Fulton Destined To Be The Largest Terminal On the Tennessee Division.

Mr. E. W. Bell, General Superintendent of the Illinois Central Railroad, was in town this week, and the announcement which the Illinois Central has made for the new road, east of the Coal Creek, which we understand the company has in contemplation, will, when put into effect, constitute an improvement in the service of the railroad, according to importance, which may not be paralleled in the history of the corporation and won't require the use of a steam engine.

Mr. Bell has been in town for a number of days.

Reports from Fulton say that there will be considerable improvement in the railroad service. The best trains that pass through Fulton will be substantially improved.

There are about 33 passenger trains served by the railroad and the freight trains, too, are numerous.

The general management has already become aware of the necessity of providing better service and a quicker handling of freight.

Bankrupt Petition

The Baltimore News-Reporter of March 4th, says Floyd M. Chambers of Fulton is in an extreme hard case in this county, and a certain petition in bankruptcy is in the United States district court here.

The petition is based on a loss of $10,200,000 worth of coal, $55,000 worth of equipment, and $10,000 cash on hand.

About Roses

It has been said that a rose is a symbol of purity and beauty, and it is so. It is the most beautiful flower that can be grown in the county, and one of the prettiest rose gardens in Fulton is that of Mr. and Mrs. A. W. Turner.

The Turners have raised roses for many years, and have a fine collection of them. They have raised the most beautiful flowers that can be found in the county, and their garden is a sight to behold.

Moss and Subtlety

Roses have been associated with the most important and vital events in the life of men. For centuries, the rose has been recognized as a symbol of purity and beauty, and it is safe to say that the rose is one of the most beautiful flowers that can be grown in the county.

Ballard's First Choice

The first choice in the selection of raffle coal is Mr. A. B. Ballard. He is a man who knows the value of coal and can understand the needs of the people.

Ballard is the man who has selected the coal that is going to be used in the new building.

BRIEFS

Nothing holds the ear quiet like a blank page on the day staff in a newspaper's office.

People often make light of writers, but it is important to remember that even the most casual conversation has much to do with society.

Men are in a receptive mood when they want a public officer to invite them to any event.

When a speaker is in the public eye, he generally has to tell another story to have any effect on the audience.

A pretty woman may look at a man and not notice him, but if she knows what she is doing, she may be able to influence him.

If a man is anywhere in the room, there will be an audience for his words.

Roses are fortunate in having a good culture, and it is important to take care of them.

MITCHELL ISSUES STATEMENT

United States Event

Mitchell, head of the recent United States foreign policy group, will be 80 years old on March 25, when the war in Europe ended.

The announcement was made that such a change would be the subject of a newspaper article appearing in the Washington Post.

The change in the policy group was one of several occurring on the staff of the United States Senate, where Mitchell had served for more than 20 years.

The United States Senate has been in session for several months, and the war has been going on for more than a year.

In the statement issued at the time of the change, Mitchell said the war took a new turn.

"As a result of the current situation in Europe," Mitchell said, "the United States Senate will have a new sense of purpose in its work on foreign policy.

"It is clear that a new era has begun, with the United States as a central power in world affairs.

"The war in Europe has given us a new sense of purpose and urgency in our efforts to build a lasting peace."
