Arrangements Completed For Opening League

Final arrangements were outlined Monday night for the opening of the Twilight League. The league will be represented this year by the Dalton Cleavers, who have taken over the Main-st club; Fulton Ice Co. who have taken over Eika Club and Diamond D-X, who have taken over the J. A. C. Central-ave.; this year will be called South Fulton. Other than these all other teams will remain intact.

Several changes have been made in the league this year. These new business places in Fulton will be represented this year. They are Dalton Cleavers, who have taken over the Main-st club; Fulton Ice Co. who have taken over Eika Club and Diamond D-X, who have taken over the J. A. C. Central-ave.; this year will be called South Fulton. Other than these all other teams will remain intact.

The schedule for the first half has been drawn up together with the rules and regulations for the coming season. Several changes in play will be in effect this year.

In the last meeting before Monday night it was brought up that the league would have to raise \$108 before floodlights could be installed. It was agreed that each manager would raise \$10. In the report Mr. Dunn said \$65.25 was turned in. This is yet \$42.75 to be raised in order to start the season on May 15. This balance will HAVE TO BE RAISED if the Twilight League opens May 15.

Manager Buster Shuck of the Orpheum theatre announces that the theatre will give a two-day benefit show for the purpose of helping to raise funds for the purchasing of the large lights to erected on the ball field. It is understood that there will be no play at night until the lights have been paid for. This benefit show will be on Thursday and Friday, May 18-19. All ball players will be given tickets to the show. The picture for this night will be "Sailors Luck" starring those love birds, James Dunn and Sally Eilers.

It was voted that the unpaid job be awarded to Clarence Maddox. He proposes to keep the park up, furnish light, unringing and water in order to be allowed the privilege of operating the concession at the park. Clarence as you know did a majority of the unpaid last season and his work was very pleasing. The News commends the league on awarding him a prize to this able man.

The opening games of the season will be: Monday afternoon May 15—F. U. vs. Diamond D-X 6:45 p. m.; Monday night, May 15—Fulton Ice Co. vs. Dalton Cleavers 8 p. m.; Tuesday afternoon May 16—South Fulton vs. Warner 6:45 p. m.

MRS. TUCKER DIES

Mrs. Mozella Tucker, aged 85, died at the home of Julius Tucker on W. State Line, Tuesday night at 7:45. She is survived by two sons, Cloyd Tucker of Union City and Julius Tucker of Fulton; one daughter, Mrs. Lilly Clark of Union City. Funeral services were held Wednesday afternoon at 2 o'clock at the Church of Christ with Rev. John T. Smithson in charge. Burial followed in Palestine in charge of Winstead-Jones.

STORM DOES DAMAGE

A severe electrical storm late Saturday night, accompanied by strong winds, caused much damage to electric lines and telephone systems in this section. Many trees were blown down and limbs twisted off. E. C. Hardesty, local Kentucky Utilities manager, was called out early Sunday to repair and replace poles and wires along the middle road. These lines carry electricity to Hickman.

Your Mother And Mine

Out of the ages there has come no more beautiful testimony to the glory of a state in human life than that tendered to the mothers of the world in the form of an annual Mother's Day. A joint resolution of Congress, signed by President Wilson on May 8th, 1914, set apart the second Sunday in May as Mother's Day, and since that time the occasion has grown in popularity, and will continue to grow as the years come and go.

Out of a little school teacher's great devotion to her mother has sprung the day we know as "Mother's Day," a day of great national veneration of Mothers; and one of the most truly beautiful of all days of sentimental observance. The school teacher's name was Mary Towles Sassee. She was a member of the distinguished Kentucky family. Her birthplace was the beautiful little city of Henderson, on the south bank of the Ohio river, also famous as the birthplace of John James Audubon, world-famous naturalist. Even as a child, she adored her mother. On growing up she became a teacher, and by then the ambition had taken firm hold not only to teach children to value their mothers, but to make the observance of national scope. Beginning with her pupils, in 1887, she observed Mother's Day in her own school for several years. Then she started a campaign to make the day a national one. Her first step was to issue a pamphlet for the use of schools, only two copies of which are now extant.

Curiously enough, the idea of Mother's Day was a new one, hence Miss Sassee was a pioneer in the true sense of the word. Originally her plan was for a day to be set apart each year for special exercises

at school, to which parents were invited, the recitations being on the subject of mother, the songs referring to home. No such book of exercises being available, Miss Sassee compiled her own. She said in the introduction to this pamphlet:

"This pamphlet is sent forth in the hope of awakening on the part of the child a deeper appreciation of her who is the central figure of the home. May it strengthen the family bonds, making them more beautiful and tender. May it breathe a hope of that future where language is music, thought is light and love is law."

About this time Miss Sassee made a trip to Springfield, Ohio, the home of her sister, Mrs. E. W. Olds. With her sister's help, she was successful in introducing Mother's Day into the schools of that city. This was in 1890, and the Springfield Teachers' manual of that year provided for such observance on the school schedule. Later, Miss Sassee traveled extensively, and about 1900 married Judge Marshall Wilson, leaving Kentucky to make her home in Florida. Six years later she died, still endeavoring to promote a country-wide observance of the institution which she had founded.

However, a Miss Anna Jarvis of Philadelphia caught up the mantle that had fallen from her shoulders, and eventually succeeded in persuading Senator Burkett of Nebraska to introduce a bill into Congress designating the second Sunday in May as a national Mother's Day.

And so to Mary Towles Sassee must go the credit of originating the celebration of a day that does nation-wide honor to the sacred name of Mother, and helps to stimulate in the minds of all the full admiration, respect, and love which is her due.

INDEPENDENTS WILL OPEN SEASON HERE NEXT SUNDAY

Fulton baseball fans will have the opportunity of helping prize the lid off the 1933 baseball season here next Sunday afternoon at the Fair Grounds at 3 p. m., when the local Independents will face the Apex Oilers of Paris.

Manager Patmon of the locals feels that he has one of the best and strongest teams that Fulton has had in years and with the young material he has out this year all indications point to a strong nine. Fulton has three pitchers for duty this year in Stout, Rushton and Smith, with Jackson on the receiving end of the battery. Stout will get the call for duty Sunday. Admission for the game will be 25c. Lineups for the two teams will be as follows:

DEMYER & SCATES REMODELS STORE

This week the drug store of De Myer & Scates on Lake-st is undergoing spring cleaning in the way of repainting and redecorating.

The ceiling of the store is being painted white while the walls are taking on a coat of light green to harmonize with the shelves and trimmings. This store is one of the many stores in Fulton that has kept in line with the clean-up and paint-up fever and when finished it will be deserving of your visit.

W. C. T. U. MEETING

Rev. L. S. Riley of the First Baptist church of Lone Oak addressed a W. C. T. U. meeting Thursday afternoon in Lone Oak, Ky. Dr. Horton also addressed the meeting. Those attending from Fulton were: Mrs. Lon Berninger, Mrs. Dan Horton, Mrs. Milton Exum, Mrs. J. J. Owe, Mrs. C. B. Gregory, O. B. Haley, Mrs. A. L. Cook, Mrs. W. S. Boulton and Miss Leza Mae Rice.

CHARLIE QUALLS DIES OF HEART ATTACK

Charlie Qualls, 36, of Dukedom, was found dead in bed Tuesday morning, death resulting from heart attack. He is survived by his wife, Emmie Simmons; his mother, Martha Ann Qualls; two brothers, Ham and John of Dukedom; six sisters, Mrs. S. J. Reed, Fulton, Mrs. A. D. Linton, Abilene, Tex., Mrs. L. T. Duke, Memphis, Mrs. U. G. Harris, Mrs. J. H. Hines of Martin, and Miss Ima Qualls, Memphis. Funeral services were held Wednesday afternoon at 2 p. m. at Mt. Moriah church; burial in the church cemetery. Pres. Lea Clements, pastor of the Presbyterian church in Dresden and Rev. W. W. Jones of Martin conducted the services. Winstead-Jones were in charge of burial.

YES; IT PAYS!

H. L. Hardy Cash Grocery advertised country hams in The News last week, and sold a nice, large one that went all the way to Indiana. An Indiana man, who happened to be in Fulton, read the advertisement. Just another example, proving that it pays to advertise in The News.

County's Debt Is Examined By Tax League

FULTON MAN FILES IN JUNCTION AGAINST FISCAL COURT

John Melton, who resides in East Fulton, representing a group of citizens, through attorney J. F. Nichols, filed an injunction Tuesday against the Fiscal Court of Fulton County to stop payment of salaries to county agent, county home demonstrator and county health officials. The injunction set out:

"Fulton county has outstanding warrants of approximately \$70,420.41 income from taxes from all sources for 1933 will not exceed \$40,000 and probably will not be more than \$30,000. According to law laid down in the case of Logan County vs. the Fiscal Court of that county, this court has no right to incur further indebtedness when it has outstanding obligations, such as county warrants and other expenses, that will absorb the taxes collected for the current year. Fulton county has outstanding warrants nearly double the amount it will collect in taxes this year."

The injunction will come before the Circuit Court here Friday, May 12, according to Attorney Nichols.

HICKMAN COUNCIL OBJECTS TO LIGHT LONG FRANCHISE

At a special called meeting of the Hick county council last week a counter proposal was handed representatives of the Kentucky Utilities Co., for a one year contract. The utility company had submitted a proposal to Hickman for a new 2 year contract, which the council had tabled. The new proposal made by the city for a one year contract, called for slightly lower rates for all classes of consumers, according to the Hickman Courier. The company was represented by Mr. Fairman of the Paducah office, Mr. Hardesty of the Fulton office and Mr. Thompson, manager of the Hickman office.

DR. CURLIN TALKS

Dr. C. W. Curlin addressed the Rotary club Tuesday in a health talk, which was very interesting and practical. He stressed the health facts of proper eating, drinking, exercise and rest and advised all to consider the children when habits are formed.

COMMENCEMENT

Commencement season 1933 is here with its round of ceremonies and festivities. Four million children, more or less, are closing school doors. Society, according to its present lights, has done its bit by them and is letting them go out to sink or swim in the most difficult and complex civilization of all history. Most of them have finished only the elementary school or less.

At this particular season of the year it is proper that some word of encouragement and praise be extended to the youth of America. Students have devoted their time and thoughts to earnest study during the past school term, and have profited by their experiences according to the concentration put into the work.

their graduates. Hickman, Crutchfield and Cayce have theirs. These students have established a record in the school annals that will remain always. Graduates this year are by no means superior to others, but they rank as high. The final grades indicate the diligence and activity of the senior classes, work accomplished during the year is commendable.

A committee of the National Education has defined the ends of education under seven heads. No one can go far without facing all of them frankly.

They are Health, Use of the Tools of Learning, Worthy Home Membership, Vocational Effectiveness, Citizenship, Worthy Use of Leisure, and Ethical Character. Let the child learn to take monthly and yearly inventories under these heads. Let him fill in under each a score of subheadings that fit his own case. He will then discover that life and growth mean learning. He will then know that development of himself is more than the accumulation of material goods. He will understand that schooling is merely a foundation upon which to shape an intelligent life.

After school will come the glories of wider and freer learning aided by all the wonderful creations of modern science and invention.

HELP YOUR CITY

There is a difference between the sales made by stores in Fulton, and those made by establishments in big and distant cities. In the big or far-away city, a sale is a kind of impersonal thing. The salesperson is not likely to see that particular customer again, so there is a tendency to be very anxious to make that one sale, without sufficient regard to the question whether it is going to be a satisfactory transaction.

But when you buy goods of a home store, the personal interest of the salesperson goes into the act. The salesperson is anxious not merely to make that sale, but to have it so satisfactory that the customer will want to buy again and will be inclined to favor that particular salesman because he was courteous and helpful.

Everybody has a certain amount of civic pride—that sort of pride which helps make a village a town and a town a city. The growth of any community is dependent upon the support given by its citizens. If you fail in your co-operation the town is held back that much. On you and your neighbor depends the growth or stagnation of your community.

If you uphold the town by sustaining it wholeheartedly you help yourself and the community. The theme of this editorial should be "Help Your City and You Help Yourself." Divide your dollars among your merchants and others who have the interests of the populace at heart.

Help them and they will help you to greater values—for increased volume means decreased costs.

Fulton needs your support and you need the support of Fulton. Community progress always means individual progress. Think it over before you buy out of town. Always investigate carefully before passing up home-grown, home-manufactured products.

This is as much your town as the fellow's next door or in the next block. We all have our niche in the life of the community, and each and every one must strive to keep it a community of which to be proud.

BUY IT IN FULTON.

Because you get better value for your money here.
Because your interests are at home.

Because the community that is good enough for you to live in and earn a living in, is good enough for you to buy in.

Because you should believe in transacting business with your friends.

Because you want to see the goods you are going to buy before you buy them.

Because you want to get what you buy at the time you pay for it, and not have to wait.

Because every dollar you spend at home stays at home and works for the welfare of the community.

Because the man you buy from stands back of the goods.

Because you sell your produce at home and not elsewhere.

Because the man you buy from pays his part of the district, county and state taxes.

Because the man you buy from buys from you.

Because the man you buy from gives value received.

Because the man you buy from helps support your church, your lodge and your home.

Because when ill luck, misfortune or bereavement come, the man you buy from is here, with his kindest greetings, his words of cheer and his pocket book if need be.

Because the mail order houses have never broken a bush, plowed a furrow or built a foot of road, or built a church in your county.

Because the man you buy from helps build your roads and your schools, that you may educate your children.

OUR BLUE LAWS.

Supreme Court of Tennessee not so long ago upheld the constitutionality of an old blue Sunday law that was passed back in the year 1803. Kentucky has a law on its statutes which, if strictly adhered to, would stop most lines of business from operating on Sunday.

In the beginning the law is unfair in that it would close certain types of business and place no restriction

Headache—Powder

on others. If any business is to be shut up on account of drastic legislation passed upon several decades ago, all business enterprises should be stopped on the Sabbath, making the enforcement complete throughout the state.

Of course, there are a lot of things we could do during the week as well as on Sunday, and again there are many we should do some time other than on the Sabbath. We don't have to have a Sunday paper, use the telephone or radio, ride the trains or in automobiles. Everything might be stopped and quietness reign on the Sabbath.

In the past three decades science and business have advanced with great rapidity, as must necessarily be the case with three increase of inventive and creative ideas. Dark chasms that once separated the unknown and known fundamentals of life have been bridged, and naturalists, scientists, religionists and the American public are exploring the region of great discoveries. Our forefathers never dreamed of the day when man could travel under water like a fish, fly in the air like a bird, and hear and see a conversation in San Francisco while in New York City.

If representatives of the people in municipalities, at state legislatures and in Washington were to revise all the laws passed since 1803, we would have one of the most befuddled governments that ever existed upon the face of the earth. But we have no need for oblique and obsolete laws that were properly applied a century ago but out of order for disciplinary control of national and state conditions today.

Let us apply our legislation to present needs, and not fall back on some forgotten law enacted to take care of a situation which existed long before our time. Our liberties and rights are worthy of the deepest consideration, and the voice of the people must remain above the minority. The question is whether the people at large favor the "blue Sunday law."

PERVERSE HUMAN NATURE.

Human desire is human perversity. Men and women want to do the things that are forbidden them. Men and women want the things that are denied them. Governments invite rebellion when they make unnecessary effort to suppress it. Freedom of speech makes for law and order.

"Radicals" are made by mad men who have a little power and not enough intelligence to refrain from using it. If men are allowed to talk they wouldn't be so free to make bombs. The "No Admittance" sign invariably creates the desire to enter. Forbidding signs always arouse desires.

Men don't form in front of churches, because they have been advised that salvation is free. If the fare to Heaven was \$138.75, the poorest of

us would work and scheme and plan and deny ourselves in order to save the required sum. The child reared on "don'ts" is a child reared on temptations. When little is forbidden, few are the unwholesome things desired. The stubbornness of a child is only the natural perversity in conflict with the perversity of the parent or teacher. The social climber abandons comfortable obscurity and puts herself to a great deal of trouble to get where her presence is neither invited or desired.

Every "thou shalt not" but creates the desire to do the thing forbidden. The moment the Great Creator said to the inhabitants of the Garden Eden, "Thou shalt not," that moment there entered the desire to do the thing the law forbade. I have often wondered if the "first sin" would ever have been committed had that edict not been issued.

This perversity in man is as old as humanity. That's the trouble with our laws. Too many "thou shalt not" and not enough "thou shalt" hence we take great pleasure in breaking the law. We are too fond of attempting to drive men instead of leading them. Human perversity steps in and resents the "thou shalt not" and our lawmakers and our law enforcers, blind to the natural results, continue to make and attempt to enforce negative laws. Will we ever learn to begin at the right end?

Think it over.

NEGROES ARRESTED ON ROBBERY CHARGES

Three negroes, alleged to be implicated in many robberies of Fulton residences, are in jail as a result of a dragnet put out by the local police department. They are George Brown, Theodore Jackson and Robert Johnson. Johnson was shot twice, through the left leg and right arm, Friday night when officer Dunn, accompanied by Bob White and Ed Heywood, located him at the New Yards.

Fred Dunn arrested Brown, Theodore Jackson, Friday, who was carrying bundles near railroad tracks at the lower end of Lake-st. Examination at the city hall proved that many articles from local homes were in the packages. Among the articles stolen from Karmire home, April 21; From the home of Bob White, April 23, from the home of Ed Heywood, April 24, and from the home of John Harpole, April 27th.

After questioning Jackson, Friday night, officers learned that Johnson was sleeping in the sand house at the railroad roundhouse. Rushing out there they apprehended Johnson, but he wrenched loose and ran. Several shots fired at close range took effect, but did not stop the negro. He made his escape to later be apprehended at Champaign, Ill.

The alleged robber will be held in jail pending trial here next week before the Circuit Court.

MIDWEST DISTRIBUTES BEER FROM WAREHOUSE

The Midwest Dairy Products Co., ice cream and dairy products distributors, which recently added beer to its line, has been active this week distributing beer to Tennessee towns. Movement of beer started early Monday morning right after midnight, and trucks have been busy delivering "wet goods" to the thirsty Tennesseans.

Midwest are supplying beer to tailors in Weekly, Ohio and counties. Several cars load of beer from St. Louis, Milwaukee and Chicago last week.

WATCH YOUR STEP
(By 'ME')

Young ladies of Fulton, there are certain members of the feminine gender infringing on your territory. Saw two young women from a neighboring town over here riding around with a couple of Fulton boys the other day. And if it will interest you to know, these ladies happen to be married. Maybe friends didn't know that. They may find it out one of these days quite suddenly to their sorrow—and how.

A certain politician of Fulton county is all worried and hot under the collar. He is huffing it around the county trying to keep on the good side of overburdened taxpayers. My what an anxious look he has on his face.

Rumors are in the air about the coming city election in Fulton, when a mayor and councilmen will be chosen. Predictions that several "dark horses" will be in the race at the end have been flying about. But despite rumors, no official announcement has been made. However, many unexpected things are likely to take place between now and August 5.

Who said there is no romance. Open your eyes and look around. The young people, with spring in their "bones" and romance in their "souls"—with hearts a flutter, are cooing a spring like a lot of "turtle doves." Spring is a busy time for "Dan Cupid"—and he uses a terribly lot of darts. Business is picking up.

Life is most interesting for a certain business man in and about town. He never stops to study about Old Man Depression, altho he got a couple of bankruptcy notices from customers just the other day. But what's the use to worry, he contends—then goes on about his business. After hours are spent in full enjoyment. He is a fine example of a real business man, who makes the most of things as they come. You know him—perhaps see and talk to him every day.

You've seen people who like to argue for the fun of it. In other words, arguing is their hobby. Fulton has two champion "arguers", and they work at the laundry. No need to call their names, you know them. Boy, what a show they can put on, and do they enjoy it! These boys are real champs, in a class all their own—and are examples of real sportsmanship in any game.

Heard a local man knocking Fulton and boasting a neighboring town the other day. Up came his intimate friend and jumped all over him about it. Said knocker had to admit that he had lived in Fulton all his life, and had earned his living here. When asked why he didn't move to the other town, he had to pull in his horns and admit that Fulton is not so bad after all. It's not a bad idea to call the hand of the next person you hear, knocking your home town.

COUNCIL VOTES ON \$1 A YEAR OFFICES

Mayfield, May 1.—A test of the proposal fixing the salary of mayor, city councilmen, and city judge at \$1 a year will be made in a vote by the city council tonight.

The council has directed City Attorney Audrey Hester to prepare an ordinance in which the salary of councilmen and city judge is \$1 annually for the next term. The measure was tabled by the city council.

TIME TO ADVERTISE
By Wright A. Patterson

With the embargo on the export of gold, which means that the United States, so far as international settlements are concerned, is off the gold standard; with the American dollar depreciated abroad along with the depreciated currencies of the world, American commodity prices are moving upward and at this time American farmers as a class are better off by several hundred millions dollars than at any time for a considerable period.

On April 20 May wheat was selling at Chicago for 69 cents a bushel, 13 cents above the April 1 price; May corn at 36 cents was 4½ cents above the April 1 price, and May oats at 24½ cents was 4 cents above the April 1 price.

Not where they should be, not where they will be, but the trend is upward, and every indication is that it will continue in that direction. Predictions around the Chicago Board are for \$1 wheat by July 1.

And the farmers are reaping the benefits of this increase on a considerable portion of last year's crop. On April 1 the farmers still owned 178,354,000 bushels of wheat, 1,126,616,000 bushels of corn and 467,048,000 bushels of oats.

The increase since April first on these farmer-owned grains amounted to sell well over \$200,000,000 and such an amount, though not large when divided among 6,900,000 farms, is still enough to make the farmers smile.

That represents the increase on but three items of the American farm crop. Along with these, cotton, the great staple of the south, shows a healthy increase. It is also true of hogs, of cattle, of dairy products, and the total on all means a tidy sum for each individual farmer who still owns any considerable portion of his last crop.

These things are of moment alone to the farmers, but to the merchants from whom the farmer buys. To the merchants it means increasing opportunities for business, not only because the farmer has more money, but also because he has greater confidence in the future.

The wise, live merchant will improve the opportunity by going after the increasing business that is now possible, and now is the time to do some intelligent advertising.

BUILDING BLOCKS

You are the builder of your own fortune. The mark you have set is the plan by which you work, the blocks with which you build are the present hours. An hour mis-spent today is a block mislaid that must be torn out and replaced tomorrow. An hour improved today is a block laid true and true, that may be forgotten but that will stand the ravage of the storm thru all the future.

HELPING THE FARMERS

"Beer at Albany has held the first page but there are million farmers and farm laborers and their wives and children more interested just now in milk. The price the farmer is getting for his milk has dropped lower and lower, until it is today far below the cost of production. The dairy industry, representing an investment of \$1,000,000,000 or so, is demoralized. Many of the farmers are utterly discouraged, and in some parts of the country have resorted to desperate measures." A bill has been presented in New York asking that milk production be made a public utility to save this industry from collapse. Now beer was to have solved all the farmer's problems. We wonder why hasn't worked in New York.

TO THINK ON OR CHEW

The reason some people can't see straight is that they are suffering from "I" trouble.

Be it ever so homely, there's no face like your own.

If something didn't knock us flat of our backs once in a while, we might not learn to look up.

"I see that my time has come," said the man as he received his Ingersoll from the repair shop.

The man who says he can't succeed should remember that success comes in cans.

PARIS TO ERECT MUNICIPAL PLANT

PARIS, Ky., May 1. Construction of a municipal electric light plant is expected to be completed by the middle of August.

Revenue bonds to finance the plant have been delivered by Boone Baldwin, city managing agent, and Raymond Connally, city attorney, to Fairbanks-Morse company of Chicago. A check for \$12,700 to cover the six per cent bonds at par with accrued interest was placed to the credit of the city in the First National Bank of Chicago.

Contract for the plant was entered into a year ago with the Fairbanks-Morse company, which agreed to buy the bonds. Delivery of the bonds was held up by litigation in the state courts. The court of appeals recently denied the petition of the Kentucky Utilities company for a rehearing of its case attacking the protest.

The new electric plant will be above the water plant on Stoner creek. The city also owns the water plant.
