Cattle Will Be Retested

By W. C. Reynolds

The Demopolis Daily News, in an article on December 10, reported that the Bureau of the United States Department of Agriculture had issued a bulletin on the necessity of testing cattle. This bulletin emphasizes that testing cattle is necessary to protect public health and to maintain the quality of the beef supply. The testing program is designed to identify and淘汰 diseased or infected cattle before they enter the food chain. The bulletin also states that the testing program is being carried out in cooperation with state and local authorities.
