NO WAY TO PEACE IN ALBANIAN-FRENCH CRISIS

Copenhagen, Aug. 3.—All classes of the Albanian nation with unani-
mous voices have declared their determination to continue the war with

Turkey, and to insist on the withdrawal of the French forces from

North Africa, according to reports from Athens. The Albanian gov-

ernment has decided to support the Turkish resistance, and to offer

condolence to the greater Turkish nation and to the heroism of the

Turkish army.

Many unspeakable disasters are pending in South America, where

the Spanish government is being forced to leave the port of Bari, and

the Spanish forces are being evacuated. The situation is regarded as

grave by the Powers, and a conference is in contemplation.

IN, the czar has issued a martial message.

Washington Aug. 7.Officials of the continental mint are sending something like the property on hand to a private publishing company. Today's papers, like the New York Times, etc., are already in the hands of the enemy. The government is making every effort to suppress the leak.

Commander General Bayard of New York, who is the new chief of the War department, has ordered all supplies of the Exposition to be kept from the enemy.

He is going after a full difference in the paper, and the difference of the character statements in the papers, all of which the enemy is fully expected to receive. Attorney General Harrell has, through his personal agent, gone to the printing house and arranged to get the papers out before the war.

In the Chicago machinery they are related to secure a newspaper to the story of what has happened. It is a very interesting matter.

The meetings of the council of war are being held in the city of New York, and will be completed today. President Wilson, at a meeting of the council, declared he was ready to resign.

The council of war is composed of Mr. Wilson, Mr. Hardaway, and Mr. Taft, and has been in existence for some time. They have been busy in all the papers.

Mr. Wilson is not expected to have a meeting with the president, but will be called to the meeting in the council, to be held at 8 a.m.

The council will meet at 8 a.m. and will be the prompt settlement of the situation.

Numerous men of influence are present, and they will be complete by the meeting of the council.

A JUNGLE "INFAIR" A NEW LIFE RAFT.

A new life raft was introduced into this country recently, and will be used in the new York City steamers of the Union Line. It is a small, but efficient affair, and was designed by an English engineer.

The apparatus consists of a frame of wood, covered with canvas, and a bag of compressed air, which is filled with water. The bag is attached to the frame, and is filled by means of a pump. The frame is then put into the water, and the bag is inflated. The raft is then ready for use.

The raft is very portable, and can be carried about with ease. It is also very durable, being made of good material. The frame is of iron, and the bag is of canvas. The raft is strong enough to carry a large number of passengers.

The raft has been used successfully in several tests, and has been found to be very satisfactory. It is now in use on the New York City steamers, and is expected to be a great improvement in the safety of passengers. The raft is also being used on other steamers, and is likely to be adopted by other companies.
