A HOUSEBOATMAN SAW THE SLAYERS

Dead Youth Victim of Men
From Another County.

Worked for Big Four Railroad and
Had a Time Check and a
Gold Piece.

POLICE HAVE DEFINITE CLEW

Dead man worked for Big
Four.
Seen with two men that night.
Had claim check and money.
Police have clew out of town.
Shanty-boatman testifies.

Out of Paducah leads the trail of
the murderers of the unknown dead
man, who was picked up unconscious
near Sixth and Terrell streets Tues-
day night, but it appears that Chief
Collins and Detective Baker, who
have taken up the work, started suc-
cessfully by Captain Harlan, Lieuten-
ant Potter and the patrolman, have
at last struck on something tangible.
They have found a man, who saw
the victim and his two murderers the
night of the killing, and his evidence
supplies a motive, that of robbery.
The victim, whose name is yet un-
known, however, is no longer a mys-
tery. He was an employee of the Big
Four railroad and through this
knowledge his identity will be es-
tablished.

Chief of Police James Collins and
Detective Will Baker started in on
the case yesterday morning. They
made a flying trip to Mayfield on a
freight train, returning last night
about 8:30 o'clock. They gave out
nothing but stated they had some
good clews. This morning Chief Col-
lins made a statement as follows:

"I think that we will soon have the
matter cleared up and maybe that a
warrant will be issued today. We
learned from a man residing on a
houseboat on the river near the foot
of Terrell street, that on Tuesday
night three young men, one being the
murdered boy, came near his house-
boat and he passed them and had
words with them, learning the boy's
name. The boatman cannot remember
the name now but states that the boy
had a claim check and a \$10 gold
piece. This was the last heard of the
trio until the boy was discovered in
the field fatally wounded."

Chief Collins would not tell any
facts relative to how the conversation
between the boy and boatman hap-
pened to be brought about, or why the
check and money was exhibited.
Chief Collins continued: "We have
learned who the boys with him that
night are, and it may be that warrants
will be issued today, but we will first
have to locate the fight and also get
the dead boy's name."

Coroner Eaker is waiting on the po-
lice before holding the inquest and
the detectives and all policemen are
looking after their ends of the case.

Not Clarence Carey.

The boy is not Clarence Carey. Car-
ey wrote Mrs. William Aday, with
whom he boarded, saying he was alive
and well in Mound City, Ill.

Jose Antonio Questioned.
Jose Antonio, a Syrian residing at
the Round Top house near Sixth and
Terrell streets, was examined at the
city hall the night after the body was
found and again this morning. It is
understood he knew nothing about
the matter and was asleep in the hour
all that night.

Others are being interviewed today
and the police are exerting every ef-
fort to unravel the mystery.

NEW HIGH RECORD.

Is Made by Union Pacific in Last Fif-
teen Minutes.

New York, Aug. 25.—The stock
market underwent a complete change
in the last fifteen minutes, enormous
buying of Union Pacific and Southern
Pacific sending the former to 189, a
new high record, and Southern Pacific
to within a fraction of its high price
of the early week. Union Pacific
changed hands in blocks of thousands
of shares and there was a wild rush
to cover by the shorts.

Palma Is Prisoner.

Tampa, Fla., Aug. 25.—The steam
ship Gussia arrived today from Ha-
vana and brought the information from
private sources that President Palma
was virtually a prisoner in his palace
at Havana and that he has not left it
for a week. The situation is much
worse than is generally known.

MAY BE KIDNAPERS ATTACKED GIRL

Miss Clara Bader Sent to Rel-
atives in Country.

Her Grandmother, Miss Carrie Schroe-
der Is Ill as Result of Shock to
Nerves.

NO CLEW HAS BEEN FOUND.

That it was an attempt at kidnap-
ing is now the belief in connection
with the attack on Miss Clara Bader,
the 17-year-old daughter of Mrs. Joe
Vogt, 1014 South Twelfth street on
Wednesday night, when two men en-
tered the house and bound and gagged
the girl. Whether the men were
frightened away by other inmates of
the house or whether they were found
themselves in the wrong house, is
only a conjecture. At J. T. Berger's
residence in the same block somebody
was heard at a window, and tracks
were found in the yard.

Miss Bader has apparently recovered
from the shock but her parents
have sent her to visit relatives in the
country.

The most serious outcome of the af-
fair is the illness of the girl's grand-
mother, Mrs. Carrie Schroeder, 817
South Fourth street. When Mrs.
Schroeder heard of the occurrence she
was seized with nervous illness and
has been in a serious condition since.

PLOT TO ROB TREASURY.

At Washington Hated But Officials
Say Suspicion Not Founded.

Washington, D. C., August 25.—
A coincidence in making some purely
formal appointments recently caused
a curious notion to get abroad in the
city that the treasury officials were
fearful of a plot to rob the treasury
which contains the world's greatest
treasure heap aggregating more than
a billion dollars. An array of very
powerful electric lights was installed
about the old pile, the explanation
being that better lights were desir-
able there. On the heels of this, 35
night watchmen were commissioned
for service in the building. As a
matter of fact, this was simply the
renewal of expiring commissions.

GHOULS

CUT OFF FINGERS AND EARS OF
LIVE WOMAN.

Terrible Scenes at Valparaiso After
the Earthquake and Fire—
Will Rebuild.

Valparaiso, Chile, August 25.—
One of the most pitiful incidents
connected with the recent horror
here is the fate of the wife of Presi-
dent-elect Montt. At the first shock
of the earthquake she ran to the bal-
cony outside the window of her bed-
room. As the building collapsed she
was hurled into the street where she
lay unconscious and unnoticed be-
cause of the great confusion and ex-
citement. When she was found her
arms and fingers had been severed
by ghouls for the jewels which she
wore. She was still breathing, but in
such a condition that it was recog-
nized at once that she was dying.

Quickly as possible she was borne
board the flagship Almirante O'Hig-
guins, which was anchored in the har-
bor. She died the next day.

Among the dead are eight Sisters
of Charity, who were killed while
aiding others during the earthquake.

According to plans and with the
co-operation of the city government,
Valparaiso will be rebuilt within a
few years on a finer and more beau-
tiful lines than before the disaster.

HORSE FLESH BETTER.

Declares Professor in Sheffield Sci-
entific School of Yale.

New Haven, Conn., August 25.—
Prof. William H. Brewer, professor
emeritus in Sheffield Scientific school
of Yale University, in a brief speech
at the banquet of the American Vet-
erinary Medical association last night
advocated horse flesh as food. Prof.
Brewer said that horses are less li-
able to disease than bovine cattle that
are now eaten for food, and the on-
ly thing which prevents the use of
the flesh in this country is prejudice
and lack of knowledge of its whole-
some.

PREMIER STOLYPIN FATALLY WOUNDED IN ST. PETERSBURG

St. Petersburg, August 25.—
Premier Stolypin, whom the
czar appointed to select a cabi-
net on the dissolution of the
duma, was fatally wounded by
terrorists here today. Premier
Stolypin's retirement has re-
peatedly been rumored on ac-
count of seeming inability to or-
ganize the government. The
government is in consternation.
A bomb was thrown at him.

ATE BROILED CROW BECAUSE HOWELL WAS NOT ELECTED.

Americus, Ga., Aug. 25.—
While hundreds gazed him,
Judge Nixon, of the city court,
and former State Senator Atee,
ate broiled crow because Clark
Howell was defeated for governor
by Hoke Smith.

A SPELLING BEE IN WHITE HOUSE

Government Clerks Studying
President's Orthography.

Only Covers White House Depart-
ment Now, But Fifty Thou-
sand Are Busy.

WITH THREE HUNDRED WORDS

Washington, August 25.—Had
President Roosevelt declared war
against Germany he could not have
caused much more agitation than he
has by issuing his reform orthogra-
phy order.

Washington has 50,000 govern-
ment clerks who have been trans-
ferred into one vast spelling bee. Ord-
inary daily labor is set aside and with
wrinkled brows, Uncle Sam's em-
ployees are counting over list of 300
words listed for change, although
now the order is only intended to
cover the White House documents.
The ultimate purpose no doubt is to
cover all legislative and executive
departments.

GIVES LIFE TO AID FELLOWS.

Workman, Fatally Scalded, Runs Far
to Summon Assistance.

Atlantic City, N. J., Aug. 25.—
Though fatally scalded by a boiler ex-
plosion at the Abescon pumping sta-
tion today, Joseph Hodara, a fireman,
ran a quarter of a mile to the chief
engineer's home to procure aid for two
fellow employees whom he believed to
have been more seriously injured than
himself. He fell unconscious as he
told of the accident and died in a
few hours. His comrades were only
slightly hurt.

PAYING DEPOSITORS.

Looted Milwaukee Avenue State
Bank Opens Doors.

Chicago, August 25.—Receiver
Feitzer began the payment of the
first dividend to the depositors of
the Milwaukee Avenue state bank
this morning. This is the earliest
payment ever attempted in the case
of a defunct bank and the prepara-
tions for the big crowd kept the em-
ployees of the receiver at work hours
after the time for closing last night.

JOHNSON BLOCKED

Cleveland Electric Begins Laying
Track in Fulton Street.

Cleveland, O., Aug. 25.—The
Cleveland electric railway this morn-
ing began relaying its track in Fulton
road in the same place they were be-
fore Mayor Johnson recently tore
them up. This will probably block
the municipal traction company's ef-
forts to reach the central part of the
city.

TAKES HER OWN LIFE.

After Accidentally Shooting Young
Man, Believing Him Dead.

Anadarko, Okla., August 25.—
Annie Dresback, aged 16, today ac-
cidentally shot Newt Mulliken and
then believing she had killed him,
shot herself. Both will die.

SEWER ORDINANCE PASSES THE BOARD

Councilmen Cannot Take It
Up For Two Weeks.

Washington Street Improvements Can
Now Go Ahead as Council Has
Acted.

NEW DRIVER FOR THE ENGINE.

The board of aldermen yesterday
passed the new sewer district ordi-
nance on its final reading, and it is
now ready for the board of councilmen,
but that body cannot consider the mat-
ter finally for two weeks.

The board of councilmen met in
special session for a few minutes last
night to finish the legislation prelimi-
nary to getting the Washington
street improvement underway. This
consisted of ordinances, providing for
paving and construction of sewerage
between Second and Third streets.

The resolution, authorizing the
board of police and fire commissioners,
to appoint a driver for the new
steamer was also adopted, so the
driver can be appointed at the next
meeting of the board.

Roar From Gas Well.

Tulsa, I. T., Aug. 25.—A 25,000-
000 gaser was brought in today on the
Ida E. Glenn lease. The roar from
it can be heard for several miles.

SHOOTS WIFE AND COMPANION

St. Louis Policeman Kills Couple as
They Register at Hotel.

St. Louis, August 25.—Michael
McNamara, a giant policeman, shot
and killed his wife and her compan-
ion, James Brophy, known as "The
Gentlemanly Bartender of St. Louis,"
as the couple were registering at a
hotel today. Mrs. McNamara tried to
save Brophy when she saw her hus-
band enter the hotel office by run-
ning between the men and shouting
to Brophy to run. Brophy through the
heart, and then fired twice at his wife
as she turned to run, wounding her in
the back. She died within a few minutes.
Brophy is survived by a widow.

IN CHICAGO

TAMMANY METHODS WILL PRE-
vail IN DEMOCRACY.

Sullivan, Who Won From Bryan, Is
Said to Be Stated for Leader
of Organization.

Chicago, August 25.—Chicago's
Democracy is promised a system of
government resembling Tammany
Hall's when the thorough reorgani-
zation of the Cook county Democ-
racy, begun this afternoon, is com-
pleted. The system, it is declared,
will be as effective as Tammany's.
The sub-committee charged with the
work of drawing up a new constitu-
tion met early in the afternoon. By
William O'Connell, the new chair-
man of the county central commit-
tee, it was announced that a prin-
cipal feature of the new system would
be a finance committee, the chair-
man of which would sign all vouch-
ers and have charge of the collection
and disbursement of all funds.

Gossip was general that the chair-
man of the finance committee would
be Roger C. Sullivan, who has be-
come the leader in both the county
and state organizations.

Pig Iron Brings \$16.

Birmingham, Ala., Aug. 25.—An-
nouncement was made here today that
a number of sales of No. 2 foundry
iron have been made within the past
two days at \$16 per ton, and that the
market is still advancing. This is a
rise of \$2.50 per ton since early in
July. Manufacturers say that a "run-
away market" is threatened, so great
is the demand.

Sappers Mutiny.

Odessa, Aug. 25.—The Eleventh
and Twelfth Sapper battalions en-
camped near Odessa mutined last
night. They sang "Marsellaise" and
passed resolutions not to fire on the
revolutionists. Officers who tried to
break up the meeting were severely
beaten by the soldiers.

BANK CLEARINGS GAIN STEADILY

Increase Over Same Week of
Last Year Enormous.

Tremendous Development of Coun-
try's Business and Great Pros-
perity of Farmers.

PADUCAH IS A BUSY CENTER.

Clearings this week. \$668,066
Same week last year. 524,323

Increase. \$143,743

While the stringent quarantines
in the principal cities of the south
depressed business at this time last
year, the marked increase in bank
clearings chiefly may be attributed
to the marvelous industrial expan-
sion this country is experiencing at
present.

The opening of the east to com-
merce after the Russo-Japanese war
and the resulting demand for for-
eign products, gave an impulse to
American industrial life which at
present seems not to have any visible
end. Success in the farming indus-
try this fall will not have a parallel
on record, and success there means
success in every other class.

In Paducah the activity of the
building trades, of public improve-
ments, at the river, in the railroad
shops, and at all the manufacturing
plants, have turned immense quan-
tities of money into circulation
through the medium of wages. Spend-
ing this money among the mer-
chants completes the circuit of ac-
tivity.

Dun's Report.

New York, August 25.—Dun's
weekly report follows: Wall street
provided the only important develop-
ment in the business situation dur-
ing the week, prices of securities ris-
ing within an average of \$2 per
share of the record established last
January while the general public be-
came interested to the extent that it
lifted the money rate to a legal max-
imum. Trade reports indicate a
wholesome activity with no evi-
dence of reaction. As the vacation
season draws to an end there is a
gradual resumption of idle machin-
ery and, with the opening of many
new furnaces, all records in iron pro-
duction will be surpassed in the fall.
This is the typical situation in all the
leading industries. Jobbing fall trade is
opening briskly, \$62 buyers registering
in the New York market alone in a
single day. Owing to the few excep-
tional large undertakings of last
year in this city the total value of
all building permits issued in July
is slightly smaller than a year ago,
but outside of New York there is a
heavy increase. Crops are now at
most beyond danger and their move-
ment becomes a difficult traffic prob-
lem. Railway earnings for August
show an average gain of 12.16 per
cent over last year while foreign
commerce in this port for the week
gained \$2,275,692 in imports and
\$1,446,521 in exports over 1905.

GIRL OF 14 WEDDED SECRETLY

Marries Sweetheart, Aged 19, and
Parents Will Ask Annulment.

Elgin, Ill., August 25.—Not con-
tent to live as happy lovers, Vivian
Kuehnstedt, 14 years old, daughter of
Mrs. Ernest Kohn, and Albert Woeh-
lert, the 19-year-old son of Mr. and
Mrs. William Woehlert, went to the
home of Rev. H. H. Root, pastor of
Grace Methodist church, today and
were married. The parents of the
bride and groom will endeavor to
annul the marriage on the grounds
of unconstitutionality. It is said, The
father of the girl is A. L. Kuehnstedt
of Chicago, the mother having been
divorced and remarried.

Counsel for Harriman Road.

Seattle, Wash., August 25.—The
Oregon and Washington, Harriman's
Puget Sound extension, today an-
nounced the appointment of Bobie,
Hardin & Spooner as general coun-
sel. Spooner is a son of United States
Senator Spooner of Wisconsin and
has been practicing law here about a
year. Hardin has been attorney for
the Canadian Pacific at Seattle. The
appointment displaces John P. Hart-
man, who has held the post for nearly
10 years.

TYPHOID SEASON.

Typoid fever is a disease brought about by your own or somebody else's uncleanness. It is a disease of the intestinal canal. It is caused directly by the water or milk you drink or the food you eat getting poisoned with the disease—and in no other way. It is most easily acquired by those who suffer from constipation. Therefore, keep the bowels open and regular.

Water and milk are the two articles most frequently poisoned by typhoid. Heat kills the typhoid poison, therefore, boil all drinking water ten minutes. Scald all milk and cream, especially that intended for the young. Dirty hands may also carry the typhoid poison, therefore wash your hands carefully before handling any article of food or drink. Food gets poisoned, especially green stuff, by being manured with night soil, by flies, crawling over it, or by contaminated dust from the street, or by being washed or watered with polluted water, therefore wash all vegetables and fruit intended to be eaten raw, with boiled water. Keep flies out of the house and shops. Keep food supplies covered so that flies cannot gain access to them.

Clean up about your house and premises. Cleanly surroundings means cleanly people. Bad odors, dirty yards, dirty houses, bad ventilation, lower human resistance, render you more liable to contract the disease, therefore be clean in every detail of house keeping.

Jacksonville at Vincennes.
Mattoon at Danville.

Cairo, Ill., Aug. 25.—Cairo looks good to local fans for first place. She is playing brilliant ball and while the Hoosiers go down the slide the locals are climbing up. Jacksonville will get "hers" later and the pennant has not been won by any means.

Yesterday the locals defeated the Indians again by a score of 2 to 1. It was a pretty game and was anybody's game until Way hit out a single which brought in the winning run. The Indians scored first.

In the fourth inning Woodring walked Perry, Quigley singled, Wetzel struck out. Perry and Quigley attempted a double steal. Quigley threw wild to second allowing Quigley to reach third and Perry to score. Quigley was put out coming home on Haas' grounder. Cooper flew out.

In their half the locals scored two runs. Blauser walked. Quigley sacrificed. Dithridge hit safe. Hissel went out to first. Brahe purposely walked Myers. Way hit safe scoring Blauser and Dithridge. Dithridge's hitting was the feature of the game.

Sand on the Slide.
Vincennes, Ind., Aug. 25.—The Hoosiers stopped abruptly on their downward plunge yesterday by defeating the Belites. The trick was turned by the "rube" battery from Tennessee, Perdue and Chenaunt. Mattison is out of the game temporarily and Chenaunt is using the big mitt for the team. The locals out hit the visitors and took advantage of opportunities to steal bases.

MAHOGANY IN NEGRO CABIN.

Swamps of Georgia Hide Many Valuable Pieces of Rare Furniture.

Several of the curio shops in Savannah are kept by colored men. They have attained considerable sagacity in the purchase of antiques, especially of old mahogany furniture, and they talk as glibly as Sheraton, Chipendale and colonial styles, inlay and veneer, as their white competitors, say a Savannah letter in the New York Sun.

"Where do you reckon I find most of the old mahogany?" asked one of these dealers, pausing in the work of preparing a Queen Anne bedstead for the polish. "In the negro cabins. Not the shanties in or near Savannah nor those of the main traveled roads. All that furniture was picked up long ago."

"The darkies know nothing of the value of mahogany. It came to them from their friends or the plantation owners, who put it away for newer pieces of walnut and maple. It went out of fashion and so into the attics or the quarters, though the servants came into possession of most of it when the old homes were broken up after the war."

MINK THIS TIME.

Whole Neighborhood Aroused by Four Shots in Night.

A mink, the death squawks of a hen, and the excitement running through the veins of Mr. J. H. Fritzius of 1030 South Fourth street, book-keeper for the Hammond Packing company, caused Mr. Fritzius to shoot four times at a sound. This was sufficient to arouse the entire neighborhood at an early hour this morning. Mr. Fritzius was awakened by a hen squawking, and thinking it was his Mr. Fritzius shot at the sound. It was only the night before that Mr. Charles Riddle in the same neighborhood shot four times at a chicken-thief, and everybody thought the chicken-thief was back. A hen in the back-yard of Mr. George Crenshaw, at 1100 South Fourth street, lay with its throat torn open. The only plausible theory is that a mink committed the deed.

MOTHER TAKES POISON.

Sorrow Over Marriage of Daughter Causes Attempt at Suicide.

Philadelphia, Aug. 25.—Grieving over her daughter's marriage which took place last night, Mrs. Margaret Fogarty swallowed creosote and will die. The woman gave no intimation that she contemplated such an act and was in jovial spirits during the ceremonies that attended the marriage. She bade all the guests good night in a joyful mood, but this morning when she arose she seemed morose and out of spirits. This her relatives attributed to the absence of her daughter, of whom she was very fond, and attempted to cheer her up, but were unsuccessful, and late this afternoon she retired to her room and drank poison.

"I tasted a good many novel dishes while in Russia. That royal caviar is fit for a king."
"I s'pose so. Did you try any of that imperial sausage?"

STORAGE COMPANY

WAS IN BAD WAY

It Is Alleged in Petition of
The Florida Bank.

Globe Bank and Trust Company Made
Defendant in Transaction Prior
to Change.

SEVERAL NEW SUITS FILED.

The following suits were filed today in circuit court:

Citizens Bank & Trust company of Florida, against the Globe Bank & Trust company, for \$1,100 alleged to have been drafted and paid in for the use of the Leigh Fruit and Storage company. The petition states that the drafts were paid by the plaintiff and that the Leigh Fruit & Storage company was "shaky" at the time, and that the debt is the result of a scheme entered into by one of the officers of the bank to assist the storage company to keep on its feet. This was before the storage company became bankrupt and before the Globe Bank & Trust company changed officers.

Jim Bolen against Della Bolen for divorce on the grounds of abandonment. They were married January 27, 1897, and separated four years ago.

W. F. Bradshaw against John and Frank Lee for \$50 damages. The plaintiff alleges the defendants fenced in some of his property on the Clinton road.

Henry Gallman against the Metropolitan Life Insurance company for \$100 and interest. The petition says that the plaintiff held a debt against David Heller for this amount. Heller died and the plaintiff wants to make the debt out of the insurance.

Nathan Cruise against Henrietta Cruise for divorce. They were married in January, 1905, and separated in October, 1905. The husband alleges statutory grounds.

Appeal Hissig Matter.

County Judge R. T. Lightfoot this morning formally granted an appeal in the matter of refusing H. T. Hissig to qualify as an executor of his mother, Mrs. Catherine Hissig's will. An order was filed in county court in which it stated that the will had been admitted to probate; that Fred Kamleiter, one of the appointed executors, had refused to qualify and that H. T. Hissig, did tender bond and attempt to qualify, but was refused. The matter will now come before Circuit Judge William Reed.

The Heat in Chicago.
Seven deaths and seventeen prostrations from heat were reported yesterday in Chicago. There was a drop of 14 degrees in temperature during the afternoon, which brought relief.

BODIES WASHED FROM GRAVES

Remains of 200 Exposed by Flood
During Terrible Storm.

Kansas City, Mo., August 25.—Scores of graves were washed out and at least two hundred bodies were exposed at Elmwood cemetery here today during a terrific rain-storm that caused serious damage in many sections of the city. Within three and a half hours 5.93 inches of water fell, setting a new record here. This great down-pour flooded practically the entire cemetery and a strong current was formed in the lower ground. Monuments were wrecked and other damage was done. Many downtown basements were flooded and people were driven from their homes on low ground. At Kansas City, Kan., and at Armourdale and Argentine, Kan., great damage was suffered by railroads, wholesale houses and packing houses. Railroad tracks in the bottoms were under water for a time.

THREE-YEAR-OLD

Wanders Away From Home Again
and Is Found.

The three-year-old son of Mrs. Earline Hagan, of 814 Washington street, who wandered into the Illinois Central shop yards several weeks ago and started to board a train for Louisville, got away from his mother yesterday afternoon and after a two hours' scout through the South Side, was located on Jackson street near Third street by policemen.

Kidnaping Charge.

Ernest Tackley was arrested yesterday on the charge of kidnaping Nellie Rainey, who was with him. He is suspected of murdering Miss Sarah Schafer in Bedford, Ind., on January 21, 1904, the theory of the prosecution being that he mistook Miss Schafer for the Rainey girl, with whom he had an appointment at the spot where the murder was committed. The dead woman greatly resembled the Rainey girl.

Parisian Sage

Makes Hair Grow
or Money Back

I was so bald and such a shilling mark for my friends that I, as a last resort, tried your Parisian Sage (after trying several bottles of the highly advertised and high priced so called hair restorers) and I am glad to say I now have a heavy growth of new hair. I am now 44 years old and have a heavy growth of new hair after carrying my shilling mark for over seven years. I gladly recommend Parisian Sage to all afflicted with baldness.

THE ROSE.

The prettiest flower fades the soonest,
And yet its beauty while it lasts,
Of all the flowers is quite the fullest.

Announcement.

Mr. and Mrs. A. J. Willett announce the marriage of their daughter, Henrietta, to Mr. Warren Wesley Hopkins, of St. Louis, Mo., to take place at 10:30 o'clock, Tuesday morning, September 11, in the parlor of the St. Francis de Sales parsonage, the Rev. Charles A. Haeseley, of St. Jerome's Catholic church, Graves county, officiating. The wedding will be a quiet affair, only the families and intimate friends of the bride and groom will be present.

D. A. R. and U. D. C.

It has been said that a people who do not revere their dead, never advance much in the arts of civilization. Reverence for the dead in its final meaning, is a reverence for their goodness, for their qualities incapable of being revered, have no place in our estimation. Hence for a nation to linger over the memory of the past, for such is worship of the dead, means commonly that they are dwelling on the good qualities of their departed kind, and every time we allow our minds to be retrospective on high subjects, a stimulation toward better things in the present, is realized.

To allow our minds to dwell on the heroic qualities of these known and unknown of the "Lost Cause," or of that war, which indeed did revolutionize man's estate in this world, means that we get into an atmosphere of sincerity, earnestness and truth, which ought to make us live a higher kind of lives.

The object of the United Daughters of the Confederacy is to preserve a right opinion of the Civil war; to preserve the memory of the Confederate dead in a practical way by decorating their graves; and in general, to keep up an organization devoted to the interests of the living as well as the dead members of the Confederacy.

The Daughters of the American Revolution is more a social organization because the generations of the revolutionary war long since have gone to rest.

Americans have reason to be proud of the past and these organizations efforts to preserve and nourish such a spirit of hero-worship, evidence character traits which are reassuring in this time of national transition and uncertainty.

Miss Mooney Entertained.

In compliment to her visitor from Texas, Miss Trilix Mooney, Miss Blanche Mooney entertained Tuesday evening at her home, 428 North Fourth street. Depending Upon Providence.

A gentleman in the south was passing a potato patch and stopped to speak to a darky who was leaning lazily on his hoe.

"Howdy, uncle. How are you feeling?"

"Oh, I'm feeling mighty fine, 'cause I sho' has been havin' good luck."

"Is that so?"

"Yas, sah; why, 'bout a wee kago I had a lot of trees fo' to cut down, an' a cyclone knocked 'em ovah fo' me."

"Well, that is wonderful."

"It sho' is, but Providence done helps me again yestiddy. Massa tole me to burn up de strawstacks an' I heah come de lightnin' an' fo' I knowed it they wa'n't noth' left."

"Well! Well! But what are you doing now?"

"Me! I'se waitin' fo' a yesthquake to shake these 'taters outen de ground!"—Philadelphia Ledger.

MELODRAMA THIS WEEK AT KENTUCKY

The Patrons All Pleased With Way The Management Has Improved House During The Summer.

FRISCO PICTURES AT THE CASINO

NEXT WEEK AT THE KENTUCKY.

Tuesday night "A Wife's Secret" Saturday matinee and night "On the Bridge at Midnight"

... "On the Bridge at Midnight"

The Kentucky opened its doors to the amusement loving public Thursday night, offering a popular musical play, "His Highness, The Bey," a queer hodge-podge of melodrama, burlesque and farce, but entertaining withal. The audience was representative and frequent meritorious musical numbers received encores. "His Highness, The Bey" was just what Manager Roberts represented it to be, a good summer show.

Last night "A Soap Bubble," as light as its name suggests, held the boards. A number of pleasing specialties made the performance enjoyable.

Next week melodrama will succeed music and the titles "A Wife's Secret" and "On the Bridge at Midnight" fully testify to the class of production that will be witnessed Tuesday and Saturday nights, the last named with matinee. Those who take their dramatic food highly seasoned will revel in a feast of emotions, helped out with startling scenic effects.

For Labor day manager Roberts has secured an old friend: "The King of Tramps," which advertises lots of fun and plenty of specialties. Matinee and night performances will be given.

At The Casino.

This is the last night of opera at Wallace park Casino. All next week moving pictures of the Frisco fire and earthquake will be shown in the Casino.

"On the Bridge at Midnight." A brilliant scenic achievement, "On the Bridge at Midnight," which

On The Bridge at Midnight, Saturday.

is to appear here for matinee and night performance Saturday, September 1. Will present the famous reproduction of the Chicago jackknife bridge. The scenery, with all its excellence, is a fine detail of a story of deep interest, originality and plenty of romance. The management have secured a competent company. There is certainly nothing on the

road like the bridge scene.

"The King of Tramps."

Many new and novel features are promised in the Yankee Doodle comedy "The King of Tramps," which will be at The Kentucky on Labor day, matinee and night, September 3. The comedian is supported by a cast of well-known players including

Fall Carnival Fire Works.

the little singer and dancer, Clyde Long, who has been especially engaged to introduce his latest and most novel specialty "The Scarecrow," so familiar to the little folks who have read of the wonderful adventures of the "Tin Woodmen" and "The Scarecrow" in the beautiful story book of "The Wizard of Oz." "The Scarecrow Dance" as done by Mr. Long is in a class by itself.

A Wife's Secret.

"A Wife's Secret" is the interesting title of the melodramatic offering, now in its third season, which will be seen at The Kentucky Tuesday night.

Scene from "A Wife's Secret," at The Kentucky Tuesday Night.

day night, with the same scenic production as ever, ingenious mechanical effects, and a cast of high standing, it is said. The story of the play aims at the human emotions, and involves a story of love, adventure, heart-interest and comedy.

TO READERS OF THE

LADIES' HOME JOURNAL:

Did you read the article published by The Ladies' Home Journal in May 1904, attacking Dr. Pierce's Favorite Prescription? Have you seen the statement more recently made by Mr. Bok, the Editor of that magazine that his company "has not paid a single penny to Dr. R. V. Pierce's concern * * * in settlement of any suit"? We wish you to know the truth. The facts are these:

Four days after the article in May 1904, appeared, Dr. Pierce's company sued The Ladies' Home Journal publishers for libel. The trial was had in April last. Dr. Pierce proved that the attack made by The Ladies' Home Journal was false. He proved that Dr. Pierce's Favorite Prescription does not, and never did contain either alcohol or any of the injurious drugs which The Ladies' Home Journal falsely stated it did contain. This was so conclusively shown that the attorneys for The Ladies' Home Journal were forced to admit it. The jury rendered a verdict against The Ladies' Home Journal in favor of Dr. Pierce's company for \$16,000.00. This was a complete vindication of Doctor Pierce and his "Favorite Prescription." It judicially established that the libel was wholly false, and without any justification.

Dr. Pierce, however, believed that his company is justly entitled to a verdict for a much larger sum. Through his attorneys he has, therefore, applied to the court for a new trial of the case. For this reason, and for this reason alone, has The Ladies' Home Journal not yet paid a single penny to Dr. R. V. Pierce's concern." Dr. Pierce has simply chosen not to collect the judgment until the motion for a new trial has been decided.

In the light of these facts does not this boastful statement that it "has not paid a single penny to Dr. R. V. Pierce's concern" look like a cheap and common bluff, a half truth intended to mislead you?

During the trial of the libel suit against the above mentioned publishers, Dr. Lee H. Smith, Vice-President of the World's Dispensary Medical Association, stated under oath that the ingredients of Dr. Pierce's Favorite Prescription were wholly extracted from the following native roots: Golden Seal, Blue Cohosh, Lady's Slipper, Black Cohosh and Unicorny means of pure glycerine of proper strength. He was asked how he knew as a physician and experienced medical man, that the "Favorite Prescription" was a cure for the diseases peculiar to women, such as "female weakness," which include catarrhal drainage, leukopoea, retroversion, irregular and painful periods, and other diseases of the womanly organs, and he stated that he knew such was the fact because of his professional experience and the many thousands of women whose ill, to his personal knowledge, had been cured by this "Prescription."

This experience of Dr. Smith was corroborated by the standard Medical Authorities of the several schools of practice, endorsing the various ingredients in the strongest terms. Dr. Smith being asked to name some of these authorities as to the curative value of the above roots, read from the standard works such as the United States Dispensary; The American Dispensary; Organic Medicines, by Grover, C. W. N. D.; Materia Medica, by Professor Peter Kellwood of the Bennett Medical College, Chicago; "New Remedies," by Prof. Edwin M. Hale, M. D., of Chicago; Text-Book of Therapeutics, by Dr. Robert A. Hare, Prof. in Univ. of Penna; Laurence Johnson, M. D., Prof. in University of New York; Prof. John King, Author of "Woman and Her Diseases"; Professor John M. Scudder, M. D., Author of a treatise on "The Diseases of Women"; Horatio Wood, M. D., Author of "Therapeutics"; Roberts Bartholow, A. M., M. D., Professor of Materia Medica, Jefferson Medical College of Philadelphia. All these recognized and standard authorities praise, in the strongest possible terms, each and every ingredient which enters into the "Favorite Prescription" of Dr. Pierce for the cure of women's peculiar weaknesses and ailments.

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recognized weaknesses, derangements, irregularities and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the break-down, whether it be from too frequent bearing of children or from much worry, care, or over exertion of any kind, "Favorite Prescription" will be found most efficient in building up the strength, regulating all the womanly functions, banishing pain and bringing about a regular and healthy, vigorous condition of the whole female system.

LAKES TO THE GULF.

For several days, beginning with November 15, St. Louis will have a more important gathering of persons interested in the improvement of the Mississippi valley's waterways than has been held in this vicinity at any time in the past quarter century. This will be the lakes-to-the-gulf deep water convention. The object of the convention will be to bring influence on congress to get the government to accept the drainage canal which Chicago has built, and to continue the deep water from the canal's lower end through the Illinois river down the Mississippi. From Cairo down to New Orleans the work would be comparatively slight. For most of that distance the water is ordinarily deep enough for boats of adequate draft.

A plan has been proposed by John A. Fox to advertise the deep-water convention. Mr. Fox, who is the assistant secretary of the executive committee of the rivers and harbors congress, suggests that excursions for editors of newspapers along the line of the big river and its principal tributaries—the upper Mississippi, the lower Mississippi, the Illinois, the Missouri, the Ohio, the Tennessee and the Cumberland—be got up, and be timed so that the boats from all these streams may strike St. Louis about the same time a day or two before the opening of the convention here, the arrival of the boats to be made the occasion of a big demonstration in this city. The whole affair would be calculated not only to impress the visitors with the importance of this vast system of waterways, but to also show the country that the 16,000 miles of navigable rivers between the Alleghenies and the Rockies are an asset of incalculable advantage to the United States as a whole. The idea is excellent, and probably will commend itself to the St. Louis business men's league which is getting up the deep-water convention.

If St. Louis, Chicago, Memphis, New Orleans, Kansas City, Cincinnati, Pittsburgh and other important towns on the big river and its tributaries display the requisite energy and intelligence in supporting these projects for the improvement of the western rivers they can bring sufficient influence on congress to get the appropriations which are needed to do the work. The thirty-one states which are drained, in whole or in part, by the big river and its various affluents have representatives who constitute a majority of the members of each branch of congress. If they work with a reasonable degree of vigor and harmony they can get the legislation which they need. Three months from today the deep-waterway convention will be in session in St. Louis. There is still ample time to advertise the convention and its objects, and to get the entire Mississippi watershed interested in them. The whole valley, from Chicago and St. Louis to New Orleans, and from New York Pennsylvania and West Virginia onward to Montana, Kansas and Oklahoma, have a vital concern in this great enterprise of deep-water communication. If all the interested communities work with a fair degree of intelligence and unanimity congress can be induced to enact the needed legislation.—St. Louis Globe-Democrat.

Forty-five Tunnels.

San Francisco, Cal., August 25.—The Gould Western Pacific is perfecting plans to enter California and when the road is completed it will be one of the greatest railroad engineering feats in modern times. The engineers in charge have instructions to keep one object in view, the straightest line with the least grade. To accomplish this 45 tunnels will be bored in eastern California between Oroville and Beckwith pass. Instead of going around mountains the Western Pacific is going through them.

The longest of the tunnels is that at the head of Spring Garden, 12 miles east of Quincy. This is cut under the ridge dividing the north and middle forks of the Feather river. It will be over 7,000 feet in length.

Movements Are Veiled.

Havana, Aug. 25.—All trace of Guevara's revolutionary army is lost temporarily. It is supposed to be moving somewhere in the province of Pinar del Rio with a force variously estimated at from 3,000 to 5,000, but the government officials are without information as to the exact whereabouts, telegraphic communication beyond the city of Pinar del Rio is interrupted and the government is unable to locate the enemy. Guevara's secret movements are causing the greatest alarm in Havana and Pinar del Rio.

Dead Sparrows Cause Typhoid.

Three Oaks, Mich., August 25.—The cause of an epidemic of typhoid fever among the 1,000 inhabitants of this place was discovered when a member of the board of health climbed to the top of the water-works standpipe and found the dead bodies of several thousand young sparrows in various stages of decomposition, covering the surface of the water.

Mrs. M. J. Clark and children, of South Fourth street, have returned from a visit in Mount City, Ill.

A LONG JOURNEY.

Miss Munk: "Hello, Daisy! Got a headache?"
Miss Giraffe: "Yes, I drank too much champagne at the picnic last week and it's just got up into my head."

VOICE OF THE PEOPLE.

The School Board.

Without attempting to discuss the merits of application for position in the public schools, I want to ask if one faction in the board of education is justified in tying up the entire program preliminary to the opening of the fall term of school, on the very eve of the date, in its attempt to coerce another faction into supporting some special candidate which the said other faction opposes. I believe any man or woman who desires should be accorded full and free right to apply and that such application should receive honest consideration by the board, but when one part of the board adopts the tactics of coercion in behalf of any one candidate or measure, at the expense of every other consideration in their attempts to carry the point sought, parents and guardians should take heed at once and proceed to debate to the obstructionists the true character of service required of the public agents.

The election of grade teachers and principals to fill the existing vacancies, and the adoption of a course of study, so that dealers may get their stock in prepared to furnish the requirements of pupils promptly at the opening of school, so that they may enter upon their studies with every advantage, is imperative.

The High school enrolled about 150 pupils out of a total of 3,300 last year, so it is seen that the rights and privileges of more than 3,000 little boys and girls are entirely ignored and even sacrificed to the proposition of electing only one applicant to only one position in the High school department.

MANY DEFECTS FOUND.

In Mechanical Parts of the Airship Says Wellman.

London, Aug. 25.—Walter Wellman, leader of the Wellman-Chicago Record-Herald Arctic expedition, telegraphs from Spitzbergen, August 14 via Hammerfest, Norway, today, that the completion of the balloon house has been greatly delayed owing to the magnitude of the work. Many minor defects have been discovered in the mechanical parts of the airship and these are being repaired as fast as possible. The motors work excellent and the balloon part of the airship is in good condition. Mr. Wellman says it will still be possible, weather permitting, to get away toward the pole during the first week of September. The buildings erected will provide a valuable plant for next year's operations. If the start is not made this year.

Cleveland Woman, Newly Remarried, Asks Law to Keep Family Peace.

Cleveland, Aug. 25.—Mr. and Mrs. Joseph Letkowitz, bride and groom of a day, begin their married life with a dark shadow threatening their future happiness. The bride was Mrs. Liss before wedding her husky new husband.

"You remember my boy Charley, him you sent to Lancaster?" she said to Probation Officer Lewis today.

"Oh, the little fellow 16 years old. Out in March a year ago. Not in trouble again?" said the officer.

"No, not yet, anyway," was the rejoinder. "But he's likely to be. So I want him enjoined. I want him enjoined from whipping my husband."

Lewis referred her to the common pleas court.

TWO KILLED

And Nine Wounded When Whites Fired on Mob of Negro Graders.

New Orleans, La., Aug. 25.—A special from Ridder today says that a crowd of armed "red bones" and other natives surrounded a tent in which were eight negroes and three white laborers. They emptied shotguns, pistols and rifles into the tent, wounding all its inmates. It is said that two are dead, six mortally wounded and three slightly hurt. The name of none of them could be learned. The cause of the shooting seems to have been the enmity that existed on the part of the natives toward the employees of the Grigsby Construction company who are grading the Santa Fe extension between Slabtown and Osgaile. The natives are opposed to the introduction of negro labor in their locality.

OFFERED HUNDRED MILLION.

Rocketeer Wanted to Build Baltic Black Sea Canal.

Paris, Aug. 25.—Referring to the question of changes in the Russian State bank, the correspondent of the Temps at St. Petersburg declares that propositions to the effect were undoubtedly made. The correspondent asserts that Mr. Rockefeller at the beginning of the year offered Count Witte to advance Russia \$100,000,000 in gold in return for a concession to build the Baltic-Black sea canal. The Russian financiers the correspondent says, refused to accept the offer, and Count Witte then planned a transformation of the Russian State bank into a private institution, the government taking over the present deposits of 60,000,000 of roubles in gold, which would be replaced by subscribed capital.

DEADLOCK ENDS; 3,009 BALLOTS

Senatorial Candidate Nominated in Iowa After Long Contest.

Eagle Grove, Iowa, August 25.—C. F. Peterson, Wright county's candidate, was nominated on the 3,699th ballot here today, and thus the three-cornered fight for the Republican senatorial nomination of the thirty-seventh district and the famous deadlock was ended. The convention had been in a deadlock for over a month, four sessions having been held. Mr. Peterson was nominated on the first ballot taken today. Hamilton county cast a solid vote for his candidate, Chase, Hardin county cast four for Chase and 15 for Peterson. Wright county voted for Peterson. Candidate Ward of Eldora withdrew from the contest.

DRIVES A TAIL BUS.

Kentucky Woman Shows Her Skill With the Reins.

New York, Aug. 25.—Mrs. Kauffman is in the city for the summer with her two daughters, and is the owner of two large thoroughbred farms in Kentucky. One of the young ladies battered her to prove her boasted skill with the reins on the city streets and she mounted to the box of one of the big three-horse busses and drove in through crowded Fifth avenue from Washington Square to Fifty-second street. The regular driver sat by her side, but only collected the fares. She attracted great attention and many compliments for her skill.

FOR CHARITY

DRUGGISTS AND DOCTORS WILL PLAY BASEBALL.

Arrangements for Game Will Be Made Next Week and the Date Fixed.

Three years ago the biggest drawing card in baseball for the entire season was the battle of the Doctors against the Lawyers, and the success of the venture has tempted those inclined towards charity to try it again.

"The druggists have been talking of organizing a baseball team to play a team composed of doctors, and the idea seems to meet with favor," W. M. Fitzpatrick said today. "We will play the game for the benefit of charity."

Next week the arrangements will all be completed and tickets put on sale.

ON KIDNAPING CHARGE.

Policeman at San Diego, Cal., Placed Under Arrest.

San Diego, Cal., Aug. 25.—George C. Counts was arrested today by Deputy United States Marshal Place on a charge of kidnaping preferred by Mexican Consul Diaz Prieto, of this city. The charge has been made a matter of international correspondence for some time past and Counts has been afraid to go on the other side of the line for fear that summary action would be taken against him there. Nearly two years ago, while searching for Frank Harns, aged about 16 years, who was wanted on a charge of breaking into a house, Counts went on the other side of the line and induced the young man to come on this side, where he was arrested, tried and sentenced to five years in the reform school. The Mexican authorities have been wanting Counts punished for his method of getting a prisoner. He will be taken before the United States commissioner and held to the federal court at Los Angeles.

In pursuance to this request, I call a meeting for the board of education for Tuesday evening, August 28, at the Washington building.

Signed: H. F. WILLIAMSON, President.

To H. F. Williamson, President of School Board, Paducah, Ky.:

We, the undersigned members of the board of education, with conformity to the charter provisions, ask the chairman of the board of education to issue a call for a special meeting of said board at their chambers, in the Washington school building at 3 p. m., August 21, the purpose of said meeting being for the adoption of textbooks for the ensuing year, and for the election of teachers recommended by the committee on examination and course of study. The entire number of teachers to be appointed the eleven white (two being principals) and fifteen colored. Such other business as the board may decide to consider will be dealt with.

Signed:

LOUIS PETER, M. S. WALSTON, W. H. PITCHER, H. GALLMAN, DR. J. S. TROUTMAN.

Civic Pride and Cleanliness

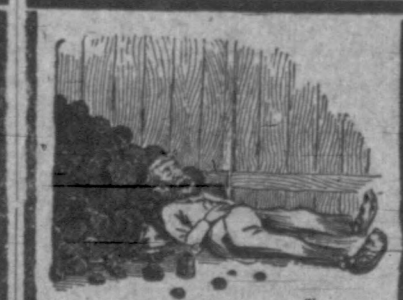

With this topic we call your attention to Lusterine Soap. You have found its quality—it cleans, it is factory in the heart of the city and is as fragrant as a flower garden. No other soap has ever been in the United States on a boast of this. What does it mean? Simply this: Purity. Lusterine Soap is made of the first quality of coconut oil. No slaughter house refuse or putrid fats are used in making Lusterine Soap. The grit you notice is antiseptic and invigorating to the skin. It is a pure boracic silicate and is found nowhere else except in our own mine. It will not hurt the skin. Every citizen of Paducah can use this soap for the purposes for which it is recommended. They can do so with pride as to its quality and with faith as to its purity. Ask for it at your dealer, insist that they give you the Paducah Soap.

Runs Off Trestle.

Freight Wreck on the V. & S. W. Causes Two Deaths.

Bristol, Va., Aug. 25.—As a result of a washout, a freight train on the Virginia and Southwestern railway ran off a trestle at Moccasin river, at 2 o'clock this morning, and one engine and eight cars loaded with coal were plunged into the river and two persons were killed and another seriously injured. The dead: R. E. Booher, brakeman, Lovedale, Tenn.; J. A. Cleet, fireman, Ruthton, Tenn. Engineer Robert L. Burton was seriously injured. The train was running at a high rate of speed when it struck the trestle across the Moccasin river.

Smart Dogs.

For a full hour the garrulous old lady had bored the visitor with absurd anecdotes about her dog. "Indeed," she concluded, at length, "it is really incredible how intelligent dogs are. Mine understands everything I say to him."

"So does mine," said the friend, complacently; in fact, my husband and I have learnt French so that we can converse without our dog understanding us."—Exchange.

Nashville Needs Repairs.

Washington, Aug. 25.—A survey of the gunboat Nashville sent to the navy department from the Boston navy yard shows that \$20,000 will be required for the repair of that vessel. The chief expense will be the renewal of boilers. It is only a year since the Nashville was placed in commission and her hull and fittings are still in good condition.

FIRST OFFICIAL MAP.

OF the State of Oklahoma Is Issued by Land Office.

Washington, August 25.—The first official map of the proposed state of Oklahoma was today issued by the general land office. The map, prepared by Frank Bond, chief of the drafting division of the land office, shows the new state as it will appear officially. The dividing line between Oklahoma and the Indian Territory has been eliminated.

The map shows that Oklahoma and Indian Territory have never been divided into counties. Recording districts 30 in number, take the places of the counties in the Indian Territory, and one of the duties of the constitutional convention will be to give these recording districts up-to-date American county names. There is a great demand for these maps, but they are all to be sold.

MAYOR TOQ FOXY.

Police Commissioner Bond Forgot One of Executive's Attributes.

Mayor Yeiser has entered the political game under all sorts of handicaps and he never has been caught nodding, and when Police Commissioner John Bond thought he had the mayor booked for a fine in the ordinance court by way of joke, he should have remembered His Honor's unbroken record for escaping consequences. Mayor Yeiser is having some work done to his Third street property and this morning some lathes were hoisted in the street. The police commissioner ordered a patrolman to swear out a warrant for Mayor Yeiser. The latter informed the patrolman he had let the contract to J. C. Cunningham. So the warrant was sworn out for him. Then C. L. Dunlap appeared and said the contract had been sublet to him.

GIVE NO TIPS.

Shaw Denounces Rumor He Is to Purchase Government Bonds.

Washington, Aug. 25.—When asked about the rumor that he was about to purchase government bonds, the 48 of 1907, Secretary Shaw today asserted:

"Evidently somebody is trying to deceive the thoughtless. Every man with an ounce of financial sense recognizes that occasion for relief does not exist. It seems strange that rumors should be so persistent that I am going to do a thing, the doing of which at this time would be universally recognized as uncalculated. If subsequent conditions demand action, I will act in such a way as I deem best at the time, but all rumors will be baseless. There will be no tips and no advance information."

MORTON RETURNS.

Says French Insurance Laws Are Not So Bad.

New York, August 25.—President Paul Morton of the Equitable Life Assurance Society, was a passenger on the steamship Lucania, which arrived here today from Liverpool. Mr. Morton returns from a six weeks' stay in Paris, where he investigated the French insurance laws and sought to determine the effect of the recent agitation in this country over insurance matters upon the French public. He said today that he had found the French insurance laws a little partial to home companies, but not markedly so and that foreign companies were given a fair chance to do business.

More About That \$5,000 Check Supposed to Be Forged.

Kansas City, Mo., August 25.—Theodore and Leon Lawrence, comprising the firm of Lawrence Brothers, decorators, who made the draft for \$5,000 on the North Memphis Savings bank, said today they did not know of anyone who owes them \$5,000. They the optimistic, however, and say they believe some relative or friend bequeathed them the money. They are at present decorating the Orpheum Theater and said today they had been too busy to take steps to find out who sent the windfall to them. They believe the telegram was intended for them. No firm of Lawrence Brothers is known here.

RIGHTS OF VOTERS WERE VIOLATED

Circuit Judge Holds Gerry- mander Unconstitutional.

Judgment in Case Coming From
Ohio County, Arising From Re-
cent Legislation.

ALL THE NEWS OF KENTUCKY

Owensboro, Ky., August 25.— Another opinion has been rendered declaring unconstitutional the legislative redistricting bill. This decision has been rendered in the circuit court here, and like Judge Galloway's opinion, will be appealed. The case decided as that of Cal P. Keown against W. S. Tinley, clerk of the Ohio county court, and T. N. Johnson, declaring unconstitutional the legislative redistricting bill passed at the recent session of the legislature. The decision deals primarily with the Twenty-sixth legislative district, composed of the counties of Ohio, Butler and Edmonson, but affects the entire state.

Suit was filed by Cal P. Keown in the Ohio circuit court to test the constitutionality of the act. He is an independent candidate for the legislature from the old district, composed of Ohio county alone. T. N. Johnson, one of the defendants, is a resident of Butler county, and is a candidate to represent the three counties of Butler, Ohio and Edmonson. W. S. Tinley, clerk of the county court, is made a defendant because he refused to put the name of Keown on the ballot.

Judge Birkhead holds that the act of the legislature in putting Butler, Ohio and Edmonson counties in one district is a violation of Section 33 of the constitution, of which the policy is that every citizen in the state shall have an equal voice in the making of the laws. With more than 50,000 in the Twenty-sixth district and only 7,000 in the Hancock district, one citizen of Hancock county would have as much power in the legislature as six or seven citizens of Butler, Ohio and Edmonson counties. This the judge holds to be an invasion of the rights of the citizen. Judge Birkhead also holds that the courts have a right to revise the acts of the legislature.

Senator McCreary's Wife Ill.
Maysville, Ky., August 25.— State Representative Virgil P. McKnight received a telegram from Senator McCreary, stating that he had been called home on account of the sudden illness of his wife, and would not be able to fill his engagement at the Germantown fair today. The crowd on the grounds is estimated from ten to twelve thousand.

Kehoe to Run Again.
Maysville, Ky., August 25.— It is conceded that ex-Congressman James N. Kehoe will be forced to accept the nomination for congress in this, the Ninth district, to oppose J. B. Bennett, the Republican nominee. Bennett defeated Kehoe two years ago by 41 votes. Kehoe says he will accept if the nomination is forced upon him. There are now seven announced candidates.

Actors Are Dismissed.
Louisville, August 25.— Judge McCann handed down his decision in the city court this morning in the cases of the eleven members of the "Four Corners of the Earth" company, who were arrested charged with violating the general Sunday law by giving a theatrical performance at the Avenue, Sunday, August 12.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after over-eating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by Lang Bros.

"UNCLE JOE'S" PHILOSOPHY.

The Speaker's Sapient Remark on
the Youths of His Time and Now.

One day a colleague asked Uncle Joe Cannon what in his opinion was the main difference between the days of his youth and the present time.

"Well," answered Uncle Joe reflectively, "when I was a youngster a young man was satisfied to paddle his own canoe but nowadays every one thinks he has a call to steer the ship of state." — New York Sun.

Robinson Crusoe's Isle.

The reported destruction by the Chilean earthquake of the Island of Juan Fernandez lends a final touch of romance to the scene of the late habitation of Alexander Selkirk, the historic original of Defoe's "Robinson Crusoe."

Since its discovery in the sixteenth century by Juan Fernandez, a pilot with Pizarro, the island has had a strange history. It was the rendezvous of the Dutch pirates Le Maire and Shonten in 1616, and for the next two centuries the piratical rovers of the South Seas made it their base. It is doubtfully related of Sharp, the English buccaneer, who landed there during Selkirk's sojourn between the years 1704 and 1709, that, on being pursued by a caravel sent out by the governor of Valparaiso, he left behind in his haste a black who became Selkirk's companion and the prototype of Crusoe's man Friday. This is probably a myth. Indeed, the true source of the entire plot of Defoe's tale may possibly be looked for in a Crusoe legend of undoubted antiquity, which is the inheritance of many people.

The island was later successively made into a Spanish fort, a Chilean convict station, and finally, until the Valparaiso earthquake, a hamlet of peaceful inhabitants was situated in its valley. Juan Fernandez lies some 200 miles west of Valparaiso and the report of its destruction is at least temporarily admissible from the fact of its volcanic origin. Tales have been told of light emanating from one of the loftier peaks, which rose in inaccessible grandeur to a height of 2,000 feet above the sea. Examination of the stratified tufa, old lava formations, and greenstone of which it was composed, seemed to show, however, that the mountain must have been long quiescent. — New York Times.

Cutting It Short.

Dallas Welford, the English comedian, had been appointed to a toast at a banquet at the player's club but the speaker who preceded him proved long winded, and therefore a committee man came to Mr. Welford and asked him in a whisper to cut his address extremely short.

"I have been asked to cut my speech short," Mr. Welford said when he arose. "All I wish is that I could cut it as short as a friar once did his sermon."

"This friar, on the feast of St. Stephen, had been appointed to preach on the saint, but at the last minute a priest asked him to make the sermon brief, as the hour was already late."

"The friar accordingly ascended the pulpit and delivered the following address:

"Brethren, twelve months ago I preached to you a sermon on the saint whose feast we are celebrating today. As I have not heard of any other deeds performed by the saint in the interim I have nothing to add to what I said on the former occasion."

"Thereupon the friar blessed them and departed."

"He must have. He went out of town for a week."

THINK THEY SEE PERIL IN NEW LAW

Shippers Will Aspear Before Commerce Commission.

Because Traffic Men Claim Increased
Profits Under the Hepburn
Bill.

UNIFORM RATE SCHEDULES

Shippers, says the Chicago Tribune, propose to follow the example of railways in conferring among themselves and with their lawyers for the purpose of formulating plans to get the interstate commerce commission to construe the new rate law favorably to their interests. A meeting of the traffic managers of the principal manufacturing concerns of Chicago was held at the Auditorium Annex Thursday, and on next Monday, the day before the new law goes into effect, the executive committee of the American Shippers' association will meet at the New Willard hotel in Washington.

The result of these meetings is expected to be that the shippers will have representatives before the interstate commerce commission immediately after it is organized, arguing it to give to the law an interpretation differing in many respects from that which the lawyers of the railways are understood to be putting upon it, and to issue no regulations without full hearing of both sides.

See Peril in New Law.

The chief thing that has moved the shippers to action is the statement which many railway traffic officials have concurred in making that they think the new law will largely increase the revenues of the roads and be otherwise beneficial to them. The shippers say they don't see how the law can help the railways so much without hurting those who do business with them. Various regulations in regard to local and through rates, switching charges, bills of lading, etc., which the railways are considering adopting, in order, as is stated, to conform to the law, have also caused alarm.

The initiative in the shippers' movement was taken by the traffic committee of the Illinois Manufacturers' association.

To Enforce New Rate Law.

By bringing about the enforcement of an old provision of law authorizing the interstate commerce commission to prescribe a special form of rate schedule, Commissioner F. M. Cockrell has taken a step which is regarded as of vast importance in preparing for the enforcement of the new railroad rate law enacted by congress last June.

In 1890 congress amended the interstate commerce act of 1887, and gave the commission power to specify the form of rate schedules. The schedules included all the freight tariffs of the railroads. These tariff sheets now go to the commission, but are submitted in any form that the railroad prefers. The power to prescribe a form has never been used.

It is believed by Mr. Cockrell—and the commission as a whole now takes the same view—that a system of uniform rate schedules, besides being an important step toward the effectual administration of the new law, will also itself materially assist in stopping railway abuses, such as manipulation of rates in favor of special shippers.

The Manager Of the B. & A.

By VAUGHAN KESTER

Copyright, 1901, by Harper & Brothers

Not less remarkable was Ryder's posthumous fame. Men who had never known him in life now spoke of him with trembling voices, and every outward evidence of the sincerest sorrow. It was as if they had sustained a personal loss, for his championship of the strike had given him a great popularity, and his murder, growing out of this championship, as all preferred to believe, made his death seem a species of martyrdom.

Indeed, the mere fact that he had been murdered would have been sufficient to make him popular at any time. He had supplied Antioch with a glorious sensation. It was something to talk over and discuss and shudder at, and the town was grateful and happy with the deep, calm joy of a perfect emotion.

It determined to give him a funeral which should be creditable alike to the cause for which he had died and to the manner of his death.

Meanwhile Dan had been arrested, examined and set at liberty again in the face of the prevailing sentiment that he should be held. No one doubted—he himself least of all—that Roger Oakley had killed Ryder. But Bennett recalled their meeting as he left the office to go home for supper on the night of the murder, and a red and yellow bandanna handkerchief was found under the table, which Dan identified as having belonged to his father.

Kenyon came to Antioch and made his re-election almost certain by the offer of a reward of \$500 for the arrest and conviction of the murderer. This stimulated a wonderful measure of activity. Parties of men and boys were soon scouring the woods and fields in quest of the old convict.

The day preceding that of the funeral a dusty countryman on a hard ridged pony dashed into town with the news that a man who answered perfectly to the description of Roger Oakley had been seen the night before twenty-six miles north of Antioch, at a place called Barrow's Sawmills, where he had stopped at a store and made a number of purchases. Then he had struck off through the woods. It was also learned that he had eaten his breakfast the morning after the murder at a farmhouse midway between Antioch and Barrow's Sawmills. The farmer's wife had at his request put up a lunch for him. Later in the day a man at work in a field had seen and spoken with him.

There was neither railroad, telegraph nor telephone at Barrow's Sawmills, and the fugitive had evidently considered it safe to venture into the place, trusting that he was ahead of the news of his crime. It was on the edge of a sparsely settled district, and to the north of it was the unbroken wilderness stretching away to the lakes and the Wisconsin line.

The morning of the funeral an extra edition of the Herald was issued, which contained a glowing account of Ryder's life and achievements. It was an open secret that it was from the gifted pen of Kenyon. This notable enterprise was one of the wonders of the day. Everybody wanted a Herald as a souvenir of the occasion, and nearly 500 copies were sold.

All that morning the country people in unheeded numbers flocked into town. As Clarence remarked to Spide, it was just like a circus day. The noon train from Buckhorn Junction arrived crowded to the doors, as did the 1 o'clock train from Harrison. Antioch had never known anything like it.

The funeral was at 2 o'clock from the little white frame Methodist church, but long before the appointed hour it was crowded to the verge of suffocation, and the anxious waiting through overfilled into the yard and street with never a hope of wedding into the building, much less securing seats.

A delegation of the strikers, the Young Men's Kenyon club, of which Ryder was a member, and a representative body of citizens escorted the remains to the church. These were the people he had jeered at, whose simple joys he had ridiculed and whose griefs he had made light of, but they would gladly have forgiven him his sarcasms even had they known of them. He had become a hero and a martyr.

Chris Berry and Cap Roberts were in charge of the arrangements. On the night of the murder the former had beaten his rival to the Herald office by exactly three minutes and had never left Ryder until he lay in the most costly casket in his shop.

It was admitted afterward by thoughtful men who were accustomed to weigh their opinions carefully that Mr. Williamson, the minister, had never delivered so moving an address of one that continued so obvious a moral. The drift of his remarks was that the death of his brilliant and distinguished fellow townsman should serve as a warning to all that there was no time like the present in which to prepare for the life everlasting. He assured his audience that each hour of existence should be devoted to consecration and silent testimony; otherwise, what did it avail? It was not enough that Ryder had thrown the weight of his personal influence and exceptional talents on the side of sound morality and civic usefulness. And as he soared on from point to point his hearers soared with him, and when he rounded in on each well tried climax they rounded in with him. He never failed them once. They always knew what he was going to say.

before it was said and were ready for the thrill when the thrill was due. It might have seemed that Mr. Williamson was paid a salary merely to make an uncertain hereafter yet more uncomfortable and uncertain, but Antioch took its religion hot, with a shiver and a threat of blue flame.

When Mr. Williamson sat down Mr. Kenyon rose. As a layman he could be entirely eclogistic. He was sure of the faith which through life had been the guiding star of the departed. He had seen it instanced by numerous acts of eminently Christian benevolence, and on those rare occasions when he had spoken of his hopes and fears he had, in spite of his shrinking modesty, shown that his standards of Christian duty were both lofty and consistent.

Here the Hon. Jeb Barrows, who had been dozing peacefully, awoke with a start and gazed with wide, bulging eyes at the speaker. He followed Mr. Kenyon, and though he tried hard, he couldn't recall any expression of Ryder's, at the Red Star bar or elsewhere, which indicated that there was any spiritual uplift to his nature which he fed at secret altars; and he pictured the friend and citizen, and the dead fared well at his hands; perhaps better than he was conscious of, for he said no more than he believed.

Then came the prayer and hymn, to be succeeded by a heavy, solemn pause, and Mr. Williamson stepped to the front of the platform.

"All those who care to view the remains—and I presume there are many here who will wish to look upon the face of one dead friend before it is conveyed to its final resting place—will please form in line at the rear of the casket and advance quietly up the right aisle, passing across the church as quickly as possible and thence down the left aisle and on out through the door. This will prevent confusion and make it much pleasanter for all."

There was a rustle of skirts and the awkward shuffling of many feet as the congregation formed in line; then it filed slowly up the aisle to where Chris Berry stood, weakened and dry, with a culture look on his face and a vulture touch to his hands that now and again picked at the flowers which were banked about the coffin.

The Emorys, partly out of regard for public sentiment, had attended the funeral, for, as the doctor said, they were the only real friends Griff had in the town. They had known and liked him when the rest of Antioch was dubiously critical of the newcomer, whose ways were not its ways.

When the congregation thronged up the aisle Constance, who had endured the long service, which to her was unspeakably grotesque and horrible, in shocked if silent rebellion slipped her hand into her mother's. "Take me away," she whispered brokenly, "or I shall cry out! Take me away!"

Mrs. Emory hesitated. It seemed a desertion of a trust to go and leave Griff to these strangers, who had been brought there by morbid curiosity. Constance guessed what was passing in her mind.

"Papa will remain if it is necessary," Mrs. Emory touched the doctor on the shoulder. "We're going home, John; Constance doesn't feel well; but you stay."

When they reached the street the last vestige of Constance's self control vanished utterly. "Wasn't it awful!" she sobbed. "And his life had only just begun! And to be snuffed out like this, when there was everything to live for!"

Mrs. Emory, surprised at the sudden show of feeling, looked into her daughter's face. Constance understood the look.

"No, no! He was only a friend! He could never have been more than that. Poor, poor Griff!"

"I am glad for your sake, dearie," said Mrs. Emory gently.

"I wasn't very kind to him at the last, but I couldn't know—I couldn't know," she moaned.

She was not much given to these confidences even with her mother. Usually she never questioned the wisdom or righteousness of her own acts, and it was not her habit to put them to the test of a less generous judgment, but she was remembering her last meeting with Ryder. It had been the day before his death. He had told her that he loved her, and she had stared up, furious and resentful, with the dull, accusing ache of many days in her heart and a cruel readiness to make him suffer. She had tried to convince herself afterward that it was only his vanity that was hurt.

Then she thought of Oakley. She had been thinking of him all day, wondering where he was, if he had left Antioch, and not daring to ask. They were going up the path now toward the house, and she turned to her mother again.

"What do they say of Mr. Oakley—I mean Mr. Dan Oakley? I don't know why, but I'm more sorry for him than I am for Griff. He has so much to lose!"

"I heard your father say he was still here. I suppose he has to remain. He can't choose."

"What will be done with his father if he is captured? Will they?" She could not bring herself to finish the sentence.

"Goodness knows! I wouldn't worry about him," said Mrs. Emory in a tone of considerable asperity. "He made all the trouble, and I haven't a particle of patience with him!"

HER WHEREABOUTS STILL A MYSTERY

NoClew to Movements of Miss Lacy Summers.

Father Fears That in Her Nervous Condition She Committed Suicide.

BROTHER VISITED IN PADUCAH

Jackson, Tenn., August 25.—The whereabouts of Miss Lacy Summers, daughter of Mr. and Mrs. F. E. Summers, of North Royal street, who disappeared from her home in this city Tuesday, is still a mystery, all efforts on the part of her family to locate her having proved of no avail. Mr. D. L. Summers, her brother, who went to Fulton and later to Paducah in search of her, has returned home after losing all trace of his sister, and the family are now seeking anxiously for any clue.

Last night Mr. J. E. Summers, brother of Miss Lacy, requested Chief of Police T. C. Gaston to write a letter of inquiry to be sent to the chief of police at St. Louis. The request was complied with, and the letter mailed together with an accurate and minute description of the missing lady, at 10 o'clock.

Mr. Summers says his sister was heard to remark on Monday, the day before her sudden disappearance, that she believed she could make from \$50 to \$75 per month in the millinery business, if she were only in St. Louis, and this remark leads the family to believe that she has gone to that place.

In addition to sending a letter of inquiry to St. Louis, a picture of her has been sent to papers in St. Louis, Nashville and Memphis.

Conductor Hugh Palmer of the Illinois Central, states that the conductor of the local freight out of Fulton last Tuesday, says a young lady, answering Miss Summers' description went on his train from Fulton, getting off at Mayfield, Ky.

The father of the young lady said this afternoon he is fearful that in her nervous condition that she may have become desperate and made way with herself in some manner.

He thinks she did not leave the city and it is requested that the police and citizens make a search of any out-of-the-way place about the city for her.

HAD THE ROYAL DONKEY SAFE

Captain's Way of Signalling That Fact Offends Lighthouse-keeper.

King Edward lately sent to his grandson, Crown Prince Olaf of Norway, a gift of a donkey, confiding the animal to the special care of the captain of the steamship Montebello, says a London cable.

When the steamer arrived outside Christians, the captain signalled the lighthouse "All right." No acknowledging signal was given, whereupon the captain set a signal reading, "Ass. One is all right. How's the other?" Still there was no reply, and the captain took his vessel into the harbor.

Knowing that the authorities are very strict in reference to vessels passing the lighthouse being reported and also being impressed with his responsibility as custodian of the royal donkey, he complained to the officials of the lighthouse's neglect. An inquiry was immediately instituted, which revealed that when the Montebello passed the lighthouse and gave the first signal the signalman was using the telephone and was unable to reply. When, having finished his conversation over the telephone, he saw the second signal, he constructed the word ass as a contemptuous epithet applied to himself. His dignity was wounded, and he refused to report the offender.

KING LEASES U. S. SOIL

Acquires Small Plot in Center of Borough of Phoenixville, Pa.

His Majesty, Edward VII., king of Great Britain and Ireland, has acquired, for the sum of \$1, a leasehold title to an acre of ground in the center of the borough of Phoenixville, and will remain in possession thereof until January 1, 1907, says a Phoenixville, Pa., telegram.

A deed to the above effect has been registered in the office of the Recorder of Deeds of Chester county.

The ground, on which a quantity of finished iron work is started, was leased to the Quebec Bridge and Railway company by the Phoenix Bridge company, the former having been taken over by the Canadian government; the lease has been transferred to the crown, and, according to custom, the deed has been made out in the name of the English king.

NO MORE CHILLS

This great cure absolutely at the mercy of

For an of forty years Holman's Pad has been curing Chills and Fever with a certainty and a regularity that is a marvel to people who do not understand the great principles upon which its action is based. Certain harmful, vegetable, renfies, carefully selected by its discoverer, Dr. George W. Holman, are placed at the pit of the stomach over the seat and center of those nerves that control the action of all the important functions of the body that govern digestion, nutrition, the action of the liver and the spleen. These powerful yet harmless remedies are absorbed constantly into the system and besides killing and eradicating the germ of Malaria and Chills and Fever, they purify the blood, set the torpid and sluggish liver to acting naturally and healthfully, regulate the bowels and above all let the stomach alone to digest food and thus get new life and strength into the system.

PIGEON GAME

COST EDDYVILLE NEGRO \$4.50
LAST NIGHT.

Finder of Purse Offered to Divide \$100
Takes Rucker's Money and Goes
for Change.

W. L. Rucker, an Eddyville negro, played the "pigeon" in \$4.50 "shy" today because he agreed to divide a \$100 bill with two strange negroes, who pretended to have found the money. He placed the matter in the hands of the police who are now at work on the case.

Rucker came here to attend the funeral of his brother, Alex Rucker, who died yesterday morning. He was walking out Kentucky avenue near Sixth street about dusk last evening when a strange negro walking in front of him stooped and picked up a pocketbook. He was in the act of opening it when a negro just behind Rucker, who evidently had seen the "find," spoke up and demanded a "divvy." The finder of the purse agreed, but the pocketbook contained a \$100 bill.

Rucker was brought into the game and offered a third of the money if he would keep "closed" about the find. He readily agreed and the three began searching for change. It was too late for banks and Rucker offered his \$4.50. This was not enough, and their invitation to await their return with the change the two made off. Rucker is still looking for his money and the police for the two negroes whom Rucker thinks he will recognize if he sees them again.

RIVER NEWS

River Stages.			
Cairo	22.2	0.3	fall
Chattanooga	6.4	0.1	fall
Cincinnati	16.2	0.4	fall
Evansville	13.8	0.2	fall
Florence	4.5	0.4	fall

Davis Island Dam	6.1	0.5	fall
St. Louis	10.3	0.5	fall
Mt. Vernon	13.0	0.2	fall
Paducah	12.3	0.4	fall

The river is falling here now and probably will continue to do so until the middle of September when, if it follows its course of last year, it will begin to rise and go to a higher stage than the highest this month, 12.8. The gauge registered a stage of

12.3 this morning, a fall of .4 in the last 24 hours. According to river men, there has been a lowboat stage of water out of Pittsburg every month in the last two years. This is something unknown in the history of the river previously. The coal shippers calculate on a rise every month, and so far they have gotten it. Last September a stage of 15 feet was reached. The Jim Wood passed up this morning from Cairo with a tow of 18 empties. Estimating conservatively that there are fifteen carloads of coal to a barge, the tow of coal the Tom Reese carried down Thursday of 22 barges, would make 330 carloads. With 22 cars to the freight train, it would have required 15 train loads of coal to bring it here by rail. The crews on those trains largely would outnumber the men employed in bringing the tow down the river.

There will be one "excursion" Sunday. The George Cowling will go to Cairo for a local lodge. The John Hopkins was the Evansville packet today. None tomorrow. The City of Saltillo will arrive from

St. Louis Sunday on the up trip to the Tennessee river.

The Dick Fowler had a good passenger trip this morning to Cairo and way points.

The Kentucky arrived from Joppa yesterday evening and will leave this evening at 6 o'clock for the Tennessee river.

The Henry Harley is expected to come here the first week in September from the upper Cumberland river. There are only light repairs to be made on the Harley.

The Woolford was expected up from Cairo today with a tow of empties. The Lydia did not get away until today for the Tennessee river.

The Butteroff will leave Nashville this afternoon at 5 o'clock and arrive here Sunday night. Monday at noon the Butteroff will leave for Clarksville.

Official Forecasts.

The Ohio at Evansville will remain nearly stationary or fall slowly during the next 24 to 36 hours. From Mt. Vernon to Cairo, will continue falling

during the next several days.

The Tennessee at Florence will continue falling. At Johnsonville, will remain nearly stationary during the next 24 hours.

The Mississippi, from Chester to Cairo, will continue falling during the next several days.

Monument to a Pig.
"Did you ever see a monument to a pig?" said an invalid.

"No."
"Well, there is such a monument in existence. The town of Luneberg, in Hanover, owns it. It stands in the town hall—a glass case containing an embalmed ham from the pig, together with a great slab of black marble, engraved with letters or gold."

"Luneberg is a rich town and famous through its salt springs. A pig discovered these springs. To this pig the monument was put up. The golden inscription says, in Latin: 'Stranger, contemplate here the mortal remains of the pig which acquired for itself imperishable glory by the discovery of the salt springs

of Luneberg."—New Orleans Times Democrat.

Following Instructions.
"Gracious man!" exclaiming the doctor when Mr. Glubbins calls him in a hurry. "Your temperature is rioting along near the danger point, and you—"

"And I'm worse off than I ever was before" all through the diet you prescribed."

"Impossible, Mr. Glubbins. I told you distinctly to confine yourself to such foods as would be taken by a three-year-old child."

"And didn't I follow orders? I ate apple cores and dog biscuits and ends of burnt matches and scraps of potato peeling and everything else I could pick up while no one was looking—and here I am pretty near dead!"

Hastily reflecting upon the gastronomical tendencies of the average three-year-old child, the doctor tells Mr. Glubbins that he has been overdoing the diet, and will have to subsist on soft toast and hot water for a week.—Life.

Unconvincing.
Upton Sinclair, the famous novelist, was talking to Prince about America's more notorious vicious corporations.

"The men who own these corporations don't regard themselves," said, "as scoundrels, as vile and less scoundrels. Somehow, they convince themselves into thinking they are good business men, benefactors who put bread into mouths of thousands of poor folk."

"Their reasoning is altogether jumbled, illogical, idiotic, unconvincing. It is like the reasoning of a boy with the toothache."

"This boy, beside himself with toothache, muttered, as he stared for the dentist's with his hand to his cheek: 'Maybe it'll ease up some by time I get in the chair. If it doesn't, I'll pretend I want a haircut.'"

Charles Hercules Reed, keeper of antiquities of the British museum, successor of the late Sir. Well Franks, has sailed from Quebec for America.
