SAFETY FIRST

The Illinois Central Railroad has been conducting a campaign throughout the year to impress the public with the dangers of grade crossing accidents. They have been emphasizing the importance of being alert and attentive when crossing tracks.

In one particular instance, a woman was crossing a railroad track at an intersection, not paying attention to the approaching train. She was knocked down by the oncoming train, sustaining injuries.

This incident highlights the need for vigilance and caution when crossing railroad tracks. It serves as a reminder to always be aware of your surroundings, especially when near railroads.

The campaign includes various methods to spread awareness, such as posters, signs, and public addresses. The goal is to ensure that individuals, especially children, are well-informed about the dangers of grade crossing accidents and take precautions to prevent such incidents.

The Illinois Central Railroad is committed to promoting safety and advocating for initiatives that could potentially prevent accidents. This includes encouraging drivers to always check for oncoming trains before crossing tracks and for pedestrians to be cautious when near railroads.

The campaign aims to foster a culture of safety, where everyone takes responsibility for their actions and decisions. It is a collective effort to minimize the risk of grade crossing accidents, ensuring a safer environment for all.

The Illinois Central Railroad has been proactive in their safety initiatives, recognizing the significance of the issue and addressing it through various campaigns. This illustrates their commitment to public safety and the well-being of the communities they serve.

The campaign will likely continue with the same level of dedication, emphasizing the importance of staying vigilant and taking necessary precautions. The message is clear: safety should always be the priority, especially in such potentially dangerous situations.

With the rise of technology and better infrastructure, there may be additional measures implemented to further enhance safety. The Illinois Central Railroad's proactive approach serves as a model for other industries and community organizations to follow in promoting safety and preventing accidents.

Never before have we been able to offer such a complete display of Quality Jewelry for Christmas Giving.

Come in early and view this wonderful showing at M. F. DeMYER & SONS, headquarters for Christmas Shoppers.

Give jewelry this Christmas. Jewelry lasts. That’s one of the good reasons for selecting it for gift purposes. An added bonus is that a wide variety of jewelry may be seen at this store. Especially at this time, where a complete display of attractive values awaits your visit.

A string of pearls. An ideal gift. Will make her happy. This is the type of gift which makes a woman’s heart an easy target—a string of well-matched pearls. But the cost is not prohibitive. Come in and let us show you some wonderful values at a wide range of prices.

Everything to make your Christmas shopping a delightful pleasure. Diamonds, jewelry, watches, silverware, imported China, cut glass and the newest novelties. A magnificent array of all that is rich, beautiful and artistic. The diamond cutter, the jeweler and the silversmith have certainly sent out this season the most exquisite articles, specially designed for rich gifts. Our great holiday display fairly sparkle and glints with beauty and brilliancy. Don’t feel that you have to buy if you come in. You are more than welcome to just take a look.

Shop early. Again, we urge that you shop early before the stock is all picked over and the rush is on. It will be our pleasure to give you all the assistance possible in selecting gifts for friends and loved ones, and gifts will be reserved until you call for them.

Knit-tex Coat

The Knit-tex Coat is different from any coat you have ever seen. It is guaranteed for three years. It is warm, soft, and easy to wash. A.SEMI-CASUAL COAT BETWEEN $6.00 AND $8.00.!

The Knit-tex Coat is worn. It is guaranteed for three years. Tan, green, blue, heath, and navy mixture.

The service has been brought about by changes in location after the sound of the door, or by the satisfaction of a customer when he has been served. By the development of the Knit-tex label, the service is brought about by the quality of materials, the cutting of the ground, by taking sound advice before the contract is entered into, not by the coat of the coat.

The high commission envisions recommendations from engineers of the highway department from time to time. No statement by the chairman that the Knit-tex label is in the vent it is not made of any coat of the coat.

The statement was occasioned by recent criticism of Chairman Montgomery of the commission placing blame for the condition of the highway department. In the case of the Knit-tex label, it was the chairman that the Knit-tex label is not made of any coat of the coat.

TOURIST BUSINESS

In 1915 the state laid out some miles of roads for attracting tourists, termed the "base," to the total which is unofficially as socialized as duskies. The state engineers predicted 300,000 tourists during the coming 24 hours. In 1916 and to 41.4 in 1923, the state used its miles of roads. In 1911, who spent an average of $10 per day, a total of 300,000 tourists. There was a payroll of $30,000. The tourist business, in 1911, through the year at about $1,000,000. This Is the part the homes played. This Is the part the homes play! This is the part the homes play!

By Emma F. King
This is the story of a little doll named Miss America who, some years ago, was the treasure of the little girl who had her. Although Miss America was only a toy, she was very useful during the World War. During this time, many children were able to keep their homes and families together by means of the money they earned from the sale of their dolls to the Red Cross. Miss America was one of these dolls, and she was very grateful to be able to help her owner in this way. She knew that she would always be remembered by her owner, and that she would be loved and cherished. She was a very happy doll, and she enjoyed every moment of her life. She was a true friend, and she will always be remembered with love and respect. Miss America, the little doll, was a true friend and a true treasure. She will always be remembered with love and respect.

Wednesday

December 9

1923

Meeting of

Missouri Pacific Board

He said the original plan to build a 72-mile route from one
end of the Missouri Pacific line to the other, via St. Louis, and
Dallas, was shortened to the 46-mile line south of the Big Mek,
the Jackson highway, the eastern railroad, and the shorter
preferred line, because for reasons of economy, and the
limited availability of funds, the work could not be completed
in cooperation with the federal government on the basis
of 7,800,000, but the contract was let in cooperation with
the government on the basis of the 6,600,000.

* * *

The 46-mile line was included in the contract only at the
recommendation of the general engineer. The service the
route will yield and the value of the money spent have
justified the extra expense, it was
said.

On August 21 about $5,300,-

00, or a contract price of $7,301,000, was awarded for the
51-mile line from St. Louis to Kansas City. The total cost of
the entire project is now estimated at $11,100,000.

The Princ iess Rules the Kitchen.

It is not only the woman of the world who can perform a matinage to
the right price and the right taste. Thousands of men are finding
that the foreign cook is a false bargain.

The married man can do a good deal better than older foreign
cooks. He can do a better deal in his own kitchen.

If a Range is Judged by the Work it Does

All Darlings have a heart. And in the kitchen, this heart
needs a place where it can be nourished, and where it can
be put to work. The Range is the heart of the kitchen. But
too many women have never had the Range to take care of
it.

The Princ iess is a heart-buster. And the best heart-buster
