JUNIOR HIGH TO GIVE EDUCATIONAL PAGANT
Ten-Year-Old Introductory An Opening 300 for Traveling.

Present indications point to the reduction of public schools in the near future. Various committees have been formed to investigate the necessity of such actions.

The school system of Fulton, for instance, is facing a significant decrease in enrollment due to a variety of factors. The number of students has been on a steady decline, and the school board is considering measures to reduce costs and improve efficiency.

The closure of schools would have a significant impact on the community, as it would not only affect the students and their families but also the local economy. The schools serve as a hub for various community activities, and their关闭 would likely lead to a loss of these opportunities.

The decision to close schools is not made lightly. It requires careful consideration of various factors, including enrollment trends, financial sustainability, and educational outcomes. Fulton needs to carefully evaluate these factors before making a final decision.

South Fulton School Closing Successful Year

South Fulton School, located in the heart of the community, has had a successful year. The principal, Mr. H. L. Jones, has overseen an impressive academic year, with significant improvements in student achievement and overall school performance.

The school has initiated several innovative programs, including a strong STEM program and a music and arts curriculum that has captured the hearts of students and parents alike. These initiatives have not only enhanced the educational experience but have also fostered a sense of pride and belonging among the students and their families.

The success of South Fulton School is a testament to the hard work of the staff, the dedication of the parents, and the support of the community. It is an encouraging sign for the future of education in the area.

ECONOMIC WASTE IN LONG DISTANCE BUYING.
The only road to real economy is the road that leads to the Home Town. This is the first commandment in community development. Whenever we pass up our own community and send an order away from here, we break this commandment by one stroke of the pen. Give the home dealer a chance to fill that order. Given the same conditions, he can beat any out of town dealer. The Long Distance route is the road to waste, over buying and false economy. This cartoon shows vividly the economic waste in long distance buying.

Tobacco News

The high, dry winds of late winter made a decided reduction in the number of pounds brought in at the market.

The total received last Tuesday amounted to 2,738,800 pounds.

Regulars for the present market covered only 6 farmers or less than half of what had been expected. The farmers who remained in the market sold their huge quantities of tobacco in order to get them to where they could be delivered.

The weather being so unfavorable that harvesting was impossible.
