## Good Roads For Fulton

Good roads and road building are receiving more attention just now than any other class of internal improvements.

In the rush to develop railroads, which in turn have built up the towns and cities of the country during the past third of a century, our public highways have largely been neglected and we are in most localities about where we were forty years ago in our methods of handling and working the public roads.

The last half decade, however, has witnessed an awakening on the road question. Conventions have been held, practical demonstrations of road building have been given and some communities, notably like Madison county in West Tennessee, have grasped the situation and have built and are building roads that are a credit and a joy to the people.

Considering what it means to them, we are surprised that the agricultural class, people in the country, have not taken a hold of the road building question long ago and have solved it before now. We know, however, that the mere fact of their isolation and failure to work together as a class has prevented them from taking it up and prosecuting it to success, just as cities do in matters pertaining to their welfare.

The States are taking up highway propositions of building roads across from border to border to be known as State highways. Iowa, by concert of action, constructed a State highway in one day. Tennessee and other states are figuring on doing the same thing and great enthusiasm is being aroused along the proposed route.

Cities are taking up the question of building roads from one to another.

In this county there has already been a movement to build gravel roads and this should be pushed vigorously, subscriptions taken along the routes and the county court asked for liberal help. In this way the matter could be in shape to put the roads through the coming summer.

Let everybody help agitate the question and the leading towns of the county will soon be connected by roads that will lessen the time by half and make it a pleasure, rather than a burden to travel over it.

The Merchants and Business Mens Association accomplished a great deal last year towards the good roads movement. The introduction of the D. Ward King road drag marked a new era in road improvement in this county. The business men of this city are alive to the necessity for better means of transportation, and realize that their prosperity is bound up with that of the farmer. If one succeeds, both succeed. Neither can flourish without roads sufficiently improved to permit of all sorts of produce and farm products being hauled at all seasons of the year.

Those who are using the split-log drag have done wonders in road improvement around Fulton. Keep the good work up and win one of the prizes offered by the Merchants and Business Mens Association this year.

Nothing can add more to the attractiveness of your home than hand painted pictures. See those in the window at Graham & Johnson Furniture store.

## HICKMAN NOTES.

Anyone wishing to turn in notes for the Fulton Daily Leader will call Miss Lyte Reid, Cumberland Phone No. 69.

R. Y. McConnell, of Union City, was in town today.

H. V. Parrish, of Fulton, was here last night and today.

A. E. Kennedy leaves tonight for Nashville, Tenn., where he will meet his wife, Mrs. A. E. Kennedy, returning from Florida, where she has been spending the winter.

Miss Pandale Brasfield, of State Line, is visiting relatives here.

Miss Ada Cook, of near Water Valley, Ky., is visiting her brother, W. J. Cook.

Miss Nina Walker, of Crutchfield, Ky., is visiting friends and relatives here this week.

Mr. D. P. Leibovitz left last night for St. Louis, where he will buy spring goods.

Ike DeLeon, of Bayouville, Mo., was in town today.

The fire alarm was turned in this morning a few minutes before 6 o'clock and fire was discovered in the home of Mr. and Mrs. Otto Saunders on Troy avenue. Mrs. Saunders was preparing to get breakfast the fire starting in a defective flue. Most all of their household goods were saved, excepting that in the dining room and kitchen. Mr. and Mrs. Louis Threlkeld, who moved in just a few weeks ago from their country place, were occupying part of the house and lost most all of their household goods, they had their household furnishings in the country, insured but had not transferred the insurance since moving in. Mr. Saunders had \$1,200 on the buildings. Eugene Battersworth and family who lived in the house just south of Mr. Saunders thought for awhile their house would burn and all of their household goods were carried out into the street. Mr. Battersworth had just bought and moved into this house a short time before and had just gotten straightened up.

Dick Barkett, of this city, went to Cairo, Ill., Sunday, where he was married to Miss Ada Lewis, of that city, returning here Monday. Mr. Barkett is a Syrian, and is a merchant of West Hickman.

## THE LITTLE MAN.

By. Dr. W. T. Bolling.

I do not refer to the physically small man, for a man five feet high may be a big man, and one six feet five may be a very small man. Physical measure may count with animals, but not with human beings in determining real size. Jim Jeffries is an exceedingly small man when we compared him with Alexander H. Stevens, though Jeffries weighs largely over 200 and Stevens scarcely tipped the beam at 100 pounds. The big man is little and the small was big.

Little-ness and bigness in a man depends upon his personal qualities of mind and heart, and neither weight or position determines one's little-ness or bigness. Sometimes a little fellow gets into a big place, but the place, so far from hiding his little-ness, brings it out more distinctly.

Some of the littlest men I meet up with are men in what the world terms big positions. I have met little politicians, little lawyers and little preachers, imagining that they were great, when every element in them is plainly an element of little-ness which they are too small to see. The little man is ever self-centered and anxious to display his wares.

He is loud-mouthed and boasting, always telling of what he has done and of a good many things he only imagines he has done. The big man is ever modest, never brags about his business, his practice, his achievements or his religious sacrifices, while the little fellow parades even his religion, and tells what sacrifices he would make, when he is pretty sure that he will never be called upon to make them, but, only helps the defenseless and innocent to make them, through a proud authority, secure in a good place and a fat salary. The little man is always narrow. He has no power of wide vision, and sees nothing beyond his little life acre, and hence is not aware of the deeds of the toilers in the larger fields, beyond the limits of his narrow, beaded eyes. It is his view, his creed, his way of doing, or you will see the fiery waves of brimstone roll while he is going home to a heaven of which he has no wider view than a pig of his pen with corn in it.

The little man, being narrow in view, is ever hasty and unjust in judgment. Not justice and reason, but prejudice and passion, control him so far as his conclusions are concerned. To him a rumor is a fact, a suspicion is proof, and a fault is a crime. He sees no good in anyone who differs from him, condemns unheard and would blast the reputation of any man, claiming to do God service, not remembering that Christ says, "Judge not that ye be not judged, for with what measure ye mete, it shall be measured to you again." The Nazarene was the biggest man the world has ever known, though poor and clad in the homely garb of the daily toiler, while Pilate was a very little fellow, a mere selfish politician anxious to hold his job, for which purpose he would send an innocent one to the cross and cultivate the good will of a lot of ecclesiastical hypocrites led by their high priest, who were very much like some little ecclesiastics of the present time, mere accidents in high position, to lord it over their superiors in the church of God.

The little man is purely selfish and self-seeking, and perhaps this the reason that we have so many little men in prominent places. Bigness has a value within itself, while little-ness has no value and has to be washed in order to pass for valuable metal among the ignorant and thoughtless. In politics, as a rule, little-ness preaches out for office and the small usufruct thereof, while big men, too large for such processes as little men use, remain at home. Anyone who looks in on an average legislature must wonder at the good luck of our government running by "main strength and awkwardness." In spite of those who make our laws and collect and spend our taxes, I do not mean by this that only little men run for and gain offices, but in the majority of cases there are many more monkeys than elephants in the menagerie, and the majority make our laws and run things officially. I am no kicker, but just wonder at the continuance of the running of the governmental machine when we consider the little-ness of most of those who are in charge of it.

May be that a few men of ability plan and mark out the course, and the little fellows move like pawns upon the chess board. That makes me think that, as pawns these little men are not entirely useless, but have a place in the game, and so long as we can have enough masters of the game to play them, the wreckers of human values may be checked.

If I was sent out tomorrow to find the department with most brains, I would not go to legislative halls, not even to the bar or the pulpit to find

them, but the banking houses and the great newspaper offices, for the great conserving forces are in finance and the public press, in both of which it takes brains to succeed, for the one must sustain the credit of the government and the other is the chief educator of the masses—potent forces in maintaining values material and values mental, quantities vital to government upon the basis of industry and an intelligent perception of condition and needs.

I used to dream of being a great preacher, but have woefully fallen down on the job, not being politician enough to watch the drift of the wind and pull the promotion wires. If the theory of reincarnation be true and I ever come back here again, I am going to try and be a great editor, molding public opinion, and to help largely in shaping the course of public events, as does the great editor of the The Commoner and of The Louisville Courier Journal, and, indeed, a number I might mention, not leaving out the staff of the Commercial Appeal, in which I find some editorials worthy of any great paper in the land, for they are strong, clean and just, and broad to the measure of great brain and heart.

Some papers, however, try to be great with very small men running them, and present a somewhat amusing situation, presenting a five-cent copy with a half-cent editorial, and the balance yellow paint, with cheap ingredients, attractive only to the little men, engaged in the little business of meddling chiefly in other men's matters.

The big man, even when he throws his bigness on the wrong side, has something to be admired about him, even as had Robert G. Ingersoll, but the little man, self-centered, narrow, unjust in judgment and swept by prejudice rather than by reason, is—well, whew—

## "THE DEAD PAYS" AND "HER FIREMAN." TWO FEATURES.

At the Rex Theatre Tonight.

Manager Owen was fortunate in securing for the patrons of the Rex Theatre two such splendid features for one evening's entertainment as the Kay-Bee film "The Dead Pays," and the Thanhouser reel "Her Fireman."

In "The Dead Pays," you visit Southern battlefields and are delighted with the sweet love story which alternates with scenes of strife and carnage, making a picture full of action and replete with interest.

The heroic rescue of a little boy from a burning building by "Her Fireman" brought about an understanding between two lovers and the portrayal of the scenes make a film of more than passing interest.

Tonight, admission 5 and 10c.

## VENOM OF DEADLY SANKES BORN IS INSANITY CURE.

Poison Will Be Extracted From Baby "Lance Heads" At Bronx Zoo.

New York, Feb. 18.—Seventy-five baby lance head snakes born in the Bronx Zoo yesterday are gladly welcomed although they are the most deadly reptile known. Since discovery that the venom of the lance head had been marvelously beneficial in treating insanity and other brain trouble have been made to breed the reptiles here.

Experts will extract the virulent venom from the 75 baby lance heads, as soon as they are a few months old.

About a pound of it, it was said at the Zoo "would kill the whole Mexican army."

## JUDGE MORRIS DIES.

Jurist Who Presided At the Last Trial of Caleb Powers Succumbs.

La Grange, Ky., Feb. 18.—Judge J. S. Morris, one of the best known jurists in the state, died at his home here this afternoon at 3:30 o'clock from tuberculosis. He had been confined to his bed for six weeks.

Judge Morris was born in 1843 in Woodford county. Early in life he removed to Anderson county, where he attended the public schools, and later completed his education with a two years course at Georgetown College. He married Miss Maggie Searce, of Shelby county, in 1865, after which he took up his residence in Shelbyville. He was elected Commonwealth's Attorney of Shelby county in 1876.

Judge Morris was on the bench at the last trial and conviction of Caleb Powers at Georgetown.

Burial will be at Frankfort, although the date of the funeral has not been announced.

## THE PARCEL POST.

Although in operation but a short time the parcel post has proven more acceptable, and of greater service to the public, than anything the government has done for it since the establishment of a postal service. Truly and really it is a popular service, conceived and put forth for the benefit of the people. Many cries and protests were raised against it, and even now there are people demanding its abolition, but the people whom it serves throughout the country are not of these. They are satisfied with it, and would not surrender it under any consideration. It is claimed that it benefits the mail order houses of the large cities to the detriment of the small merchant. This remains to be proven, because the small merchant can make the same use of it as the large mail order houses do, and if it should cut out the middlemen it would make for economy, and relieve the ultimate consumer of an unnecessary tax which he now has to pay. Anything that will make goods less expensive to the consumer, who in the last analysis must bear the burden, is beneficent and should be sustained. In the last analysis all are consumers.

## MISS MURRELL HONORED.

Miss Harriett Murrell, of this city, has been appointed one of the two Maids of Honor to represent the Kentucky Division at the Confederate Reunion in Chattanooga in May.

Miss Murrell is the daughter of Mr. and Mrs. W. P. Murrell, and is one of the prettiest and most popular of the younger society girls. Her many friends will be glad to know of this honor being conferred upon her.

## HUERTA IS PRESIDENT; MADERO A PRISONER; FIGHTING HAS CEASED.

Mexico City, Feb. 18.—Francisco I. Madero has been forced out of the presidency. He was arrested at the national palace shortly before 3 o'clock this afternoon by Gen. Blanquet.

Gen. Victoriano Huerta, commander of the federal troops, was proclaimed provisional president.

About the time Madero was seized by Blanquet, his brother, Gustavo Madero, the former Minister of Finance, was arrested by Gen. Huerta, who was dining with him in a public restaurant.

All members of the cabinet were promptly placed under arrest, with the exception of Ernesto Madero, the uncle of the president, who held the Portfolio of Finance. He was apprised of the intentions against the government and managed to make his escape.

Notwithstanding the fact that some definite action was expected today, the coup d'etat at the palace caused a sensation, and the exact status of affairs could not be ascertained for several hours.

The direct movement against Madero was the result of a plot which had been brewing since yesterday, and which possibly existed with Blanquet for a much greater length of time.

From the first it had been known that Gen. Blanquet was unwilling to fight. His men were of the same mind. He held complete command over them and it was not doubted that they would follow him in any adventure, which they did at the national palace this afternoon.

The forces numbering 1,000 men, which arrived late yesterday, sent immediately to relieve the reserves. The reserves were sent into the field.

## AT THE ORPHEUM TODAY.

The patrons of the Orpheum Theatre are today in for a real treat. As the original Alaskan Siberian pictures are to be presented for the first and only time in Fulton. This picture has been shown before more school boards as an educational feature than any other ever produced and is pronounced both by the press and public as the finest pictures of the kind ever produced.

The Trimble Amusement Company of Memphis, have secured the Orpheum for this day only and will present the greatest show ever seen here—this fact is proven by the remarkable run at the Whitney Opera house, also the National Theatre in Boston, where they are still being shown to crowded houses daily, at 25 and 50 cents admission, after a three months run. Those who miss this rare opportunity will surely regret it after learning from others the nature of this wonderful picture. Showing the methods of gold mining in the wilds of Alaska and bear, seal, and walrus hunting in the great Bering strait.

10 and 20 cents admission. Today only.

## The Child and the Store

"Children," exclaims the storekeeper; "yes, we welcome the children, for they are the buyers of the future."

There are in all stores certain seasons of the year which are specially devoted to children and their interests.

In some stores regular children's days are celebrated, the store is given over to their entertainment and a sale particularly of their things.

Other merchants make Saturday children's day, and special prices are given on many of the things they need.

Some merchants even provide special play rooms for the children where they can have the time of their lives, while the grown-ups shop.

Watch the advertisements in THE LEADER closely and constantly every day. Then you will find the best news about children's wearables. All the merchants who advertise in THE LEADER are eager to have your children start shopping at their stores.

#### ORDINANCE.

An ordinance to amend section 4 of an ordinance ordaining the original construction by grading and macadamizing of Lake street in the city of Fulton, Fulton county, Kentucky, adopted and approved June 7, 1909.

Be it ordained by the board of council of the city of Fulton, Fulton county, Kentucky, as follows:

Section 1. That section 4 of an ordinance ordaining the original construction by grading and macadamizing of Lake street in said city of Fulton, Kentucky, adopted and approved June 7, 1909, be amended by striking out the words "Five hundred dollars" and substituting in lieu thereof the following words, to-wit: "One hundred dollars," so that said section, as amended, shall read, and be, as follows:

Section 4. Within thirty days after the advertisement for sale of said street improvement bonds, as provided in section 3 above, the mayor of the city is hereby empowered and directed to issue bonds, but not to exceed the amount of the unpaid assessed bonds for sale, printing and engraving said bonds, and all other expenses attending the issue of the same, as set out in the next preceding section. Said bonds shall be signed by said mayor and city clerk, and shall be sold and disposed of by the mayor, city clerk and treasurer then in office for the most advantageous price, in no event, however, to be less than par, with accrued interest at the time of sale. Said bonds may be redeemed by the city as follows, to-wit: In ten annual installments as nearly equal as possible, beginning in one year from the date thereof. Said bonds shall bear interest from the date thereof until paid at the rate of six per cent, per annum, payable semi-annually, and the same and all interest thereon shall be payable at the First National Bank of Fulton, Kentucky. The bonds shall be numbered consecutively from No. 1 to the number required, and shall be in denominations of one hundred dollars each, except that one may be for smaller amount than said sum to cover any remaining fractional part of one hundred dollars said work may cost (which bond shall be included in the first maturing installment), and with appropriate interest coupons attached to each bond. They shall all bear date as of the day said work was completed and accepted by said city council, and until negotiated shall be left in the custody of the treasurer, who shall be liable for the safe keeping thereof on his official bond.

All money paid, received and collected upon the assessments against the lots as in this ordinance provided, and interest on the deferred annual payments, and all money arising from the sale of bonds herein provided for shall be kept by the city treasurer as a separate fund to be known as the "Street Improvement Fund," and said assessments shall be secured, paid and collected as provided for in like cases in section 3575 of Kentucky

Statutes (Carroll's Edition), as amended by an act of the General Assembly of the Commonwealth of Kentucky entitled "An Act to amend and re-enact certain sections of the Kentucky Statutes, Chapter 89, Article 5, relating to cities of the fourth class," and approved March 24, 1908, and in section 3576 of the Kentucky Statutes (Carroll's Edition.)

Section 2. That this ordinance shall take effect and be in force from and after its passage and publication as required by law.

Approved, this February— 1913.

J. F. FALL, Mayor.

#### RESOLUTION.

Be it resolved by the board of council of the city of Fulton, Fulton county, Kentucky, as follows:

That the city of Fulton, Fulton county, Kentucky, cause to be inserted, previous to March 1, 1913, in some newspaper published in the cities of Memphis, Tennessee; Louisville, Kentucky, and St. Louis, Missouri, notice of the sale of an electric light franchise by said city, and further cause the following advertisement to be published for three consecutive days in the Fulton Daily Leader, the first of said days to be at least ten days prior to March 1, 1913, said newspaper being published in the city of Fulton, Kentucky, and being authorized to publish advertisements required by law:

#### Sale of Franchise.

KNOW ALL MEN BY THESE PRESENTS: That by a resolution of the Board of Council of city of Fulton, Fulton county, Kentucky, said city proposes to receive bids and sell to the highest and best bidder the following franchise:

There is hereby granted to the right and privilege of constructing, operating and maintaining electric plants within, for and near the said city of Fulton, Fulton county, Kentucky, for a period of twenty (20) years from and after the passage of this ordinance, for the supplying of said city and its inhabitants with electricity for public and private uses, and to use the streets, alleys and public grounds of the said city within its present and future corporate limits for the placing of poles, wires and other devices and structures requisite for the supplying of electricity for said city and people. All wires used for the circuit, or circuits, shall be of the best quality. All poles or other devices erected in or upon the streets, alleys or other public places, and all wires and guys shall be so strung and at such a height as not to interfere with the free use of said streets, alleys or other public places. All excavations made in or upon said streets, alleys or other public places for the purpose of planting, changing or removing poles or other devices shall be refilled, packed and leveled to the same condition as before said excavation was made, and all poles shall be changed or removed when same shall become dangerous to the life or property of the citizens of said city. All of the buildings, structures or other devices erected, maintained or operated by said grantee during the life of this franchise shall be substantial and safe, and the said grantee shall not, during the life of this franchise, charge said city for its lamps or lights of kind, or kinds, mentioned more than the following schedule, to-wit:

For each 60 watt incandescent street light, operated all night, including lamp renewals, at the rate of twenty-five dollars (\$25.00) per year, provided that the number of such street lights in use shall not less than one hundred (100.)

For each standard arc light of six and six-tenths (6 6-10) amperes, operated all night, including maintenance, at the rate of seventy-five dollars (\$75.00) per year.

The grantee shall not, during the life of this franchise, charge private consumers in excess of eleven (11) cents per kilowatt hour for electric current, subject to a discount of one (1) cent per kilowatt hour when the bill for service is paid at the office of the grantee hereunder within ten (10) days after its rendition, except

that a minimum monthly charge of one dollar (\$1.00) may be made to each consumer; nor shall the grantee hereunder charge in excess of a net rate of eight (8) cents per kilowatt hour for the lighting of stores, factories, shops, offices, hotels, and other bona fide business establishments whose business is done and whose lighting requirements occur principally in the day time, provided the consumption of such consumers for lighting purposes reaches a minimum of thirty seven and one half (37 1-2) kilowatt hours per month, but in case said consumption shall not reach said minimum of thirty-seven and one half (37 1-2) kilowatt hours per month, then the private consumers rate as set forth above shall apply; nor shall the grantee hereunder charge in excess of six (6) cents per kilowatt hour for power service when not taken during the lighting peak load and provided the consumer's monthly consumption for power exceeds one hundred (100) kilowatt hours, but in case said monthly consumption for power does not exceed one hundred (100) kilowatt hours, then the private consumer rate as set forth above shall apply; nor shall the grantee hereunder charge more than sixty-five (65) cents per month for each sixteen (16) candle power incandescent light on flat rate; nor shall existing flat rates for electric service be increased, but in case of dissatisfaction therewith by either the grantee or consumer a meter shall be installed by the grantee, and established rates shall then apply.

All extension of lines or poles that the city may see fit to have made in connection with the installation of extra street lights shall be done at the expense of the grantee, and the regular established rate for street lights shall apply to said extra lights installed.

The grantee shall within three (3) months after the sale of this franchise establish and maintain twenty-four (24) hours alternating current service.

The said grantee shall file his written acceptance of the terms and conditions of this ordinance with the city clerk of said city within thirty (30) days after the passage and approval of this ordinance.

Bids for said franchise will be received by the mayor publicly at his office in the city of Fulton, Fulton county, Kentucky, on the 1st day of March, 1913, at 2 o'clock p. m., or thereabout. Said city reserves the right to reject any or all bids.

Approved, this February 10, 1913.

# The Tone of a PIANO

There is perhaps no article purchased for the home that is as hard to select intelligently as a piano, for the reason that there are comparatively few who are in a position to know what constitutes a first class piano. As a usual thing, but one instrument is purchased in a lifetime, consequently it is not like buying furniture or other articles of common use, the knowledge of which becomes almost instinctive.

In a piano not only the eye should be pleased, but the vital part, TONE, must be taken into consideration, and the knowledge of what constitutes good tone is a life study. The difficulty of producing the right quality of tone, developing each individual note, building the piano so it will retain for years the same quality, with the lack of knowledge on the part of the purchaser, opens wide the field to many of placing on the market a piano at a greatly reduced price, in which no thought, time or money has been expended on the very life of the instrument—the tone.

## INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department The Moody Bible Institute of Chicago.)

### LESSON FOR FEBRUARY 23

#### ABRAM AND LOT.

LESSON TEXT—Gen. 13:1-12. GOLDEN TEXT—"The blessing of Jehovah, it maketh rich; and He addeth no sorrows therewith."—Prov. 10:22.

During the time that intervened between this and last week's lesson we read of Abram's journey "down into Egypt," a story that is rich with suggestive typical lessons. Abram's deceit is discovered by Pharaoh and he is driven from Egypt. Fear is the root of unbelief, and when we fall we are sure to carry some one with us. But a man's sin is sure to be discovered, so it was that "Pharaoh commanded his men, and they sent him away, and his wife, and all that he had." Egypt, a type of the world, turned Abram out (12:20) when he tried the "good Lord good devil" mode of life. Compromise and separation are not compatible.

#### Lesson's Picture.

I. "Up Out of Egypt," vv. 1-5. Again we have presented the lesson of separation. This portion is a great picture of repentance. Abram carried with him not only his own possessions but also those of his nephew Lot. Notice, Abram's wealth did not make him acceptable in Egypt. The world desires not alone the wealth of a man, but also the man back of the wealth.

Again Abram turns from conflict unto Bethel, the house of God, that place of confession, of consecration, and of encouragement.

These returning pilgrims were not ordinary men, no more is the man who is in Christ, and God was already given evidence of the blessing promised to Abram (12:2) and of that material blessing so definitely promised to the descendants of Jacob. We read (v. 6) "their substance was great."

But there is far greater danger however in material prosperity than in adversity. This was a greater danger to these pilgrims than that of the Canaanites who dwelt in the land.

II. "And There Was Strife," vv. 5-9. The evidence of this danger manifested itself when it was found that the land could not support both Abram and Lot (v. 6). Paul calls Timothy's attention to this same danger (1 Tim. 6:9), and we are constantly seeing it illustrated all about us.

#### Lot's History.

Lot was journeying with Abram rather than with Jehovah (12:3), doubtless in a great measure he was governed by cupidity and selfishness when he beheld Abram's prosperity. Millions in America profit by the security and the prosperity of this which so nearly approaches a Christian nation and yet in scorn or in neglect, refuse to believe in or to serve the God who sends the blessing. The whole history of Lot is one of selfishness, which later resulted in sorrow and sadness and in his being shorn of all of his selfishly acquired prosperity. Lot had no particular claim upon Abram nor have we in our own right, or because of our own merit, upon or be cause of our own merit, upon God. There is so little that divides most of us and so much that we hold in common that it is but little short of criminal to waste our energy upon that which is ephemeral or of slight importance. What a difference in the choice of Lot and that of Abram. One entered into the path of the wicked. Prov. 4:14, 15, while the other into the path that "shineth more and more unto the perfect day." Prov. 4:18.

III. "And Lot . . . Beheld All the Plain of Jordan," vv. 10-13. Lacking the counsel and guidance of Jehovah Lot followed the choice that which was pleasing to the eyes and made a sorry mess of it, for in the end he was a great loser. Already the land was doomed (v. 10) and so today the man who chooses the world in preference to Christ makes a bad bargain (1 John 2:17) and the greater condemnation is his for he makes his choice in the blinding light of nearly twenty centuries of the Gospel. Lot made a willing compromise, a superficial choice and came near losing his own soul. Matt. 16:26, 27. He deliberately entered into danger when he "pitched his tent towards Sodom." The believers peril is worldliness. Lot's journey (v. 11) led at last to Sodom v. 12.

Abram aspired to know God. Lot had an ambition to possess the things of time and sense. Abram coveted righteousness (Matt. 5). Lot coveted success in this life only. Well has Goethe exclaimed, "Choose well; your choice is brief and yet it is endless." Eternity alone will reveal the results of our choice of surroundings, upon ourselves, upon our families and upon our friends.

IV. "Lift Up Thine Eyes," vv. 14-18. After separation comes fellowship and fruitfulness. God invited Abram to arise and to inspect his promised possessions. So may we contemplate the vast possessions God has promised us in Christ Jesus. Rom. 8:17, 2 Cor. 4:18. After our separation and our fellowship comes true fruitfulness and prosperity. 1 Tim. 6:18. Abram went to Hebron (which means fellowship), and there in the midst of Mamre (which means fatness) he built an altar unto God. Worship and sacrifice go hand in hand today as they did in ages past.

## WALNUT GROVE.

Mr. and Mrs. Chas. Hogg were in town shopping Tuesday.

Mr. Tate and Amos Stubblefield are disposing of quite a lot of nice hay this week.

Mr. Cago Peeples is putting down a well at his home this week.

Quite a lot of tobacco has been moved from this section of the country for the last week leaving a few crops unsold and a few crops of association tobacco not delivered.

The few days of sunshine we have had has put a move on the farmers around here and the have something else in mind besides that famous "winter crop."

We are glad to report at this writing that there is no sickness among us. We hope to be able to make this good report from week to week.

Mrs. Mary E. Myrick is back at home with her daughter, Mrs. T. J. Hanks.

Let's get busy now and use that split-log drag.

## RULE OF WARFARE KEPT IN MEXICO

SECRETARY DECLARES WARRANT FOR INTERFERENCE DOES NOT EXIST.

### POLICY APPROVED BY POWERS

Both Madero and Diaz Responsive to Requirements Laid Down by Ambassador Wilson—U. S. Troops Are Ready.

Washington, Feb. 19.—Secretary Knox told President Taft and the cabinet that notwithstanding all the fierce fighting in the City of Mexico for the last eight days there has been no infraction of the rules of civilized warfare or of the principles of international law which would warrant any interference by the United States.

The responsiveness of both President Madero and Gen. Diaz, he said, to the suggestions of Ambassador Wilson, in the capacity as dean of the diplomatic corps in the Mexican capital, have been so complete and satisfactory as to justify officials, in their opinion, for the strictly neutral attitude observed by the United States.

Powers Favor U. S. Course. Apparently the policy adopted by the United States in dealing with the Mexican situation has met with the unqualified approval of the European powers. During the last week Secretary Knox has talked with several of the ambassadors. In no instance has there been a disposition to criticize the administration for not intervening.

It was declared by administration officials that there was no inconsistency between the entertainment of the steady progress of the movements of concentration of ships, soldiers and marines for the last 24 hours, and that these measures are not designed to meet existing conditions in Mexico, but only to guard against the possibility of unexpected and graver conditions that might place the safety of foreigners in Mexico quite beyond the ability of the de facto government of the country to insure.

The four battleships of the Atlantic fleet under repair in the Atlantic coast navy yards are expected to follow the Connecticut, which sailed from New York for Guantanamo. This will give Rear Admiral Badger 15 battleships at that point, without the four ships he has already sent to the Gulf coast of Mexico.

Available Force Ample. When these vessels have taken aboard the 2,000 marines starting from League Island, the commander-in-chief will be in a position to meet any possible demand for naval forces either afloat or ashore at short notice. Further preparations for co-operation between the army and navy for any emergency in the Mexican situation went forward with the assembling of 2,000 marines at Newport News and Philadelphia, from where they are to be transported to a concentration camp at Guantanamo. It was expected the two regiments would sail Tuesday. At Guantanamo they will be 70 hours from Vera Cruz.

### JOAQUIN MILLER IS DEAD

Wife and Daughter With Poet of the Sierras as Long Life of Romance Ends.

San Francisco, Feb. 19.—"Joaquin" Miller, the poet of the Sierras, lies dead in his one-room cabin, which he built with his own hands in the Piedmont hills, many years ago. His daughter, Juanita Miller, and his wife were with him when he died.

The end came at 3 o'clock in the afternoon, with warm sunshine flooding the room where lay the author of "Songs of Sieland."

His faculties were undimmed and almost the end and he worked at intervals upon a poem which he said was to be the most momentous work of his life. He guarded the poem with the utmost secrecy, and not even his wife and daughter knew its subject.

Supreme Court to Get Castro Case. Washington, Feb. 19.—Cipriano Castro's right to remain in the United States as a visitor will be decided by the United States supreme court, to which the government will appeal directly from the decision of United States District Judge Ward overruling Secretary Nagel's order for Castro's exclusion. The appeal will be taken within ten days by United States Attorney Wise at New York.

Russia Sends Arms for Allies. Berlin, Feb. 19.—It has been discovered that Russia recently presented to the Serbian government arms and equipment for 100,000 men, according to a dispatch sent out by a Berlin news agency. It declared the German diplomats were greatly disturbed, believing that Russia is backing the Serbians against Austria-Hungary.

Gun on Warship Kills Three. Toulon, France, Feb. 19.—Three French naval gunners were killed and a number of others severely wounded by the explosion of a three-inch gun on the dreadnaught Danton during target practice in the roadstead of Salin-d'Heyres. The Danton put into this port to transfer the wounded men to a hospital.

MISSOURI SWINE HOUSE PLAN

Building With Concrete Floor Is Shown in Illustration—Hogs Manipulate Swinging Doors.

An excellent plan for a hog house is given by William Critchell in the Missouri Valley Farmer as follows: Illustration No. 1 shows the floor plan of my hog house, 24 by 60 feet. In this house there are 16 stalls, 6 by 8 feet divided into a sleeping place 3 by 6 feet and a feeding place 5 by 6 feet—one cooker room 8 by 12 feet, one feed bin 8 by 12 feet, and a driveway 8 feet wide with sliding roller doors.

No. 2 gives an idea of the concrete floor, 24 feet wide. A is the sleeping place, B the feeding floor with a 2-inch rise next to bedding to keep out litter. C the driveway 8 feet wide. A, C and A are all on the same level. The feeding floors (BB) are 6 inches higher than AA, sloping to 4 inches higher than C. All litter drops into the driveway, where it can be taken up and hauled out as fertilizer. No. 3 shows the house plan, with lighting space at top and small swinging doors at bottom. These doors are hinged at the top so as to swing both in and out. The hogs soon learn to open them, and they always stay shut. I would use 4 by 4 dimension lumber and make building 8 feet to first eaves and 14 feet to the roof.

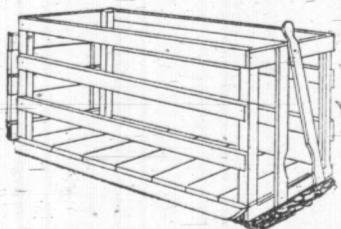

No. 1, Floor Plan; No. 2, Cross Section of Feeding Floor; No. 3, Form of House.

second, giving a window space at top of 4 feet. Placing a post at each corner of every stall gives plenty of strength; then by putting in a few girls, siding up with No. 1 stock boards nailed on up and down and stripping the cracks, you have a good building. The roof should have half pitch. Pieces of 2 by 4, 10 feet long, make the lower rafter and these cut in the middle make the upper rafter.

### DEVICE FOR RINGING SWINE

Crate Illustrated for Operation That One Man Operate Without Slightest Trouble.

Here is a device that is a great help for ringing hogs. One man can operate it without any trouble. Back it up to the hog pen door, run the hog in between the slats a and b, which are then pulled together so tight that he can be handled without trouble. The crate should be 1 foot 10 inches wide, 2 feet 8 inches high and 3 1/2 feet long, with a solid floor mounted on runners. The crate should have a

Ringling Crate.

top as well as a sliding door at the rear. The sliding levers, a, b, are made of 1 by 4 inch hardwood, with a notch cut in each to fit the neck of the hog. There should be holes in the bottom board, c, to adjust the levers for large or small pigs.

### The Bawling Cattle.

The grower of beef cattle is sure to weed out the one that is continually bawling, when it should be grazing for the simple reason that there is more waste than gain of adipose tissue at such a time. The stock content to feed upon the good pasture at hand rather than busy themselves trying to break into forbidden fields possibly not nearly as good, are the ones that make the most gain in weight.

### Examine Sheep Carefully.

The flesh condition of a sheep can not be judged by looking at it. All ways go over a sheep with the fingers examining every part of its anatomy before sending it to market.

### Pugnacious Dorsets.

One good quality in the Dorsets is their pugnacious disposition which makes them able to use their big horns in a defense against dogs.

## Winds O' Fall

Winds o' fall, blow drowsily:  
Croon along the hill  
Where the mullain, frowsily,  
Lifts its standard still:  
Come and whisper to the trees,  
Hush the humming honeybees,  
Murmur in your gentiest keys  
To the laughing rill.

Winds o' fall, blow lazily:  
From the purple west  
Where the sunset hazily  
Calls the world to rest:  
Blow a muffled bugle call  
To the flowers, one and all—  
Blow until they fold and fall;  
Ended is their quest.

Winds o' fall, blow faintly on:  
Till your song will seem  
Like a harp played quaintly on  
In a fairy-dream.  
Then the wood will flash and glow,  
Golden leaves drift to and fro,  
Blooded woodbine dripping low  
In a wonder-dream.

Winds o' fall, blow cheerily  
Over all the fields  
That now slumber wearily  
After all their yields—  
Blow until the standing corn  
Answers to your bugle horn  
And we hear across the morn  
Clashing of the shields.

### HELPS SOME.

"After my worrying all this time about keeping my money I find that you have spent it all on dresses and hats?"

"Well, that relieves you of all that worry, doesn't it?"

System in Society.  
The social queen, is languid and depressed this evening.  
"Jane," she says to her maid, "what are my engagements for tonight?"  
The maid enumerates them.  
"Very well, you may send my four thousand dollar dinner gown to Mrs. Plumber's, my fifteen hundred dollar gown and string of pearls to Mrs. Hurrup's, my lace ball gown to Mrs. Dancum's, my diamond coronet and stomacher to the theater, and my apique velvet gown to the Goodness-Keeze wedding. That's all the people care to see, nowadays. I'm going to bed with a headache, and if anyone calls, I'm not at home!"

Brought It on Himself.  
After years of untiring effort the reformer had succeeded in putting the world upon an absolutely honest and correct basis.

"Pausing for breath, he contemplated the result of his labors.  
"At last," he mused, "the world is running as it should. There is not one single thing in all the scheme of things that can make me unhappy. Not a—"

Here a blighting reflection smote him.  
"Alas!" he cried. "Alas! Henceforth it will be impossible for me to see my name in print!"

Did He?  
"There's Mr. Skigger," says the host. "He made his money out of pepper."

"You don't tell me."  
"Yes, indeed. He made his fortune out of pepper, and he's just rolling in money now."

"Well, well! Why, the man must have had a regular peppermint."

### More Fun.

"I do so enjoy shopping, Mr. Oghta."

"You do? No doubt your husband permits you to buy anything you wish."

"Indeed he doesn't. So I have the fun of shopping, as well as arguing him into promising to buy the things I want."

## Comparative Digestibility of Food

Made with different Baking Powders

### From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with

Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with

phosphate powder:

68 1/4 Per Cent. Digested

Bread made with

alum powder:

67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

### AMERICAN SUFFRAGETTE SENTENCED IN LONDON

Miss Cecellie Emerson and Miss Pankhurst Convicted of Smashing Windows.

London, Feb. 19.—A male "suffragette," LANSBURY, son of a Laborite member of parliament, was sent to prison to serve two months at hard labor for smashing windows in Bromley town hall.

Lansbury was with Miss Sylvia Pankhurst, the often-arrested daughter of Mrs. Emmeline Pankhurst, the militant suffragette leader, when she was taken into custody. It was the third time she had been arrested this month.

Miss Pankhurst was sentenced to two months at hard labor, and her American companion, Miss Cecellie Emerson, was given a similar sentence. Miss Annie Lansbury, sister of the "male suffragette," and two other women who did not give their names were sentenced to one month in prison. None of the prisoners was given the option of a cash fine.

Miss Pankhurst has been jailed three times this month for window smashing, and on the other two occasions she was released when an unidentified man paid her fine. Miss Emerson also was arrested once before this month, and her fine, too, was paid.

"Keep the flag flying!" and "Votes for Women!" shouted the militants who packed the space in the Thames police court reserved for spectators. They defied the bailiffs, and it was only the magistrate's threat to arrest them where they sat if they continued their noise that made the women stop shouting.

### FREIGHT TRAIN IS DITCHED

Broken Coupling Causes Wreck on Mobile & Ohio at Houston, Ill.—Engineer Killed.

Sparta, Ill., Feb. 19.—Engineer Bert Frizel was killed and Fireman Holl worth, both of Murphysboro, Ill., was injured, probably fatally, in a freight train wreck on the Mobile & Ohio railroad at Houston, Ill., a small station five miles north of this city.

Fifteen cars went into the ditch when a coupling is said to have broken between the tender of the engine and the first car. Traffic was delayed for several hours, passenger trains coming into St. Louis were detoured around the wreck by way of Sparta and the Illinois Southern to Centerville, thence over the Illinois Central to East St. Louis.

## Sensible Women Know Foundation of Health

As health talks to women, become more general, both in the newspapers and on the platform, the mass of women are beginning to realize what the more cultivated have always known, that good health cannot be found in a powder box. The externals of health may be obtained in that way, but the basis of health lies deeper, and yet is just as easily obtained.

The most important thing that a woman can do for herself, and about which she is often most neglectful, is to watch the condition of her stomach and bowels. The weary eyes, the bad breath, the frequent headaches, the pimples, the general air of lassitude, are nine times out of ten the result of constipation or indigestion, or both. Many simple remedies can be obtained, but the best in the estimation of most women is Dr. Caldwell's Syrup Pepsin. It is mild, pleasant to the taste and exactly suited to her needs. It is far superior to salts, cathartic pills, waters, etc., which are entirely too violent.

Women should see to it that they have at least one movement of the bowels each day, and when showing any tendency to constipation should take Dr. Caldwell's Syrup Pepsin. A brief use of it will so train the stomach and bowels that all forms of medicine can be dispensed with. These opinions are voiced by thousands of women, after personal experience, among them Miss V. L. Moore, of Claiborne St., Nashville, Tenn., and Florence Cook, Lucas, Ky.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

## NOT YET DOWN FOR THE COUNT

## FIREMEN WIN, DEMANDS WILL BE ARBITRATED

RAILWAY MANAGERS CONSENT TO SETTLEMENT UNDER ERDMAN ACT.

### FEDERAL LAWS CONDEMNED

In Lengthy Letter Companies Point Out Defects—Two of the Three Judges Named on Arbitration Board.

New York, Feb. 19.—The imminent danger of a strike of 35,000 locomotive men, riding up the Eastern railroads, was averted by the unexpected and reluctant consent of the railroad managers to arbitrating the controversy under the federal Erdman act.

This decision of the railroad managers was acclaimed by the firemen as a victory. The news was taken to the representatives of the firemen's brotherhood by Judge Martin A. Knapp, of the commercial court and Acting Commissioner of Labor Hangar, the government mediators.

The firemen had held out consistently for arbitration under the Erdman act, which provides for three arbitrators. The railroad managers had opposed such means of arbitration, claiming that the act gave the third arbitrator entire control over the proceedings, thus putting too much responsibility in the hands of one man.

When the decision of the railroad managers was announced to the firemen, President W. S. Carter of the firemen's brotherhood said: "We have won a great victory, but I am not a man to crow."

#### Arbitrators Are Named.

Albert Phillips, vice-president of the brotherhood, living in Sacramento, Cal., was announced as the firemen's representative on the board of arbitration. The railroad named W. W. Atterbury, vice-president and general manager of the Pennsylvania railroad.

The law provides that the two shall select the third man, and that within ten days after the board is complete the demands must be presented before the board and that within another 20 days the award must be made.

The demands of the firemen include substantial increase in wages, a 10-hour day or a minimum run of 100 miles to constitute a day's work, a new schedule of overtime charges, two firemen on all locomotives of more than 200,000 pounds, and a number of minor demands.

Chairman Elisha Lee of the managers' committee, warning the public that the roads submitted under protest and demanding public hearings, wrote to the mediators.

"As the managers have stood out to the limit against the Erdman act, and as the government—or the public—is responsible for whatever the consequences may be, the managers reiterate their principal objections to the Erdman act; these were pointed out by the board of arbitration in the engineers' case."

"The responsibility which ultimately would rest upon a third member of an Erdman arbitration board was too great to impose on any one man. The operation of the act is to settle a dispute rather than to adjudicate a controversy. The arbitrators are three in number."

"The managers' committee wishes to warn the public at this time of another and similar demand for increased wages made by the conductors and trainmen. We desire to put the public on notice as to the crisis that will confront them when these demands are considered by the railroads."

Illinois Meningitis Death. Cairo, Ill., Feb. 19.—The nineteenth death from meningitis occurred at Gale, the latest victim being Mrs. Mattie Cook. There are four more patients in the special isolation hospital.

## HOLD POINCARÉ INAUGURAL

CEREMONIES ARE HELD IN PALACE OF ELYSEES.

Executive, Accompanied by Premier, Greeted With "La Marseillaise" and Cannon Salutes.

Paris, Feb. 19.—In the Palace of the Elysees Raymond Poincaré, "the square point"—was inaugurated tenth president of the Third French Republic, succeeding Armand Fallières. Poincaré was elected president January 17 by a special legislature convened at Versailles. His inauguration was in the official residence of the chief executive.

Several minutes before the hour set for the formal transfer of power, President Antonin Dubost of the senate and President Paul Deschanel of the chamber of deputies, with their respective parliamentary suites, arrived at the Elysees in carriages, escorted by a platoon of dragoons and followed by other state officials in automobiles and carriages.

Accompanied by Premier, Poincaré was accompanied to the palace by Aristide Briand, prime minister. Their carriage headed a vast procession of civil and military attaches of the Elysees. The rear was brought up by a squadron of carabiers.

It was 2:15 p. m. when M. Poincaré left his house, and 2:45 when he reached the palace. As his carriage entered the courtyard in and about which was stationed a battalion of infantry the hand-struck up "La Marseillaise," the national and regimental colors were dipped and from the distant Esplanade des Invalides came the boom of the first of 21 guns, firing a salute in the new president's honor.

## UNUSUALLY EFFECTIVE.

The lining of the stomach and bowels might be called a continuation of the tissue of the face and body, and Milks' Emulsion has the same effect upon it that an application of cold cream, or glycerine and sweet oil would have upon a face that was chafed and sore from exposure to the wind and sun. The usual cathartic has no effect upon solidified feces that adheres to the lining of the bowels in chronic constipation. It simply keeps an open passage-way, never dissolving the solidified matter. The oil in Milks' Emulsion, however, dissolves in a few hours all decayed and solidified matter, thoroughly cleaning the bowels to the lining, and not until this has been accomplished can a start be made toward repairing the lining and muscles of the bowels and stomach. Nature is then able to do its work.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages—Cancer. This is the only positive cure now known to the medical fraternity. Cancer, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have a much faith in its curative powers that they offer a hundred dollars for any case that it fails to cure. Send for list of testimonials.

## Two Fine Farms.

One of the finest farms in Fulton county lies within two miles of Fulton. This place has 112 acres in it, and an automobile can be driven over every foot of it. It has a splendid dwelling; 2 good stables, a buggyhouse, cow house and wheat house; it also a high grade water works system and bath. Fences all in good shape, and conceded by many to be absolutely the best farm in 10 miles of Fulton. We have this farm for sale at the right price.

Another farm of 56 acres, four miles from town on the State Road; good dwelling; 1 tobacco barn, 1 stock barn; two good ponds; 1 good three room tenant house; market for farm products close. This land will produce tobacco on every acre. Has at present 12 acres in wheat and 7 acres in clover and grass. As good a small farm as anybody wants. We have until March 1st to sell this property. If you are interested ask about it now. The price is very reasonable.

## Why It Pays to Pay More for Omega

All the proposed sub-  
stitutes for OMEGA  
sell for a little less

because they have to, or not sell at all. But this lower first cost does not mean they are that much cheaper, for they produce so many more baking failures that the loss from this amounts to more than the difference in the price. The best, therefore, costs you no more. All progressive grocers sell Omega.

### PHYSICIANS ENDORSE VINOL

To Create Strength and for Pulmonary Troubles.

Run down, debilitated people, those who need strength, or who suffer from chronic coughs, colds or bronchitis may find help in these letters.

Dr. C. L. Dreese, Goshen, N. Y., says: "In cases where the curative influence of cod liver oil is needed, I prescribe Vinol, which I find to be far more palatable and efficacious than other cod liver preparations. It is a worthy cod liver preparation in which a physician may have every confidence."

Dr. L. B. Bouchelle, of Thomasville, Ga., says: "I have used Vinol in my family and in my general practice with the most satisfactory results. It is exceedingly beneficial to those afflicted with bronchial or pulmonary troubles, and to create strength."

Dr. W. N. Rand, of Evans Mills, N. Y., says: "I want to say that I have used and prescribed Vinol in my practice and it will do all you claim for it and more."

We return your money if Vinol fails to help you. Bennett Bros., druggists, Fulton, Ky.

### BEJACH COVERTURE BILL IS PASSED IN TENN. HOUSE.

Measure Gives Married Women Same Property Rights as if Single—Is Approved by the Women's Clubs.

Nashville, Tenn., Feb. 18.—The house today passed the Bejach bill removing the disabilities of coverture of married women in the ownership and management of real estate and in making contracts. If made a law, it will become effective Jan. 1, 1914.

The Bejach bill gives married women the same right as single women in the matter of holding or managing real estate, making contracts, suing and being sued, and to dispose of property, irrespective of the wishes of her husband.

The bill was passed by a vote of 86 to 6. It was fathered by Representative Bejach, of Shelby, and has the approval of many women's organizations. At first it seemed that strong opposition would have to be overcome.

### BUSINESS MEN ATTENTION!

S. W. PARIS, President.  
FRANK U. HARRISS, Secretary.

Merchants and Business Mens Association. 217-2.

### IMMENSE TOBACCO DEAL APPROVED.

Result of Vote On Proposed Sale of Of 9,000,000 Pounds In Stemming District Changed By Full Returns.

Henderson, Ky., Feb. 18.—Just as arrangements were being made to borrow \$1,000,000 to prize the enormous crop of the Stemming District Tobacco Association and factories being put in preparation it was suddenly discovered that an error had been made in the report of the vote of the 10,000 farmers. The official returns completely reversed the result.

The mistake occurred in Union and Crittenden counties, where the voting places were inaccessible by telephone and correct figures could not be obtained until the officials reported this morning. The result was 31 against a sale of one-third of the crop and 33 in favor of the sale, which means that nine million pounds of the stemming pool will be sold at 7 and 6 1-2 cents.

Other offers are being considered tonight by the district board, which is in session and it is likely that much more will be sold, something like sixteen million pounds, with a likelihood of a sale of the full twenty-five million pounds.

In some parts of the district where the vote was strong against a sale at less than 8 cents, which the farmers have been holding for, there are threats that they will not deliver at the price.

Detectives who have been in the city for some time, are making preparations to leave tonight, since the matter has been fully settled.

This big pool represents about \$2,000,000, and merchants and business men are highly elated over the result.

To Users of Foreign Flour:

An effort has been made in Fulton to create a demand for a hard wheat flour, because it is cheaper than the product from soft wheat. We will supply users of this grade of flour with the Hubbard Milling Company's "University" at the following prices, which are consistent with the current hard wheat flour market:
