meeting Adjourned

Motion was made and seconded that the meeting be adjourned. Motion carried unanimously.
