A signed mutual agreement among themselves, with a \$5 forfeit if this agreement is broken, will act as a restraint on some local men we know. It is a good idea and we hope they don't break this contract, which reads in so many words "that we won't touch a drop" until 12:01 a. m. Jan. 1, 1934.

The L. T. L. gave a program to the W. C. T. U. Thursday night. Songs, music, duets, quartets, short talks were a part of the program at the Mission. JENKKS STRESSES VALUE OF LOW POWER RATES

C. H. Jenks, consulting engineer of Union City met with the mayor and council of Fulton last Friday, with Dr. C. B. Bard of Water Valley and Joe Rogers of Hickman present. The development of electric service from Muscle Shoals thru the Tennessee Valley program was discussed at length. Mr. Jenks stressed the importance of cheap electricity for industrial use in interest of the industrial development of this section. It was pointed out that to insure West Kentucky and Tennessee an even break in development concentrated efforts by the cities of this territory should be made asking the immediate construction of a dam at Aurora Landing, Ky., on the Tennessee river. This dam is proposed in the national program and is located 45 miles from Paducah.

Mr. Jenks urged Fulton and other communities in this section to make application for electric service thru the Tennessee Valley Authority. Electricity at a low rate would be an inducement for factories to locate in this section, Mr. Jenks said.

Merchants of Central City, Ky., faced the threats of 250 unemployed men last week. The unemployed declared "we want something to eat today, not tomorrow." The mayor addressed them, conferred with merchants, who provided temporary relief. This is a fair example that Kentucky must have relief measures and the aid of the federal relief appropriation.

A "youngster" who now resides in Arkansas, but is a native of Kentucky, celebrated his 107th birthday recently. He has had quite a lot of experiences, and even today he never misses an opportunity for a new thrill. He has used tobacco and coffee for more than 100 years. He usually drinks three glasses of milk each day. He's a civil war veteran and enjoys an airplane ride every chance he gets.

REVIVAL CLOSING AND SUNDAY SCHOOL DRIVE IS STARTED

The revival at the First Methodist church has closed with fourteen additions to the church. Much interest and good was attributed to the efforts of Rev. R. L. Duckworth of St. Louis who delivered some splendid sermons during the meeting here.

Last Sunday marked the beginning of a Sunday School attendance drive at the Methodist church with 315 present. A special invitation is extended to everybody to attend Sunday School there next Sunday if they are not regular attendants elsewhere.

FIRST PRESBYTERIAN REVIVAL OPENED HERE LAST SUNDAY

Robinson, local pastor. A large crowd attended the initial services and much interest is being taken in the gospel messages of Rev. Hunter.

Local Dogs Are Put On Spot

War has been declared on stray dogs and cats in Fulton and South Fulton since several cases of rabies have been discovered on both sides of town. It is estimated that off-corners here have been forced to kill some thirty odd animals in an effort to prevent further spread of the contagion.

Mayors of the twin-cities have issued warnings to the people to be on their guard for dogs and cats showing symptoms of rabies. All owners of dogs in the city should have them vaccinated immediately if they wish to safeguard the life of their pets. A city ordinance implies that all animals must be vaccinated. This course will protect and safeguard your dog and your family.

After an animal has been bitten symptoms of rabies usually show up in nine days to two months but often it takes longer for signs to develop. The dog killed last Friday in South Fulton was sent to the Tennessee Board of Health and showed that the dog had rabies. Another head sent to the Kentucky Board of Health showed positive evidence of rabies.

Mrs. J. H. Olive, who resides on Corrat, was bitten last Saturday morning by a cat. Dr. Prather, the county physician, was called and the cat's head was sent to the state health department. Members of Arch Carver's family are reported to be included among those bitten.

Every precaution is being taken by city and health authorities to protect to public against mad dogs within the city limits.

HISTORY IN THE MAKING

The first record ever made in the Fulton County court was recorded on April 1, 1845 and reads as follows: "Be it remembered that at the Tavern House of Groganburg Watson in the town of Hickman on Tuesday the first day of April in the year of our Lord 1845, pursuant to the act of the General Assembly of Kentucky entitled an act to establish the county of Fulton approved January 15, 1845. Robert Brown, James P. Tyler, Jesse Edmonston, Ralph McFadden, Shadrick Boaz, Asa W. Clark, Hugh S. French and Thomas Smith, severally produced commissions from his excellency the Governor of the Commonwealth approving them Justices of the peace, in and for Fulton county, and Thomas James Justice of peace for the county of Hickman. Having administered to the said Brown, Clark, Tyler, Edmonston, McFadden, Boaz, French and Smith the oath required by the law to be taken by Justices of the Peace."

Jacob White, whose commission bore the date of Jan. 30, 1845, was the first man to hold the office of sheriff. Lewis Seacore objected to his qualifying, but was overruled by the court. In taking oath of office he had to embrace loyalty to the U. S. and to Kentucky, and refrain from dueling. His bond was fixed at \$5,000.

The first County Court Clerk was appointed on April 1, 1845 and was L. D. Stephens with his bond fixed at \$10,000. The first Circuit Court Clerk was appointed in 1845 and served until 1851. He was Dickson Givens. The first County Attorney to hold the office in Fulton County was the Honorable Edward I. Bullock. He was appointed in 1845 and served until 1851 to be succeeded by A. D. Kingston who in turn served until 1858.

Austin P. Tyler was appointed the first county surveyor on April 1, 1845. John Betts was the first to serve as jailer.

May, 1845 marks the granting of permission for operation of a tavern house for one year at Hickman. To George W. Puckett, William A. Downing and Isaac Sarmon goes the honor of being the first patrons of the town of Hickman.

During a session of the county court in 1845 Edward I. Bullock made a motion that several lots in Hickman be selected for the site of the Court House. A draft for the buildings on these lots were conveyed from G. W. L. Marr. Also the site of the county jail was conveyed from Mr. Marr.

Kilgore Speaks In Cayce Soon

Ben Kilgore, Executive Secretary of the Kentucky Farm Bureau Federation, at the special request of many farmers, will speak at Cayce, Thursday, October 11th. He was secured for this date thru County Agent O. R. Wheeler who, in cooperation with a special committee previously elected, has arranged for a mass meeting of farmers and farm women at Cayce, at 7:00 p. m., on October 11th.

Those who are unfamiliar with Mr. Kilgore, perhaps remember him as an editor on the staff of the Progressive Farmer magazine. He is a young man and a convincing speaker and has the interest of the Kentucky farmer at heart. Since he has been associated with the Kentucky Farm Bureau Federation many new county organizations have been set up and he comes to Fulton county with the valuable experiences of these organizations to assist the Fulton county farmers in creating a county Farm Bureau. Mr. Kilgore will explain at the Cayce meeting the aims and purposes of the Kentucky Farm Bureau Federation, and assist in planning for the organization. The public is invited to attend this meeting.

Mr. Adams has agreed to accept the city judgeship at a salary of \$25 per month for the rest of this year.

THE PARKING SITUATION

Perhaps there are few towns of equal size to Fulton, that have as many automobiles parked uptown as is usual here every Saturday. Every available parking space is taken up in the main business section. Cars flow into town from the surrounding trade territory, and local motorists drive up town and leave their cars parked while they look around or attend the show.

It seems to us that the congested condition on our main thoroughfares sometimes prevent people who would like to park and shop around from doing so because they cannot find available parking space. I have stood down town and watched out-of-town cars seeking a place to park with the result that they often have to leave their car in some out of way place and walk back to the store where they wish to do their shopping.

ping.

This condition should not and would not exist under proper parking regulations. A 30-minute parking limit judiciously enforced in the principal business district would correct this trouble, giving hundreds of people an opportunity to park for a short time near the place of business where they want to do their shopping.

It is parking a car and leaving it for hours in the crowded business area that makes the situation very troublesome. This simple regulation would be a worth while adjustment.

HELP WANTED!

A former friend was in the city this week end spent the day trying to find someone to help cut his tobacco. He approached one colored gent and asked him if he wanted to work.

"Yassuh, I be glad to work," muttered the erstwhile local colored man. "What you pay?"

One dollar a day and your board, replied the farmer.

But evidently the negro's interest in work was fleeting, for when told to show up next morning at a certain place down town, he didn't make appearance. So the farmer, who was accustomed to like scenes, returned home disgusted, and labored from early to late, cutting and housing his tobacco himself.

We're wondering what this negro and others who don't like to work, but are always ready to hold their hand out for charity, will do this winter if there is no R.F.C. or Red Cross?

Most of our unemployed are deserving and anxious to obtain employment by which to earn a living for their families, but there are always exceptions in everything.

LET'S GET GOING

The campaign to line up our community solidly behind the national recovery program should not be too long delayed. Almost every other city and town in the nation has put on or is putting on such a drive and in many places the second phase, the "Buy Now" campaign sponsored by the NRA is now being pushed forward.

While it is evident that the smaller communities, such as Hickman, cannot do a great deal in the NRA program, we can at least do everything possible and show that we are solidly behind this national attempt at economic recovery. The Courier believes that the local organization should be set up within the next week or so and the drive started as

soon as possible. It could be tied in with the "Buy Now" campaign.

There are many things that need to be straightened out yet, but it is not to be expected that such a tremendous campaign as the NRA could be put over and working smoothly in a few short weeks. We believe that in the end all the tangles will be worked out, prices will be equalized and that the farmers, workers and small business men will reap the full benefit of the Roosevelt program. Meanwhile we must have patience and DO OUR PART. —(Hickman Courier).

A PERSONAL APPEAL

President Roosevelt is not asking the people to follow him in this step toward recovery through some theory in blind faith. He is standing on a record of actual achievement which has earned the confidence of every citizen in his ability to lead. Doubters need only think back a very few months, when the country prayed for something—anything—to save us. The change did not just happen. It was prepared by vigorous, constructive and fearless leadership. What he now asks us to do involves, as the first consideration, survival.

The main merit of the president's plan is that it concerns directly the comfort of every one of us. The appeal is purely personal. —(Mayfield Messenger.)

\$100,000 FOR SPECIAL SESSION

At the rate it is costing the State of Kentucky for the special session of the state legislature, they will have to pass revenue bills to pay themselves, much less look around for relief for the jobless. It is indeed pitiful, the asses this bunch of hickmacks are making of themselves. When thousands of destitute citizens of the state are demanding relief, they take a day off to visit the State Fair, and come back into session for a day to pass the buck a few more weeks, and still continue to collect their \$10 per day.

For the love of God, gentlemen, get down to business, pass some kind of revenue to relieve the unemployment situation in the state before

Think It Over

BY THE MEDITATOR

DEMANDS OF JOURNALISM

A friend who is the father of a 16-year-old son, writes asking my advice as to the son entering the newspaper field, as he is seeking a life occupation for the young man. He says the boy is inclined to newspaper work and thinks he would develop into a "good editor."

I am unable to properly advise this perplexed father in shaping the course of his son, nor would I be able to do so without knowing something about the boy, something of his disposition and temperament. The demands on an editor are such as to try the souls of men. The demands on an editor are exacting and before you decide to select the journalistic route for him, let me draw from my own experience and say—

If he can listen with a smile to tiresome things, he has oft time heard before; if he can refuse to do what three or four people ask him to do without making them mad; if he can write in a way to make people laugh when he feels like cussing or in a way to make them weep when he feels like crackin' his heels together and laughing out loud; if he can remain silent when he feels he will burst wide open if he doesn't talk; if he can argue without getting mad; if he can refuse a woman's request for free publicity without making all the members of her set or church mad at the paper; if he can react to the loss of a good news story and catch a better one on the rebound; if he can explain a typographical error without using up thirty minutes of time; if he can concentrate and write intelligent copy with three different conversations going on around him; if he can referee a dog fight and immediately after say something appropriate at the funeral of a friend; if he can think intelligently with three typewriters clicking away near him and the hum of presses in the next room drumming in his ears and reporters discussing their experiences next to his desk; if he can explain why Mrs. Jones' poem on the Sylvan Depths of October Woods did not appear in the paper, and not have her husband top his advertising; if he can take a four-time story and spread it to half a column or take a two-column story and condense it to two paragraphs; if he can read proof while a flapper chatterbox near him entertains a half dozen of her chums with a description of the last dance she attended and not overlook an error, or write headlines without murdering the king's English; if he can crowd sixteen letters into a headline that will admit but fourteen; if he has a nose for news and an itch for writing and an inclination to work sixteen hours without getting brain fair; if he can, while trying to concentrate his mind on an editorial convincing the reader that "our party" is "safe and sane" and ought to be selected to remain at the state house, answer the telephone when Mrs. Smith calls in and wants to know on what day of the week the 15th of September seventeen hundred and eighty was; if he

can play a good game of poker and teach a class of boys in Sunday school—my advice is let him get in to the newspaper game. But first—Think it over.

FRANKLIN'S

Bulldogs Clash Paducah Tonite

Fulton High School Bulldogs will clash here Friday night under the bright lights with the strong Tilghman high school team of Paducah. Fulton is expecting a capacity crowd to see the highly rated Tornado, which has been beaten only once since 1930 and is building up a record of invincibility in this section which compares with Ashland's mark in far eastern Kentucky.

Practice sessions have been going on regularly this week, and the Bulldogs are prepared for a hard fight. The local boys have been doing some good work this year, although the team is light. But tactics are being adopted to offset weight advantages and Fulton High has one of the best teams of its sports career. Paducah will likely meet some surprises when it comes here Friday night for the Bulldogs are tenacious opponents.

COACH KILLEBREW even tonight at the Fairground park at 8 P.M. sharp.

Fulton Boys Help Union City In Win

Sunday in Union City spelled defeat for the Memphis Chickasaws when they faced the superb twirling of Big Jim "Stork" Weaver, the catching of Jim's brother, Cecil (Bob) Weaver, the fielding and hitting and base running of Butch Simon who collected two sizzling hits in three trips, and Clyde Batts who collected two hits in three trips and drove in one of the scores. All these Fulton boys were just too much for the Chicks and of course the went down in defeat, score being four to one.

Union City scored one in the first. Creasy walked and Simon singled with Creasy going to third and on

home when Leiber threw wild at third. In the sixth Union City got two more. Creasy grounded out and Simon shot one to center field for a single and McNeil scored him with a rousing double against the centerfield wall. Batts then scored McNeil with a sizzling single well planted down the right field foul line. Creasy first up in the eighth singled to center and McNeil beat out a roller to first advancing Creasy and Winsett scored him with a single to center to end the All-Star scoring. Memphis scored in the 9th on a single by Chizza and a triple by Granger.

Fans were kept in laughter with Tommie Taylor on third. His base running and hitting were amusing as Tommy intended them to be. Doc Prothro, manager of the Memphis Chicks, commended the playing of Batts and McNeil, and said that Big Jim Weaver would have a great year with the St. Louis Browns in 1934. Weaver only walked one Chick and struck out 11 batters.

Next Sunday a double header will be played in Union City. First game between Camden and Paris, and the winner of this contest will meet Union City in a second game.

Lightening The Burden

A great deal of the bitterness of parting has been removed by the discoveries of modern science, which now make it possible for the loved one to be seen at the last rites with the appearance of life and health. Too much honor cannot be paid to the pioneers to whose patient research we owe this beautiful memory picture. In our organization artists are trained and experienced artists who give our patrons the full benefit of the latest discoveries in this field.

Alumni Met Last Monday

The recently organized Alumni association of the Fulton high school held its first regular meeting at the Chamber of Commerce on Monday night with M. L. Parker, chairman. The constitution and by-laws were read, and reports were heard from the membership, blanket and program committees.

The association has order twelve

blankets for the Bulldogs, which will be presented during a pep meeting at the high school Friday morning. At that time the Queen of the homecoming game here Friday night will be announced.

The Alumni association is sponsoring "I Love A Woman," which is a remarkable screen production, to be shown at the Orpheum, Thursday and Friday, Oct. 12-13. Everyone is urged to purchase their tickets from a member of the association, receipts to be used in work by this organization.

This association of graduates of Fulton High is gaining in strength and membership, and its efforts are commendable. Students and citizens should give this organization their cooperation.

SOUTH FULTON PRAISES

Big Jim Weaver gave a masterful exhibition of his skill Sunday when he pitched a victorious game for the Union City All-Stars. South Fulton, where he began his sports career, is justly proud of Big Jim—their gift to the Big Leagues.

This - That

Ajax, the wonder dog whose stomach was removed by Northwestern University surgeons nine years ago to see if he could survive without it, is dead after a happy and otherwise normal life. Ajax was three years old when the operation

was performed. He recovered quickly and assimilated food without the stomach. Surgeons said the successful operation proved that in case of cancer or other disease of a stomach could be removed from a human being without endangering his life.

Convicts in an eastern penitentiary staged a riotous demonstration the other day because the board of trustees refused to place radios in their cells, furnish them newspapers daily and free certain convicts from solitary confinement. That's what comes of treating criminals too lightly, and giving them too luxurious quarters when they go up for a stretch.

Dr. Eduard Willems, of the University of Brussels, Belgium, thinks the American people, "living in the midst of fabulous wealth," are afflicted by too much money and too many college and university degrees. There may be too much money, but we haven't seen much of it yet. However, it does seem that science education and big business have left our social and economic development so far behind that a change in our "great system" is required. There has been too much idleness and suffering in a land of plenty, which is very inhuman in this enlightened Christian era.

Second enrollment period, calling

for 75,000 new men to fill the ranks in reforestation camps throught the country, started Monday. Approximately 125,000 of the 300,000 forest reserve for the first six months encampment will leave to take other jobs or for other reasons by Oct. 15.

Surveying of the Reelfoot Park is now underway. District Forester Ralph Peck says that several hundred C. C. C. boys will clear and do other preliminary work toward the construction of camp grounds. The Reelfoot lake area is growing in popularity as a hunters' and fishermen's paradise, and vacation land for thousands of people.

A federal appropriation of \$1,250,000 has been secured for flood control work on the Tennessee side of the Mississippi river extending from the upper end of Lake county through Tipton county. Work on some projects has already begun and other work will be started as soon as the surveys are completed.

County Clerk Effie Bruer, according to a notice made by the State Tax Commission, is issuing licenses for the sale of 3.2 beer in Fulton county. Retailers must pay an annual tax of \$25 and wholesalers \$100. These licenses must be obtained by October 27 to escape a 20 per cent penalty.
