## Over Million Pounds Association Tobacco Delivered in Fulton

Receipts of tobacco at the Association barn last week showed a decrease as compared with the week before, only 138,225 pounds being delivered. This makes the total for the season 1,051,980 pounds, which, considering the backward season, is not surprising.

The registrations for the week ending March 6 show a decided increase over any week of the present season, there being deliveries registered for nearly the capacity of the barn for each day.

The past week was the best of the season from the viewpoint of the weather conditions for ordering the tobacco, and some farmers have found it necessary to re-hang their crop because of its being too high for delivery.

Farmers seem to have learned that tobacco that is not in proper condition is apt to be refused by the management, and are being more careful as to its condition before hauling to town.

Should the weather conditions continue favorable there is certain to be a heavy delivery in the immediate future.

The highest priced tobacco delivered last week was B2D26 valued at \$32.00.

The new barn is handling the deliveries in a more expeditious and satisfactory manner than was possible in the old building and is greatly appreciated by the farmers.

Registrations for this week covered such places as McConnell, Dukedom, Union City, Crutchfield, Water Valley, Lynnville and country in between. This is the most widespread delivery of the season, so far, and indicates that the favorable weather conditions have been widespread.

### \$400,000 MAILED TOBACCO GROWERS

#### Final Payment on Twenty-Six Grades of 1922 Crop

Many of the members of the Dark Tobacco Growers' Association were made happy this week on receiving checks covering a final payment on 26 grades of the 1922 crop, which include the 'A' family, a part of B1D, B1G, C1H and three lower grades. About \$400,000 is the total, says a special from headquarters, and is in full payment of said grades.

At times it looks like the mill of the sales force of the Association is grinding slowly, but a little patience on the part of the members is finally rewarded.

If the members of the Association expect their organization to prosper to its fullest extent they will plant less tobacco this year and diversify their crops. It will not only help to maintain prices but will tide the grower until crops are sold.

The Association is a great organization of the best farmers in the tobacco belt. They are all honest, hard working tillers of the soil, but occasionally a weak-kneed brother gets in a "pinch" and forgets his allegiance to the association, whereas, if he had raised a "tide-over" crop he would have remained a staunch and loyal member.

The Dark Tobacco Growers' Cooperative Association is one of the big institutions of Kentucky and Tennessee. It is the salvation of the tobacco growers' prosperity, and we hope to see the time when crops will be sold before others are grown. When the grower can get all of his money sooner and meet his obligations promptly. Nothing will bring about such conditions quicker than diversification.

## Interesting Meeting Promised For March 10th

CHAMBER OF COMMERCE

All who attend the Chamber of Commerce meeting Tuesday night will be well repaid for their visit. It will be the first meeting over which the newly elected officers have presided and President Shankle promises to make the proceedings crisp and snappy. There will not be a dull moment from beginning to closing.

We understand that the hospital committee will report favorably on their work, and other committees will have interesting reports.

There are so many matters of interest to come up at the meeting until we will not attempt to enumerate them here. You may rest assured that the evening's program and order of business will be of intense interest to each member. Make your arrangements now to be present.

## Final Plans Will Soon Be Announced

FULTON MERCHANTS WILL PUT ON BIG TRADES DAY CAMPAIGN

Preparations are going forward in Fulton for the biggest Trades Day campaign ever dreamed of in a city of this size. Interest is intense due to the fact that practically every business firm has signed up to make the campaign a glorious success. In magnitude and value giving, the spring campaign will far outclass the fall campaign when thousands of people visited Fulton to take advantage of the low prices on all kinds of merchandise. A review of the accomplishments of the committee who has the Trades Day campaign in hand, is unnecessary at this time, when we think of past achievements, a record which will be hard to surpass.

Fulton's ideal location gives easy access to the buying public for a radius of fifty miles surrounding. Fulton is endowed with a progressive set of business men, united with the sole purpose of making this the trading center for economical buyers of quality merchandise at prices competitors dare to compete with.

People who did their fall trading in Fulton will come again. The splendid values, the courteous treatment, and big surprises of the last Trades Day campaign, remains a pleasant memory.

The opening of spring finds Fulton stores well stocked with the season's choicest merchandise of irreproachable quality, temptingly priced.

The buying public will realize what excellent values they are as soon as they see them.

### HOGS GO TO HIGHEST PRICE IN FOUR YEARS

The highest hog prices since July 1921, were recorded at the National Stock Yards in St. Louis, last week, when one load of butchers sold for \$12.00. Hogs have been going up steadily in sympathy with corn.

## Beware the Ides of March

### Railroad News

Freight traffic on the railroads is running at the greatest lever ever reported for this season of the year. For the week ending February 7, loadings on revenue freight totaled 928,244 cars. This was an increase of 32,189 cars above the preceding week and 22,227 cars above the same week two years ago.

For the first six weeks of 1925 car loadings totaled 5,799,237 cars, an increase of 178,950 cars or 3.4 percent above the corresponding period last year and 290,506 cars or 5.7 percent over the corresponding period in 1923.

For the week ending February 7, increases over the preceding week were reported in the loadings of miscellaneous freight, merchandise and less than car load lot freight and also in the loadings of grain and grain products, coal, forest products and ore. Decrease was reported in the loading of live stock.

Robert Witt of the Division Office has been temporarily transferred to the office of the Special Accountant for the new Edgewood Cut-off line, which office is now located in Fulton.

General Manager Patterson of the Illinois Central, while passing over this division the first part of the week became ill, and was attended by Dr. H. Luten when his car arrived at Fulton. We understand Mr. Patterson's illness was not serious however.

### Andy Gump a Passenger on The Floridan

Sidney Smith, originator of "The Gumps" cartoon, which is shown in newspapers throughout the country, was a passenger on The Floridan, the crack train of the Illinois Central, February 3rd, en route to Florida, and Mrs. Smith was a passenger on the same train February 17th, when she went to Florida to join her husband. On February 2nd Mr. Smith in his cartoon of Andy Gump, spoke of Mr. Lanigan securing him a drawing room, and that he would get him a private car if he desired. This had reference to Mr. Lanigan, General Passenger Agent of the Illinois Central, who is a close friend of Mr. Smith.

Mr. J. J. Pelley, Vice-President of the Illinois Central, together with other General Officers, was in the city during the week.

(Continued on page 12)

### Orpheum Theatre

W. LEVI CHISHOLM CELEBRATES HIS EIGHTEENTH YEAR IN BUSINESS TODAY IN FULTON

In celebrating their 18th anniversary today in the photography business in Fulton, Mr. and Mrs. Chisholm could not have selected a more pleasing offering for their patrons than Buddy Roosevelt in "Batting Buddy." Scenic shots of surpassing natural beauty feature the photography of this production. The picture has a considerable part of the action taking place in a picturesque western country that abounds in rugged mountain scenery, and the director was particularly fortunate in having a wealth of artistic backgrounds to choose from for the "locations." That these natural scenic resources were fully taken advantage of is readily discernible to all who see the picture. Scenic beauty, however, is but a very minor element of "Batting Buddy," as rated in comparison with the picture's numberless thrills and highly exciting melodramatic action, for it is essentially a tale that has been constructed primarily for speed, action and punches—and it has all of the foregoing in generous measure.

#### Remarkable Success

The past eighteen years of Mr. Chisholm's activities in the photography business in Fulton has been a glowing success. On March 6, 1907, he started in a building on Lake street where he entertained his patrons with the best productions obtainable at that time. Not satisfied with his location he purchased a large business block on Fourth street and converted it into an up-to-date show house, where he has enjoyed a splendid business ever since.

Nothing in recent years has had such a remarkable development in the entertaining line as motion pictures. The reason is because they both entertain and educate, and the prices are exceedingly reasonable compared with other forms of amusement; and Mr. Chisholm has always kept abreast of the times in giving his patrons the very best productions from film.

An important feature of Mr. Chisholm's success is the fact that Mrs. Chisholm has assisted him and her pleasant, smiling face in the box office has sold many hundreds of tickets, that in all probability would not have been purchased. She is a helpmate indeed.

There is no more popular

place in Fulton than the Orpheum theater in the business district on Fourth street.

## Thomas G. Rucker Passes Away

After an illness of only a few weeks, Thomas G. Rucker, highly esteemed and well known citizen of Fulton passed away Wednesday morning, March 4th, at the home of his son, Lee B. Rucker on Eddings street.

Mr. Rucker was a native Kentuckian, born at Henderson in 1851. On March 10th, 1874, he was united in marriage to Miss Belle Brown, of Owensboro, Ky. He removed to this city 22 years ago. In early life Mr. Rucker united with the Methodist church and remained a devout christian until he was called to his reward.

When he died, full of years, and ready to be gathered to his fathers, the grief that was felt over the close of his long career was widespread and sincere. His best monument will be the good report that he has left behind him; in the community in which he had lived for many years.

There was a daily beauty about his life which won every heart. In temperament he was mild, conciliatory and candid; and yet remarkable for an uncompromising firmness.

He was a devoted husband and a kind and indulgent father. But the greatest of all was he a man. His cheerful, helpful life; his devotion to his wife and family and kindness to everybody will long linger as a fragrant memory.

Besides a devoted wife the deceased is survived by three children: Mrs. Seldon Trafton, Jim Rucker of Houston, Texas, and Lee Rucker of this city, who have a large circle of friends to join us in deepest sympathy.

The funeral services were held at the First Methodist church Thursday morning at 9 o'clock, the Rev. J. V. Freeman conducting the services, and paying a beautiful tribute to the memory of the deceased. The music rendered was such as to soften all hearts and moisten all eyes. The casket was covered with the most beautiful floral designs. The body was taken to Henderson for burial.

## ROAD MEETING

An interesting meeting of the Road Committee of the Chamber of Commerce was held Tuesday night at which Judge Nugent gave out the most welcome news that the contractors would start work on the Fulton-Hickman road immediately after the letting of the contract which will occur on April 11. This contract is for Section A, which includes the road from Fulton to Cayce and includes the section of the road from Fulton to Enod church. The contractors are Ellis Brothers, and they state that they will have the dirt and bridge work done in 90 days from the day they start work.

Section B will have to be re-advised as the Federal Engineers have made a re-survey of that part of the road and decided that the new line should follow the State Road from Cayce to Hickman. This is necessary to avoid any chance of lawsuits in the future, though the contractor whose bid had been accepted on the original survey was willing to accept the changes without further advertising, and was ready to begin work immediately.

Chairman Browder of the Road Committee stated that the officials of Obion county had called a meeting and had decided to raise a fund of \$2,500 for a campaign fund to educate the people of Obion county to the needs of road bonds being voted, and their roads put in proper condition.

Houston Stubblefield and Lon Pickle talked on the subject and explained that the 16th district of the county had been asked to raise \$100 as its part of the fund, and reported that they had raised \$29.00 that afternoon, and requested the Chamber members to assist them in making up the balance.

After a motion by Chairman Browder that the Chamber go on record as favoring the movement and requesting the members to contribute to the fund, the response was so hearty that the secretary was unable to register the names as rapidly as they were called. A total of \$150 was subscribed within a few minutes.

This fund will be administered by Messrs. White and Rusk of Union City and speakers will be furnished by the Fulton Chamber of Commerce whenever asked for by the Obion Committee.

The roads that are to be built first are one from Fulton to Harris, and Harris to Union City. Both these roads will become a part of the Mississippi Valley Highway.

County Engineer Roper then asked that the Chamber assist the county authorities in inducing the country people to clean out the brush and trees from the road sides, as wherever the shade was thick the sun could not dry up the mud sufficiently to make it possible to keep the roads in condition. This will probably be done by Chamber members making talks to the farmers at a later date when the roads are sufficiently dried up to permit parties to go out into the country. However, this will be left to the road committee members to work out later.

There was a lot of enthusiasm shown in road questions and the members of the road committee seem to have about as much work laid out for them as they will be able to handle for some time to come. The enthusiasm shown should make their work a big success, and it is confidently felt by its members that this year will be the most progressive ever known by Fulton county.

With the 350 members of the Chamber of Commerce, together with their farmer friends all working and thinking along the lines of better roads, it will be almost impossible to fail.

**NEW DAIRYMAN AND  
PROGRESSIVE FARMER**

C. L. Drysdale, one of Fulton county's progressive farmers, has entered the dairying business and is supplying his customers in the city with rich milk and cream. Mr. Drysdale believes in diversification on the farm and his success is due to his good management. This year he has 45 acres in wheat and will plant 15 acres in cotton, some corn, tobacco, soy beans, alfalfa and other productive crops to rotate. He also raises good hogs and cattle, and is a breeder of fine stock.

Last year he purchased the Boyd Browder place of 70 acres, near Palestine, where he resides now. This place is only a short distance from his old home place of 80 acres. Mr. Drysdale believes that the one crop farmer is doomed for disaster and we heartily agree with him.

**FOR RENT OR SALE**—115 acres on State road; highly improved. Money rent expected. Will sell on easy terms. See Jno. C. Browder; Herschel T. Smith.

**EXPERT CHICKEN GROWER  
A PLEASANT CALLER**

J. W. Matthews, of Pierce Station, an expert chicken grower, was a pleasant caller at The Advertiser office Saturday. After complimenting the paper sky high and handing us over a subscription, the subject drifted to the chicken industry. For many years Mr. Matthews has raised chickens and probably has the finest 50 volume library featuring the business in this vicinity. His chickens and eggs bring top-notch prices because he uses scientific methods in production. He has his regular customers and seldom misses coming to town once or twice a week. He likes all kinds of chickens, but says he will feature buff orphingtons in the future. His success has been due principally to cleanliness and mixed feeding. He complains a little of the high price of feed-stuff, but says it takes feeding to get the best results. "There is a wonderful future for the poultry industry," says Mr. Matthews, and there is no danger of any one making a mistake by going into the business on a big scale.

**NEW RADIO WRINKLE**

A new wrinkle in radio-fan-ism was shown in Fulton last Tuesday, when the construction train of the Western Union side-tracked in Fulton. As the cars were being switched on to the sidetrack just back of the Chamber of Commerce it was noticed that there was some sort of a frame on one end of the coaches, and speculation was rife as to what it might be. Later when the train was "spotted," passersby discovered that the queer thing on the end of the car was a support for a radio aerial, and that a similar support had been raised on the farther end of a second coach, and the wire stretched.

The men composing the party are thus able to "listen in" at any time and their evenings are thus made much more pleasant than if they had no such means for pleasure. The average construction man has, or formerly had, very little chance to come in contact with the pleasures of life while living in camp, but the radio has made it possible for almost any one to hear all that is going on in the world without being absent from his work. Great is radio.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

**Good Market For  
Dairy Products**

The farmers living around Fulton have gradually been brought to see that by selling their cream to the local buyers they are not only receiving more money for their product, but are at the same time saving time and money that was formerly spent in making their shipments to the various dairy plants located in other cities.

Whereas less than a year ago almost every farmer who produced any quantity of cream shipped his product direct to some creamery, they are now delivering it to stations located in Fulton that pay them the same price as they would receive at the creameries. Inquiry shows that formerly, at least 85 per cent of the farmers shipped their cream, while at the present time there is but one lone shipper from Fulton. The representatives of the two creameries located here are doing a lot of propaganda work, trying to induce the farmers to milk more cows, and to assist them in eliminating the unprofitable ones by making tests of the whole milk to ascertain if the individual cow is earning her board. Where this is not the case it is recommended that the cow be sold and a more profitable one bought, or if this is not possible, to sell the cow and stop the loss in feed.

While it has not been possible to induce many to increase their number of cows, the elimination of the "boarders" has been quite noticeable, and the idea that it can be made profitable to milk the right kind of cows is gradually being taught the farmers. The idea of receiving a certain amount of hard cash each week which may be utilized in paying bills, buying needed equipment for the farm and the home, makes an appeal to the farmer that is being appreciated more and more by them as they see the benefits they are receiving.

The work of the representatives of the creameries is fully appreciated by the people of Fulton, because it is not known, but these men are doing a real service to the farmers in supplying them with information on feeding and care of cows, how best to handle the cream, the advantages of separators, and any number of facts that they may require for their guidance. While this is done largely from a selfish standpoint, the real benefit to the community is just as great as though it were caused by another motive, and the entire farmer contingent as well as the merchants of Fulton are deriving the benefits.

If the farmers could be induced to go into the dairying business on a little more extensive plan there is no possible doubt that the ultimate end would be that some of the big creamery companies could be induced to locate a creamery in or near Fulton, thereby bringing a much larger amount of cash to both the farmers and the merchants.

Another very desirable feature of this plan would be to educate the farmer as to the benefits of a more diversified farming and the increasing of the fertility of his land by the use of the larger quantities of fertilizer that he will have at his disposal. Competent authorities claim that every farmer should, as a matter of business, milk as many cows as he can feed in order to help tide over the time between crops, when there is little or no income from that source.

**HOSPITAL OPENING AT  
MARTIN A GREAT SUCCESS**

In spite of a heavy down-pour of rain nearly all day, the opening of the Weakley County Hospital at Martin was a great success.

A conservative estimate places the attendance at 2,000. The Hospital is a \$50,000 institution and is a great credit to Martin and to Weakley county and to those who were instrumental in its construction and equipment.

The Hospital is now in full operation. Patients are being received daily and the staff has settled down to the regular routine of business, the caring for the sick.

## Kentucky Briefs

Cave City—Homer Collins is in Chicago to go on the stage and tell how Floyd Collins, his brother, lost his life in Sand Cave, Ky.

Frankfort—Suits were filed in the Franklin Circuit Court by three oil companies to compel State Auditor W. H. Shanks to issue his warrant in favor of each plaintiff for the amount of production tax on oil paid in the State Treasury during the past five years.

Harlan—Elvina and C. G. Dunaway, two suspects, have been arrested in the Oscar Lewis murder at Nolansburg and are held in the Bell County Jail at Pineville. When arrested they were carrying liquor from across Pine Mountain and were not very far from the tragedy.

Louisville—Building permits were issued the William B. Miller Company for thirty-seven frame residences to be built on West Walnut street and on Cecil avenue at a cost of \$3,000 each. The entire lot will cost \$111,000, not including the cost of plumbing and installing electrical fixtures.

Danville—Chauncey Newlin, of Newport, senior at Centre College, won the annual oratorical contest held by the college at the Second Presbyterian Church. His subject was "The Approaching Era of Grant Power." Second place went to Ashlin Logan, of Midway. A gold medal was given to the winner.

Owensboro—The Owensboro Public Library will get approximately \$15,000 in cash and be assured of sufficient funds for its perpetual maintenance if a decision rendered by Circuit Judge George S. Wilson in the suit of the Board of Trustees of the Library against the city of Owensboro is upheld by the Court of Appeals.

Paducah—Revelation of a colossal automobile theft scheme, involving more than a hundred cars stolen throughout the South, may result from the arrest in St. Louis of M. Gribble, said to be a typewriter salesman, by agents of the Department of Justice. It was learned here. He is being held by federal authorities in St. Louis.

Maysville—A lone tobacco plant, owned by G. C. Mosler of Cherry Fork, withered away when placed alone in the yard, but it took on a new life when Mr. Mosler transplanted it in a can and placed it in the house with his wife's flowers. Now it is a full-grown stalk, with twelve large leaves. Mr. Mosler said it wanted flowers to sympathize with it and would have died had it been left alone.

Pikeville—With more than five months to elapse before the August primary, Pike County is proving a prolific field for candidates. The greatest interest is centering in the contest for Jailer, with twenty-four candidates seeking the nomination. Twenty are Republicans and four Democrats. Six live at Pikeville, one of whom, E. M. Thorsbury, a member of the Pikeville police force, was Jailer four years ago.

Owensboro—Judge E. P. Taylor, Maceo, who was elected a director for Davless County, of the Dark Tobacco Growers' Cooperative Association, announced that he would not accept the position. He declared he was in accord with the principles of cooperative marketing but to make it a success it will be necessary for a larger per cent of the tobacco acreage to be pooled than is controlled by the association at the present time.

Bardonia—Martin Fryrear, of the Cedar Creek neighborhood, a producer of famed dairies which is not frequently seen now, was busy taking off the last "batch" at his camp when the smoke from his camp was seen by federal agents watching for signs of violators of the prohibition laws. They followed the unmistakable trail of smoke and came upon the scene and ordered an explanation of the evidence of a distillation. "Maple sugar cake," said Mr. Fryrear; "try one."

Bowling Green—Richard Henderson Lee, a native of Russellville, former law student of the Kentucky State University, Lexington, and a member of the Bowling Green Bar Association, who was official reporter at the court of inquiry at Sand Cave when Floyd Collins was trapped, has written carefully a book upon sworn statements of witnesses who appeared before the court. This book will be the most authentic written on this subject. It is interesting and entertaining and describes the cave country and explorers.

Owensboro—Announcement was made that the Owensboro Shrine Club is considering the building of a \$100,000 building at the corner of Fifth and Frederick streets. The building will be used as a shrine lounge and office building.

Danville—A number of Mitchellburg residents have complained to local authorities that mischievous boys, who operate in the quiet hours of night, have been catching the house cats of that section and cutting off their tails.

## BANKRUPTCY FILED AGAINST K. M. I.

PETITIONS OF SIX FIRMS NOT CONTESTED BY MILITARY SCHOOL NEAR LYNDON

Building Cost Error Blamed—Efforts To Finance 80-Year Old Institution Under Way, Commander Says.

Lyndon.—The Kentucky Military Institute, near Lyndon, which would have celebrated its eightieth birthday this year, was declared bankrupt by Judge Charles I. Dawson in the Federal Court. An involuntary petition in bankruptcy was filed against the school December 12 by six firms and, according to records, the petition was not contested.

Because of financial difficulties the school was not reopened last autumn, but it was announced plans for reorganization were under way and that the coming fall would again see the institution in operation.

Abandonment of the annual trip to Florida in 1923, a feature of the school term that was inaugurated in 1906, led to a mutiny of forty of the then sixty students. The revolt occurred January 20, 1923, after students are said to have been in a virtual state of revolt for several days. Some of them returned, ringleaders are said to have been expelled, while others refused to return. Lack of a sufficient student body led to the closing of the school at the end of the term last June.

The cost of replacing a building destroyed by fire was under estimated by \$50,000 and that, combined with the increased railroad fare which caused abandonment of the Florida trip, resulted in the financial embarrassment. Col. C. W. Sells, commander of the school, said.

Assets of the institution are almost four times as great as the liabilities, he declared. Efforts to finance the school are under way and it possibly may be reopened in the fall, he added.

During the World War K. M. I. year after year was designated an honor school by the War Department. It always was considered one of the best military institutions in the South.

Firms filing the bankruptcy petitions were the Sutcliffe Company, John P. Morton & Co., St. Matthew Bank & Trust Company, Klarer Provision Company, Thomas E. Basham Co., Barbee & Castleman.

Amount of the liabilities or assets were not filed in the proceedings.

## NEW HOSPITAL ERECTED

Equipment For Owensboro City Hospital Addition To Cost \$26,000.

Owensboro—With the new addition and new equipment, costing \$26,000, it is the opinion of Owensboro physicians that the Owensboro City Hospital is one of the best equipped in this section of the country.

The hospital can now comfortably take care of from sixty-five to seventy patients. At the present time there are twenty-four student nurses and four supervising nurses at the City Hospital, with Mrs. L. M. Justice, superintendent, in charge.

The third floor addition afforded fourteen new rooms for patients, all of which have been furnished with the most modern equipment, and also rooms for twenty-five additional beds for the nurses.

The maternity ward is now located on the third floor of the hospital and it has been handsomely equipped with every modern convenience. The operating room is also on the third floor.

The addition to the hospital was necessary on account of the often crowded condition. Then, too, the addition affords more pleasant quarters for the nurses. At the same time, during an emergency, the rooms occupied by the nurses can be turned over to patients, and the nurses return to the building adjoining the hospital.

It is believed that the new addition will meet the requirements of the City Hospital in Owensboro for a long term of years.

## White Way Plan In Warren Heard.

Bowling Green—A movement was started for a white way from the Public Square, Main and College streets, to the foot bridge, First and College, and from College and Fourth to the new Louisville & Nashville Railroad passenger station, Kentucky and Fourth streets, at a meeting of the Bowling Green Kiwanis Club here.

## Women Jurors Obliging.

Ashland—A "court dinner" was served to Judge Henry L. Woods and other officials and attaches of the Boyd Circuit Court at Catlettsburg by the nine women members of the regular panel of the present court.

## \$1,000 Rotary Gift to Children.

Louisville—Kentucky stepped ahead of all States and Provinces of North America in the opinion of members of the International Society for Crippled Children. A vision that these members have seen for three years was realized suddenly and brought Kentucky to the front as they were preparing to conclude their annual meeting. It was when the Rotary Club gave the Kosair Temple \$1,000 for the Shrine programme for treating crippled children of the State.

## TOLD WITH A BANG

George Ade, at a dinner in New York, urged a subtler use of words. "Use words with delicate care," he said. "Observe all subtle distinctions. Never write 'vision' for instance, when 'sight' is what you mean." "There's no difference between 'sight' and 'vision,'" interrupted an editor.

"No?" said Mr. Ade. "And yet, Billy, when you and I passed each other on Broadway yesterday, the girl I was with was a vision, while the one with you was a sight." "Everybody's."

## Cause for Distinction

"That is the Hon. John Whilday going by," said the landlord of the Peonia Tavern. "He is regarded as one of our most distinguished citizens."

"Ah, yes! And for what is he distinguished?"

"Hanged if I know! Probably for the fact that the cat did not suck his breath when he was a baby."

## He Wasn't Afraid

"Get out of my way, feller," said the fresh city automobilist to the rough miner, "before I run into you with my sixty-horse motorcar."

"I ain't got no sixty horse," returned the miner, "but I got a 45 Colt right handy here, and let's see you get by it."

## NOT REMARKABLE SOIL

Smith—Last Monday I planted three rows of potatoes, and they were all out of the ground next day.

Neighbor Jones—Unbelievable—wonderfully productive soil!

Smith—No—your wonderfully industrious chickens.

## Hard to Tell 'Em Apart

He saw grandma And up and kissed her; The foolish fellow Thought 'twas sister.

## Asks Slickem to Speed Up

Mr. Slickem—My dear, I am afraid we are going to be forced into bankruptcy again.

Mrs. Slickem—Well, do it right away, then, Henry, so you can have everything settled in time for your wear any jewels to the annual banquet.

## The Sociable Car

Smithers—Mabel drives her car, so does her dad, aunt, mother and two brothers.

Withers—Who has it most of the time?

Smithers—The garage man—Eric Motor News.

## All Right, Then

Guard to prisoner, a former lumber agent—Yes, you are condemned to death. Have you any last wish?

Prisoner—It would delight me if my firm were allowed to furnish the gal-lows.—Sondags-Nisse (Stockholm).

## STRICTLY FRESH

First Cold Storage Egg—You don't like him?

Second Cold Storage Egg—No, I don't, he's too fresh for me.

## Thankful

"If conscience speaks when I do wrong."

Said Willie in great gloom, "I'm glad it doesn't speak to me. But only speaks to me."

## Identified

"Do you think that Professor Kidder meant anything by it?"

"What?"

"He advertised a lecture on 'Fools,' I bought a ticket and it said 'Admit One.'"

## Caught in the Wreckage

Rub—Hear about Jones? He was drowned on a camping trip.

Dub—How did it happen?

Rub—His folding bathtub unfolded while he was taking a bath.

## Those Mad Wags

"Brown tells me he has been graduated from an automobile school."

"Yes, and he's feelingly grateful to it as his motor."

## Adoring the Devil

First Critic—What do you think of that young artist's painting of Satan.

Second Critic—The devil's not so bad as he's painted.—Yale Record.

## Other Way Around

Walter—Well, my man, what are you going to have?

Small Boy (alone with menu)—You mean what ain't I going to have.

## There's a Frigidaire for Every Home

Frigidaire is not expensive. It is not a luxury.

It is as vitally necessary in the home as any modern household utility.

Not in a few homes—but in every home—there is a distinct need for this method of keeping food always in a safe, healthful condition.

And every home can have Frigidaire. In the wide range of styles and sizes there is one that will meet the needs of your home at a price you can afford to pay. Frigidaire operates electrically—from ordinary home current. It can be installed in your own ice-box in a few hours. Once installed Frigidaire eliminates for all time the muss and nuisance of ice delivery. It provides a constant safeguard to the health of your family.

See Frigidaire. Take advantage of our liberal purchase plan. Have your home equipped now with modern, safe, economical refrigeration.

DELCO-LIGHT COMPANY, DAYTON, OHIO

H. L. WILLINGHAM, Fulton, Ky.

## IMPROVED UNIFORM INTERNATIONAL Sunday School 'Lesson'

(By REV. D. H. FLETCHER, D.D., Dean  
of the Evening School, Moody Bible Insti-  
tute of Chicago.)  
(C. 1925, Western Newspaper Union.)

### Lesson for March 8

#### THE SAVIOR ON THE CROSS

LESSON TEXT—Luke 23:33-46.  
GOLDEN TEXT—"He that spared not his own Son, but delivered Him up for us all, how shall He not with Him also freely give us all things?"—Rom. 8:32.

PRIMARY TOPIC—Jesus Forgives His Enemies.

JUNIOR TOPIC—The Savior on the Cross.

INTERMEDIATE AND SENIOR TOPIC—The Crucifixion of Christ.

YOUNG PEOPLE AND ADULT TOPIC—Christ Died for Our Sins.

This lesson brings us face to face with the greatest tragedy of all times. No record in the annals of history approaches it; it is the very climax of all history. Though unique in its blackness, from it flows streams of liberty and life for all the world. It is highly important that every teacher have personal experience of Christ's death for himself, and then get his pupils to see that Christ's death was instead of their own death.

#### I. The Place of Crucifixion (v. 33).

They led him away to Calvary, a hill north of Jerusalem, resembling a skull. "Calvary" is the Latin word and "Golgotha" is the Hebrew. This is a most significant name for the place where man's redemption was accomplished. The skull is an apt picture of man's condition as the result of sin—life and intelligence are gone, leaving only the dark, empty cavern which once contained them.

#### II. His Companions on the Cross (v. 38).

Two malefactors were crucified with Him. Their names are not given. This is a fulfillment of the Scriptures. "He was numbered with the transgressors" (Isa. 53:12).

#### III. His Forgiving Love (v. 34).

He cried, "Father forgive them." He doubtless had in mind not only the soldiers who acted for the government, but the Jews, who, in their blindness, were ignorant of the enormity of their crime.

#### IV. The World Revealed (vv. 34-43).

Jesus Christ on the cross is the supreme touchstone of human life, and discloses the world's heart. Take a cross-section of the world at any time since Christ was crucified, and representatives of the various phases therein were found around Jesus on the cross.

#### 1. The Covetous (v. 34).

They gambled for His seamless robe right under the cross where He was dying. This represents those whose primary interest in Christ is a means to get gain.

#### 2. The Indifferent (v. 35).

"The people stood beholding." They gazed upon Him with indifference. The great mass of the world gaze upon the crucified Christ with stolid indifference.

#### 3. The Scoffers (vv. 35-39).

(1) The rulers reviled Him for His claim to be the Savior. They wanted a Savior, but not a crucified Savior. Many today are religious, but have only contempt for a salvation which centers in an atonement made by blood.

(2) The soldiers reviled Him for claiming to be a king. The title, "King of the Jews," had been placed over Him in bitter irony, but it was true for, by right of the Davidic covenant, He shall be one day King over Israel (II Sam. 7:16). The fact that the superscription was in Greek, Hebrew and Latin shows that he was to be king over all the world.

#### (3) The Impenitent Malefactor (v. 39).

This brutal man joined in reviling the Savior, even though he was under condemnation.

#### 4. The Penitent Malefactor (vv. 40-43).

The conscious sinner who discerned the heart of the Savior prayed for mercy. The man confessed his sin against God and cried to Jesus for salvation. He saw that the dying One was the forgiving God. The fact that he acknowledged his sin showed that he was penitent. His request that Christ remember him when He came into His kingdom shows that he recognized that the One who was dying on the cross was making atonement for sin, and that He would come to reign as King. His salvation was immediate. Christ said, "Today shalt thou be with me in Paradise."

#### V. The Death of Christ (vv. 44-46).

So shocking was the crime that nature herself threw around the Son of God a shroud to hide Him from the gulfed crowd. When the price of sin was paid He cried with a loud voice, showing that He still had vitality, that His death was not through exhaustion, but by His sovereign will.

#### In This Life

It is in this life alone we can learn lessons of patience and self-denial, for there are no sick-beds to watch by, no suffering to soothe, no mourners to comfort in the agonies of the Father's house.—George MacDonald.

#### Foundation of Peace

The Divine benediction is pronounced upon peacemakers. But then peace, to be of value, must be permanent; and to be permanent it must be founded on sound principles.

## Splendid Service Prevails As Calls Increase

THE large number of new telephones added to the Bell System in Kentucky last year has greatly increased the value of the service and extended its scope by including thousands of new subscribers.

This growth has been reflected in the number of calls handled daily by the operators, who are responding cheerfully to your needs and maintaining quick and dependable service.

It is estimated that the operating forces handled more than 125,748,300 originating local calls and 1,913,000 long distance messages in Kentucky

alone last year. This was a considerable increase over the previous year; a daily average of 379,520 local calls and 5,777 long distance calls.

That such a large volume of calls is handled so efficiently as to win general public commendation is due to the splendid efforts of 804 highly trained operating room employees, who serve you continuously, day and night.

The considerate co-operation of subscribers encourages the "weavers of speech" in their determination to continue the high-grade service to which you are accustomed.

Policy**

You should do your part towards keeping local business alive and in a constant state of betterment by doing *all* your trading at home. It will be profitable to you as well as to the entire community.

**Guy Bennett is ready to serve you good things to eat. Located at Walnut street crossing.**

## NEED NO WARRANT SHIP BACKBONE ON IN SEARCHING AUTO NAVY, BUT BROKEN

U. S. SUPREME COURT ISSUES FAREBEACHING RULING

AIMED AT LIQUOR CARS

Search of Homes and of Autos Two Different Matters, Is Claim. States Can Also Outlaw Pre-Prohibition Liquor, Says Court.

Washington.—Federal prohibition agents may lawfully stop automobile and other vehicles and search them for contraband liquor without a warrant, the supreme court decided in a case from Michigan, brought by George Carroll and John Kiro.

In another liquor case decision brought from Georgia by Sig Samuels, the court held that states may under the constitution, make an outlawed the possession of liquor acquired legally before enactment of the federal prohibition act.

Chief Justice Taft delivered the opinions in both cases. Justice McReynolds and Sutherland dissenting in the former, and Justice Brandeis in the latter.

Declaring that "it would be intolerable and unreasonable if a prohibition agent were authorized to stop every automobile on the chance of finding liquor, and thus subject all persons lawfully using the highways to the inconvenience and indignity of such a search," Chief Justice Taft asserted that "those lawfully within the country entitled to use the public highways have a right to free passage without interruption or search unless there is known to a competent official authorized to search, probable cause for believing that their vehicles are carrying contraband or illegal merchandise."

It was the intent of Congress, however, to make a distinction between the necessity for a search warrant in the searching of private dwellings and of automobiles, the chief justice stated, and that distinction was constitutional. There is no provision in the constitution which renounces all searches or seizures without a warrant, he said, adding that it prohibits only "unreasonable" searches or seizures.

"The guaranty of freedom from unreasonable searches and seizures has been construed practically since the beginning of the government," he explained, "as recognizing a necessary difference between a search of a home, dwelling house or other structure in respect of which a proper official warrant readily may be obtained, and a search of a ship, motor boat, wagon or automobile for contraband goods, where it is not practicable to secure a warrant because the vehicle can be quickly moved out of the locality or jurisdiction in which the warrant must be sought."

## DRIFT A MONTH IN OPEN BOAT.

Rescued Alive After Their Harrowing Voyage in Open Sea.

East Hampton, L. I.—Adrift in the Atlantic ocean for almost one month, three men in an open boat were rescued by the crew of the Texas Oil Company's tanker Lightburne, about 375 miles north of Miami, Fla., according to a wireless dispatch picked up by the Independent Wireless Company's station here.

The trio, emaciated and facing starvation, are said to have been carried out from Miami by a storm. The steamer Lightburne was bound from Norfolk, Va., to Galveston, Texas, when she encountered the drifting boat. According to the wireless message the men were weak, but recovered aboard the vessel.

## EX-SENATOR MARTINE DEAD.

News Given Out Twenty-Four Hours After His Death.

Miami, Fla.—James Edgar Martine, former United States senator from New Jersey, and one of the most active senators during the presidency of Woodrow Wilson, died in the home of Mrs. Mary Elizabeth Cowan, where he was living during his stay here.

According to Mrs. Cowan, he had been ill for the last week, but refused to go to a hospital for treatment. Apoplexy was determined as the cause of his death. Mrs. Cowan was with him during his last moments and said that his last request was to give his sister, Miss Ella Martine, his gold watch.

## Woman's Rights.

Chicago.—In a raffle at a bazaar Mrs. Clara Ennis drew a prize entitling her to six free shaves.

## Forced All To Marry.

London.—Every man of 21 and every girl of 18 was compelled to marry during the time of the ancient Incas in Peru, Salomon, consul general here for Peru, says. The state gave every young man and woman a plot of land and business was punished by death.

MILITARY MIND TOO CONSERVATIVE, HE DECLARES

UPHOLDS GEN. MITCHELL

Man Once Called "Best American Admiral in British Navy" Springs Some Surprise in the Aircraft Inquiry

Washington.—"Admiral" said the congressional aircraft investigators in their solemn portentous way to that ancient rebel, Rear Admiral Sims, (retired), "do you agree with the special navy board report that the backbone is the backbone of the navy?"

"Oh yes," said the ancient rebel, broadly, "it's the backbone of the navy—but it's broken!"

He declined to be awed when it was borne in on him that "the backbone of the navy" opinion was Secretary of the Navy Willbur's opinion. "He got it from his advisers," said the man who during 42 years in the American navy just loved to tread the dizzying edges of threatened court-martials. "Yes, he got it from them and when trouble came on and it was announced that you would investigate his opinion, then he appoints the general board from whom he got the opinion to investigate it."

So it went for four gripping and engaging hours.

Once the man who was "command-in-chief of American forces in European waters" during the World War fell into tart reminiscence of his experiences with his home government during early months of that command.

"When," he said, "I told them the truth about England's dire condition in '17—nearly a million tons of shipping a month sunk by German submarines—they wouldn't believe me. It's always so. Whenever a man goes abroad and gets information for this government and it doesn't agree with the misinformation the government has, then they say the man has been captured by the enemy. You know I was called 'the most popular American admiral in the British navy.'"

That led him into some general remarks on bureaucrats, the most pertinent of which was:

"An astonishing thing is the conservatism of the military mind. They never give in until the cost of their antiquated ideas has been paid in blood or until the commonsense of the people has forced them. Otherwise they would cling to the blowpipe and the battle ax. But they believe what they say and by God, you can't get it out of their minds!"

Sometimes he characterized, and this was his lecherly, but compact characterization of former Secretary of the Navy Edwin Denby:

"Mister Denby—a very estimable man—who did not like trouble."

He laughed at the idea—generally held, he said, by the public and by editors—that if the United States had a naval force superior to that of any other nation, it could be sent across the ocean and impose its policy upon that nation.

"Nothing could be further from the truth."

## Rank of Marshal Reverted.

Rome.—The new high rank of marshal of Italy, created by royal decree on the anniversary of Armistice Day, was not unknown in mediaeval Italy. Long before the corresponding title of marshal was established in France, the house of Savoy, which today rules over united Italy, already had marshals in its small army in Sardinia.

## Handkerchief Causes Death.

Atlanta, Ga.—Burns, received when a pocket handkerchief ignited as he closed the door of a Lester, caused the death of J. R. Livly, 54, Confederate veteran. The aged man, alone in the room at the time, was a mass of flames when his daughter, with whom he had been making his home, came in response to his cries for help.

## Defy Movie Inroads.

London.—Defying the moving picture inroads on the theatrical business a group of financiers is going to build a new \$600,000 theater.

## Duke Sees the Light.

London.—The duke of Devonshire has opened a path through his estate, barred to the public for several centuries.

\$50,000,000 Added to Canadian Crops.—Winnipeg, Man.—Rising prices for agricultural products were responsible for an increase of nearly \$50,000,000 in the value of Canada's 1924 field crops, although the volume of crops was much smaller than that of 1923, according to a bulletin issued by the dominion bureau of statistics.

Desplained, Ill.—Several automobiles were wrecked when 300 yards of a popular motor road west of here and only sank from three to eight feet.

### Announcements

(No announcements accepted for this column unless the cash accompanies same.)

We are authorized to announce the candidacy of the following for Fulton county offices, subject to the action of the Democratic primary election, August 1925.

For County Judge  
CHARLES D. NUGENT

For County Attorney  
LON ADAMS  
J. W. (Jim) RONEY

For County Court Clerk  
GUY HALE  
EFFIE BRUER

For Sheriff  
JOHN M. THOMPSON

For Representative  
Fulton-Hickman Counties  
W. J. McMURRY

AN IDEAL SECRETARY  
WOULD MAKE A  
GOOD MAYOR

Joe D. Davis who has been an outstanding figure in all the good things done by the Fulton Chamber of Commerce since its organization was elected Secretary at a recent meeting and every member of the organization uttered a genuine and sincere appreciation when he accepted the office. He is president of the Rotary club and takes his part in all civic and community endeavors. His worth to the Chamber of Commerce cannot be overestimated. He has always been a loyal member and when not serving as president or secretary, was chairman of some important committee. He is not a man of leisure, not by any means, but when it comes to serving his fellowman for the best interest of the town, he always manages to find time for the task. We have often thought that Joe Davis would make an ideal mayor. He is progressive and conservative; young in years and ripe in experience.

No, this is not political dope; we had it in our system and it had to come out, regardless of it being contagious.

## SOUTHERN FENCE

Horse-high--Bull-strong--Pig-tight  
--"Weather-wise"--Rust-proof

SOUTHERN FENCE holds its own against the strongest pressure and resumes normal shape as soon as pressure is removed, because it has HINGED JOINTS. Also retains its shape in all weathers, as TENSION CURVES allow it to expand when hot and contract when cold. Made of the highest grades of tough, springy open hearth steel wire with extra heavy and uniform galvanized coating in which the best prime Western spelter zinc is used.

SOUTHERN FENCE IS LIFE-TIME FENCE--on the job all the while. You can get it here. We sell SOUTHERN FENCE under the guarantee of the Gulf States Steel Company, who make it.

Fulton Hardware Co  
Fulton, Ky.

### KICKERS

There are two kinds of kickers: mules, shot-guns and some men.

The mule kicks because he was born that way; the shot gun because it was built that way, and the human being because it is a right thoughtlessly granted to him by the constitution.

The human kicker is divided into two kinds--acute and chronic. The acute kicker kicks because he has something to kick at. He kicks until he removes the object and then subsides. His ailment is more violent, but he usually recovers. For the chronic kicker, however, there is no hope. He must kick to live. Nature has shamelessly connected his lungs with his hind legs, and the only way to stop his kicking is to shoot off his breath. This was often done in the good old days when human life was so clean that patriots could go out with an axe, and get enough culls, and seconds for a mess any day without objection. But nowadays, we have to let the kicker live. The most we can do is to elect him to office or encourage him to buy a racing automobile.

The chronic kicker stands forever in the road with his heels pointed toward progress. He kicks on taxes, on street paving, on improvement societies, on congress, on the price of salt, on the supreme court, on the minister of his church, on the plan to take up a collection for the families of squashed firemen, on the speed and slowness and heat and chilliness and bigness and smallness of street cars, on the design of the hotel table cloth, on the size of Sunday newspapers, on the weather, on the sun, on the public, on the universe, on the neglect of nature in not providing children with muffled exhausts, and on the virulent color of the nice green grass.

The kicker is usually born on Friday, because that is the world's unlucky day. He begins criticising his food on the day of his birth. When he grows up, he has to approach his fellowmen from the rear in order to say "Good morning" to them, except at long range, and when he dies the undertaker issues order to the hearse driver to drive slowly, and avoid all jolts. The Egyptians invented embalming at a time when the nation was infested with kickers in the hope of making death permanent.

Heaven is full of kickers whom the other place has seen coming. Besides, a kicker is usually too busy objecting to do anything bad. But it has been so arranged in Heaven, that when a kicker begins to

kick, he has to stop flying. This gives the other angels a chance to escape, for thus far no kicker has ever been able to aviate beyond the ground floor.

HICKMAN COUNTY TO  
VOTE ON \$300,000 BOND  
ISSUE APRIL 4TH

On April 4th, Hickman county will vote on a \$300,000 road bond issue. This is the only county in this section of Kentucky which has failed to vote bonds, and unless many minds of the voters are changed in that county the bond issue will fall flat at the April election. It the people of Fulton could realize the value of carrying the bond issue they would make a special effort to assist their neighbors in the campaign. Hickman county is now the missing link in the artery of hard surfaced road building programs of the Kentucky counties bordering the Mississippi river. Hickman county has been tried and found short on votes for good road building before. Therefore, it behooves every loyal good roads booster in this neck of the woods to get busy--get on the job and lose no time in doing it.

Hickman county is badly in need of good roads, and Fulton and Carlisle counties, who have already voted bond issues, are badly in need of having the missing link county carry its bond issue by a handsome majority.

Clinton, the capital of the county, has already shown a progressive spirit when voting a bond issue for good streets. A committee from Clinton visited Hickman, the capital of Fulton county, recently to look over their new paved streets, with a view of building their streets of the same material.

### GOOD ROADS MEAN CULTURE

In addition to their value as aids to commerce and the practical side of life, good roads have an esthetic value and exert a tremendous influence on the intelligence and culture of the population.

Stretching like a winding ribbon past farmstead and village, the modern highway gives grace and charm to the landscape and, like Eugene Field's poem, leads the thoughts wandering "over the hills and far away."

Enchantment and mystery linger about any kind of road. A road--whether it be the first rude trail or the pioneer of the great national highway of today--is the vital thread which connects us with the outside world.

Among the many thrilling sensations which modern life has brought to humanity, none is more exhilarating--none appeals more powerfully to man's primal instincts of exploration and adventure--than to glide swiftly over an unknown road into unfamiliar localities and be permitted to feast the eye upon scenes new and strange.

He who cannot get some measure of pleasure from the endless panorama of the countryside, the countless pictures of people, trees, luxuriant fields and tumbling brooks--which motoring along the average highway presents, must indeed be deficient in the great gift of appreciation for the unusual, the beautiful and the picturesque.

### NEW AMBULANCE SERVICE

Winstead & Jones is the talk of the city of Martin. This enterprising firm, always on the alert to improve their service, has recently added to their motor equipment at Martin, a limousine ambulance, and now that Martin's new hospital is open for business, the firm can transport the sick and injured swiftly and comfortably in any emergency. The new ambulance, or invalid coach, has every improvement that induces comfort and safety. The new ambulance permits loading from the side or the rear so the patient may be placed in the car directly from the sidewalk, no matter what position the car stands in.

Prayer service, 7:30 p. m. every  
Wednesday evening.

Linden Carter united with  
the church Sunday, coming  
from the Christian church.

The services of last Sunday  
were well attended. At the  
morning hour Sacrament was  
administered to a goodly num-  
ber. At the evening hour Rev.  
Pickens, the district superin-  
tendent, preached. Special mu-  
sic at both services.

The attendance at prayer  
service was good, but make it  
better next week.

The regular monthly meet-  
ing of the Board of Stewards  
was held at the church last  
night. A goodly number of the  
Stewards were present and re-  
port the business of the church  
progressing nicely.

Mr. and Mrs. A. G. Baldridge  
and little daughter, Rachel  
Hunter, attended the automo-  
bile show in St. Louis this week.

Mrs. Paul Hornbeak attend-  
ed the Hood and Bowden wed-  
ding in Milan, Tuesday.

Rev. R. C. Whitnell is back  
from Florida, shaking hands  
with friends. He expects to  
return to Lakeland soon.

Miss Nell Owen is very much  
improved after a three weeks'  
illness of the flu and hopes to  
return to school Monday.

Mr. Jim Rucker of Houston,  
Tex., is attending the bedside  
of his mother, at the home of  
Mr. Lee Rucker.

Mr. Joe Bennett is rapidly  
improving from the injuries re-  
ceived from the fall some weeks  
ago.

Mrs. Vodie Hardin attend-  
ed the conference in Ripley  
this week.

Mrs. W. I. Stoker was dele-  
gate from the Warner Black-  
ard to Ripley this week.

Mrs. W. R. Butt represented  
the Woman's Missionary Soci-  
ety at the conference in Ripley  
this week.

Warner Blackard Missionary  
Society will meet Monday af-  
ternoon at 2:30 at the Southern  
hotel with Mrs. Hoyt Moore  
and Mrs. Claude Freeman as  
hostesses. Mrs. Nell Whitnell  
will be in charge of the pro-  
gram.

The East Fulton Circle met  
Monday at the home of Mrs.  
L. M. Jones on Jackson street.  
The meeting was opened with  
song. A short business session  
convened. Miss Kate Thomp-  
son had charge of the devo-  
tions. Mrs. W. R. Butt gave  
talk on the regular missionary  
topic. Mrs. T. D. Boaz gave  
leaflet on "The Bennett Mem-  
orial." Mrs. J. V. Freeman  
gave talk on "Our Work in Ko-  
rea." Mrs. Will McDade gave  
"The Message from Missionary  
Society in Manchuria." Nine-  
teen of the regular members  
were present, one visitor, and  
four visiting officers from the  
West Fulton Circle. The meet-  
ing closed with prayer by Mrs.  
Jones. During the social hour  
Miss Gladys Bell gave a piano  
solo and William Irvin Bell a  
vocal solo. The hostess was as-  
sisted by Mrs. T. J. Smith in  
serving delicious refreshments.

The annual meeting of the  
Missionary Conference, of the  
Memphis Conference, was held  
in Ripley, Tenn., this past  
week. Delegates from all over  
the conference attended.  
Several members from the four  
societies of this church attend-  
ed. It was a very instructive  
meeting. The Woman's Mis-  
sionary Society is doing a great  
work both in the home and for-  
eign fields.

The topics for 1925 are be-  
ing developed along the lines  
of the growth of a world sis-  
terhood through the organized  
work of the Woman's Mis-  
sionary society. It is a far cry from  
the day when a few women  
gathered together in Christ's  
name, contributing their hard-  
earned savings to "save the  
heathen," to the present, when  
the world is beginning to be  
girdled with great sisterhood  
of all the nations working to-  
gether for world redemption.  
Each program will contain a  
message from some one of these  
for whom we once worked, but  
with whom we now serve. The  
world sisterhood thought will  
be carried through the entire  
year, and it is hoped that each

member of the different aux-  
iliaries will enter into the spirit  
of this new day, catching a vis-  
ion of the oneness of the needs  
and the aspirations of the wom-  
anhood around the world.

The Senior Epworth League  
met at its usual hour. Ailene  
Cashion was leader. She was  
assisted by Wade Joyner, Mil-  
dred Graham and Ruth Stoker.

### REPORT OF THE EXAMIN- ING COMMITTEE OF THE BOY SCOUTS FOR 1924

Am delighted to report that  
the Boy Scouts did fine work  
in 1924. Scouting is taken in  
steps and merit badges are given  
for each step in scouting. In  
working for these merit badges  
the boys are gathering knowl-  
edge that will be beneficial to  
them during their whole life.  
They will reap their reward lat-  
er by being prepared when the  
opportunity is presented. These  
boys are gathering information  
that is wholesome and benefi-  
cial, both to themselves and for  
service to the community. They  
should receive the greatest en-  
couragement from their parents  
and from every citizen to get  
all out of scouting that it has  
to offer. Let every scout be  
determined to reach the top  
and be an eagle scout. It means  
much and is an honor that any  
boy should be proud to receive.  
We are glad to report that we  
have developed an eagle scout  
in Fulton. We are proud of  
him. He has been working for  
this honor for four years and  
deserves all the honor we can  
bestow. He has gathered a  
vast amount of information for  
his life work. In 1925 we want  
more eagle scouts. Encourage  
the boys at all times and we  
will have a big year for scout-  
ing in 1925.

JOHN CULVER, Chm.  
J. C. SCRUGGS, Sec.  
C. P. WILLIAMS,  
REV. C. H. WARREN,  
GUS BARD,  
Examining Committee for  
1924.

Expert examiners who have  
examined boy scouts for merit  
badges in 1924.

Dr. J. M. Alexandria—Per-  
sonal Health.

Lee R. Roberts—Fireman-  
ship and Automobile.

Mrs. Maddox—Public health

Andy Spradlin—Craftsman-  
ship in wood and carpentry.

Ed Drysdale—Pathfinding.

Buren Rogers—Athletics.

Dr. J. R. Hilman—First aid  
to animals.

Nathan Alverson—Swim-  
ming and life saving.

R. E. Pierce—Handyman.

G. L. Wade—Athletics and  
chemistry.

Dr. G. A. Crafton—First aid  
to animals.

Dr. H. H. Hobbs—First aid  
to animals.

Dr. G. L. Jones—Public  
Health.

Kenneth Alverson—Life sav-  
ing, camping and pioneering.

H. T. Moore—Printing.

Capt. F. E. Dowey—Life sav-  
ing.

A. C. Hall—Blacksmithing.

J. K. Nickols—Civics.

C. E. Murrell—Firemanship.

L. H. Leaks—Bird study.

H. J. Alexandria—Interpret-  
ing.

A. J. Lowe—Scholarship.

W. T. Cathey—Craftsman-  
ship in leather.

Miss Mary Royster—Cook-  
ing.

Dr. R. T. Rudd—Public  
health.

Boy Scouts who have passed  
examinations for merit badges,  
1924:

Morris Howell—Eagle Scout.

Personal health, public health;

firemanship; craftsman-  
ship in wood; carpentry; pathfinding;

athletics; handyman; swim-  
ming; first aid to animals; life

saving; first aid; civics; bird  
study; interpreting; scholar-  
ship; chemistry; craftsman-  
ship in leather; electricity; pioneer-  
ing; cooking; camping. 22

merit badges for this boy to be-  
come an Eagle Scout.

Glenn Wiseman—Star Scout.

Public health; personal health;

firemanship; first aid to ani-  
mals; swimming; athletics; life

saving; printing; civics; first  
aid; craftsman-ship in leather;  
scholarship. 12 merit badges

for this boy to become a Star  
Scout.

Richard Davania—Public  
health, personal health; fire-  
manship; first aid to animals;

athletics; swimming; black-  
smithing. 7 merit badges.

Gerald Normant—First aid;  
craftsman-ship in leather; first  
aid to animals; public health;

personal health. 5 merit bad-  
ges.

Hardy Roberts—Fireman-  
ship, automobiling, public  
health; first aid; swimming. 6  
merit badges.

Cecil Wiseman—Athletics;  
swimming; life saving; fire-  
manship. 4 merit badges.

Total number of merit bad-  
ges in 1924, 55.

The committee has had ten  
meetings during the year of  
1924.

J. C. SCRUGGS, Sec.

### CRAVED SOME EXCITE- MENT AND GOT IT

MacLean Plays Novel Role in  
"The Yankee Consul"

In the role of Dudley Ains-  
worth in his newest film,  
"The Yankee Consul," Douglas  
MacLean has a role that is en-  
tirely different from any that  
he has ever played.

He doesn't eat—he doesn't  
sleep—the trouble is, all his  
friends are worried about the  
rich young Mr. Ainsworth. One  
of his pals got him excited  
about his health, and although  
no Ainsworth had done any  
work for seven generations,  
young Dudley was induced to  
take a job. He became a tick-  
et seller in a steamship office.  
He started but he didn't finish  
because a series of highly ex-  
citing events changed the whole  
complexion of things.

He craved excitement and he  
got it. He got so much of it  
that there is no end of thrills  
and comedy situations in "The  
Yankee Consul."

Ainsworth landed in South  
America, where, to save his  
own neck and avoid a lot of  
embarrassment, he palms him-  
self off as the Yankee Consul.  
Of course the girl he loves is  
in the very place where he is  
having his troubles and he risks  
his life to save her. With Mac-  
Lean appears an all-star cast,  
including the popular feminine  
favorite, "Patsy" Ruth Miller.

Douglas MacLean in "The  
Yankee Consul," is coming to  
the Orpheum Theater, March  
11 and 12.

### HOOD AND BOWDEN WED- DING

Miss Julia Hood and Mr.  
George Bowden were united in  
marriage Tuesday afternoon at  
the bride's home in Milan,  
Tenn. Rev. Hood, the father  
of the bride officiating. The  
ring ceremony was used.

Mrs. Paul Hornbeak played  
Mendelssohn's wedding march  
as the couple approached the  
marriage altar. Miss Minnie  
Daniels of Paris, Tenn., sang.

Miss Hood is well known to  
the people of Fulton, having  
resided here while Rev. Hood  
was pastor of the Methodist  
church.

Mr. Bowden also has a host  
of friends here who wish them  
all kinds of happiness. They  
left immediately after the cere-  
mony for a bridal trip in the  
Southland.

### REV. PORTER TELLS OF HIS WORK AS A MISSIONARY IN RUSSIA

All who heard the Rev. Hoyt  
Porter at the First Baptist  
church Wednesday night tell  
of his travels and experiences  
as a missionary to Russia the  
past three years, fully realize  
why more missionaries are  
needed in that country. Rev.  
Porter has recently returned to  
Fulton from Russia to visit his  
sister, Miss Annie Lucile Golds-  
by and his aunt and uncle, Mr.  
and Mrs. R. E. Goldsby.

### BREEDER OF THOROUGH- BRED HAMPSHIRE

W. E. Williams, one of our  
subscribers, residing near Wat-  
er Valley, will no doubt show  
a fine pen of hogs at the next  
county fair. Mr. Williams is a  
breeder of thoroughbred  
Hampshires and has captured  
many prizes. His pens of  
swine exhibited at the fair each  
year are always admired and  
the cause of much favorable  
comment by visitors.

### Dr. J. J. HOUSE

Optometrist

DeMyer's Optical Parlor  
Fulton, Ky.

Corrects defects of vision,  
fits and grinds glasses to suit  
your eyes.

## Delightful New Fashions Just Arrived.

That Spring is definitely here at last is evidenced in  
these fascinating assortments. Every collection is  
abloom with the NEW in Fashion. ENSEMBLE  
COSTUMES, COATS, FROCKS, and the  
SMARTEST ACCESSORIES. And most grat-  
ifying of all, the prices, through careful selection, are  
as moderate as can be.

## COATS

From the jauntiest of Sport Models to unusually  
smart Coats of other hours. A selection is afforded  
here which we believe to be unequalled in Fulton.

## Ensemble Costumes

the most distinctive mode of the season, appealing to  
every woman who appreciates the harmony of cos-  
tuming afforded by its combination of smart frock  
and coat to match.

## Frocks

FRESH and NEW as the coming season, these  
charmingly DISTINCTIVE and DIFFERENT  
STYLES for Spring, assembled with the greatest  
care to present modes suited to the widest TASTES  
and needs.

Choose your Spring apparel here with every  
assurance of authentic style and dependable  
quality.

## INSIST GERMANY IS BELLICOSE

TRAINING AN ARMY UNDER ALL  
SORTS OF CAMOUFLAGE

### REPORT TO AMBASSADORS

Secret Shops, Walled in, Are Discovered in Steel Mills, Where Molds for Most Improved Cannon Are Stored.

Paris.—The opinion of Marshal Foch and his colleagues of the allied war committee is that the report of the military control mission shows that the Germans persist in their determination to maintain a complete staff of officers for an army such as existed prior to 1914. Also, the committee believes Germany is educating not only officers and sub-officers to this end, but under all sorts of camouflage, is training enough young men to mobilize a strong fighting army whenever it wishes to do so.

This, the committee says, is a written opinion which the ambassadors' council will consider tomorrow. It is of far greater importance than the discovery of unauthorized war material, although it is pointed out that the existence of illicitly manufactured rifles, machine guns and parts of cannon, emphasizes the seriousness of the situation.

Among the details of the control mission's report to which the military experts refer, is the discovery in steel mills of secret shops walled up from the eyes of the indiscreet where are stored patterns and molds for the most improved type of cannon and even unfinished tubes that in a short time could be completed into guns ready to fire. Tips given by German pacifists lead to many finds of this sort, including more new rifles than would be required to arm the entire German army on the basis of the Versailles treaty.

Information given by workmen employed in chemical factories lead to the finding of conclusive evidence that facilities for the production of asphyxiating gas have been left intact as they existed at the end of the great war. The report on this point contains evidence which the allied governments have had for some time, to the effect that the Germans had been steadily devoted to the production of vast quantities of the most deadly weapons which the war developed and which had just begun to demonstrate how deadly it could be made when the conflict ended.

The opinion in diplomatic circles this evening is that the ambassadors' council will give both reports a sort of casual scrutiny and then the governments will discuss the idea of calling an allied conference to deal finally with the matter. This conference probably will not be called until after the Belgian elections, as it would be held in Brussels.

### McLendon in Again.

Memphis.—T. Ernest McLendon, of Germantown, who is under sentence for three and a half years in Atlanta for transactions concerning the sale of dogs and involving the use of the mails, was arrested yesterday by deputy marshals on a charge of attempting to obstruct justice. The charge grew out of a telegram alleged to have been sent to E. A. Miner, of Ridgeway, Mo., a government witness scheduled to testify against McLendon in a hearing scheduled for yesterday. This telegram is said to have been signed merely "Smith" and to have instructed Miner that it would be unnecessary for him to appear at the trial.

Government officials allege McLendon sent the telegram.

### Farmers Going to Canada.

Edmonton, Alberta.—Two distinguished foreigners, one from Siberia, and the other from Hungary, have signified their intention of settling in Alberta and taking up farming on a large scale. One is S. Baleshina, who was forced to leave Siberia by the Russian soviet government, and who at one time was head of the union of Siberia creamery operators, perhaps the most famous co-operative movement in the world. The other is Dr. Krovrik, an official of the Hungarian prime ministry and formerly a large land owner in Transylvania.

### Rat Plague in Berlin.

Berlin.—The rat plague is becoming more serious daily here. A score of bitten children have been treated at the hospitals during the last week.

### Berlin Theaters Hard Hit.

Berlin.—Claiming their business has been seriously damaged by the 10 per cent tax on tickets, the Berlin theaters have asked that the rate be reduced.

### Five Back From the Grave.

Christiania.—Five sailors of the trawler Heinrich, given up for dead when their boat sank in a collision, swam to the wild coast of Norway and arrived here after suffering terribly for eight days.

## WAR HERO GOES TO HIS DEATH CALMLY

BAILEY, HERO WEARS SPRIG OF  
HYACINTHS TO GALLOWES

### CLEMENCY REFUSED HIM

Tennessee Youth, Shell Shocked in the War, Pays the Penalty for Killing James Culppeper, a Convict in Alabama

Montgomery, Ala.—Clarence Bailey, a service man, went to his death on the gallows in the Montgomery County jail. All efforts of members of the American Legion and other sympathetic persons had failed. Bailey was executed for the murder of James Culppeper, a fellow convict at Kilby prison.

The trap was sprung at 5:58 o'clock and 39 minutes passed before he was pronounced dead. However, physicians stated that his neck was broken and that he was unconscious from the time the lever was pulled.

Bailey was born near Stewart, Tenn., 25 years ago. He went through the third grade in public school and ran away from home. He was incarcerated in the Tennessee Reformatory School at the age of 12 years when it was shown that he was a juvenile delinquent. He escaped the reformatory school and enlisted in Montgomery for service on the Mexican border.

The condemned man went to his death calmly. Throughout the night he occupied himself in his waking moments with writing and talking to men and women, members of Trinity Presbyterian Church, of which he was a member. He was fully aware of his position and listened closely and attentively to the sacrament read to him by Dr. H. V. Carson, pastor of Trinity, in the presence of several members of the church who had passed the night with Bailey.

At an early hour he was prepared for his death and when he was informed that the time is up he answered, "all right."

Bailey was dressed in a slate gray suit with gray tie, blue silk socks and tan shoes. His collar, a soft attached one was not opened. A suggestion of a handkerchief peeped from his pocket and a sprig of hyacinth in his lapel buttonhole.

His face was haggard and he was apparently highly nervous, but he walked unassisted to the platform. His hands were cuffed behind him but his elbows were not bound.

Asked if he had a statement to make he said, "I appreciate everything everybody has done for me and everything."

Bailey was serving a life term at Kilby prison when he killed Culppeper by stabbing him with a knife which he had manufactured in prison. The murder occurred while he was serving the life sentence for the killing of another convict which occurred at Spelgner prison. This crime was committed while Bailey was serving a ten-year sentence for forgery, a crime he committed at Brewton shortly after his honorable discharge from the overseas forces of the American army.

### MEN WHO FLED FACE TRIAL.

Plead Not Guilty to Charge of Failure to Render Assistance.

Green Bay.—W. E. Chalmson and William Boehm of Shawano pleaded not guilty here to charges of fourth degree manslaughter and failure to render assistance and were bound over for trial March 11.

The charges are the outgrowth of an automobile accident near Deperre, in which the car owned and driven by Chalmson with Boehm and Miss Martha Marshall as occupants, collided with the automobile of Stephen Murphy of Appleton. Miss Marshall was cremated in the fire that followed.

Chalmson and Boehm immediately left the scene of the accident and walked three and a half miles to a taxicab station at Green Bay, from where they drove to their homes in Shawano.

### Suffocated By Bedclothes.

Duluth, Minn.—A sufferer from a weak heart, Thomas L. Dawson was suffocated by the bedclothing he pulled up over his head.

### Modify Harbors Bill.

Washington.—At the request of the president, the senate struck out of the rivers and harbors bill the requirement that all authorized projects be completed within five years.

Brookton, Mass.—Dry agents swooped down on the home of Boris Massod and began a search. Four hours failed to reveal any evidence. When the raiding party was about to leave one of the raiders accidentally kicked the lower part of a door, and the threshold moved. Investigation revealed a large copper tank in the walls, from which radiated small pipes. When liquor was desired, according to police, the stop was removed, a string was pulled, and the liquor flowed freely.

## About Roses

### BANISHING BUGS

Fighting insect enemies—eternal vigilance is the price of perfect flowers, because "prevention is better than cure." Vigorous, healthy plants are seldom troubled much.

Our Lady Rosa likes cleanliness above all things, and will respond generously to these attentions. Keep your roses clean and healthy and that will go a long way toward making them vigorous and happy. The beginners need not be dismayed at the array of troubles that may happen; if they do, these hints are offered as a "first aid." As a matter of fact, not all the pests are likely to appear in the same garden. Rose-growing is not so complicated or difficult as might appear.

Among the insect enemies to the rose, about the earliest to appear is the rose aphid, which can easily be controlled by an application of "Black-Leaf 40" or whale-oil soap in solution, applied with a sprayer, and the sooner the better.

There follow the rose slugs, including the American rose slugs, bristly slug, so called, all of which can be overcome by the use of a solution of 1 ounce of arsenate of lead in 1-2 gallons of water. The rose leaf roller may also be treated with the same spray and by hand picking. The rose leaf hopper may be controlled with the same treatment as the rose aphid. Perhaps the worst enemy to roses is the rose chaffer (or rose beetle or rose bug). Hand picking these into kerosene is thoroughly effective, but is irksome. The little chap avoids poisons. There are on the market commercial preparations claimed to cure, but none of these have we found to be thoroughly effective. It is even worth while to cover very valuable plants while blooming with mosquito netting.

(To be continued)

### HILL'S "America"

#### THE ROSE OF THE CENTURY

This superb rose, for which the horticultural world has been waiting for so long, is now ready for distribution, and we consider it a great privilege to help the E. F. Hill company in its dissemination.

We have tried it out in our test garden. It blooms continuously from early May until heavy frost, on stems two to three feet long, and the color is the most glorious glowing rose-pink imaginable. The buds are long and pointed and open up most artistically as the out-petals fold back, leaving the high-pointed center fully exposed.

It is as near disease resistant as a rose can be, always having a clean, glossy foliage at all seasons of the year. It rivals the American Beauty in size of flower, and if you are looking for a marvelous rose you will make no mistake in growing "America."

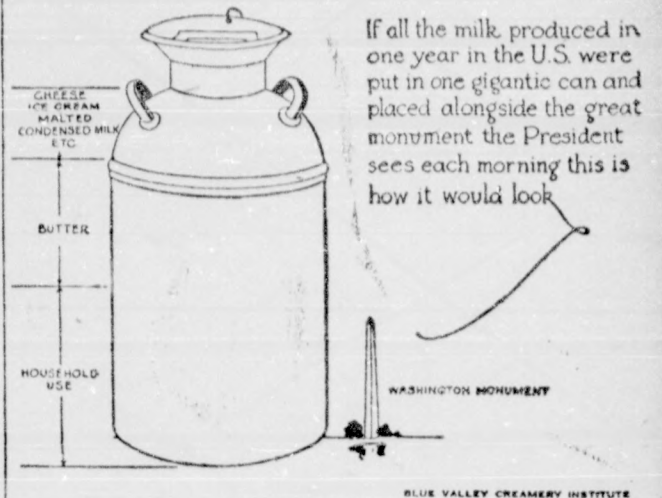

This wonderful rose has captured the prize in every rose show where it has been exhibited. In Paris and New York International show it was awarded the gold medal for being the best pink.

The price is \$1.00 for 2-year old plants, guaranteed to bloom this year. R. S. Williams, Fulton, Ky.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

## MILK PRODUCED IN A YEAR

If all the milk produced in one year in the U.S. were put in one gigantic can and placed alongside the great monument the President sees each morning this is how it would look.

IF ALL the milk in the United States last year was put into one gigantic can a thousand feet in diameter, it would reach almost half a mile into the clouds, being more than four times the height of the Washington monument at the national capital, according to the Blue Valley Creamery Institute. The can would tower 2,000 feet in height, while the Washington monument is only 500 feet high.

Into the American milk can annually goes 11,925,241 gallons of white gold, valued at \$2,568,000,000, the daily milkings of 24,075,000 cows. If the can was emptied, it would make a river five feet deep and twenty feet wide, extending 3,775 miles in length.

### European Cows Yield More Milk

#### AMERICAN COWS ARE LOW IN PRODUCTION AVERAGE

AFTER all the dairyman's big job is to keep production ahead of consumption, according to the Blue Valley Creamery Institute. In 1920 there were 23,722,000 cows, according to figures prepared by the bureau of dairying of the United States Department of Agriculture, while on January 1, 1924, there were only 24,075,000 cows—an increase of less than 4 per cent.

In spite of the small increase in the dairy herds, production has not lagged behind consumption, due to the fact that by better feeding and breeding more pounds of milk have been produced. However, as the chart shows, the average American cow would have to double her milk yield to equal the production of cows of some of the European nations. It is estimated that the average production per cow in the United States is 3,627 pounds, although many pure bred animals give six and seven times this amount. During the last quarter of a century the United States has increased her production of milk per person about 60 pounds a year, approximately 8 per cent. This "alias," has been sufficient to a little more than supply the same amount of milk, a person that was available in 1900.

### Fewer Eggs for "Ham and"

EGG production did not live up to its early promises during 1924, according to a review just completed by the Blue Valley Creamery Institute. A survey shows that on January 1, 1924, more chickens were counted on farms throughout the country than ever before. Diversification, which has become a part of the program for poultry as well as dairy and hog products, stimulated a rapid increase in the size of poultry flocks and put the mark at 474,000,000 on the first day of the year. This was an increase of 32 per cent since 1920.

In consequence, the eggs were counted far in advance, and a record production was forecast. Prices held very low, for storage men were reluctant to buy since storage holdings had lost money during the past two years. The entire country was ready for an onslaught of eggs and prices were ready to meet the oversupply.

But the oversupply never arrived. Receipts for the year were 14,644,583 cases as against the receipts of 15,837,520 cases in 1923. This is the first decrease in receipts for the past four years.

### 474,000,000 Chickens in U. S.

POULTRY failed to put in a record appearance for the year 1924, says a Blue Valley Creamery Institute survey just issued. The annual estimate of the United States Department of Agriculture, which placed the farm chicken population at 474,000,000 head on January 1, 1924, flooded the nation with predictions of an oversupply. This estimate was an increase of 12 per cent over 1923 and a gain of 32 per cent since the beginning of 1920.

The unfavorable spring, together with attractive prices for poultry which led to close selling, conspired to play a trick on the market and the anticipated flood of poultry and poultry products never reached the large terminals. Receipts of dressed poultry were very light during the summer, but on December 1, 1924, 16,000,000 pounds more dressed poultry were on hand than on the same day a year ago.

### What is the Chamber of Commerce?

The Chamber of Commerce is the voice of the city.

It reflects the ideals of the community.

It expresses the aspirations of the people.

It gives direction to the aims of the Citizenship.

It combines the efforts of those who think in terms of helpfulness.

It reduces unorganized elements to an organized unit.

It speaks in defense of the good name of the city.

It defends the city against the traducer.

It is the spotlight that reveals activities that are worthy.

It pleads in behalf of the voiceless.

It is the center of worth while enterprise.

It is the magnet that draws the outside world to your midst.

It is the clearing house of civic pride.

It is the power house of progress.

It is a composite picture of a city as its citizenship would have it.

#### THE DAHLIA

No Flower Garden is Complete Without It. Easy to Grow

The Decorative Dahlia is the pride of all Dahlias, standing out pre-eminently. In the garden the plants are strong, sturdy, vigorous growers, with heavy, dark green foliage, and a remarkable constitution. The blossoms are produced in great profusion, which is exceptional for a type of giant flowering Dahlias. For cut-flower purposes they are unsurpassed, having long, straight stems of wiry stiffness and producing their flowers in a pleasing upright manner; then principally their lasting qualities when cut they are unequalled, lasting longer than any of the other types. As an exhibition flower the Decorative Dahlia is the most gigantic of all Dahlias, blossoms having beauty, substance, quality—all essential characteristics of a true "Model of Perfection." As a decorative flower they are first in every respect; being graceful, adapted to designs, and most artistic.

No flower garden is complete without Dahlias. But all Dahlias are not alike, there are a number of varieties. It is just as easy to grow the best varieties as the ordinary kind.

**Book on Dahlia Culture Free With Each Order**

I would recommend that you place your order for Dahlia Bulbs now for early spring delivery without taking chances of being disappointed. All orders booked in rotation and delivered accordingly. Our stock is limited so don't wait until too late. R. S. WILLIAMS, Fulton, Ky.

**Too Sudden**

"Margery," said her father, sternly, "hereafter when you want to sneeze leave the table."

"But, papa," protested the little one, "the sneeze won't wait for me."

**Mean Thing**

Miss Hysee—I was encoered three times, wasn't I?

Jealous Rival—Yes; the audience seems to realize that you needed practice.

**CATCH POOR FISH**

"And what is a blind pool?"

"A place where poor fish are caught."

**Editor's Girl**

"Oh, give to me," the lover sighed, "Within your heart a place."

The literary lass replied, "Declined for lack of space."

**Identical Thoughts**

"Do you and your wife ever think the same?"

"When I'm out late at the club we do. She keeps thinking what she'll say when I get home, and so do I."

**Almost Universal**

"What church does your new neighbor belong to?" the caller asked.

"She's a utilitarian, I understand," responded old Mrs. Blunderby.

## First Christian Church

O. J. Sowell, Pastor

Last Sunday was a great day for the Lord in our church life and the pastor put over two of the biggest sermons of the year to huge crowds.

The topic of the morning sermon was "Christian Baptism." Rev. Sowell stated in the beginning that he did not preach the sermon with any idea of furthering controversy in any way but to prove to the people what he believed to be the true New Testament of baptism. A large crowd enjoyed the sermon and special music rendered by Mrs. Hardeman Howard and Mrs. Paul Hornbeak as organist.

By seven-thirty the Church was well filled with an anxious audience to hear the sermon on "Floyd Collins in Sand Cave." This was a logical, forceful and powerful sermon, one of the unusual type, yet bringing home the great thought of the age, so far as religion is concerned. Rev. Sowell gave a powerful outline of the whole incident and then compared Collins to a large part of the world seeking things of this life first, then after being caught by huge boulders of death, he called on the name of the Lord for the first time. The text for the sermon was, "Seek ye first the Kingdom of God and His Righteousness and all these things shall be added unto you." The world is full of men like Collins, neglecting Christ until sin rolls down boulders of death on the last spark of life and then there is an appeal for the aid of the Master. The rescue workers represent the Christian world. They should be digging down beneath the corruption of sin and rescuing souls. Christ should come first, then all the other things will be added. Greece has her Athens, France her Napoleon, England her Gladstone, America her Washington, but the world has her Christ. Put Him first.

The Juniors enjoyed a delightful supper in the church from 5 until 6 o'clock, then about 45 youngsters enjoyed the regular program. The Juniors choir gave some fine music for the church service in the evening. Clarence Spicer gave a beautiful solo. Mrs. J. M. Culver gave the special music of the evening, with Mrs. Hornbeak.

The Official Board held a delightful business meeting in the City National Bank Monday night. Plans were made for the completion of the raising of money for new building program.

The Woman's Missionary Society met with Mrs. J. W. Dobbins Monday afternoon at 2:30. A very fine program was given and very much enjoyed by all.

The India Gordon Society met with Mrs. S. E. Campbell Tuesday afternoon at 2:30. The young women of this society are doing some great work for the church life.

The choir rehearsed the program for the Easter Cantata Wednesday night. This is to be a great program.

Mrs. Jake Huddleston is spending a few days in New York with her son, George, who is playing a pipe organ in one of the churches in that city.

Mr. and Mrs. S. W. Brown were in Paducah with Stuart Dale for tonsil operation last week end.

Mrs. T. F. Thomson is reported improving after several days illness in her home.

Mrs. Boyd Alexander is better after a period of illness in her home in East Fulton.

Mrs. Sowell read at the Presbyterian church last Sunday night.

Don't forget the special services next Sunday morning and evening.

Sunday school, 9:45. Church service, 11:00. Sermon Topic— "Christian Unity."

Special music. Junior Endeavor, 6:30. Church service, 7:30. Sermon Topic— "The Old Rugged Cross."

Brass band and special musical numbers. Choir practice Friday night, 7:30. Prayer meeting Wednesday night, 7:30.

Trinity Episcopal Church.

104 Washington St.

Second Sunday in Lent. 9:45 a. m., Church school. 11 a. m., Matins and sermon. 7 p. m., Evening prayer and address.

Wednesday, 4 p. m., Evening prayer and short talk on practical living. Thursday, 7 p. m., Choir practice at the rectory. Friday, 7 p. m., Litany and short talk on items of practical Christian living.

News Items. Mrs. Sanders mother of Mrs. Charles Binford, continues quite sick and is most of the time confined to her bed, at her daughter's home on Eddings street.

Mrs. A. C. Boyd has not been feeling well for the last two weeks and has returned to the hospital in Memphis, Tenn., at the suggestion of Dr. Eugene Johnson, of Memphis, Tenn., her physician.

Clara Elizabeth Boyd, who has been sick at her home on Washington street for the last three weeks, resumed her attendance at school last Monday.

A good attendance at the church school on last Sunday is reported.

Lenten services at the church started out with a fair show of interest. Dr. Boyd announces he intends touching on the practical matters of every day life.

The lecture on the "Significance of Lent" delivered at the Junior High school last Monday, at the chapel exercises, by Dr. A. C. Boyd, was well received and favorably commented upon by several of the faculty.

Mrs. John M. Hoar has been very sick at her rooms in the Fulton hotel.

Word from Frank Fleming, now in the Federal employ and located at Philadelphia, Pa., states he is doing well and making good at his new work.

Mr. Robert Hubbard, for some time sick and indisposed at the Usona hotel, has about recovered and was able to visit his mother and sister in Mississippi last week, and be at church last Sunday evening.

"Bob" is again looking well and says he is feeling fine again.

A Mrs. Martin is looking after the rectory and caring for the home and family of Dr. Boyd, while Mrs. Boyd is in attendance at the hospital in Memphis, Tenn., for a few days.

Esq. W. O. Shankle has returned home from Memphis where he attended the Lumbermen's convention. He says the Bluff City is growing fast and is a splendid place to hold conventions.

The natives of Fulton were surprised Monday morning when they awoke to find the ground covered with about two inches of snow—a beautiful climax to the winding up of the winter season.

GOOD MAN LAID TO REST. The funeral of Z. T. McKinney, who died Saturday night at his home three miles south of Fulton after a protracted illness, in his 76 year, was held Sunday afternoon at Chapel Hill, the Rev. C. A. Riggs officiating.

Veal Calves Wanted. Will pay 7 cts down Saturday. LEE PEEPLES, Fulton, Ky.

## First Baptist Church

C. H. Warren, Pastor

Sunday school, 9:30 a. m.

Services, 11:00 a. m., 7:30 p. m.

Prayer Meeting Wednesday Evening, 7:30 p. m.

The Brotherhood will meet Friday evening at the church, 7:30.

We cordially invite the public to attend these services.

Railroad News

(Continued from page 1)

Mr. C. H. Markham, President of the Illinois Central, passed through Fulton en route to New Orleans, latter part of last week, returning to Chicago, a few days thereafter.

Political Interference a Menace To Constructive Rate Regulation. The action of the United States Senate in over-ruling the decision of the Interstate Commerce Commission declining to remove the Pullman surcharge is a serious threat to constructive railroad regulation, according to Robert S. Binkerd, Vice-Chairman of the Committee of Public Relations of the Eastern Railroads, Mr. Binkerd has authorized the following statement:

"The vote of the Senate on February 13 in favor of abolishing the Pullman surcharge may well cause every good citizen to ponder. Only a few days prior to this vote the Interstate Commerce Commission, established by Congress under the Interstate Commerce Act, had completed an inquiry on this very matter. The Commission had heard all interested parties, and arrived at the conclusion that there was substantial justice in requiring passengers in Pullman cars to pay more for their railroad transportation than passengers who ride in day coaches.

"The Commission went further, and said that when a reduction in railroad passenger revenues became justifiable the day-coach passenger, not the Pullman passenger, is clearly entitled to prior consideration.

"Yet the ink was hardly dry on this opinion before the Senate attempts to make it unlawful for any railroad to receive any more compensation for hauling a passenger in a Pullman car than in a day coach.

"The attempt of Congress to pass on such matters is a menace to constructive regulation. The Pullman surcharge after all is not so important as the question of how far this thing is going to go. It opens the way for Congressional action on all rate questions without regard to the findings of the Commission.

"It has long been recognized that the power of public regulation should not be exercised by legislative bodies, but by impartial commissions. To determine matters of regulation by legislation is to make them political questions. A legislative body has no machinery for adequately determining the justness or reasonableness of freight rates or passenger fares.

"Public regulation can be constructive only on condition that these matters are settled fairly after a full and calm study of all the pertinent facts."

It is stated that should the surcharge be removed from Pullman fares, it would mean a loss of 40 million dollars to the railroads of the country, which would necessarily have to be made up some other way, which would no doubt eventually be in increased freight rates. Inasmuch as a very small percentage of people use the Pullman compared with the number effected by freight shipment, many claim that the surcharge on Pullman fare should remain, and avoid any possibility of any increased freight rates.

Spring Suits
