FULTON, KENTUCKY, FRIDAY NOVEMBER 17, 1933.

NUMBER 43.

Cattle Will Be Retested

Dr. O. C. Carter, of the Veterinary Bureau of the United States Department of Agriculture, visited O. R. Wheeler, county agent of Fulton county recently, for the purpose of working out plans for a re-test of the breeder cattle of this county for bovine tuberculosis. This re-test must be one at intervals to keep the county and the state within the accredited area for eradication of this disease. The legal requirements are that at least ten percent of the breeder cattle of the county shall be included in the test and the work must be done before January 1st, 1934. Dr. Carter expects to begin the test on or about December 4th and finish before the end of the year. Owners of tuberculosis infected cattle which react to the test will be paid indemnities based on the same scale which was used when the county wide test was made a few years ago. This test may be made on all breeder cattle, but Dr. Carter stated that he was more interested in testing herds of dairy cattle selling whole milk or cream. Any owners of breeder cattle located in Fulton county, who wish to be included in this test should give their name and address and the number of cattle they have to be tested to County Agent Wheeler. Mr. Wheeler will assist Dr. Carter in routing the work and it is hoped that cattle owners will make their requests at once.

SOUTH FULTON SCHOOL

The South Fulton basketball teams added two victories to their string in their last series when both boys and girls won over the alumni teams. The boys have not lost a game in their four starts this season with Troy, Woodland Mills and the Alumni. The girls started with a green team and after fast improvement took their initial victory last week.

Both teams will receive real tests on Friday night when Coach Bill Cravens brings his strong River teams to the South Fulton gym for games. The River teams are always strong and every one fears them in the tournaments. Some shifts are contemplated for the local teams and it is hoped that the Red teams will take the measure of their opponents this week. Olga Mills and Minnie Etta Gilliland seem sure of winning starting positions and the return of Myrtle Williams to a guard role has strengthened the girls' team considerably. Tucker seems to have found himself at the guard position and is causing opposing forwards no end of trouble in sending home their shots. Irene Dunbar has been sinking her shots in fine style and proved herself almost perfect at the free throw line. For the boys Ferguson and Mansfield have been most consistent scorers. Cooley is working well as the axis of the attack. The defense of the Red Devils has slowed every opponent so far and it is hoped that it will stop the high speed scoring thrusts of the River aggregation. All school children accompanied by an adult admission will be admitted free to the games Friday night.

The Senior class conducted chapel exercises Thursday and gave an interesting program interpreting the "four ages of men." The music pupils of Miss Sarah Butt will have charge of assembly next.

Carpenters have been at work erecting a wall to replace the curtain on the stage in the gym. This was necessary to heat the stage which is being used as a class room for a part of the first grade.

COUNTERFEIT MONEY AND BAD CHECKS HIT WEST KENTUCKY

Counterfeiters and forgers have been active in this section recently with many merchants and Mayfield. Merchants have been stuck for more than \$100 in forged checks, and Paducah has suffered from counterfeit bills, especially \$20 ones, which are so nearly perfect that they are barely detectable.

Fulton merchants and citizens are warned to keep a weathered eye out for spurious money and checks.

They sustained only minor injuries, and were attended by Drs. Lutten and Cohn. Both engines were damaged, approximately \$800 in damages.

**EVERYBODY'S BUSINESS!**

In an editorial last week we said  
Fulton "could do something about  
it." It only takes determined ef-  
forts and co-operation to bring ad-  
ditional payrolls to Fulton in the  
form of new industries.

Judging by the comments and  
telephone calls which have come to  
the office of The News, the com-  
munity has been sincerely stirred  
by this initial effort to arouse pub-  
lic sentiment to a point where  
**SOMETHING WILL BE DONE**  
in bringing more industries and in-  
creased activity in the community.  
Dozens have indicated their will-  
ingness to aid in any plan that will  
promote the industrial and agricul-  
tural progress of this community.  
All agree that **SOMETHING** should  
be done without serious delay. It is  
admitted that **NOTHING** is gain-  
ed by inactivity. But—there is work  
ahead—problems that will have to

be approached from every angle. Al-  
ready many suggestions are being  
made, and that vital public spirit is  
glowing! Now the thing to do is to  
**DO SOMETHING COLLECTIVELY**  
that will be a credit to Fulton.

As is to be expected there are a  
few business men and citizens who  
have failed to register any interest  
even though it means their own per-  
sonal welfare. At least, if they are  
interested they have succeeded in  
keeping it to themselves. However,  
they are not to be blamed. We can't  
all be alike. Some of the world's  
best fighters—or go-getters—are  
slow to start, but are bad medicine  
for opposition. Fulton has a few men  
like this, and they are a real credit  
to the community.

But let's get started NOW! Del-  
ay is inexpedient, unprofitably and  
detrimental. So pass the word along  
—ONWARD FULTON. Keep it roll-  
ing until the rumble of it can be  
heard so distinctly and incessantly  
that the desire "to do something"  
will become so strong in the citizen-  
ship that the only course open will  
be **ACTION**.

People want to work. Most of them  
want to pay debts they owe. But  
we need to increase local earning  
power. Earning power means **BUY-  
ING POWER**. Buying power leads  
to economic improvements in the  
homes. Thus the wheel of life turns  
back toward general progress thro-  
out the community. Property values  
improve, business rates increase, and  
community sentiment swings the  
pendulum further and further along  
the route to permanent prosperity.  
With improved conditions crime will  
decrease, while happiness increases.  
Frowns are replaced by smiles.

There's no use evading the real  
issues of today, or patiently sit by

hoping for the best. Every com-  
munity must do all in its power to  
better its own conditions. Individual  
and public industry and initiative  
must be aroused, and immediate  
steps taken to reach a set goal of  
accomplishments.

Fulton—reach out for more trade  
more industries. There are yet many  
untapped sources by which we may  
climb slowly but surely back to  
better times.

**OPPORTUNITIES ARE MADE—**  
they seldom fall right into our laps  
of their own accord. **SO WHY NOT  
MAKE THEM.** It can be done!

**THRIFT NEWS FOR YOU**

When you read the advertisements  
in The News, you may know that  
the merchants who take this method  
of telling their customers about the  
values they have, are inviting you  
to visit their stores. They make it  
their business to search the markets  
for merchandise which they can turn  
over to you at small profit. They  
strive to please by rendering faith-  
ful, courteous service to the people  
of the community.

Modern business policies demand  
that business concerns who serve the  
people must be alert to market  
conditions and saving opportuni-  
ties which they can pass on to their cus-  
tomers. And in order to keep the  
people in touch with what they are  
doing along this line, they advertise  
their merchandise regularly.

This advertising offered through  
the columns of The News has real  
reader interest, and it is watched  
as a guide to thrifty and wise  
shoppers who want to make their  
dollars go as far as possible in the  
purchases they must make.

So when you see an advertisement  
in The News you should consider it  
carefully. It may bring you just  
the message you have been watch-  
ing for. These advertisements usual-  
ly contain worthwhile saving oppor-  
tunities which you cannot afford to  
overlook.

Advertising is just another form  
of news—news, that if followed,  
will be of valuable assistance in  
solving economy problems in home  
expenditures.

It is thrift news in concentrated  
form.

**THIS AND THAT**

The Dead Letter office at Wash-  
ington will be dead after December  
1. After then all uncalled for letters  
will not go to the Capitol but to one  
of the 56 central offices over the  
nation. The Dead Letter office was  
established by the Act of Congress  
in 1777, and has been costing the  
government more than \$100,000 an-  
nually to dispose of dead letters.  
Last year \$90,481.63 in cash was  
found in 44,811 letters reaching the  
dead letter office.

Canada's 15,000 postoffices have  
been ordered not to accept U. S.  
currency. The instructions went out  
from district headquarters because  
the American dollar had fallen be-  
low par in relation to Canadian  
money.

American brewers will offer a new  
type of beer containing approxi-  
mately six percent of alcohol by  
weight, after repeal of prohibition  
on December 5. Supplies of the  
stepped-up beer are now ageing in  
the vats of all leading breweries.

It is said that since Columbus  
discovered America in 1492 the to-  
tal gold that has been coined thro-  
out the world is \$22,413,756,117. It  
is hoped that there will be undue  
inflation of our currency. In this  
respect we might remember what  
happened in the collapse of the  
Mexican finances of Carranza's  
time. Or the history of the German  
mark which was printed by the  
wheelbarrow and cartload in 1933,  
and just before the collapse in Ber-  
lin, the cost of a man's hat in marks  
was 275,000,000 which nominally  
would be about \$68,000,000 for a  
hat.

America celebrated Armistice day  
with many good resolutions, and  
much abuse of war in general. But  
while one group sends up a cry  
against war, another starts a dis-  
turbance. Front page dispatches  
give facts, reality. Hitler is not in  
"the saddle" for sweet peace. Civil  
war in Cuba, martial law declared  
in Austria, Japan making armed  
excursions to China, Italy withdraws

from the League, and we know not  
what will transpire next. Since the  
World war so-called "civilized na-  
tions" have spent more than five  
thousand million dollars keeping  
ready for the next war, and that  
does not include other billions for  
pensions from the last war. Just  
think what could be accomplished  
with this amount of money—the  
world's deserts could be irrigated,  
swamps drained, deadliest diseases  
wiped out. Germany is accused of  
preparing "for chemical and bacteri-  
ological or germ warfare." The  
horrors of another war are too hid-  
eous to imagine. As long as there is  
profit and power to be gained by  
war, we will have wars. War will  
be with us in this generation and  
the next, and probably as long as  
there is human greed and hatred.

### Watch Your Step

By "Me."

Boys! You boys who held up an old man out east of town the other day. Why did you do it? The very idea. Aren't you ashamed of yourselves to do such a trick? The next time you had better hide your little 22 and not attempt to "shoot the pipe out of his mouth."

Well Coy Putman has got hooked up. I did not do it he always told me to do if he ever d'd get married. He told me to say that "Coy Putman has gone crazy." Anybody who goes thru what he did to get a wife surely can't be called crazy. He met and courted her in Texas. went to get her in North Carolina, married her in Virginia, took a honeymoon trip in Tennessee, and brought her back to live in Old Kentucky. Congratulations!

Cyde Stephenson, the cotton top laundry truck driver from the OK has always said that I would never get his name in this column. He doesn't seem to know that I know he knows "nothing" about Arkansas.

Now that I have gone in for the good old sport of opossum hunting maybe the dogs will feel that they have been cheated. I went out into the woods Sunday afternoon just after a big dinner and came in with three nice big fat ones. No we had no dogs, but only carried a small stick to "twist" 'em out after we found them. Who wants to go on my next hunt like this?

Hunters were very conspicuous at local eating places in Fulton early in the mornings this week. Smith's cafe was besieged by this armed band which paused here long enough

to pack away something to eat in the "grub bag" before starting war on the poor birds down at Reelfoot on the Mississippi or some other body of water in this vicinity.

#### 4-H CLUB MONTHLY MEETING

The Fulton 4-H Club held its regular monthly meeting at the home of Warren Thompson for the Achievement Party program on Saturday night, Nov. 11. The business session including election of officers for the ensuing year. Roy Edwards was re-elected president; Janette Watts was re-elected secretary; Joy Watts was elected program conductor. The club has never had a community leader before but chose one for the ensuing year, Miss Helen Watts being selected.

The projects captains gave very interesting reports of the work that had been done by all the club members. The County Agent, Mr. Wheeler gave club pass for the year of 1934. Certificates were awarded to all club members who had completed the year's work and turned in a record book on his work.

The club adjourned to hold their next meeting at the Fulton high school December 18. Mrs. O. R. Wheeler and little son were visitors at the meeting.

#### THEATRE REVIEWS

This Friday "Aggie Appleby, Maker of Men," makes the second day of its run at the Orpheum Theater. A cracker-jack football picture is showing Saturday with a Western "Cowboy Counsellor" completing a double program.

Sunday, Monday, November 19-20 "College Coach," with Dick Powell, Ann Dvorak, Pat O'Brien and Lyle Talbot will provide a splendid program of entertainment.

Tuesday and Wednesday, Nov. 21 and 22, "White Woman," with Carol Lombard comes to the theater here in an unusual dramatic characterization.

"Wonder Bar" is coming soon, and is said to surpass either Gold Diggers of 1933 or Footlight Parade. Such prominent stars as Al Jolson, Dick Powell, Kay Francis, Dolores Del Rio, Ricardo Cortez and other big names are in the cast. The picture is being released at a time when repeal of the Eighteenth amendment is certain, and deals with the new era without prohibition.

#### RATHER RUN THAN TO WORK FOR CITY

Three drunks were taken up by

the police here, and put to work with the street department Monday. They managed to pull through the morning okay, but they vomited after noon. No, it was no mystery nor did they go up in smoke—they just took legs and hopped across the state line into Tennessee. Evidently they preferred running rather than work.
