"DOGS OF HELL"

Dead Founder of Zion City Leaves Funeral Sermon, in Which He Curses His Enemies.

Chicago, March 14.—Six weeks before he died John Alexander Dowie, founder of Zion City and first apostle of the Christian Catholic church, prepared his own funeral sermon. Because of the character of the sermon, however, it was decided not to permit it to be read at Dowie's funeral today lest it should bring greater dissension in Zion City.

This little city on the north shore of Lake Michigan, is now torn to pieces by religious factions, and an effort is to be made to bring the warring factions together once more in unity, and instead of Dr. Dowie delivering a message from the grave to his former followers, Judge Barnes, a lifetime friend and overseer of the church, preached a simple sermon, in which he extolled the good qualities of the dead man.

Although the sermon prepared by Dowie before his death was not used in the funeral rites, still it was given out for publication. This sermon makes it plainly evident that Dowie did not forgive his enemies before he died, as he lashes those who ousted him from control as "dogs of hell."

Dowie concluded his posthumous sermon in the following manner: "I shall return, and with ruthless hand shall exterminate the vipers and the dogs of hell that now hold the high places in the city of Zion. They dreamed, and in the grossness of their dreams they thought they had prevailed over the first apostle. And now, priests and elders of Zion, I shall return in another form, brighter and more beautiful, and ten thousand times more terrible, to cut ye off in the midst of your sins, and to win back Zion for the truth and them that held to the word and did no evil."

There was a small-sized panic during the funeral ceremonies because of the announcement that another of Voliva's followers was dying.

In the past week three of his lieutenants, who held the same positions in the church under Dowie, have suddenly died, and when it was said that a fourth was likely to die before morning several of the mourners ran from the tabernacle shouting that Zion was being cursed by God.

This excited the rest of the 3,000 mourners, and before the cooler headed leaders could get among the people to counsel quietness fully 500 had left the house of mourning.

Wilhelm Hands Out Hot One.

When the liquor people hear a man predicting a local option contest they at once begin to denounce him as a fanatic, and to say that he wants to interfere with their business. The real cause of local option contests is that a few unscrupulous men and their followers in every city persist in interfering with the right of the people to have the laws enforced. They deliberately plan to control the elections and put men in office who have no regard for their oaths and who will permit them to violate the laws with impunity.

The saloon people are the sole cause of local option contests. They make their presence in a city so obnoxious to the people it soon becomes apparent that the only way for the people to get relief is to vote them out of existence. What means the wiping out of saloons in 99 out of every

100 places where a vote is taken? Knoxville, Tenn., on Monday, wiped out the saloons by a majority night onto 2,000 and Jackson followed suit yesterday with a majority of nearly 1,000. The people have had enough of the saloon in politics and they are determined to put a stop to it. The fight in Knoxville was "occasioned solely by the meddling of liquor people in politics."

At this time in the city of Paducah the liquor interests are laying their wires to control the next city government. We have heard that some of the whisky people are boasting that if a certain candidate for mayor is nominated that he will be beaten by a Republican, which means that if they cannot nominate one of their men that they expect to knife the nominee. Well, that's their privilege, and we will not waste any words in arguing the matter with that crowd, but if the whisky people are determined to rule or ruin this city we wish to say most emphatically that a local option fight will be the result in less than ninety days after they do their knitting. That's plain enough for anyone to understand, and another decision on the Sunday closing law like the farcical one that was rendered in the city court last week will bring on the fight anyhow. If a vote is taken on the question in this city whisky will be voted out.—Paducah Register.

By a Vote of 937 to Only 3.

The temperance people of Tennessee last Thursday added another sweeping victory to their long series they have been effecting during the past few months by voting whiskey out of Jackson, Tenn., that is below here on the N. C. & St. L. railroad. 937 votes were cast in favor of closing the saloons and other liquor houses, while only three votes were cast in favor of letting the liquor establishments remain. Those firms handling intoxicants are given until November 1 next to close their places and wind up their business.

The liquor people of Jackson told their supporters not to go to the polls and vote, they claiming that the election had been illegally called, but the temperance people proceeded in the same manner as the Knoxville, Clarksville and other cities that knocked the whisky out this week and the week before. The Jackson liquor people have made up a large fund to fight the election results in the courts, so dispatches from there state, but other reports are it will do them no good, as the law has been closely followed throughout the proceeding and the grog shop, taverns and wholesale houses must go.

With Jackson voting liquor out that leaves only about four or five cities in that state where intoxicants can be sold, including Memphis and Nashville.

Arrested for White-Capping.

Elmo Wall, Buck McGhee, Will Grogan, John Scruggs and John Grogan, all colored, were arrested Tuesday morning on warrants sworn out by George Curd and Edmond Guthrie, also colored, charged with decoying the latter from their homes Monday night and administering a severe flogging to them.

They were arranged before Judge Simpson Tuesday morning and upon recommendation of Marshal Holland dismissed.

Curd and Guthrie were charged by the other negroes as acting as go-betweens between certain negro women and white boys of the town.

You saw it in the Ledger. It's so.

BY THE TAIL

Is the Way a Washington Minister Designates Presidents Hold on Things.

Washington, March 17.—"New Zealand and its Government" was the theme of an address delivered by the Rev. Alexander Kent to the members of the Secular League tonight.

Prior to Dr. Kent's discourse, Dr. William A. Croffutt spoke of the visit of New York clergymen to the White House last week, and of their informing the President of the decline of religion and the rise of atheism in that city, and enlisting his aid. Dr. Croffutt stated he was glad the people of New York were getting rid of some of their irrational ideas, but he said that it was probably due to the falling off of the church revenues that bothered the reverend gentlemen more than the salvation of souls.

"Dr. Croffutt said: 'That's about the best thing they could do; to call on the President. The man in the White House, who's got the universe by the tail, can do any and everything for the benefit of the human race if it can be accomplished by the power of his lungs. I am glad the President has a thousand times more confidence in himself than he has in the Almighty, and I think we may be duly grateful that we have a man who accomplishes anything with a frown or a proclamation. The President, I have no doubt, will issue a special message on the subject, and remedy the trouble and re-establish religion in New York to its proper place.'"

How It Came There.

The use of the legend "In God We Trust" on some of the coins of the United States grew out of according to a writer in the Chicago News—a letter written by a Maryland farmer to Salmon P. Chase when he was secretary of the treasury. The News writer says: "The letter was written in November, 1861, the writer urging that we should, as a Christian people, make some recognition of the Deity on our coins. Mr. Chase referred the letter to Director Pollock of the mint, who approved the suggestion and proposed one of the legends, 'Our Country, Our God,' or 'God Our Trust.' Mr. Chase then referred the matter to congress, and again in 1862 and in 1863 he urged that the matter be acted on. Finally, on April 22, 1864, congress authorized the coinage of a two-cent bronze piece, and on it was stamped the legend 'In God We Trust,' instead of 'E. Pluribus Unum.' Subsequently, on March 3, 1865, the director of the mint, with the approval of the secretary of the treasury, was authorized to place the legend on all gold and silver coins susceptible of that addition thereafter to be issued. The legend is taken from the following line in 'The Star Spangled Banner': 'And this be our motto: In God is our trust.'"

Permitted to Withdraw.

Referee Bagby Monday permitted Belva Broach to withdraw the petition she had filed asking for permission to sell certain property in order to pay off lien creditors of Elias Hopkins. She is trustee of the Hopkins estate that is in Calloway county, and thought she could realize enough from the sale of certain lands to pay off the lien creditors. She filed a petition some weeks ago asking permission of the court to sell this land, but finding it would not bring sufficient to entirely liquidate the lien indebtedness, she then asked the referee for permission to withdraw the petition of sale. Others opposed her withdrawal, but the referee having pointed out to him the inability to derive enough money needed from the sale of the ground, permitted her to withdraw the document.—Paducah Register.

Slander.

He who can choke the sweet flowers of social love, and taint them with disease; or in the paradise of earthly bliss, where the plants of virtue flourish, spread the blight and mildew of desolation, hatred, and distrust—who can crush his neighbor's fame to dust, and build on its ruins—who can write infamy on the brow of others to prove his own purity, is neither man nor beast, but a heartless fiend. Those who have seen their dearest tampered with; who know what it is to have the priceless gem of a good name sullied by the poisonous breath of cold, un pitying slander, these best can say, he has no heart. If the lightning's flash ever darts from heaven to strike the guilty down, it will blast the hope of murderers such as these.

A Clean Cistern.

Clean water means health. The Moline is guaranteed to do the work or money refunded. The following indorsement is a guarantee of work it does:

My cistern water is better, purer and cleaner than ever before. Signed, J. M. Cole, S. Higgins, B. F. Schroeder, J. H. Utterback, Fate Barber, Bob Wicker, Liss Wicker, Charlie Morris, E. F. Banks."

Buys Phone Line.

Dr. Will Mason last Saturday purchased the property and franchise of the Independent Telephone Co., and will make such needed improvements as are necessary to put the lines using the local switch in good condition.

Thus is terminated a long drawn out tangle over this property and a matter that has been watched by a large number of interested persons.

T. A. MILLER

Passes Away at His Home Wednesday After a Lingerin Illness.

Captain Tipton A. Miller, one of Calloway county's most popular citizens, passed away at his home in this city Wednesday morning at about 7:30 o'clock, after a lingering illness of some several years. The death of this splendid man takes away from this community one who was recognized for his sterling qualities and splendid integrity. He was a man who climbed to positions of influence and honor step by step, never faltering, never hesitating, possessed of rare ability and an indomitable will, he forged on and up and never ceased in his determinations till success crowned his efforts.

Mr. Miller's health began failing him about ten years ago but not until last fall was he unable to be out. Since then he has been gradually sinking, but he fought against that dread disease in the courageous and manly manner that characterized his daily walks through life.

Deceased was born in Trigg county, Ky., Oct. 15, 1841, and was the son of John and Nancy Brown Miller. With his parents he moved to the eastern part of this county when a child, where he resided until he moved to Murray in 1876. In 1861 he enlisted in the Confederate army and was elected first lieutenant in a company organized here by Col. G. A. C. Holt, and was mustered into service at Camp Boone and served until the close of the war as captain of company H, 3rd Kentucky regiment. Soon after his return from the army, where he served with great courage, he was married to Miss Mattie Lassiter in 1867. Three children resulted from this union, two of whom survive him, Mrs. Hontas Sturgis, of Clarksville, Texas, and Galen Miller, of this place. The third child, Bunyon, died in 1893.

Capt. Miller served this county in the legislature for four years, 1877-1880, and was a member of the state senate from this district for four years, 1891-1894. He was a member of the Baptist church and a Mason. When he moved to Murray in 1876 he came to teach in the schools here.

His record as a public servant compares with his life as a private citizen. In his death we mourn the loss of a splendid citizen, a gentleman, a christian man.

Funeral services will be held at the Baptist church to-day (Thursday) at 2 o'clock p. m., after which burial will occur in the City Cemetery.

A Grand Horse.

Calloway county is to have the services of one of the greatest horses the world ever produced. A son of John R. Gentry has been purchased by Dr. Will Mason and will arrive here this week. When you understand that the sire of the horse purchased by Dr. Mason has held ten world records and has defeated such horses as Joe Patchen, Robert J., and Star Pointer you can realize and know something of the superb value of the animal.

"Braden Gentry," No. 0966, is the name of the horse purchased. He was foaled July 6, 1904, and is a handsome bay. He is a son of John R. Gentry, 2:00 1/2 and of Kate Braden, dam of four with an average of 2:10 1/2. Kate Braden is by Hal Braden, 2:07 1/2, taking his record in the same

Farm Progress.

How We Now Feed Land Which Then Abundantly Feeds Us.

THE modern farmer treats his soil well and has caught them by the true spirit of progress. He has a science of management. He practices rigid rotation of crops. He knows his fields, what must be done and how long it will be safe to leave a certain crop on a certain piece of ground. He knows for instance that clover is a great renovator of fertility. Hence the need for grazing it as one of the important parts in the system of rotation. Sometimes he does not know why this is, but the average American farmer is the most intelligent agriculturist in the world today. He is doing his best. When he finds his fields lack in plant food, he is standing his rotation of crops, he treats them with clover or manure. The plants the soil knows what is best for them. The farmer is studying his plants, learning that the physics of the soil play an important part in the success or failure of his work. We feed the stomach and the stomach feeds the blood. If the stomach is not in the proper condition to take from the food such mineral elements as make up good red blood, then we are not managing our fields. Hence you have indigestion, sour stomach, dyspepsia, you should get the stomach into a healthy working condition by taking plenty of outdoor exercise and give it a tonic which will strengthen the stomach so that it will properly take up the elements in the food and feed the channels in our body, the arteries and capillaries, and the circulation is vigorous, we are as nearly germ-proof as possible.

The above facts come from no less an authority than Dr. R. V. Pierce, medical director of the Invalids' Hotel and Surgical Institute, at Hartford, Conn. In his early practice he was a close student of the facts as given above. Having a large practice in a farming district, he studied nature's ways and the human system. He hit upon some roots and herbs, made into an alternative extract, without the use of alcohol, which put the stomach into a vigorous and healthy condition and thereby fed the blood, making it rich and red, and capable of throwing off disease. That is why his "Golden Medical Discovery" gained such a wide reputation nearly forty years ago and has stood the test of public approval ever since. Without doubt more than a million bottles of Dr. Pierce's Golden Medical Discovery have been sold in the

United States than any other stomach and blood remedy. Start the blood to circulating properly, and you cure catarrh of the bowels, for catarrh is stagnation of the blood.

For seven years I suffered with a first dose of Dr. Pierce's Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and assimilation of food from which flesh and strength are made.

"For seven years I suffered with a complication of diseases, including heart trouble, dyspepsia, catarrh of the stomach, and female weakness," writes Mrs. Harriet Martin, of Peoria, Illinois. "During that time I was never without pain. Had another spell a very severe cough. Finally the doctors said I had consumption in the lungs and that I was bound to die. My husband then bought me a bottle of Dr. Pierce's Golden Medical Discovery. I could tell my cough was better after the first dose. I continued his medicine until I had taken six bottles of his 'Golden Medical Discovery' and 'Favorite Prescription.' Now I do my own work for a family of four."

Fair Warning.

The notes and accounts of Phillips Brothers must be paid and the books closed up. The law impells the winding up of this business. Gentlemen this is fair warning, if you have not settled up by the first of May these matters must pass into legal channels and official hands. All notes and accounts can be settled at Shiloh, or at the law office of E. P. Phillips, Murray, Ky., in Masonic building over Wear's drug store.

Did you ever count the words in a column of a newspaper? There about two thousand words in a column. Suppose you sit down and write a thousand words on some subject, and then another until you have written eight or ten thousand. Try it and see if it is right easy. Keep that gait up for a month. Then chase a local item all over town, then after you have gotten the facts all right condense them in a few lines an hours work that can be read in a few seconds. Do this for a dozen items that seem insignificant after they are printed, but which you know are important, then have the items criticised and the inaccuracies pointed out to you when it is too late to correct them. O, yes, it is dead easy to conduct a newspaper.

Can you use \$100 in gold? We have it to give to you.

Obituary.

On Monday evening, March 5, the sweet spirit of little Elvin, son of A. A. and W. B. Miller, took its flight from its earthly home to its heavenly home. Little Elvin stay on earth was short, being about nine months old, but the Lord giveth and the Lord taketh away and blessed be the name of the Lord. Little Elvin only budded in this world where there will be no sickness, neither death nor sorrow. Everything was done for him that loving hands could do but to no avail. He was too pure for this world and God called him to come up higher. We cannot say to the bereaved ones weep not, for that would be asking the impossible, but we would say let us so live that when the summons comes it may be said, "well done Thou good and faithful servant enter Thou in the joys of the Lord," that we may meet little Elvin in that bright and happy home.

Bible Society is a Trust.

Charges that the American Bible Society is a trust are made by secretary E. B. Stilson, of the Union Bible Society of Worcester, Mass., who asserts that the society keeps the price of Bibles bolstered up higher than the proper market value. He said in his report to the society: "This Society has in its possession abundant proof that can be given to the public that more than justify us in condemning the Bible Society Trust movement, a movement that does not take the name of a trust, but embodies some of its most objectionable features.

"Because of an arrangement of this combine, individuals, churches and societies in the United States have found they could not buy a Bible in London or Canada without the consent of a Bible society in New York. The money sent with such orders has been returned."

The annual reports of the American Bible Society show that during the last three years from 800 to 1,000 local independent Bible societies in various parts of the United States have been literally wiped out of existence.

"Not Guilty."

The jury in the case of the Commonwealth against Will Thomas charged with manslaughter returned a verdict of "not guilty."

Will Thomas, who is a city policeman, shot and killed Henry Cooley on the night of April 21, 1906, some time between 12 and one o'clock.

The deceased was 27 years of age and a son of Mrs. Mattie Cooley and of the late Capt. S. W. Cooley. Both Cooley and Thomas are of prominent families.

The killing occurred in front of the Innovation pool room. There has been much interest manifested and strong array of attorneys were employed in the case on both sides. —Mayfield Messenger.

Coffee Quality

Java from the best upland plantations is of several different qualities or grades. The best is carefully sorted and selected, and is but a small part of the whole crop. The same careful selection is necessary in Mocha and all other kinds of coffee. GILLIES' COFFEES—"the finest obtainable," are all the highest grade. Every blend from the lowest to the highest price contains nothing but the best coffees of their kind.

GILLIES' COFFEE at 20 cents is just as good, as far as the quality of the coffees used, as GILLIES' 35 cent coffee. The difference is in the kinds of coffees used in the blend.

There are four blends of GILLIES' COFFEES—one will please you, 35c, 30c, 25c, 20c a pound package.

If reports in the exchanges from the tobacco growing section of the State are true, Kentucky will produce by far in 1907 the largest tobacco crop in its history. Everybody is talking tobacco, more plant beds have been prepared and a largely increased acreage will be put in. It will certainly be a bumper crop with favorable season and conditions. The growers are preparing to put a big crop in the ground this year, and tobacco beds are being prepared and everything put in readiness.

Tempting? Yes that is the word to describe the vast amount of good, wholesome food the ladies of the Christian church will serve in the wagon room of "Uncle Dire" Schroeder's blacksmith shop next fourth Monday.

What Ails You?
Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach growl or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and nervous symptoms?
If you have any considerable number of the above symptoms you are suffering from blood impurities. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known in medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener. The Golden Medical Discovery "is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its little wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry bark, Queen's root, Bloodroot, and Mandrake root.
The following leading medical authorities, among a host of others, extol the foregoing formula for the cure of just such ailments as the above symptoms indicate: Prof. H. Bartholomew, M. D., of Jefferson Medical College, Philadelphia; Prof. W. M. D. of University of Pa., Prof. Edwin H. Hale, M. D., of Hahnemann Medical College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. J. M. Squire, M. D., M. A., Author of Specific Medicine; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. F. C. Kelley, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address postal card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing in the strongest possible terms each and every ingredient of which "Golden Medical Discovery" is composed.
Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

MAMMAL OF ALASKAN COAST.

Beluga in Many Ways of Great Value to the Natives.

This mammal, commonly known as the beluga, in Alaska, is quite abundant in the summer along the Alaskan coast north of the Aleutian chain, being particularly numerous about the mouths of rivers and frequently ascending the larger streams far above tide-water. It is migratory and its movements are regulated by the ice. The numerous tidal creeks along the low, flat coast from St. Michaels to the Kuskokwim river, in which tom-cod are abundant, are the chief resort of the beluga, which comes in to feed on the fish. The Eskimo catch them with strong, large meshed nets, heavily weighted, set off outlying points. In dough weather, when the animals cannot see the nets, many are taken, but in clear weather the catch is small. Some are speared, some shot, but unless the shot goes through the spinal column these generally escape. The flesh of a young beluga is tender and not unpalatable, but is rather coarse and dry. The fat, or blubber, is clear and white and is highly valued by the natives, who extract the oil from it and use it in butter with the interior tribes. The intestines are made into waterproof garments or floats, and the sinews are very much prized. The small ivory teeth are carved into toys or ornamental pendants, while the skin is made into strong lines or very durable boot soles. The epidermis, which is nearly half an inch thick, when well cooked is considered choice eating, having a flavor somewhat resembling chestnuts.

NAMES OF FRENCH WARSHIPS.

What is curious in the list of French ships of war now on the stocks is that not one of them is called after a warrior, whether naval or military, but that the patronymics of philosophers, and even of novelists, have been preferred.
The new ironclads are named after Danton, Mirabeau, Voltaire, Diderot, Condorcet and Vergnaud; the cruisers take the names of Victor Hugo, Jules Michelet, Edgar Quinet, Ernest Renan and Waldeck-Roussau.
The most poetical names are those given to the new submarines. There are to be two Waags among them, but there will also be an Emerald, an Opal, a Ruby, a Sapphire, a Topaz, a Turquoise, a Croix, and a Calypso.—Westminster Gazette.

LOCKING HIS DOOR.

A Philadelphia traveling man, on a business trip through Alabama one night, found himself stranded in a wretched little town with only one shipshod, miserable hotel. His "room" for the night was the end of a hall, with a sheet hung up to screen him from view. In the middle of the night he woke up with his head hanging out over one end of his cot and his feet over the other, while a violent draft was blowing the hanging sheet in all directions.
He called for the housekeeper.
"What do you want with the housekeeper?" came a voice from some where in the darkness.
"I want a paper of pins to lock my door with."

DO DOGS CURE RHEUMATISM?

"Among the curious ideas of the populace," said a physician, "there is a widespread one to the effect that dogs cure rheumatism."
"Only last month a rheumatic patient whom I had treated for three months said:
"Well, doctor, you've done me no good, and I am going to give you up and try a dog."
"He bought a cocker spaniel, and had it sleep in bed at his feet every night. The warmth of the dog undoubtedly helped him, for he is quite well now. But what a superstitious fool he was—to believe that a dog could cure a disease."

IDENTIFYING HIMSELF.

The tall, slim young goddess in the spotless uniform cast down her eyes with a demure smile.
"Yes," she said, "two trained nurses have some amusing experiences that relieve the hardship of our work. Not long ago I nursed a Mrs. Wilson through a spell of typhoid fever, from which, unhappily, the poor lady did not recover."
"Ten days after her death I received by mail an offer of marriage from Mr. Wilson, and, in order to identify himself with me, he wrote after his name, 'husband of the late Mrs. Wilson.'"

DEALT WITH THEM FRANKLY.

Clergyman Outspoken in His Address to Young Couple.

Jack London, before setting out on his world tour in a small boat, was the guest of honor at a dinner in San Francisco.
"My friends have been very frank with me about this tour," Mr. London said at the dinner. "They have told me that I am a poor sailor, that I know nothing of navigation, that I won't get anywhere near around the world, that I'll be wrecked, that I'm a fool, and so on.
"Frankness is a good thing, but sometimes it is rather unpleasant. My friends, frankly reminds me of the unusual address that an eccentric French clergyman made to a young couple that he was about to marry.
"George," the clergyman began, "from the bottom of my heart I congratulate you on the wise step you are about to take. It was sad, indeed, to see you wasting your youth in drunkenness. But all's well that ends well, and I am glad to think that you have had an eternal farewell to drink, for of course, with your prospects, not so much as a weekly glass of beer, but only the bare necessities of life, will be within your means."
"He then turned to the young woman.
"And you, my poor Henrietta, I congratulate most heartily, for it is seldom that girls of your appearance find husbands. Never forget that you ought, by an unchangeable sweetness and a devotion without bounds, to try to make amends to poor George for your physical shortcomings. For you are, I repeat, a real blunder of nature."
"And now, my dear children, I will proceed to unite you in the holy bonds of matrimony."

TOO LONG WINDED.

The inhabitants of the Canary isles, finding themselves oppressed by famine, sent to the governor of Galicia one of their head men as an ambassador. They advised him not to lose himself in long winded talk. He promised and kept his word. He took with him a large number of sacks, and arriving at the town where the governor was on circuit, he opened one of them before him, saying only these words: "It is empty; fill it."
The governor ordered this sack and the rest to be filled with meal, but he said to the speaker:
"You had no need to tell us that the sack was empty, nor that it was necessary to fill it; we should have readily guessed that. Another time be briefer in your talk."—Ben Vivant.

SOME WAYS OF FALLING.

A visitor from another city on a tour of inspection of the public schools went to a West Philadelphia school the other day when the pupils were writing original sentences on the blackboard, and found an opportunity to air his pet hobby of avoiding superfluity in the use of words. One boy had written, "The man suddenly fell down." "What is the need of the word 'down' in that sentence?" asked the visitor. "How else could the man fall?" "Over," promptly replied the boy who had written the sentence. "Backwards," suggested another. "Against a wall," volunteered a third. "Upstairs," said still another. The visitor promptly gave up criticism and was silent during the remainder of his stay.

SURELY THE LIMIT.

A Bangor man, says the Kennebec Journal, in his effort to describe the coldest place in the world, spoke of a shed that was "too cold to keep wood in," and this was the limit until this correspondence came in from Mount Desert concerning the weather down there: A fisherman of Otter rock says a big codfish was so attracted by the warmth of a gasoline heater in his dory that it jumped into the boat and tried to wrap itself around the heater. It froze in a half circle. Jed Jenkins, of Trenton, went to the barn to water his stock. He fell and upset the pail. Before he could step out of the water his boots froze to the floor. He had to take his boots off to get away.

DEFECTS TO THE FORE.

A clever and beautiful girl I know, says Elizabeth Anstruther, author of "The Complete Beauty Book," declares that if there's anything remains about her appearance she always wants to be "in front," so she can keep people from looking at it by interesting them in what she's saying. "If it's beard," she says, "I'm powerless to prevent people's smiles or their pity, one of which is as bad as the other."

HIS FIRST GUESS.

Tommy—Gracious, ma'am! Did they have a fuel famine?

SOMETHING LIKE A LEASE.

Essen Has a Landlord Whose Conditions Are a Marvel.

There is a great scarcity of houses in all the principal cities of Germany, due to the great industrial developments which have recently taken place in most of the German cities, and which make many of the inhabitants of the country flock to the largest towns.
The landlords are reaping a harvest and are getting more and more exorbitant in their demands from the tenants. Such demands do not only imply an increased rental, but are incorporated in the leases as special conditions.
A young married couple recently applied to a landlord in Essen for an apartment in his residence, worth about 200 a year.
Among the conditions of the lease which the couple had to sign was one providing that the tenants should not have children nor receive any children as visitors; receptions or parties should not be given in their apartment often than once a year, and the tenants should come home early every night.
In case the tenants happened to be late they were enjoined by the contract not to mount the stairs without first taking off their shoes, so that the landlord and his family should not be disturbed.

INDIAN MANUFACTURERS.
Maine is to have the distinction of possessing a factory owned and run by Indians. The stenographer or typewriter of the firm is a young Indian girl, a graduate of a high school and business college, who can write both in her native language and in English.—Youth's Companion.

A LIVELY RIDE.

At Manchester, Eng., a newsboy 12 years old, climbed into an auto standing by the curb and began fooling with the levers. The machine suddenly started, and though the lad knew nothing about the parts he stored it safely for ten miles along the highway, followed by mounted police and five other autos.
Then, in turning out for a wagon, the machine jumped a stone wall, ran across a ten-acre field, jumped a ditch, knocked a cow down, and came to a stop in a thicket. It was found free from all injury, but the boy was given 30 days in jail to think it over.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, or indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the troubles in the blood, and the BLOOD CANNOT BE OUT AWAY. The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place seals over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

ANNOUNCEMENT.

REPRESENTATIVE:

We are authorized to announce the candidacy of J. B. SWAN, for representative in the lower house of the state legislature, subject to the action of the democratic party.

J. B. SWAN.

We place before the people of Calloway county this week the candidacy of J. B. Swan, of Swan precinct, for representative in the state legislature.

"Brack" Swan needs no introduction to the people of this county, and naught we could say will in any wise add to his splendid reputation as a citizen or as a public servant. He is a native of old Calloway, a thoroughbred Christian gentleman and is popular throughout the county.

He served his district as magistrate for four years and his record is one of economy and conservatism. He, possibly more than any other citizen, is responsible for the splendid success achieved in this county in the interest of the tobacco association, and is today the county chairman of this organization. He devoted his whole energy to the matter, and when others were indifferent, afraid to take hold, he was hard at work for a principle he believed would give to the toiling masses of the county remunerative prices for their chief product.

He enters the race with a strong personal following and will push his candidacy to win. Consider his claims, and if you conclude that he is entitled to this place pledge him your support and your vote.

The editor of the Ledger receives much inspiration from the daily reading of such splendid editorials as the following from the Paducah News Democrat.

"As a rule the practice of casting bouquets at oneself is unbecoming, still in a spirit of satisfaction, rather than pride, the News-Democrat feels that just a word regarding yesterday's paper will not be amiss.

We are delighted to learn of the wonderful strides in metropolitan journalism being accomplished by this paper. Looking for notices like the above and then searching for the accomplishment is a daily pleasure with us.

"In every community there is always what may be called a faction of anti: people who are in opposition to the dominant forces, who oppose practically everything that is done, criticising every progressive and constructive measure without doing things themselves or proposing any practical way by which improvement of progress may be accomplished."

Woodmen Head Camp.

At the state meeting of Woodmen held in Paducah last week the highest honor within the gift of the members of the organization came to Murray Camp No. 50, when Mr. Rainey T. Wells was elected to the office of Junior Past Head Consul.

After electing officers and deciding to meet at Winchester, Ky., in 1909 the Head Camp Kentucky Woodmen of the World closed its first session last Thursday. The following officers were elected: Junior past head consul, R. T. Wells, Murray; head consul, J. H. Brewer, Louisville; head advisor, Dr. C. M. Hever, Owensboro; head clerk, Charles L. Wyman, Louisville; head banker, W. S. Wilbon, Madisonville; head escort, George W. Thomas, Cadiz; head watchman, George Cruse, Louisville; managers, Adkins Cole, Fulton; Ed Reiss, Louisville; G. S. Dunning, Walton; A. J. Meredith, Ashland; H. H. Wills, Leitchfield.

The Head Grove Woodmen's Circle elected the following officers: Grand guardian, Mrs. George Kirkland, Fulton; grand advisor, Mrs. C. E. Maxwell; grand banker, Mrs. M. C. Rhodes, Wingo; grand clerk, Mrs. J. A. Meredith, Ashland; grand chaplain, Mrs. D. Barnett, Caneyville; delegate, Mrs. Michael Iseman.

Caution.

Imitations have been placed upon the market so closely resembling Alcock's Plasters in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's, for they are not only lacking in the best elements which have made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

Mr. Rodgers, the merchant at Brown's Grove, has sold his stock of goods. The groceries were purchased by Evans & Speight, of Farmington, and the dry goods and clothing by R. C. Butterworth & Co., of the same place. These firms will move the stock of goods to Farmington, where they will place them in their respective stores.

In speaking of the illness of Capt. Miller, the Mayfield Messenger says: "Hon. Tipton A. Miller, who once represented Calloway county in the Legislature was a prominent man in his day in Calloway county and served his people in many official capacities, and his many friends in Graves county will be sorry to learn of his serious illness."

Advisory Board is Elected.

The executive committee of the Tobacco Planters' Protective association met at Guthrie last week. An advisory board was elected at this meeting to take general management of the affairs of the association during the absence of F. G. Ewing. The members of the committee are Mr. Polk Prince of Guthrie, Ky., Dr. J. W. Dunn of Turnersville, Tenn., and Mr. J. B. Jackson, Sr., of Russellville, Ky.

These gentlemen are considered three of the most conservative men that could be placed on this board and their election is received with great satisfaction. They will have entire control of all matters pertaining to the management of the association and will devote their entire time to this work.

Mr. E. T. Bondurant of Rice, Va., vice president of the Planters' Protective association was present at this meeting and made a most interesting address, treating on conditions in Virginia. The board of graders for the association are busy this week grading types that are coming in daily from the different salesplaces for this purpose. Tobacco is beginning to move nicely now and prospects are very bright for this year's work.

Killed by Boy.

London, Ky., March 23.—Harvey Rowe, a four-year-old boy, shot and killed Mrs. Bettie Griffin with a 45-caliber revolver at Attamont, this county, yesterday.

The child says the tragedy was an accident. The woman, however, told before she died that the little boy loaded the revolver and said he was going out in the yard to shoot a chicken. When she protested against this he turned on her, saying: "Look out," and fired. The ball passed through the right thigh and the woman bled to death. The bullet, after passing through the limb struck the old house dog, killing him instantly.

The boy is a son of William Rowe, a coal miner. Mr. Rowe's wife died six weeks ago and the Griffin woman, who lives in Rockcastle county, had come to keep house for the family.

Called to Be Pastor.

The official action of the First Christian church congregation Sunday was to call Rev. S. B. Moore, of St. Louis, to become pastor of the flock, to which he preached March 10, both sermons proving him to be a forceful and learned divine. His answer is expected the last of this week, showing whether he will accept.

Paducah Register.

A movement has been started in Nashville, Tenn., to have the people of that city vote on the saloon question next May. It is said former Senator Carrack has expressed his readiness to lead the fight for the temperance people.

Resolution.

Following is a copy of a resolution introduced by Judge H. B. Holland and passed at the recent Eddyville legislative convention and which we heartily endorse.

Recognizing that properly constructed highways are primarily and indispensably essential to the highest development and industrial prosperity of any country, and believing that it is neither equitable nor feasible to secure them wholly at the expense of the local district through which they pass, but that this cost should be suitably prorated among all interests benefited.

Therefore, be it resolved, by the Sixth Legislative District Convention of Kentucky, in Convention assembled. That we urgently recommend a system of highway improvement, under competent local engineering supervision, embodying the general principle of the modern plan of State aid now successfully practiced in many of the States, and that we favor the still further distribution of the cost of new highway construction by securing from the State its equitable proportion, so that the district, county and State, may co-operate on a fair basis in matter so vital to the general welfare; and we ask, instruct and demand the active support of the nominee of this convention, if elected, in putting into law the sentiment herein expressed.

First correct or nearest correct guess gets the \$100 in gold.

One of the last acts of congress was to pass a bill providing that stamps to the value of ten cents when attached to a letter or package, in excess of the regular postage takes the place of the special delivery stamp. After July 1, all the bother of rushing around to drug stores branch postoffices, and other places in search of a special delivery stamp will not have to be done. When the writer of a letter wants it "special delivery" all that must be done is to attach six two-cent stamps to it, one for the postage and the others to make up the ten cent charge for "special delivery." The postmaster general is required to formulate the rules and regulations, but as law clearly states that it was passed to avoid the necessity for a special stamp for special delivery he will make no changes. The words, "special delivery" must in all cases be written or stamped on the letter or package to which the extra ten cents worth of stamps are affixed.

Carlos McKnight, colored, was arrested last Saturday for whipping a colored woman. He placed with Deputy Williams \$3 for his appearance in Judge Simpson's court Monday. Sunday he decided he would skip his appearance and went to Mr. Rufe Downs and borrowed a horse, stating to the owner that he wanted to attend a funeral at the city cemetery, but instead headed the horse toward the river and was arrested Sunday near Concord and brought back and lodged in jail.

GROUND-HOG CHILLED PLOW

Has Come To Stay.

WELL, WELL, this "GROUND HOG" has come out and has lain in the shade all other plows that has ever been made, it is the STRONGEST Chilled Plow on the market today. Are you looking for the best? Our forefathers used the old wooden mould-board, and called it a dandy, and it was good for that day and time, but in this age of progress and enlightenment we are all looking for something better, not only something better but the best, and now in offering you the

GROUND-HOG CHILLED PLOW

we can show you improvements that are unknown to any other plow on the market. Upon investigation you will find that the interlocking device and the circular ribs on the mould-board double its strength. The frog where the point is bolted on has double the strength of any other. Also the land-side has no long sharp point to break off. Now with all these strong points we offer you a plow that is far superior to any yet introduced. Look at this plow before you buy, it is fully guaranteed.

\$100 ONE HUNDRED \$100 IN GOLD MONEY.

This Sum of Money to be GIVEN to Subscribers of
THE MURRAY LEDGER
Without any Cost Whatever to Them.

Are You Good at Guessing?

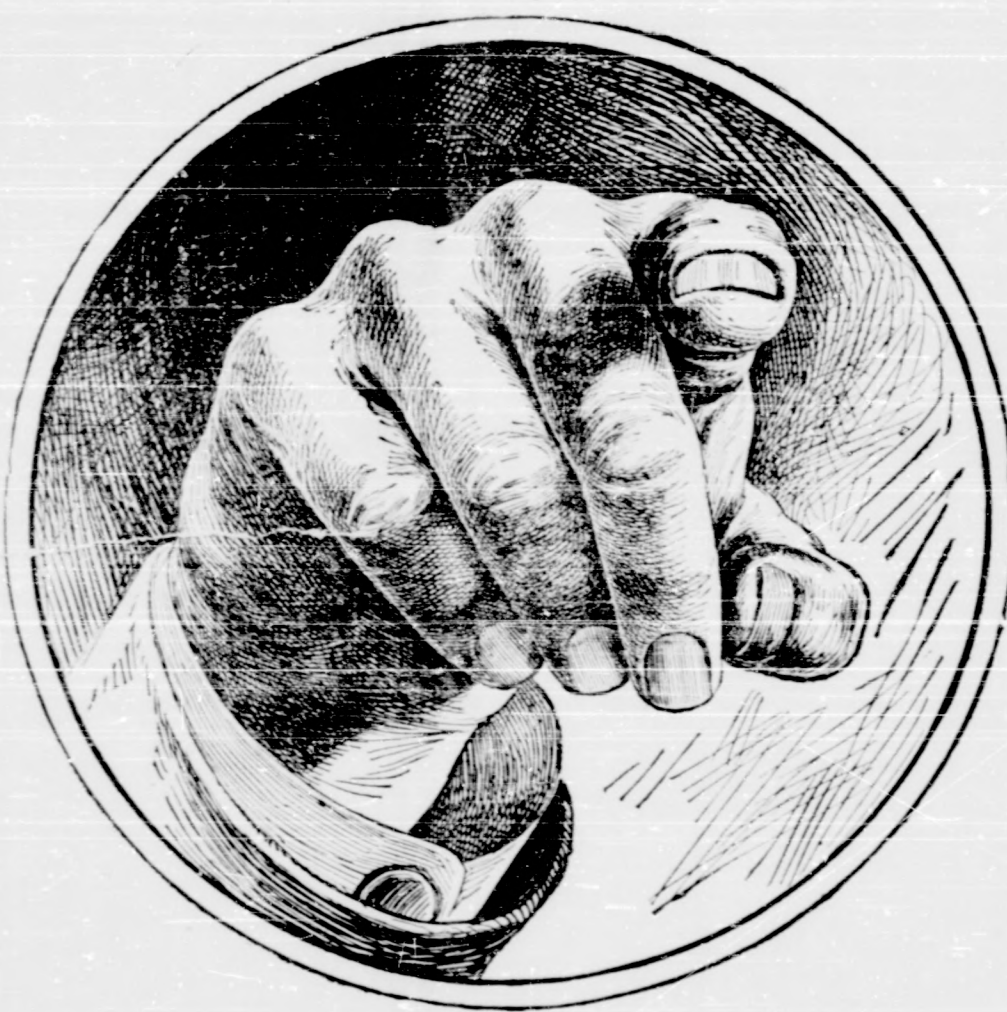

Certificate Of Deposit.

To allay any doubt regarding the genuineness of this contest we publish the following:

March 5th, 1907.

"This is to certify that there has been deposited in the Bank of Murray by O. J. Jennings, editor and owner of the Murray Ledger, the sum of One Hundred Dollars in gold, which has been loaned to the credit of the "Ledger Guessing Contest Fund," and which is deposited for this purpose and is not subject to check for any other purpose. Signed

S. H. DEES, Cashier

Will Be More Than \$100.00

The owners of the warehouse will increase the prizes as stated below which will add about \$75 to the three premiums:

MR. O. J. JENNINGS, EDITOR LEDGER, March 6, 1907.

In order to add more interest to the guessing contest you are running we hereby agree to furnish money to INCREASE the first premium you offer, at the rate of 3 cents for each hoghead over 2000 stored in our warehouse, and will increase the second and third premiums at the rate of 1 cent each for every hoghead over 2000 stored with us; provided you allow our patrons the privilege of making one guess in your contest, for each thousand pounds of tobacco, or fraction thereof, stored in our warehouse. This should cause your readers to become interested in INCREASING the amount of tobacco to be sent to our warehouse.

We presume every farmer understands that he can have the prize to send his tobacco to us to be stored, no matter where it is prized.

Respectfully,
LONG, FRUTEMA & CO.

Can You Use This Money!

Here Is the Way to Get It.

The person who guesses the correct number or nearest correct number of hogheads of association tobacco that will be stored in

The Peoples Tobacco Warehouse,

(This is the one operated by Long, Frutema & Co.)

by November 1, 1907, will be presented With \$75 in gold; the person who makes the second nearest correct guess will receive \$15 in gold, and the person making the third nearest correct guess will receive \$10 in gold.

Conditions.

All guesses must be dated and signed by the person making them, and THEY MUST BE LEFT AT THE LEDGER OFFICE. No employee of the Ledger office, or the warehouse can make a guess. All guesses must be received at this office on or before Saturday, August 17th. The guesses will be polled by a committee of county officials and the premiums awarded Saturday, November 2nd. If two or more guesses are the same and are the correct guesses then the person who made the guess at the earliest date, as shown by the date, will be entitled to the premium.

How to Secure the Guesses.

Every person who pays \$1 for a year's subscription to the LEDGER, whether old or new subscriber, will be entitled to TWO guesses. Every person who stores as much as 1000 pounds of tobacco in the "People Tobacco Warehouse" will be entitled to ONE guess, and for each additional 1000 pound, or fraction thereof, will be entitled to ONE additional guess. More plainly expressed, you get ONE guess for each 1000 or part of one thousand pounds stored in this warehouse.

Make Your Guess Early as Possible.

\$5,000 Reward

will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform or their derivatives in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with.

Dr. Miles' remedies cure by their strengthening and invigorating effect upon the nervous system, and not by weakening the nerves.

"I consider that there are no better remedies than Dr. Miles' Nerve, Anti-Pain Pills, and Nerve and Liver Balm. We have used them for years, and recommend them to many others. My wife is using the Nerve, and considers it the best medicine in the world. A lady friend of mine, who was almost a total nervous wreck, through my earnest solicitation has used several bottles of the Nerve with wonderful results. Wm. C. H. M. D., Salt Lake City, Utah. Wm. C. H. M. D., Salt Lake City, Utah. Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 50 cents. Never sold in bulk. M. J. Medical Co., Elkhart, Ind.

LONG-LENT WANT SUPPLIED.

Antimale Social Club Evidently Just the Thing Needed.

Miss Antique (ancient maiden with modern ideas)—We had such a glorious meeting this afternoon to organize the Antimale social club. In response to my call over 50 beautiful and charming young ladies presented themselves, and all were enthusiastic over my plan of escape from the thralldom of men. The first entertainment is to be given next Monday night, and not a man is to be allowed to enter. I am to deliver an address, Miss Highnote is to sing, the Misses Ivory are to play, Miss Trotter is to give recitations, the members of the art club are to bring specimens of their work, and we are to have a perfectly delightful time. Can't you come?

Frank—I have an engagement for Monday evening.

Same Friend (the following Tuesday)—Well, I suppose there was a noble feast of reason and flow of soul at the Anti male club last night?

Miss Antique—Um—er—the fact is, at the last moment I received an invitation from Mr. Oldtime to go to the theater.

"How did the club get along without you, its organizer, I wonder?"

"I heard this morning from the janitor of the hall that there wasn't anybody there."—N. Y. Weekly.

CONCEIT.

Gerardine—People say that my heart is in the right place.
Gerard—I wonder how they know that I've got it?

LONGED FOR PEDIGREES.

Some curious letters are received by men who make a business of searching for pedigrees. For instance: "I am a plumber and gas-fitter who is out of work. My stomach is empty, but in my art is the blood of noble birth. I claim the family title and tenements which I do not be denied the same." A clerk writes: "I have long suspected that I am of high birth. People tell me that I have manners above my station of life. My photograph herewith shows that I have an aristocratic cast of face, and will, perhaps, be a clue to my ancestry. I do not ask for fortune, but I aspire to the pride of race."

SAVED FROM SNAKE BITE.

An instrument called the "snake-bite lance" has been introduced in India with splendid results. It is being widely distributed by the authorities to police outposts in Bengal and Assam, the central provinces and united provinces, and also to village officials by some of the native states in upper and central India. A report by one person is to the effect that he had saved the lives of 20 persons bitten by cobras and kraits within the last year by the use of one lance. The use of this simple instrument may be the means of saving thousands of lives annually in India, and hence will prove a great blessing.

"CONSPICUOUS BY ABSENCE."

Tacitus, the great Roman historian, was the originator of the phrase "Conspicuous by his absence," when, describing the funeral of Junia in his Annals, he said that the images of her famous kinsmen Brutus and Cassius shone by their absence. Lord John Russell popularized the phrase in England in 1850 by saying of Lord Derby's Reform Bill, "One provision is conspicuous by its presence, another by its absence."

THEN CHANGES HER MIND.

"Woman's a queer creature," said the bachelor. "When she will she will and that's all there is about it." "But," remarked the youth who was once engaged, "sometimes she merely says she will."

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.
Fill a bottle with water and let it stand twenty-four hours; a sediment or settling indicates a unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, cures every ailment in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and seething pain in passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon reflected. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. W. C. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Cures Blood, Skin Diseases, Cancer, Greatest Blood Purifier Free.

If your blood is impure, thin, diseased, hot or full of humors, if you have blood poison, cancer, carbuncles, eczema, rashes, eruptions, itching, rising and bumps, scabby, pimple skin, bone pains, catarrh, rheumatism or any blood or skin diseases, take Botanic Blood Balm (B. B. B.). Soon all sores heal, aches and pains stop and the blood is made pure and rich. Druggists or by express \$1 per large bottle. Sample free by writing Blood Balm Co., Atlanta, Ga. B. B. B. is especially advised for chronic, deep seated cases, as it cures after all else fails.

Harris & Miller, auctioneers prize your tobacco at the regular association price 65cts, and also advance as much money on your tobacco as any other prizer will at 6 per cent. and also haul it from barns to Murray free of charge, and if you people will bring us your tobacco we will do our best to give you satisfaction, and give every man duplicate of his sales showing the number of lbs and how many pounds in each hhd, whether good leaf or low leaf or lugs. Rept. HARRIS & MILLER.

To Administrators and Guardians of Calloway County.

The records in the Clerk's office show that quite a number of administrators and guardians have not settled for a long term of years. The law requires that you settle every two years or oftener if required by the court. If you have not settled in the last two years this is a warning to you to make settlement at once, otherwise I shall make an order to be served on you by the Sheriff, which will be of considerable cost to you. Respectfully,
A. J. G. WELLS, J. C. C. C.

"HOP" WAS TOO SUDDEN.

Colored Gentleman Certainly Had Great Provocation.

"Yes, judge," said the old colored man who was arraigned for disturbing the peace and asked to plead to the charge. "I reckon I've guilty of dat charge, but dar am smthin' to be taken into consideration. Yes, sah, I had a raw wild Elder Bebo, of the church, and mebbe I dan frowed him down a little too hard, but I had de biggest kind o' provocation. Does yo' know what dat pissen did, sah?"

"I do not," replied his honor, "but you may relate."

"Well, sah, I was in my pew in church and blosin' de land for his goodness and about to pray for him and at dat my lottery ticket hit a thousand dollar prize when de elder come along mighty sudden and hops on to me."

"How hopped?" asked the court. "Jus' den told me dat he had figgered on and found dat I owed thirty-seven hundred dollars pew rent, and he wanted it all right down in a hunk to buy tar to stop up de cracks in de floor. Dat's de way he hopped on to me, sah, and den took my breath away."

"I owe dat pew rent, fudge, and I hain't gwine to deny de same, but de suddenness of dat hop jest took my breff away and de fast thing I knowed I had de elder on his back out doors and wasn't carin' two cents whosider de land sent plenty of rain or let all de watermillions shrivel up on de vines."

EXPERT TESTIMONY.

"No," said the beautiful girl, "I cannot be yours."

"Why not?" he demanded with a good deal of dignity.

"I don't think it would be wise for me to become the wife of a man who please don't ask me to explain it. I do not wish to hurt your feelings."

Folding his arms across his breast and assuming his proudest look, he said:

"I may resist that you finish what you were going to say."

"Well, then, if you will have it, I am afraid you have an exaggerated ego. The next time you ask a girl to be your wife don't do it as if you thought you were conferring a favor upon her."

SAFEST.

The sentimental and lovesick youth stood gazing at the round, romantic moon.

"Yes," he confided, "the idol of my heart resides on yon hill. To-night I shall serenade the exposure of my affections as gallants were wont to do when knighthood was in flower. Now, what instrument do you think would be the most appropriate?"

"Well," replied his practical chum, "if I were you I should serenade her with a phonograph."

"What? A phonograph? Why, a phonograph is nothing like as romantic as a guitar."

"Yes, old chap, but you can start a phonograph and then run to the toll tinders before the shooting begins."

WHERE NEATNESS HURTS.

The floor was so well waxed the visitor was afraid to walk on it. The scattered rugs shone with cleanliness. Fresh curtains hung at the windows. The window panes gleamed. The mirror glittered, it had been so well polished, and when he finished his cigarette one of the sisters pushed forward a small china saucer for his shoes.

"I don't want you to put them in the silver one," smiled she, "because it has just been cleaned and polished."

"Is this your cleaning day?" he asked, shifting what he was afraid was a dusty foot of the well-swept rug on to the floor.

"Yes," she replied, "why?"

"Because," he answered, with a sigh, "I want to know so the next time I come I can come on the day before or the day after."

THE WINGS OF TIME.

Moths! was walking in his garden. "My goodness," he exclaimed suddenly, "there's another flower on that century plant! Why, it seems out yesterday since I plucked a blossom from it."

He walked slowly toward an oak tree 200 years old which he had tenderly raised from an acorn.

"Ah, me," he mused, "how time flies!"—Harper's Weekly.

Soap Factory Burned.

The Beaumont Soap Factory, of Mayfield, was completely destroyed by fire last Saturday morning, entailing a loss of \$18,000 or \$20,000 with about \$5,000 insurance. The fire when first discovered was strongest in the north end of the building but the exact origin has not been learned.

The entire plant was the property of Thomas J. Murphy, of Mayfield, he having recently purchased it for \$4,000. The building was a three story frame structure with a floor space of 20,000 square feet. The ground consists of five acres, building and all the machinery originally cost \$48,000, but its value before burning was estimated by some

of the old stockholders at about \$20,000 but many others think it much more valuable.

Old Homestead

Fertilizer, highest grade Fertilizer made, highest in potash nitrogen and ammonia. Sold by L. E. Radford and W. P. Dulaney at Kirksey, Ky., they buy by the car load and can sell at very satisfactory prices. Buy from them if you want the best goods on the market. They will treat you right.

Callaway Tobacco.

M. V. A. McCullon, a prominent farmer of near Kirksey, Callaway county sold two loads of tobacco here Wednesday to Mr. Jack Lewis one of our local buyers for the very remarkably high price of \$10.10 for his leaf and \$5 for his stubs. These are the highest figures so far paid on our local market for loose tobacco and Callaway county has the distinction of receiving these very high prices. — Mayfield Messenger.

7,000 Hogsheads Graded.

J. T. Myles has returned from Guthrie where he went to grade tobacco for the Association. 2,000 hogsheads were graded making in all about 7,000 hogsheads already graded for the association. Mr. Myles says that he finds the western district tobacco all very good with the exception of Graves county tobacco which appears to be damaged by worm cuts and faulty in many ways. — Mayfield Messenger.

PREPARE THIS YOURSELF.

For those who have any form of blood disorders, who want new, rich blood and plenty of it, try this: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good pharmacy can supply the ingredients at small cost.

This is the prescription which, when made up, is called "The Vegetable Treatment," by others, the "Cyclone Blood Purifier." It acts gently and certainly does wonders for some people who are sickly, weak and out of sorts, and is known to relieve serious, long-standing cases of rheumatism and chronic backache quickly.

Make some up and try it.

Harry Hill.

This fine horse, known as the Newt Roberts horse, will make the present season at my barn four miles east of Murray and one mile west of Cherry, on Concord road, at \$8 to insure a living colt.

HARRY HILL is a combined saddle and harness horse, blood-colored bay, 16 1/2 hands high and a thoroughbred. ELI ALEXANDER, Owner and Keeper.

Fined Fifty Dollars.

O. H. Phelps was fined in Esq. Larkin Jones' court last week on a charge of detaining, against her will, Mrs. Lola Reynolds. The charge was reduced to provoking assault and a fine of \$50 placed on the accused. Both parties are well known citizens of the Kirksey section.

Bro. Jno. R. Schroeder will lead the prayer meeting on Thursday evening at 7:30.

The sermons for Sunday morning and evening are not to be doctrinal but practical. The morning subject means this, what kind of a life will you live if you are a saved man? What are you willing now to do that your church and place may be better. You, choir member, steward, trustee, Sunday school teacher, high private, preacher, you?

The evening subject is this: What are you willing to do in order to be a saved man if some one will point you the way?

Fine Eggs For Sale.

I have eggs from pure strain Golden Face Wyandotte and Brown Leghorns for sale at \$1.00 for 15 fresh eggs. I. T. MANN, Murray, Ky. R. F. D. No. 6.

"Preventics" will promptly check a cold or the Grippe when taken early or at the "sneeze stage." Preventics cure seated colds as well. Preventics are little candy cold cure tablets, and Dr. Shoop, Racine Wis. will gladly mail you samples and a book on colds free if you will write him. The samples prove their merit. Check early colds with Preventics and stop Pneumonia. Sold in 5c and 25c boxes by Dale & Stubblefield and H. D. Thornton.

Can you use \$100 in gold? The Ledger has that much spare change to give some one. Read how to get it.

Brookdale Boy Baron Beautiful.

These two well known horses will stand the present season of 1907 at our stable east of depot on Concord road at \$10 for Brookdale Boy and \$15 for Baron Beautiful to insure a living colt.

We want to ask our friends to see these horses this season and know that they will make the season regardless of reports circulated to the contrary.
