OUR JUNIOR HIGH SCHOOL

We are often asked to answer questions through the columns of the Fulton Advertiser as to the differences between the Junior High School and the high school. "What is the purpose of the Junior High School?" "What are some of the differences in the education of the Junior High School?" "What are some of the advantages that the Junior High School offers?"

For many decades, educators have been in favor of an educational program that would create a bridge between the elementary school and the high school. The purpose of the Junior High School is to prepare the student for the full work of high school, to equip him for future work, and to train him for useful citizenship.

The escape valve

When General Baden-Powell announced the Boy Scout movement, he was satisfied that many people throughout the world would respond to it. While many were not aware of the Boy Scout movement, there were a number of young men who knew of its existence.

The escape valve

The escape valve was first introduced in the United States in 1895. It was then known as the "air valve." The escape valve was used to allow air to escape from the boiler when the pressure became too high. The escape valve was designed to prevent the boiler from exploding.

A PLEASANT CALLER

Our old friend, J. W. Porte, was a popular advertiser in Fulton and harvested a large number of inches with his letter. He is the kind of advertiser who likes to have his letter read. He always has something to say, and we are glad to have him back.

ANOTHER SAD HOME IN FULTON

Another home was made sad this week. Mrs. Edward Potts, of the town of Waterford, was visiting her father in Waterford. Mrs. Potts was preparing to go to High School, but she found that she could not go because she had to take care of her family.

FATHER'S SAD DAY

A father's sad day is when he has to make a decision about his child's education. There are many parents who have had to make this decision, and it is always a difficult one.

CONFERENCE SEEKS AMERICANS OUT TO OPINION EVIL.

OPINION CONCLUDES

WASHINGTON, D.C.—It will now be a terrible thing, was the report made by Special Assistant to the Secretary of Homeland Security, Mr. Ewell, who has just returned from negotiations with the Conference of American Ministers and Foreign Foreign Ministers held here in the wake of the recent outbreak of the United States.

"We must make it clear to the American people that the United States is not going to continue to tolerate the actions of those who seek to undermine our country," said Mr. Ewell. "The United States will not tolerate any attempts to subvert the democratic process."
