## Union Takes Drubbing In Cigar Plant Vote

ELECTION IS CLIMAX TO SEVERAL WEEKS WORK  
BY ORGANIZERS TO UNIONIZE CIGAR FACTORY

Climaxing several weeks of work by union organizers to organize employees of the General Cigar plant here was the vote taken Wednesday morning, which resulted in a defeat by the union 167 to 116. This is the second time efforts have been made to unionize the plant. Both have failed.

Approximately 290 employees were eligible to vote in the election.

A report stated that two ballots were declared "spoiled" by those in charge of the election, one of which was a Government official who came here to supervise the election authorized by the office of the National Labor Relations Board.

The workers at the plant heard speeches for and against the union Wednesday morning before the vote was taken. A speaker represented the Cigar company and another represented the union.

Organization work here had been handled by Guy Phelps, organizer for the A. F. of L., and working out of the Paducah District.

During the organization period, arguments pro and con burst forth from several sources and at times became very heated. The public remained calm and seemed to realize that it was a fight between three groups—the union, the cigar plant owners and the owners of the building where the cigars are manufactured.

The other, the General Cigar Company, which located in Benton in 1943, employs from 300 to 350 persons in the manufacture of White Owl Cigars.

The directory is being planned in conjunction with the effort to get additional industry to locate in Kentucky.

**HAROLD HOLLAND**  
**MAKES PRE-ELECTION STATEMENT**

World War I vet expects to enter race for office of county judge.

To the citizens and voters of Marshall county:

I will be a candidate for the office of County Judge of this county in the Democratic primary election on August 6, 1949.

Full and complete details of my qualifications and platform will be published in a more formal announcement in this paper within the next few weeks. In the meantime, anything you can do in behalf of my candidacy will be greatly appreciated.

Sincerely yours,  
Harold Holland

## Calvert City Loses To Tilghman Of Paducah In Regional Play

For the first time in a number of years Marshall County will not be represented at the Kentucky Basketball State Tournament in Louisville. The Tilghman Tornado defeated Calvert City last Saturday night in the finals of the regional tournament 42-34 to carry the purchase flag into State play.

Calvert, after an up-and-down season play, launched fourth to capture the District Title and march right on into the finals of the Regional despite the fact that many had given the edge to other teams in the area.

The Tilghman team last went to state in 1945 being ousted from their position by a determined Brewers aggregation who won the State championship last year.

Mr. and Mrs. Donald Sheppard and son, of Detroit, will spend the weekend in Benton with her parents, Dr. and Mrs. R. E. Foust.

Mrs. Louis Larkin underwent a major operation at the Riverdale hospital in Paducah this week.

**FISH & WHALE TALES**  
All About the ones that DID and DID NOT GET AWAY—  
(By the Fishy Editor)

**THE EARLY WORM FISHES**  
**CATCH - FAST, FURIOUS**

According to very reliable reports from three members of a certain club, every ardent fisherman, a preacher, plus two other fellows who fish a little, broke the ice to give us the first fish story in a long, long time.

The date of this BIG story was Friday, March 11, between 3 and 4:30 P. M. A contest for the first day was already made and the stakes were high.

The preacher found a choice rock—not the one he usually preaches about, but the one where the big ones are (or was).

The other two men who DO NOT preach also found a rock or two farther down the river. The preacher had a new bait—it was a whopper stopper. He cast out and in and behold, there was a tug on the stopper—The stopper had a whopper.

The report says it was landed and put on the string in due formal opening day style, and with a smile. This was on for some time, and the other followers of olden days decided they chose the wrong rock. They decided to investigate, and according to the report made the champion had a big string—of shad. The puzzle is, did this good man know and wanted to cool his pals or did he expect for them on a perfect good fool, inhaling the sweet odors from his first catch of spring?

The personnel of this drama, comedy or farce included: Dr. C. L. Nieceley, Jess Collier, and Grady Ridings.

Will print 'em.

They invite the people of the county to come in and visit at the new place of business.

## John T. King Is Employed By Starks Family To Help In The Prosecution Of Craytus Darnell

YOUTH CHARGED WITH MURDER MAY BE INDICTED ON FIRST DAY OF CIRCUIT COURT HERE

Circuit Judge Holland, Bryan and Commonwealth's attorney David Keen will not serve in their respective offices when the case of the Commonwealth of Kentucky versus Craytus Darnell goes before the Marshall County Grand Jury on the opening of court here, according to reports this week.

The new prosecutor and the new judge, serving Marshall county for the first time in their new post, will step aside should Craytus Darnell be indicted and tried at this session of the court.

According to a report in a Paducah newspaper today, because of the fact that Judge Bryan assisted in the preliminary investigation of Darnell and feels that he should not preside at the trial while Attorney Reed cannot prosecute Darnell because he was employed as a defense attorney in the case before he was appointed to the office of Commonwealth Attorney.

John T. King, commonwealth's attorney at Hopkinsville has been employed by the Starks family to aid in the Darnell prosecution. According to a Sun-Democrat reporter the special judge has not been appointed but some reports this week stated that Henderson Attorney L. C. Flournoy might be appointed to sit in the judge's chair during this trial.

Young Darnell is charged with murdering his father-in-law, Policeman Jesse Starks here in December of 1948.

According to local court officials, the docket for the term of court beginning March 28 is light. Grand juries and Petit juries names were announced in last week's paper.

**J. GRAY MAKES HIS  
FORAL ENTRY INTO  
MAGISTRATE'S RACE**

To the voters of Magisterial District No. 2:

I take this method of announcing as a candidate for the office of Magistrate of District No. 2, Benton, Kentucky, the action of the Democratic primary on Saturday, August 6.

I have lived in this district for the past 35 years. Our roads are full of bumps and chuck holes from road to road.

I feel that my knowledge of our roads and my past experience with the public qualifies me for the position I am now asking for.

If elected, I will do my best for District 2, and the taxpayers of Marshall county.

(Political Adv.) J. Gray

**GUERNSEY AUCTION TO BE  
HELD AT CALVERT CITY  
SEPTEMBER 20th.**

A promotion sale of selected cattle by the First District Guernsey Cattle Club of Kentucky will be held at Calvert City next September 20.

A similar sale was held last fall.

At a meeting Friday at Owensboro Richard Smith, Madisonville, was elected president of the district organization and C. H. Burnett, Fulton, Ray Hall, Calvert City, W. G. Duncan, Owensboro, and Crawford Gen. Madisonville, were named to the board of directors.

The breeders also voted to have a district show at Owensboro the week of August 8. Cattle winning in the show will be entered in the State Fair livestock contest.

**JUNIOR WOMAN'S CLUB**

month's new special deluxe four-door sedan (above). Throughout the new Plymouth line beautifully styled bodies are lower and narrower, seats are wider and headroom greater. At the same time overall dimensions are reduced, but wheelbase has been lengthened to 118 inches and glass area is increased, over 10 sq. ft. Although fenders flow gracefully into the body they are detachable for ease in repair.

## New Plymouth Features Beauty, Performance, Safety and Comfort

and new styling is combined with outstanding riding comfort, insensitiveness, and sweeping dual improvements in the use of Plymouth automobiles. Newly redesigned, the new car has a longer wheelbase, lower ride and more road stance, less front and rear overhang, easier parking and garaging. The silhouette has been lowered, the width decreased, there is more head and leg room and seats are wider. Typical of Plymouth's safety features is the ignition combination, with which a key starts the engine.

New Plymouths are sleek in line. New rear-end styling is a graceful balance with the grille lines which emphasize the 97-horsepower engine has improved performance and efficiency with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly designed intake manifold induces quicker, smoother engine warm-up and produces faster throttle response. Body styling which produces greater passenger room without excessive bulk also increases visibility. V-type windshields have 37 percent more area and provide excellent vision without distortion. Windshield wipers clear 61.5 percent greater area and the rear window is 35.4 percent larger.

### TELL KESTING

A Forest Service recent  
survey of information  
national forests and  
state holdings that  
serve as a playground  
for outdoor men.  
There are 152 national  
forests scattered through 36  
states and Puerto Rico,  
total of 180,000,000 acres.  
State acreage serves  
timber and grazing  
livestock. In fact, this  
important aspect of the  
state; yet it is the recrea-  
tional benefits that gain the  
we are quite amazed at  
recognition. For instance,  
survey shows that more  
6,000 head of deer, elk  
or big game animals—  
one-third of the entire  
population—live in the nation  
forests. There are approx-  
imately 1,500,000 acres of  
lumber lakes. And last  
year, 100,000 fishermen and  
hunted their sport in  
the forests.

Other facts gleaned from  
of Lyle F. Watts, chief  
Forest Service, were  
forests contain 4,500  
and picnicking sites,  
sports areas, 400 or  
camping for group out-  
doorism and roadless

## Births

Mr. and Mrs. Earl Lovett are  
the parents of a daughter born  
March fifth at the Murray hospi-  
tal. She has been named  
Shella Jane.  
Mr. and Mrs. Harry Harrell, of  
Calvert City, are the parents of  
a son born Monday at the River-  
side hospital in Paducah.  
Mr. and Mrs. Leon Watson, of  
Oak Level are the parents of a  
daughter born Thursday morn-  
ing, March 10.

Over 50,000,000 people motor  
through them annually.  
Operating these national fore-  
sts is big business, and surpris-  
ingly enough some of them ac-  
tually pay their own way with in-  
come exceeding expenditures.

The overall cost of operating  
the forests in 1948 was \$32,000,-  
000. In addition about \$13,000,000  
was spent for roads and in buy-  
ing new land. These expendi-  
tures were partially offset by in-  
come that totalled \$25,000,000.

What does it all mean? Well,  
first, as a citizen of the United  
States these national forests are  
yours to enjoy as vacation spots.  
And there is actually more than  
one acre for every man, woman  
and child. Second, these forests,  
under proper supervision, mean  
that in the generations ahead we  
still will have a wilderness out-  
doors—places where you can fish  
for trout and other game fish;  
where you can see bear and deer  
and elk. And that's worth pro-  
tecting always.

## Ten Rules for Worship

Compiled by W. H. Funderburk

1. Worship begins as I close the door to my home. On my way I pray for my church, for the minister, and for those who worship far and near.
2. Before I enter the house of God I pause a moment and leave outside all things and thoughts unbefitting to the heavenly father; hate, grudges, frettings, worldly cares and sinful thoughts.
3. The moment I enter the door of this divine house I cease all idle conversation. I come in silence, for great things are done in quietness and minis-try to me and those about me.
4. As soon as I am seated I bow my head in prayer. I pray for others as well as myself. I pray for my church and its great causes. I ask God to be near me now.
5. I join in the singing of hymns and bow my head during the amen. I think about the words of the music and let their meanings and spirits go down to the roots of my very soul.
6. As I lay my offering on the plate I say a prayer of thanks for my money and ask God's blessing on its use here and in the uttermost parts of the earth.
7. Throughout the service I think of God objectively. As power, peace, strength, love. He is all I need for life as it ought to be.
8. I listen to my minister preach- ing from God's word and seek to apply His message unto my life. I pray for him as he preaches.
9. When the services is ended, speak to those I know and in Christian friendliness I those who are strangers to me.
10. As I exit through the outer portals I dedicate my life to walk this week the high road with Christ that leads to im-mortal life.

Lawrence Solomon, of Calvert City, was in town Friday on business.

## LETTERS TO EDITOR

Dear Friend:

It was kind of you to write me recently and I was happy to hear from you.

I will appreciate receiving the picture of the Old Benton Court-house.

Recently I sold one for \$400 to Sterling Holloway, the Movie Star Comedian. He is the blond Southern drawl type, usually cast as a dumb Soldier rookie. He like the 1910 Imaginary paint- ing I did of the Horse and Buggy Days as they were hitched out- side the courthouse. I also added several characters including J. D. Peterson, Solon Palmer and several others. I also did one of the old Benton Baptist church which I still have and school-house. Am going to do many scenes of Benton as I saw it when a boy. These paintings will be hung in galleries here and possibly other cities as they circulate in the Art field. Am sure the publicity of my next "Benton Town Square," won't hurt any (especially for me). It is great subject material for the Artist. Even pretender me.

I thought perhaps you might be interested to learn about the most recent painting I com- pleted for Gov. Earl Warren of California. He wrote asking for a Western Scene. I sent it to him last week. It will be hung in the State Capitol, in his Den. You can write him. I now have paint- ings hung in several public buildings including the Holly- wood Chamber of Commerce, the YMCA, the County Museum, Cit- y News Building, California Temperance Federation, Metro Goldwyn Mayer Motion Picture Studio and many others.

The one I did of Christ goes on a national tour of museums. I intend to do one of the second coming of Christ for exhibition in various churches. I'll go if I can.

I am indeed proud to know that the Benton people appre- ciate my efforts. They are indeed good critics. At least they know me, and I can appreciate their- kindness if any, as I would not have believed it myself a year ago. So all's well that is off to a good start. I have just paid off in cash many debts I had owed for ten years, and lucky me it only took ten months. So now I am off to a clean start. I hope, certainly I haven't paid off my parents for their 40 years of tol- erance and patience in their wonder what I would do next. Who knows, maybe someday I can send home a new crisp dol- lar bill. I've actually earned it, it's time to laugh here and never

### Observations

AS THIS is being typed for printing the cigar factory vote has not been taken, and by the time you read this it will have been made, therefore this is not written for or against either of the parties involved as no one knows the outcome.

SOME of my VERY DEAR friends have tried very hard to charge me with pro-unionism because we of the Courier kept our names clean and clear of the fight. The only pro we have had in mind has been a leaning toward pro-constitutional government of pro-legal law enforcement. Should we ever get away from this part of our government we are surely getting on dangerous territory, and we might as well call in a dictator.

I CANNOT yet understand why some people wave a flag of democracy in one hand and shout for a dictatorship with the other. They wave this type of flag with the other hand. It surely must be one of three things—ignorance, just plain selfishness, or selfishness of the worst type. Do we believe in our constitution and our laws or do we? Should we change our national constitution each time the moon changes, and to suit the whims of certain groups or should we try to abide by it until a majority of people express a desire for a change?

A REPORT tells me that some of our country officials have been severely criticized for letting the cigar workers use the Courthouse for a meeting place. Let us stop for one moment and think of what it would have meant if they had refused. It would have been more than just refusing to let a group of men and women meet in a public place—it would have meant the curbing of the Free Assembly as guaranteed by the constitution. How many of our citizens are in favor of doing away with that guarantee of Freedom of Assembly? Have you stopped to think of it?

GOD FORBID that I ever live to see the day when freedom of assembly and freedom of speech are taken away from the American people. I know there are those who will say that such meetings very often cause trouble. Yes, it has been caused, and in most cases by persons who

### America's Greatest Resource

When you enter the gates of our huge factories and industrial plants, do you see what is really there? Whenever I go inside factory gates, the wonder of it all amazes me. Where did all the equipment come from? By what magic was all of it assembled into such a gigantic unit for production? Somebody had to pay for all of it. Do you suppose it was a capitalist?

Yes, capitalists did the deed. It is interesting that they keep doing that type of thing, all along. They know it is profitable. New assembly lines are continually set up, and old ones improved. Plant expansions are undertaken. Modern tools are installed to replace worn ones. And one of the most amazing things about it is that nobody has to tell them to do it!

No dictator commands that all this money be spent. No government bureau has to send out a directive. It's all just part of the system that is the multiplying of America. This system of free and individual enterprise has made possible the building of our nation. Whenever the incentive of profit or reward is there, both men and money will be put to work. Capital comes to the job in hope of a reward, just as a man expects a paycheck as the result of his labor. Money and men work side by side, then.

**Profits Make Jobs**  
These things are so common under the enterprise system as we know it in America, that most of us take them for granted. Yet, these capitalists (sometimes) attacked so bitterly by unthinking persons) constantly supply the essential ingredient that makes jobs and produces goods.

Actually, the six or seven cents profit out of each sales dollar, which is typical of industry as a whole, does a tremendous job for you and for me. It pays for all the machines that, in turn, do most of the work. This makes it possible for 60 cents or more of the same sales dollar to be given to those who supply the human energy, the workmen. Some three cents, or only about half of this small profit, is used on the average to pay investors for the use of capital that brought these industries into being.

**Incentives for Each**  
The other three cents or so of the profit goes back into the business. This portion of profit is used to pay for worn-out equipment and other replacements, and to keep up with rising costs and increased taxes. Today, that part of the sales dollar that covers profit is hardly ever enough to meet industry's real and urgent needs. In fact, many industries have had to borrow more and more to meet rising inventory and equipment costs.

The nation's industrial enterprises cannot exist now, and never could have been developed, without the use of capital. Capital very effectively teams up with labor and management to bring great benefits to every citizen. Each of the partners—investor, worker, manager—has his own incentive. This system, free and unhampered, brings forth the best effort, from each. This enterprise system is our country's greatest resource.

Have you heard Dr. Benson and his "Looking Ahead" of the future? It's your local station for time.

DEVOTIONAL READING: Matthew 23:1-12

**Leadership School**  
Lesson for March 20, 1949

IT TAKES more than a call of God to be a Christian leader. It takes study, it takes work. The call is necessary, of course, but it is not enough. Jesus set the church an example here as always. He called his Twelve; but he was not so foolish as to think that just because he had called them they were all ready to go out and take the lead. Jesus put them through what Dr. Foreman may be called the first Leadership Training School in the history of the Christian church.

**Who Was Enrolled?**  
THE TWELVE Apostles were the training class. Not all Jesus' disciples were equal to it; perhaps some of them actually did not have the time. But these Twelve had all been set off from the others, ready because they were better men, but in order to do more direct service in Christ's name. There was nothing formal about Jesus' training school.

It met wherever he was at the time—in a house, or by the roadside, or on a hill-top. There were no set hours, no textbooks, credits or diplomas.

Jesus kept it going to the very end, for even after the Resurrection, as Luke tells us in Acts 1 he was still teaching his Twelve.

**What Did They Study?**  
THERE WAS no printed circular, no bulletin, no prospectus or catalogue. All the "courses" amounted to just one thing: learning to do what Jesus was doing. To this day, that is the aim of all Christian training. Mark and Luke mention or hint at four things Jesus trained his school students to learn from him: preaching, healing the sick, feeding the hungry, and praying. It would not be quite true to say that part of what they learned was spiritual and part practical, for there is nothing more practical than praying as Jesus taught it, and Jesus never ministered to people's physical needs without touching their spirits too.

Many a person now in some hospital for the insane need not have gone there if he had had the help that a well-trained minister can give.

Ministers today are not taught how to perform miracles like the feeding of the 5,000; but knowing that people's physical well-being has a great deal to do with their spiritual welfare, the alert young Christian minister of today will be keenly interested in Christian social action.

**How Did They Learn?**  
THE TWELVE learned by doing. It is the only way you learn anything of a practical nature. Memorizing a textbook, memorizing rules, is not learning. You have learned how to do a thing only when you can do it. Of course you have to see it done first. A boy on the farm learns to be a farmer by watching his father and helping him, more than from school courses in agriculture, useful as they are.

There is nothing to take the place of apprenticeship under one who knows. So Jesus' Twelve watched him, listened to him, helped him, before they were trusted on their own.

**Will It Still Work?**  
THE METHODS Jesus taught are just as effective today as they ever were. Not all churches nowadays follow his line to the letter; in fact, most churches do not. But the basic principles which Jesus drilled into his first traveling representatives are still good. One is faith.

Missionaries in the 20th Century are required to take a great deal more equipment with them to their work than one pair of shoes, a cane and an empty purse. Yet who can deny that any missionary of any church, in China or in Korea today, must live by faith from day to day?

Another of Jesus' principles was direct contact. People are not won to Christ chiefly by sermons from pulpits, but by in-the-home contacts. Ministers know this, missionaries know it. Sunday school teachers ought to know it too. Getting acquainted with your boys and girls at their homes, and being a friend to them there, is what will give your Sunday teaching its greatest force and success.

# Their Hope Is The RED CROSS

When flood, fire or tornado ravages the land the Red Cross stands ready to stem the tide soothe the scars and succor the pangs of suffering. Now Ready your Dollars—to help the Red Cross help humanity wherever and whenever it is needed.

You remember the Wartime Blood program of the Red Cross. Many still live today only because of it. Now Ready your Dollars to help expand a new Red Cross National Blood program so that ultimately ALL who need blood may have it and its derivatives freely.

Veterans successfully face many critical problems thanks to Red Cross Aid; the misery of the ailing soothed, and accident emergencies are met because the Red Cross prepared the way.
