VOTE for JUDGE

J. E. WARREN

for

CIRCUIT JUDGE of the FIRST JUDICIAL DISTRICT

His Honesty and Ability Never Questioned.
Endorse His Splendid Record.

DOES IT PAY TO BE CAUTIOUS?

Many people of Kentucky have fallen into the habit of accepting reports, with reference to some candidates for public office, without making an investigation. This habit is one of the things that is causing people to lose confidence in their government and, often results in the selection of the wrong man to hold public office.

During the present campaign, you have heard it reported that Judge J. E. Warren is too cautious and that his deliberations are costing the taxpayers a great deal of money. In order to satisfy ourselves as to the truthfulness of these reports, an investigation was caused to be made of his record. We soon learned that the greatest item of expense in operating the circuit court is the jury fees. In order to compare jury fees paid out for jury service to that of other judges, the investigator went back to the year 1907. It was found at that time that by an act of the state legislature, the juror only received $2 a day for his services.

Then the investigator checked for sixteen terms of court, which cover a period of more than five years. Then, likewise, he checked for a similar period of his successor up to the beginning of Judge J. E. Warren's administration. Then the investigator checked five years during Judge Warren's administration that the legislature had increased the pay for jurors from $2 to $3 per day and the legislature alone was responsible for this increased expense.

His Honesty and Ability Never Questioned.

Endorse His Splendid Record.

This paper believes that everybody should have a fair deal and with this view, we gladly publish the results of the investigation made by a public official who is not interested in this race.

As further proof that it pays to be deliberate, the investigator discloses that Judge Warren's disposition of cases compares most favorably with that of his predecessor. And this fact can be determined by any voter interested in the expense and operation of the circuit court. This fact can be determined by any voter interested in the record of the man who has been serving in this official capacity to determine whether he has been faithful to his trust. Facts can be obtained without cost.

Thus this paper believes that everybody should have a fair deal and with this view, we gladly publish the results of the investigation made by a public official who is not interested in this race.
