Watch Next Week's Paper For Big ROOSTER DAY IN FULTON Announcement
Many people now are so far from the truth that they have no inkling of the real burden carried by the American Government—the people. The great American problem is not so much the reduction of taxes as the increase of the revenue. It is the responsibility of every citizen to do his part in helping to build a better America. Every man should work hard and earn a decent living. It is the duty of every citizen to contribute his share in maintaining our national defense and preserving our way of life.

The country is facing a crisis. It is in need of leaders who can guide it through the difficult times ahead. The people must be united in their efforts to overcome the challenges that lie ahead. We must work together to build a strong and prosperous nation.

In conclusion, let us all do our part in building a better America. Let us work hard, earn a decent living, and contribute our share in maintaining our national defense. Together, we can overcome the challenges that lie ahead and build a stronger and more prosperous nation.
