Kentucky Lake And Dam Draw Thousands Over Three-Day Holiday Period

A crowd of 46,695 persons registered to inspect Kentucky Lake and the three-day Memorial holiday. That figure was made public by Harold Fischer, superintendent of Kentucky Dam State Park, late Tuesday.

Mr. Fischer said there was no count made of persons in the area during the period who did not register to cross the dam.

He reported park facilities were crowded during the three days and that crowds of picnickers overflowed into the undeveloped area. Tents and trailers filled an area between the park and a Tennessee river during the time.

Private tourist camps did a booming business and several private homes were opened to tourists unable to find lodging near the dam. Mr. Fischer said many people slept in their cars. There was no estimate of visitors to Kentucky Lake or fishermen in either the lake or below Kentucky Dam. Mr. Fischer said there was a shortage of fishing boats. There are two boat docks in the area below the dam.

The record crowd was approximately 5,000 more than the crowd on Memorial Day week-end of 1948.

There were no reports of accidents or law violations in the area over the holiday, Mr. Fischer said.

Fishing was reported as "good." Thirty-five planes visited the Kentucky Dam airport, just west of the dam. Unsettled weather kept them away Monday.

Walker Myers Announces For County Tax Commissioner

PASSED STATE EXAM HELD BY STATE TAX COMMISSIONER

To the Voters of Marshall County:

Today I am making my formal announcement as a candidate for the office of Tax Commissioner of this county, and if you can again endorse me in this capacity, I shall do my best to again make you an efficient Tax Commissioner and public official. I have recently passed the state exam for this office, and in addition to this, I believe I am further qualified for the office by knowing Marshall county tax procedure.

Due to my duties as Sheriff from now until the first of the year, it will be impossible for me to see each voter personally as I expect to continue to do this after the office, diligently until my term expires. It is my hope that you will take this as a personal appeal for your consideration when you go to vote on August 6. I expect to make an active campaign of course, but my official duties will not permit me to be away from the office enough to make a personal call on everyone.

Thanks a million for past favors and again soliciting your good will and your good influence throughout the future.

Respectfully,
WALKER MYERS

THEY'RE THE BERRIES... WE KNOW, AND HOW?

Most of the Courier staff have been sick for several days... But we're willing to be made puny again...

It all happened during the week end when our good friend and green walnut thrower, apple knocker, and ridge runner, Homer Washburn, of Route 5, came by the shop and left us a handy of his choice strawberries. Yep, he even picked them and we "processer" them in nature's own way.

And then along comes Pendley Washburn, another ridge runner and invites us out to his patch to pick all we wanted. He doesn't care about our school girl complexions, or did he expect us on a cloudy day?

Who has a patch (berry patch of course) with lots of shade?

Berry Shipments Total 50 Cars This Season

The Strawberry Shipping season for Marshall County ended Wednesday night with fifty carloads leaving the Benton station to conclude the season's rail shipments. There were 73 carloads shipped from the local station last year.

The first 14 carloads brought \$6.25 per crate and the last 39 brought \$7.00 per crate.

The \$10,000 was derived from berries. The total amount of money received from berries in this county shipped by rail from Benton totaled \$158,470.00.

These in charge of the railroad express company stated to a Courier reporter that nothing was left undone in giving the farmers best transportation service for the shipping of the berries and that the latest equipment was used in preparing them to be shipped. Farmers cooperated in getting the berries in for early movement and the transportation company more than met the farmers halfway in getting the berries to a destination before their freshness vanished.

Observations

By Old Kodger, Distortionist
Now that old Kodger has entered the campaign for the nomination for the office of master money, he has the assurance of one (1) vote. Mrs. Annie Turner has said she was going to vote for him. One more and he will have his quota.

Due to the fact that I am making a crop, don't have time to attend all funerals, and my dental plates fall out if I kiss many "little" babies, I won't get to see all of the voters between now and election day, August 7. My election will be held Sunday, because by then all other candidates will be home in bed—sick, and voters will have only the Kodger ticket to think about.

I PROMISE YOU will be my slogan, subject of course to distortion in any manner I see fit. My chief deputy will also be a genuine distortionist and who will promise to distort all women and little children he or she comes in contact with. We, (the two distortionists) further promise and swear, to stop all Sunday fishing, picture shows, bus and train operations, and to enforce the Sunday blue laws to the limit, unless and provided the ox is in the ditch and fish are on the bank.

It is a part and parcel of my platform to enforce all laws on the statute books and a lot of laws that are not in the books. It shall be a part of my solemn duty and without reservation of "equalization" whatsoever, to assist in distorting anything, everything from the county seat to the nation's seat. There will not be a patch for any pants nor any pants for any patch, excepting as herein provided two bits.

Remember voters old Kodger was born and raised to the sublime degree as a Master farmer... raised one crop of tobacco that brought \$11.50 for the two acres and what the worms did not get. I invested the \$11.50 in a green suit with long pants and it's the only one I have had since. So, won't you vote for me... I need a new pair of pants to match the coat? If you doubt this ask my friends, if any, and it may be verified by distortion.

The reason I did not print my

A Plan For The Future

Or A

Plan for the Present

THE BOONE has a grouping of rooms around a small central hall, enabling accessibility to all rooms from the front vestibule without first passing through another room. A covered stoop protects the entrance to both house and garage. Plumbing installation costs are reduced by having an adjoining kitchen and bathroom. The kitchen has a large well lighted dining space with equipment arranged on two opposite walls. It is located so one end of the living room may be used for dining. There are 2-story view windows in the living room, one set overlooking the garden, the other the front yard and street. A fireplace can be placed on the wall of the living room next to the stoop. Closets, with storage space above, are in the bedrooms. There is a coat closet in the vestibule and a linen closet in the bedroom hall. Exterior walls are frame with asphalt shingles. The roof, asphalt shingles. There is a wide eave overhang. The attached garage gives a wide appearance but the area is only 908 square feet and 17,252 cubic feet, including the basement.

We hope we can be of service to you on plans for a New Home. We invite you to discuss your plans with us.
