RAIL ROAD LIFE.

Ups and Downs of Rail Road Life.

ADVICE TO LOUNG MEN.

ELVA, KY., August 1st. 1894-As you are perfectly familiar with the ups and downs of that important being called a Railroad man, it is useless for me to tell you that his life is a pleasant one, his pleasures and his burdens as light as that of an army mule. But if I could handle a pen with as much grace and ease as I can one of Oliver Ames' No.2 and tamping bar I could give you a flowery description of his life which would be filled with joy and happiness instead of starvation and exposure; but as I have bucked against the stomry realities of this life so long, faced road masters and kink snipes until my hair has long since left my head and my ears have began to flop like an Indiana hound. I am a mere wreck compared with my self, for I have a curve in my back from tamping ties and carrying board bills which would make the famous Horse Shoe band of Penn. blush with shame. And under the present circumstances I considerit my duty to write this little article as advice to young men and boys who have become dissatisfied with their homes and are about to exchange the advice of their kind parents for the abuse of road master and king snipes.

Young man, stay at bome: Be in alms house in 1890, showing a it ever so humble, its a paradise, total of 73,045, as against 66,203 in along side of a railroad camp. At 1880. These are divided according oclock sharp you are aroused to sex and color as follows: Num-

Intense palpitation of the heart, hausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholis, and for days at a time I would have welcome-death. I became morose, sullen and irritable and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Barsapa Suffering Hood's rills, as cured his wife of wife of sia. I did so, and before taking the wh a bottle I began to feel like a new man. The terrible pains to which I had been subjected ceased, the palpitation of the heart subsided my stomach became easier, nauses disap peared, and my entire system began tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I sum today well and I ascribe it condition. I am today well and I ascribe in to taking Hood's Sarsaparilla." N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

It is claimed that this class of labor comes in contract with honest labor and that educes the prices of labor to such an extent that an honest man at home can't make an honest living. We believe it is best to keep convicts in the penitentiary where they properly belong, and not send them out over the country and reduce the prices of honest labor below where people can live.

The timber men are at work in seen them. many parts of the county; getting out ties, staves, piling, and all manner of lumber to ship to Chicago and other Western cities. Hub and spoke timber is also in demand. All along the new line from Paducah to Paris, Tenn., saw mills, stave machines, and thehackers' camps are located, using up all kinds of timber and shipping away. This business is furnishing work for hundreds of men and sale for thousands of dollars

worth of timber that before the building of the road was not fit for anything only to be cut down and burned up. New businesses of many kinds in which lumber is used are continually springing up that furnish work for men and sale for timber. But a few years will elapse before the fine timber that once made Clark's river bottom famous will be filled by the industrious woodman's ax.

The indication are at present that Mr Blaine will be the next republican nomines for the presidency. The republicans are in a great measure against Mr Harrison both in New York and in the West and in many other parts of the country. Blaine is a republican of acknowledgedleedership and ability, and one in which his party places unshaken confidence. They had rather he was president of the United States Kelley. than any republican in it. He, if elected president would make the head of a strong personal administration, and one whose influence would be felt directly in all parts of the government, From a democratic stand-point we would rather see him in the presidencial chair than any republidan in the United States. We do admire ability as much as it is in our mind to do; we
