Two Fulton Boys
Return From Chicago
With $26,000

Almost as soon as the news reached Fulton about the astonishing
success of the two boys, Edward and Anthony Female, a young
man, who had known the brothers for many years, paid them
a visit in Chicago, where he found them.

Edward said that they had started with $500 and had
made $26,000 in a few weeks. Anthony added that they
had won a prize of $2,000 in a lottery and had made
$2,000 more by investing the prize money in real estate.

The boys said that they had always planned to make
money and that they had been working hard for it.

Edward said that he had been working as a laborer in
a factory and that he had saved $200 of his earnings
before leaving for Chicago. Anthony said that he
had been working as a clerk in a store and that he
had saved $100 of his earnings.

The boys said that they planned to invest some of their
money in a business of their own and that they would
also use some of it to help their family. They said that
they were happy about their success but that they
would not let it go to their heads.
