COMMUNITY CENTER AT BENTON symbolizes work for which the Rev. Harry Williams was honored as  
"Man of the Year" by the city's Junior Chamber of Commerce. Inspecting the building after the award  
ceremony were, left to right, Shelby McCollum, Benton Jaycee president; Miles Meredith, Paducah Association  
of Commerce; Elmer Bryan, supervisor of building construction; the Rev. Mr. Williams; and Henry Whitlow,  
winner of Paducah Jaycees' outstanding young man award.

## Three Benton Civic Organizations Honor Rev. Harry Williams As 'Man Of The Year'

Rev. Harry E. Williams, pastor of the First Methodist Church, Benton, was honored as "Man of the Year" by the Benton Jaycees, Benton Lions Club, and Benton Rotary Club on Wednesday night when three Benton civic organizations met at the community center to present him with the award. The Rev. Williams, who has been a resident of Benton for the past five years, was the recipient of the award for his leadership in the construction of the community center. The center, which is now open for business, is a fine example of the work of the Benton Jaycees. The Rev. ## ALBERT BANK ROBBER IS STEP NEARER FREEDOM

William E. Dawes, convicted of robbing the Calvert Bank in Benton, Ky., last year, is now in another step toward freedom. He was sentenced to 15 years in the state penitentiary for the robbery. The robbery took place on January 1, 1948, when Dawes, who was then 31 years old, broke into the Calvert Bank and stole \$15,000. He was arrested on January 2, 1948, and charged with robbery. He was sentenced to 15 years in the state penitentiary for the robbery.

## KEEP YOUR SHIRTS ON!

Benton was all a-flutter today about dangerous threats against some members of the newspaper fraternity and the further they came, the thicker they became. We, of the Courier staff, were afraid to look in the mirror for fear of seeing a union label.

## DEWEY B. JACKSON SAYS HE WILL NOT BE A CANDIDATE FOR OFFICE

Dewey B. Jackson authorized the Courier this week to state that he would not be a candidate for any office in this year's primary races. Mr. Jackson had previously been mentioned as a candidate.

## Galen Gough Sends Art Work To Courier Staff

The Courier Office has received two oil paintings from Galen Gough, son of Rev. and Mrs. J. J. Gough, and are on display in the front window of the Courier office. One painting is a Maine scene showing two shipwrecked persons with a boat in the horizon. This painting was presented to Mr. and Mrs. Marshall Wyatt. It was one of Gough's first paintings. The other is a mountain view which he describes as a quick oil done without try for primitive close-up effect. This painting is a gift to his mother and father. Galen Gough, who now resides in Los Angeles, Calif., had only painted for his own pleasure until several months ago when his wife took some of his works to a gallery where they received wide acclaim. As a result he was retained to paint a mural on the wall of the "Country Club" in California. This mural was a large scale replica of one of his best known paintings — "The Covered Bridge" which is a Marshall County scene. Mr. Gough is now widely known as a primitive artist and has sold many of his paintings from \$150 to \$10,000. Another of his paintings was recently reproduced on the cover of *Fortnight* magazine.

## LAMBUTH COLLEGE CHOIR TO PRESENT PROGRAM SUNDAY

The Lambuth College Choir, of Jackson, Tenn., will sing at the First Methodist Church, Sunday morning at the eleven o'clock service. This choir is composed of some 35 voices and during the last several years has been judged one of the outstanding choirs in the south. Mr. Barney Thompson is the director.

According to the Rev. Harry Williams, Benton is fortunate in having one of the Methodist churches in this section to obtain the choir at this time.

They will sing at Benton at 11:00 and at the Mayfield First Church at 5:00 p.m.

The program for Sunday will be composed of sixteen selections in solos and group numbers.

The WSCS will serve dinner for the choir in the basement of the church following the service.

Rev. Harry E. Williams, pastor, urges that all those interested in good music avail themselves of the opportunity to hear this good program.

## WIVES OF ROTARIANS GUESTS OF CLUB AT KY. DAM STATE PARK

ANNUAL EVENT TO TAKE PLACE AT BENTON DAM STATE PARK

The annual Ladies' night of the Benton Rotary Club is being held tonight at Kentucky Dam State Park, with wives of members of the local club as guests for the occasion. Guest visitors who are guests of members are also expected.

Approximately 75 persons are anticipated at this special meeting. A program has been arranged by the committee in charge.

RR! MERCURY GOES TOWARD BOTTOM HERE

TOBACCO SPECIALIST TO SPEAK HERE FEBRUARY 9

Many of Marshall Countians wished they were down in Florida catching the big ones with Mr. and Mrs. Evans Culp and soaking the sunshine, after they awoke here Tuesday morn and learned the thermometer had fallen to six above. It was the coldest day of the winter.

One hope was that the bright sun that arose early Tuesday morning would melt the snow, sending the mercury up to the short 'uns stage again.

All farmers interested in growing tobacco this year are urged to hear Mr. Hunt.

## POLIO DRIVE NEARS GOAL TIME IS EXTENDED 6 DAYS

NOTICE OF CHANGE IN POLICY ON THE COURIER

Effective with this issue of the Marshall Courier there will be no more published statements concerning candidates for county offices, unless such preliminary statements are made in a form of, and marked "paid advertising."

This change is due to several questions involved, chiefly because preliminary statements by some persons tend to keep others out of races, especially in some districts.

It is not our policy to help put someone in or out of office or to keep anyone out.

Formal announcements from any and all candidates will be published in the usual manner.

## "Ban On Dancing Has Not Been Lifted In Marshall County" Sheriff Myers Says

EXPECTS TO ENFORCE LAWS OF STATE AGAINST HONKY-TONK WIGGLE

Sheriff Walker Myers said this week that as far as he was concerned, the "ban on dancing had not been lifted," and that he would continue to enforce laws of the state that applied to places of the honky-tonk type where dancing was permitted.

He also said that since the report of lifting of the ban that requests had come in from other parts of the county seeking permission to operate dance halls.

"If the people of this state are thinking we are a bunch of hillbillies for enforcing the laws and trying to keep down breeding places of crime, it is because of news stories going out in district papers that did not tell a true story of what was under the ban," the Sheriff stated. He intimated that there had never been any ban on dancing in private homes, by groups or clubs

at private parties, and that if some people thought that the honky-tonk era was returning during the balance of his term as Sheriff, they were badly wrong.

If these news stories circulating in this district had given the facts and purposes of the ban, probably only a few would think of Marshall Countians as old-fashioned and hill-billies. The Sheriff seemed to think that lifting the ban in one section of the county would open up the road for other sections; in the end, places for dancing and other entertainment would seek permits and authority to do likewise, which would lead to another period of lawlessness in Marshall county.

offered Cut-In On Deal

The Sheriff stated that several weeks ago he had been approached in a round-about way that he could earn as much as \$10,000 during the balance of his term if he would "loosen up" and allow

## PAYS FOR FARM BY SOIL AND WATER CONSERVATION PLAN

Daniel Irvan, Marshall county farmer won an award of \$100 in the Tom Wallace Water and Soil Conservation contest of 4,056 entries. It was announced this past week.

Mr. Irvan purchased a 60 acre farm in 1947 and made application for assistance from the Soil Conservationists in this county for a plan to increase his yield.

The plan called for a drainage ditch; 27 acres to go in 3-year rotation, 9 acres permanent pasture, 20 acres of woodland improvement, 3 acres continuous cultivation with interlocking cover crop and lime, phosphate and fertilizer to be used as needed.

A drainage survey was made. He borrowed \$693 to pay for the construction of the ditch and he has established most all of his practices.

In 1948 two acres of Mr. Irvan's land produced 150 bushels of corn per acre. The rest of his crop made 135 bushels of corn per acre. Corn yields were weighed by Mr. Earl Walker and his Veterans class. On .08 acre states that he produced 2,000 pounds of dark fired tobacco.

Mr. Irvan, who has just finished paying for his farm, states that increased yields by these practices have more than paid for the cost of establishing the practices.

Mr. Wrather of the County Soil Conservation department said that "too much could not be said of Mr. Irvan's courage and determination."

Mr. and Mrs. Irvan and children will be guests of the Courier Journal and Louisville Times staff at the annual Award Luncheon Saturday at the Brown Hotel, in Louisville.

Persons wishing to contribute to the fund are asked to bring or send to Mr. Rose on or before Wednesday, February 9.

## HOW DO YOU DO?

Getting On Speaking Terms With The Editor

Good morning and thanks to another fine list of new and renewals since last week's report.

The list: Annie Rose, Harold Holland, Curtis Johnson, Oscar Lovett, J. R. Mabry, S. C. Henson, Enos Darnell, George Wyatt, Mrs. B. Stringer, Emory L. Rodgers, Clifford Smith, Dr. J. R. Miller, Richard Rudolph, W. C. Packett, John Johnston, Clyde L. Gregory, C. L. Watkins, Lee Henson, Vernon Walker, T. D. Griffith, H. H. Epps, Henry Rudd, Pat Brown, Londa York, Dolly Myers, Bud Forrester, Joe Rankin, Paul Waddins, Henry Hawkins, A. Joyce.

Ivy Newsome, of Route 3, was a business visitor in town during the week end.

Woodrow Dunn, of Gilbertsville, was a business visitor in Benton Wednesday.

General reports to this newspaper indicate that the general public has been well pleased with law enforcement in this county during the past four years and our county has been pretty well under control by officials. The public appears to take the attitude that if this is general satisfaction.

## Pines Will Reseed County Forestry

The current reforestation campaign has provoked considerable controversy and speculation. The same skeptics that claimed pine would never grow here, some 300 miles out of its natural range, now maintain that it will never repropagate itself in this climate.

Bob Rider, county Forester, has just released a story that proves the skeptics are wrong on both scores.

In 1930, the County Agent brought 300 loblolly pine from Louisville and local high school boys planted them on the Dan Gold farm near Maple Springs. This is the oldest pine plantation in Marshall county. Most of these trees have survived and are growing rapidly, some of them are now 8 and 9 inches in diameter at the stump.

This winter several pine seedlings were found under one of

Two out of 10 men, dropping a three-point attempt at the free throw line, sent in Louisville's Sharpe in the way all the Green Devils could withstand Sharpe's biggest was manage.

The Green Devils missed on six straight charity tosses in the hectic last period.

FRIDAY JAN. 29 Games

CALVERT CITY 58, Benton 38.

Rolling in a rampant manner in the second period after trailing in the first, Calvert City's Wildcats went on to drub Benton's Indians, 58-38, here last Friday night.

Benton led, 8-7 at the close of the first period, but could not muster only one free toss in the second period while the Calvert five poured in 13 and failed to take up the slack in the following quarters.

Gene McLemore bagged 20 points to lead Calvert. While

Adkins and Baker tallied 12 and 11 respectively for Benton.

HARDIN 51, CORYDON 50

The Hardin Blue Eagles edged out the Corydon Pioneers 51-50 in an overtime game at Corydon last Friday night.

Lasater dropped in a free throw to tie the score at 48-all at the end of the regular play period, and connected on a field goal in the overtime to clinch the game.

Stress, Hardin center led the scoring with 25 points. Evans led Corydon with 17.

TUES. FEB. 2 GAMES

BREWERS 45, Hazel 43

After trailing for more than three periods, the Brewers Red-men, paced by their irrepressible center, Mason Cope, came from behind to edge powerful Hazel, 45-43, at Hazel Tuesday night. Success from the free throw line in the closing minutes to the tie for the visitors.

Cope split the strings for 25 points and individual honors.

SYMSONIA 41, HARDIN 40

The Symsonia Rough Riders, who have been going at a rapid pace since the holidays, fashioned another brilliant performance on their home floor Tuesday night to edge the Hardin Blue Eagles 41-40.

Fuzzy McManus, Symsonia center, tallied an even dozen points to lead the scoring parade.

SCRIPTURE: Mark 1:14-15, 21-45  
DEVOTIONAL READING: Luke 4:40-5:3  
**Teaching Religion**  
Lesson for February 6, 1949

SOME PEOPLE, strange to say, don't believe in Sunday schools. Most North American Protestants do, because Jesus did. The word may not be found in the New Testament, but the thing is there. If Jesus did not believe that religion could be taught, then he was guilty of wasting much of his time, for he worked at teaching in season and out of season. Dr. Foreman He was a product of the Sunday School. In a sense, during his childhood he would go to the synagogue school weekdays and especially on Sabbath; we know that by the time he was grown it was his "custom" to attend synagogue service.

And in every Jewish community the synagogue was the place where for two hundred years and more, children and youth and older people had been taught the Word of God.

If Christians today are faithful to Christ's example, we also will keep at the job of teaching our religion to every child within our reach.

**Body and Soul**  
READERS of the gospels will note that when Jesus went home from the synagogue on the Sabbath, his day's work was not done. He would spend hours, sometimes till far into the night, healing people brought to him for cure. Jesus ministered to mind and soul. Jesus was interested in personalities, whole people, not half-people. Our minds have to be fed, but we live in bodies, and bodies have no little to do with personalities. Jesus was content with teaching sick people; he made sick people well. So the church today, if it is faithful to Christ's principles, will consider people as complete personalities.

**The Common People**  
WE FIND that Jesus did not insist on university audiences. Indeed, he never spoke to a university audience. His teaching was always in the midst of groups of very plain people. There were great universities in those days, but it was not necessary for any one to be a graduate of one of them in order to enter Jesus' school, for to understand what he taught, he taught the plain people plainly.

In all our teaching we try to use the pupil's language and to put our Christian ideas in the thoughts that the pupils can understand.

At the best seminaries, young ministers-to-be are carefully taught how to put the great Christian doctrines in ways that the simplest people can understand. Teaching over people's heads is not teaching them at all.

**God and Education**  
JESUS did not try to teach people carpentry, or arithmetic, or geography. No doubt he could have done so. But he had something more important on his mind, something which he alone could teach. He taught religion, or in other words he taught the truth about God, and about man, and about right relations between God and man. So the teaching church, whether in the Sunday school or in the books written by its scholars or in its schools and colleges, when it follows Christ's example, is always teaching religion first and foremost. We do not believe that religion is a secondary issue, something you can "take or leave."

**Religion on Two Feet**  
JESUS did more than talk. He lived. His whole life and character were saying more loudly and plainly what his words said.

So the Christian church today, when it is faithful to Christ, must translate into actual living the faith she teaches in Sunday school lessons, in catechisms and books and sermons.

What we do, as Christians, speaks louder than what we say. Every Sunday school teacher needs to remember that what is said on Sunday is important, but what the teacher does on Monday is more impressive by far. The reason why Jesus was more effective than John the Baptist was that John, after all, was a Voice, while Jesus was a Friend. Are you who teach others about God simply a "Voice"? A photograph could do as well.

Misses Pauline Rudd, Georgia Beth Henson, Geneva Ford-Doris Martin, Thelma Thompson, Ruthie, Lena Pearl, and Cora Jane York, and Arthella Wrather.

**Knows More People**

Probably knows more people by name than any other person in the city, said the local newspaper in an article about Cecil Coffman, Kroger store manager in Columbia, Mo. Active in Boy Scouts, Kiwanis, Chamber of Commerce, Red Cross, Salvation Army and Community Chest, he has indeed made himself a valued member of the community in which he has lived for 34 years.

## OUR STATE OF THE UNION MESSAGE

Since it has been inferred through other publications that a "honesty integrity" and guardianship of the people's rights are in the hands of editors of other newspapers, and since a number of persons have made inquiry concerning our position on the cigar factory - union question, we are glad to make our position clear and in as clear and unbiased manner as is possible.

As an humble public servant trying to serve the people, all classes and all faiths alike, we have considered this controversy not of our own business. This is a question between three groups - the cigar company, the union, and the Benton Realty Company. The public is not involved and probably will not be if undue agitation is left out, letting each group look after its own interests. It has never been a part of the policy of this newspaper to agitate, incite, or aggravate questions between individuals or groups. We are not contemplating any change in this policy. We hope to represent ALL groups as fairly as is humanly possible.

It was our hope and desire that these group questions could be handled as it was before - without undue agitation from any source. We like to think of the expression of the great statesman William Jennings Bryan, concerning the Ku Klux Klan when it was in its most flourishing years. He said, "If the newspapers would quit publicizing it and the public quit talking about it, the Klan would die a natural death." That was years ago. His advice was heeded and the Klan died. Psychologists claim that an agitator is usually made because of lack of attention.

At last Thursday night's Rotary Club meeting some 30 or 35 of Benton's level-headed business and professional men were present. They were given an opportunity to discuss the cigar plant question. Not one responded FOR or AGAINST. This, in spite of the fact many of them were stockholders in the Benton Realty Company. Why the silence? Because Rotary's aim is to build good will at home and abroad, and as it was pointed out, this cigar plant - union question was a group fight and it was not the time nor place for the question to be settled.

This is exactly the position we have taken on the question. It is likewise our position on the Pennsalt job. We care not a whit who fits a pipe or who pipes a fit. It is none of our business, unless the property and lives of the public become involved.

Regardless of inferences by some irresponsible persons, the continued guardianship of honesty and integrity is not under the complete control of any one individual or group. We hope never to be accused of arraying class against class, nor group against group, claiming at the same time "we are the only defenders of the true faith."

Too many individual and group problems are being tried in the newspapers today that ought to be tried in the Courts of law. By incitement and agitation the public often becomes involved when the question should be of no public concern so long as no laws are being violated.

At bedtime rub throat, chest and back with Vicks VapoRub. Relieving action starts instantly. And it keeps up this special Penetrating-Stimulating action for hours. In the night to bring relief.

## Observations

Within the near future the civic clubs of our city will sponsor a "clean-up and paint-up" drive. This is a good thing and one I think ought to begin early and last until it is late. Not just another half-smear job.

Already we see signs of many visitors this coming summer. An announcement tells us that on March 7-9 we are to have young men in our county from Alaska, Canada, Cuba, and other places, in addition to several from our own state.

It was also announced during the past week that the summer meeting of the Kentucky Press Association would be held at Ky. State Park, which will take place in June. This is a very important meeting and will bring newspapermen from all over the state to our county.

What these "scribes" say about our county after they return to their homes, can be made favorable or unfavorable. We ought to begin now to point to this meeting and try our best to put on our best bib and tucker for this occasion. We want them to say good things about us and to point up and see that they are welcomed and entertained while in our county. It may be a long time before we have such an opportunity to entertain the newspaper fraternity again.

No doubt there will be several other important meetings held in the county during the coming summer, and the sooner we get our best clothes on the better it will be and easier it will be to help show our visitors a good time and a sincere welcome. We will want them to return, and we will want them to tell others of a pleasant visit to our county.

From present indications this year appears to be another big year for tourist business. What will happen later on of course no one knows, but if we make every effort possible to advertise our county and assist visitors in any way possible, we will continue to get our share of this type of business. Our clean-up and paint-up project will help to create a favorable impression, but there are other things that help out also.

Of course the tourist business will never be our "main crop," but it can help out a lot if we try to "cultivate" it in the right way. When the Kentucky Press meets in the county next June we should study how, and why we ought to put on a little extra for these men of the press. It may be interesting to know what they say about us when they return to their desks. What they say and think can be of a big help to our county.

Other groups too, will be giving us the "once over" and no doubt but what they will decide if they ever want to return for another visit. Some standing committees from the various civic clubs could help out when we have groups of visitors. I mean committees that will function and do a good job in helping out, whether they are members of any particular group or not.

On different occasions during the past year or so, our county has received some very unfavorable publicity. Some think we are still in our "wild West" state, and some think we are old-fashioned and backward. One such instance was the so-called lifting of the ban on dancing. I see it rightly, our officers have never had any ban on dancing except perhaps, the monkey-lonk type. But this was not given the public in news items that went out over the state.

The Sheriff says there has not been any ban lifted on this type of amusement and likely will not be soon. It is possible that 80 to 90 per cent of the people of this state would agree with him. If they knew the facts.

Clatus Copeland, of Route 2, was a business visitor in town Wednesday.

## Labor Statesmanship

One branch of America's organized labor, the Congress of Industrial Organizations, has made a move that puts it in the same class with great statesmen. You might not expect these large groups, organized for wage bargaining with industry, to enter the field of international relations. Yet the CIO, meeting recently in its yearly convention, did much to strengthen the hand of our government for the growing struggle in Europe.

When Paul Murray passed forth against the Communists who had managed to get in under the CIO banner, he was not simply delivering a private opinion. Mr. Murray, himself a stalwart statesman within labor's councils, knew he was speaking with labor's whole voice. His strong condemnation of Communist infiltration in America's labor brought cheers and applause from almost all the nation's wage earners.

Against the Enemy  
Said Mr. Murray: "I'm not going to protect small cliques of men whose interests are promoted and propagated by the Daily Worker and the Communist party." As if in answer, the CIO gave its leaders the power to clean out those few leftists who give "slavish adherence" to Communist dictates.

For years, Communist Russia has worked for underpowering power in all countries. Also it has been the Russian policy to stir up trouble between labor and management, wherever and whenever this could be done. Along with this, the drums of propaganda pound out the command to "revolt." There are accused strategy class feelings and states that stand up the issues. Nobody, then, is able to think things out around the conference table. Organized labor is dead, wherever Communism gets hold.

Not Russia's Tool  
The CIO has delivered an ultimatum to Russia - the CIO has said it is known that America is doing all right without any dictatorship of the proletariat. It has served notice that American labor will not permit itself to be used as a tool to accomplish Russian conquest of the world. It has said that the Communist party is a tool to be used while waiting for the revolution and that you have to give you a chance to take over.

My thanks to Mr. Murray and the CIO convention. All of us know that the American people are not to be fooled by anything the Communist propaganda mill can turn out. When we recognize the fruits of American enterprise that we enjoy, amidst all the freedoms and liberties that are ours daily, a man would seem like an utter fool to think of changing our system for something else. I am thankful that our labor unions are awake to their responsibilities in these times. They must keep eternal watch.

## School Notes

Harry has devoted, dedicated and given his life and time for any other magazine. If he had time, he would be a writer. The big question in his mind now is, is he a writer? "I'm just wild about Harry," said Valentine's day is coming very soon and big red hearts will be changing hands of big black hearts will be changing puns. And then, there was the little boy in English class who brightly remarked, "I must be built upside down, for my feet smell and my nose runs."

Quite a few students have switched subjects. Bill (Bing) Edwards switched to music. I switched to algebra. Luter has

switched to history, a little boy Lewis is going to move to Arkansas. We hope you like it. The junior class put on a little program that had their sophomores visitors rolling in the aisles, including Galsworthy, Light Bulb (Capable), was lined, \$20 for "de-satin" de battery. The judge asked him what was his name, occupation, and what the change was. Light Bulb answered, "I'm Light Bulb, I'm a electrician, and I'm charged with de-satin de battery." Boy, what a character!

There's the bell, so I will say good-bye to Pannier from Fates, wherever he may be.

Vernon Walker, of near Sharpe, was a business visitor here Tuesday.
