### Lon Adams Wins City Judge's Seat

### New Councilmen: Boaz, Murrell, Smith, Irby, Phillips and Reeds

Much interest was displayed in the city election this year, with 1163 cast in the four precincts inside the city. Lon Adams with a total of 475 votes led in the race for city police judge, with W. H. Boaz running a close second with 348 votes. J. A. Colley was third with 240 votes for his credit.

Mayor Paul DeMyer was unopposed for mayor of Fulton, making it unnecessary for a vote to be polled for the mayoralty.

Only seven men were in the race for council, six of whom were selected by their majorities to serve as councilmen for the ensuing term. Of this number four were incumbents for council seats, these being T. T. Boaz, E. C. Reeds, L. S. Phillips and T. H. Irby. The other three making the race for councilmen were W. P. Murrell, Albert Smith and Will McDade, with the latter being defeated by a small majority, because he polled fewer voters than any of the others.

### OBION COUNTY ELECTION WAS HELD SATURDAY

Last Saturday, August 5, the following candidates were elected in Obion county:

J. W. Buchanan was chosen judge over J. A. Heffley, G. R. McDaniel and J. C. Walker.

J. F. Semones was elected County Court Clerk by a big majority, being the only ex-service man in the county race.

Lorene Waddell defeated W. A. Jackson and Will Robey for Register.

J. L. Mott was unopposed for Circuit Court Clerk, as were C. H. Brush for sheriff, and C. J. Moore for Trustee.

W. H. Herron was victorious over V. H. Holmes in the race for Chancery Judge in the Ninth District of Tennessee, while Judge Robert A. Elkins retained his office as Circuit Judge over his opponent R. E. L. Gallimore, in the 14th judicial circuit race.

Messrs. Frances Galbraith, Jennie Gibbs and Lu Ella Lowe, left for Chicago Fair, Friday night.

### Warner Theatres Are Cooperating With National Recovery Program

Warner theatres throughout the country are co-operating with the national recovery program 100%, and changes in the working schedule and employment list were effect at a group meeting held last week for managers of Warner theatres operating in Kentucky.

Jos. W. (Buster) Shuck, manager of the new Warner Orpheum theater of Fulton, was summoned by long distance telephone communication early Thursday night, and left out of Fulton for Louisville on the mid-night train. Arriving at Louisville Friday morning, Mr. Shuck, with managers of other Warner theatres operating in Kentucky, went into conference with Lee Goldberg, zone manager, and other Warner officials. This meeting held on till noon. Mr. Shuck took a train out of Louisville at 12:30 p. m. Friday, and arrived back in Fulton at 7:15 Friday night.

All Warner theatres will operate under a 40-hour week schedule. No employee received less than \$14. a week, with three men being employed under the new working program. The payroll of the local Warner theater, has been doubled.

Every Warner theater in Kentucky is putting on more help and sweetening their payrolls in harmony with N. R. A. drive to increase employment and consumer buying power.

In interviewing Mr. Shuck it was also learned that additional money is being put in circulation by various

### K. R. C. To Cease Operation Here

It was announced here this week that the local unit of the Kentucky Relief Commission would discontinue temporarily, until Governor Laffoon holds a special session of the legislature, when an appropriation will probably be made by the state department in order to obtain a federal appropriation for relief work. Every K. R. C. office in the state will be affected by temporary suspension, two of which operate in Fulton and one at Hickman.

R. B. Kemp, disbursing officer at Fulton, was busy this week figuring out additional pay due those who had done work for the K. R. C. since August 1, when this organization went under the Blue Eagle, with a minimum pay of 30 cents an hour. It is estimated that approximately \$700 will be disbursed to allow every worker 30 cents an hour for every hour put in since August 1. A like amount will probably be expended by the Hickman committee operating west of the M. & O. Railroad in this county.

Suspension of K. R. C. work will begin Saturday, August 12, and will continue until funds are obtained for carrying on relief work. R. B. Kemp, disbursing officer, and Mrs. H. B. Alexander, field representative, will remain on duty, but activity will cease temporarily.

Mr. and Mrs. Walter Evans and daughter, Sarah Mae, and Mrs. T. W. Thomas and Miss Margaret Robinson spent last week-end at Parkin, Ark., visiting Mr. and Mrs. N. E. Thomas.

Misses Montez Cashon and Nell Myrick are spending this week with Miss Josephine Clements near Dukesboro.

### UNDERGOES OPERATION

A. E. Crawford, of Cleveland Ave. underwent an operation Tuesday. He was rushed to Paducah. He is reported resting well today.

### Warner Theatres Are Cooperating With National Recovery Program

improvements being made at the Fulton Warner Theater. The Fulton theater is planning several changes that involve the expenditure of several hundred dollars. Work will begin immediately on repainting the front of the Orpheum, innovation of a new marquee over the front of the entrance at the theater, installation of new seats new rugs and rewiring of the house.

The instant reaction of Warner Bros. to President Roosevelt's industrial recovery act, together with other leading motion picture corporation, has been described as most inspiring. H. M. Warner stated last week that all employees of the company and its subsidiaries including studios and theaters would come in line down by the President. Mr. Warner said, "The sooner the entire nation gets behind the President's plan and receipts it wholeheartedly, the sooner will we return to our normal prosperity."

The 40-hour week is now effective, and embraces several classification of workers, such as ushers, film inspectors, doormen, certain groups of clerks and watchmen at the studios themselves, and all employees of the Warner theatres. Operation the N. R. A. code will swell Warner Bros. payrolls fully \$30,000 a week.

The Orpheum theater was one of the first businesses in Fulton to put up the Blue Eagle insignia of the N. R. A.

### Council Accepts Proposed Rates

The city council met in regular monthly session Monday night. After routine business matters were attended to, a discussion of the new rates as proposed by the Kentucky Utilities Company was launched into by the mayor and all members. The old franchise under which the utility company had operated for twenty years expired here March 3, and since then this company had operated without a new one. The new rates are as follows: Residential rates: 12 k. w. hours for \$1 minimum; 18 k. w. at 7c; 20 k. w. at 5c; excess at 3c. Commercial rates: 12 k. w. hours \$1 minimum; 160 k. w. at 7c; 50 k. w. at 5c; excess at 3c. The new franchise is for five years, with a provision in the contract for a change in rates if so desired, after a period of two years.

### HOWARD SLOAN, 23, CAYCE YOUTH WAS INJURED IN SCUFFLE

While scuffling with a friend at Cayce, Howard Sloan, 23, sustained painful injuries Saturday when a nail through a plate glass window. He was brought to the office of Drs. R. T. and Russell Rudd in Fulton, where he was received medical attention for severe lacerations about the chest and head. Later he returned to his home at Cayce, where he is reported resting nicely.

### ARMOUR CREAMERIES FAVOR N. R. A. PROGRAM

In an interview this week with R. A. Francis, manager of the Armour Creameries here, this organization is 100 per cent for the re-employment program of the National Recovery Administration.

Mr. Francis stated that the creameries were awaiting the working out and acceptance of a code for their particular group of industry. He pointed out the local Armour creameries has already employed two new workers, an extra man in the cream station and an additional office girl. It is probable that others will put to work immediately after a code is worked out.

A definite working code is expected in a few days for the Armour Creameries.

### GRAHAM FURNITURE CO. BUYS CAR OF MATTRESSES

It was a sight to see mattresses stacked up by the hundreds in front of Graham Furniture Company Monday morning, as they were being unloaded from a truck bringing them from a car parked on the railroad siding. Mr. Graham bought a solid carload of mattresses at low market prices, in order that he might be prepared when prices advanced. They will be stored away to be sold to their customers at low prices, with the supply ample to meet demands for a comparatively short while.

### MR. GLENN KERMEEN DIES

A message was received in Fulton of the death of Mr. Glenn Kermeen in a hospital in New Orleans, La. Mr. Kermeen formerly lived here and was employed by the I. C. Railroad. He was a member of the Masonic Lodge of this city and the Christian Science church. He is survived by his wife and three children, and one brother Jack Kermeen of Memphis. Burial occurred in Galva, Ill. Mr. Kermeen has many friends here who will regret to hear of his death.

### Swift & Company Will Cooperate With National Recovery Program

Employees of Swift & Co., in the ice cream department are cooperating with the National Recovery program, and are working under a code established by the ice cream industry.

"Swift & Company is cooperating with President Roosevelt's recovery program," said W. P. Ayers, manager of the local Swift plant. "As a member of the American Association of Creamery Butter Manufacturers, Institute Poultry Industries, and the National Poultry Butter and Egg Association, our people are now working on the necessary codes with the N. R. A. in Washington. We hope believe that this will be signed within the next day or two.

"Our industry is peculiar in that it has no control over its supply of raw materials. Butterfat, eggs, and poultry come to market when and in such quantities as the producer desires. The industry purchases all the supplies that come to market and these supplies vary from day to day and week to week. Also, at certain seasons the supplies are much greater than at other seasons.

"Produce products are perishable and must have prompt handling and constant supervision. Thus, a flexible schedule of hours of labor and numbers of employees in the industry are required. These matters are now under discussion in Washington. In the meantime, Swift & Company is planning to put the code into effect immediately upon approval."

## THAT TERRIBLE CROSSING

Citizens have been complaining about the Walnut Street railroad crossing near the Usona Hotel. East Fulton in particular is affected by the poor repair of this crossing. Attention was recently called to this condition hoping that the city council or Chamber of Commerce would take steps to see that the crossing was put in a better state of repair.

But no action has been taken. Several East Fulton citizens have requested The News to turn attention to the condition existing at this crossing, and again we point out the work that needs to be done.

Practically all vehicular traffic between West and East Fulton goes over the Walnut Street crossing. And in its present state of repair it is a sore spot in our city thoroughfares for both motorists and pedestrians.

The only logical step to take to obtain concerted action on this cross-

ing would be through the chambers of our city council, and we urge the municipal fathers to take steps that will bring about the necessary improvements needed at this particular crossing.

The people themselves can hasten this action by appearing before the city council and directing attention on this matter.

## OTHER WONDERS—

**AMERICA DOES**  
While foreign countries sit by in wonderment, America has started on the road back to a new era of progress. England admits that the United States has done more in recent months to effect immediate economic changes, than that nation has accomplished in years. What is it back of this movement for recovery, that causes it to gather momentum?

It is the manner in which many individual business firms, manufacturers, wholesalers and retailers, are lending support to the National Recovery Act, and salaries and add new employees, that is swinging the tide back toward the shore of prosperity.

First the nation needed a leader who would point the way. Roosevelt has proved himself to be that leader, and the American people have rallied to the patriotic purpose of national recovery, under General Johnson, who is proving himself a good general.

The experiment is new, but it has met with approval everywhere. It is hoped that the real purpose of the N R A program will be attained, and that the multitude of American people will again have an opportunity to earn a livable wage.

## THE RESULTS OF WORSHIPING MONEY.

The people of Paintsville (or Fulton, for that matter) financial affairs in the United States has been brought about by the selfishness of a minority group of citizens. Those who caused the debacle promoted ill stock schemes, fraudulent bond issues and misused the money of others on a tremendous scale.

The entire American population, including millions of average citizens, is paying now for the economic and financial misdeeds of the so-called leaders of our highly industrialized organization. Hundreds of them reside in Johnson (or any other

county) and are suffering today through no fault of their own, but through the neglect of their leaders.

The fundamental misconception behind the entire American debacle has the prevalent idea that money-making was the chief end of human activity and that those who managed to accumulate money in comparatively large quantities were entitled to respect, obedience and emulation. (From the Paintsville Herald).

## Think It Over

BY THE MEDITATOR

If You Like This Column Tell Us.

I journeyed to Illinois Sunday and found the NRA in operation there, too. Shorter hours, more wages, extra employment was all I could hear.

Why not have high wages? But let all workers be included. Certain occupations in the past have been paid liberally, while many workers, the farmers for instance, have been laboring at starvation wages. What we really want in this country is uniformity of wages.

The scale of wages regulates the price of everything we buy, and uniformity of wages will insure the good things of life for everybody.

Peaches may be scarce, but not where I was Sunday. I visited a big orchard just above Mounds, Ill., and saw more peaches than I have ever seen before in one lot. This orchard had 5,000 trees loaded so heavily that limbs were bent to the ground. Up till Sunday ten car loads of select peaches had been shipped to market for \$1.75 a bushel. I brought back two bushels, all good peaches but they had failed to pass the grading tests, for which I gave 20c a bushel. They were nice, big, juicy Albertas.

Some people are objecting to giving the president so much temporary power. They argue we are now bordering rulership under a "king" or dictatorship. But, at least, Roosevelt has moved the Capital of the United States from Wall Street, in New York City, to Washington, where it belongs. For nearly twelve years this country had been in the hands of a few rich men, who had cornered the wealth of the country and muzzled the marketing channels through which the products of the farmer and laboring man must flow. So far, the new president has kept his promises made before election, and let's hope he keeps up the good work.

This is no time for petty criticisms, but it's time for everyone to co-operate and assist in bringing about re-employment and a return of better times. Regardless of our politics, religion or social standing it is our duty as true Americans to throw all our strength and power to the common cause, which in the end will benefit all the people.

The purpose of the NRA code is not to shorten hours so much as it is to promote re-employment. Changing opening and closing hours is of no material help, but on the con-

trary tend to decrease turnover because the public fails to get service it has been accustomed to. The new plan is instigated to provide a system by which production and consumption are regulated, and employment increased. There is no evading the code's real purpose—which is to open jobs to more people and step-up consumer demand.

Recently a new kind of pie was served to me. It was made of Blueberries—and not from canned stock, but freshly shipped from a Michigan patch. These berries are about the size of huckleberries, and make a delicious dish. They grow wild but are new providing profitable earnings when marketed.

A friend told me about a curious episode which happened in Fulton many years ago. The telephone company wanted to tunnel under the railroad for the purpose of installing a telephone system on the opposite side. Their workmen began to dig the viaduct. The railroad gathered up their workmen, and as fast as the telephone group would throw out dirt from the underpass, the railroad bunch would throw the dirt back. This went on for a while, until both factions were nearly fighting. But just before the fighting got started in a big way, officers stopped the dispute, and the wires were put under the railroad.

The Kentucky election laws must give the candidates considerable worry and trouble. This business of having to wait so long to know who is elected certainly gets on the nerves of those asking the people's support, and naturally takes the kick out of an election for a good many voters.

## TOBACCO BARN VENTILATION

the employees.

"If the store hours are reduced by this agreement to any number of hours below sixty-three hours, the re-employment which is anticipated through the allowance of the forty-eight hour man, work hours each week will not be obtained and the understanding upon which the food and grocery distributors, and the retail codes was based, will not have been carried out.

"The proposal to shorten hours is in violation of section 8 of the President's re-employment agreement. Reconsideration of the provisions of the retail codes and possible withdrawal of insignia will be necessary immediately if community or concerted action to shorten store operating hours is taken."

Our operating hours have been and will continue to be fifty-two hours a week or more if necessary, as we are attempting to abide by and cooperate with President Roosevelt's code of the N R A.
