TAXES TOO HIGH

Graves County Citizens Secure Injunction to Prevent Collection of Excess.

Mayfield, Ky., Aug. 10.—An injunction suit has been filed by B. B. Pryor, J. H. Ford and L. P. Poyner, who sue for themselves and for the use and benefit of all other tax payers of Graves county against W. L. Brand, sheriff of Graves county, to prevent him from collecting so much of a levy recently made in excess of 30 cents on the \$100 worth of property and \$1.50 poll tax. The attorneys for the plaintiffs are W. B. and R. N. Stanfield and J. C. Spengler and J. C. Dean. The plaintiffs in their petition claim that "the fiscal court in a regular session last October levied for road and bridge purposes an ad valorem tax of 25 cents on each \$100 and \$1.00 poll tax between the ages of 8 and 50 years. For the general fund 38 cents ad valorem tax and poll \$1.50 and for pauper fund an ad valorem tax of four cents on each \$100, making a total of 67 cents on each \$100 worth of property for county purposes."

Plaintiffs further state "that such levy was not made by said fiscal court for school purposes nor was it made to meet any emergency then existing, neither the public health or safety require it, nor was it levied to enable the county to pay the interest on and provide a sinking fund for the extinction of any indebtedness of said county created prior to the adoption of the present constitution of Kentucky September 28, 1891. And that all of said levy made by said court in excess of 50 cents on each \$100 worth of property is unconstitutional and absolutely void; that it is in excess of the constitutional limitation, section 157, of constitution."

The Way of the World.

Knock and the world knocks with you, boost and you boost alone; when you roast good and loud you will find that the crowd has a hammer as big as your own. Buy and the gang is with you, renig and the gang is off, for the lad with the thirst will see you curst, if you don't proceed to cough. Be rich, and the gang will praise you; be poor and they will pass you by; you're a warm young guy when you start to buy; you're a snob when you haven't the price. Be glad and the mob will cheer you; they'll shout while your wealth endures; show a tearful lamp and you'll see them all tramp, and it's back to the woods for yours. There's always a bunch to boost you while at your money they glance; but you'll find them all gone at the cold gray dawn when the fringe shows on your pants.—Ex.

Tobacco Prizes at Benton.

Benton, Ky., August 8.—The committee of the Marshall County Dark Tobacco Association held an important meeting at the court house Monday. They made arrangements with Black & Griffith and Wood & Griffith to prize the 1907 Association tobacco, that will be delivered here. These parties are all good tobacco men and understand just how to handle tobacco. They are also perfectly reliable in all their dealings and will do their duty by the Association.

"Tit for Tat."

Guthrie, Ky., August 10.—Tobacco growers, of Adams, Tenn., 12 miles from here, are greatly

THREATENED.

Life of President of Association In Danger.—Received Warning.

Springfield, Tenn., Aug. 10.—There has been much excitement in the neighborhood of Adams, this county, on account of the attack on Dr. L. F. Sory, who narrowly escaped serious injury at the hands of what are supposed to be night riders. Dr. Sory was severely dealt with, after threats had been made to the effect that his life was in danger, and that he was too much in sympathy with the Dark Tobacco association.

\$3 Average Increase.

Paducah, Ky., Aug. 10.—The McCracken county dark tobacco growers' association met in Paducah to hear reports from three graders employed by the association. They were S. T. Miles, of Mayfield, W. C. Warfield, of Adams, Tenn., and N. E. Nabbs, of Cerulean Springs, Ky. They are employed to grade every bit of tobacco put out for sale by the association.

This year to date 36,682 hogsheds of tobacco have been graded and out of this number 33,000 have been sold. It is expected the total number of hogsheds graded will reach 38,000.

The tobacco has been sold at the rate of \$3 per hundred pounds increase over the last year's sales. Last year up to August 1, 34,000 hogsheds had been graded and 20,000 sold.

Association Election.

To the members of the Dark Tobacco Association of Calloway county:

You are requested to meet at your respective voting precincts and elect a precinct committee-man on the first Saturday in September 1907. Between the hours of two and four o'clock p. m. Understand this means two committeemen from each magisterial district in the county or one for each voting precinct.

Those elected precinct committeemen are requested to meet on second Saturday in Sept. 1907 at the court house in Murray between two and four o'clock p. m. and elect one of their number as chairman of Calloway county.

Done by order of Executive Committee.

J. B. SWANN, Chairman.

After A Woman.

Clarksville, Tenn., Aug. 8.—A. J. Jones, a prominent farmer of the Sixth District, has received a letter through the mail stating that his daughter, Miss Katherine, who has been elected to teach in that district, would not be allowed to do so. The letter was written by a person well educated, and was signed "Night Riders." Miss Jones has given up her school as a result of the warning. Mr. Jones is not a member of the association.

A New Deputy.

Jim Adams has been appointed by Chief Roberts as deputy police. Jesse Wells only served a short time. Mr. Adams is a young man; and since his appointment has been giving the duties of his office close attention.

Warren Swan and wife left Wednesday afternoon for a month's tour of the east. They will visit Buffalo, Albany, New York, Boston, Washington, Philadelphia and the Jamestown exposition.

GOING TO BUILD

Calloway County Members of Association Will Erect and Own Warehouse.

The county committee and the building committee of the tobacco association were in session in Murray Monday, and after a long deliberation passed resolutions recommending that a warehouse building be erected at an early date.

It seems that this matter of selling the association tobacco is agitating the minds of the members to a very great extent just at this time. Two warehouses were conducted here the past season, but withal, this does not seem to satisfy, and the committees are determined to erect a building to be owned by the members of the association.

The meeting of the committees was convened in the directors' room of the Bank of Murray and was called to order by Chairman Swann, of the county committee, at 10:30 o'clock a. m. The object of the meeting was stated and the question discussed until 12 o'clock when an adjournment was taken until 1:30 o'clock.

The afternoon session was more largely attended than the morning session. Mr. H. A. Fruitema, of the Peoples Warehouse, was invited and present at the afternoon session and stated his plans of disposing of the property he holds to the association. He has organized a stock company with a capital of \$14,000, and expects to sell the shares of stock of the company to tobacco growers, and has fixed the price of one share at \$5. He wants to transfer both his warehouse building and big prize house building to the association, stating that he considered both buildings necessary to handle the tobacco stored at this place. The members of the committee did not seem to think both buildings necessary, whereupon Mr. Fruitema agreed to sell his warehouse building alone for \$7,000, and turn its control over to the association.

These propositions were discussed at some length but neither was accepted. Finally a resolution was introduced and passed appointing solicitors to take subscriptions for stock in a new warehouse building. The amount of the capital stock has been fixed at \$10,000.

The committees adjourned after adopting this resolution to meet fourth Monday at 10 o'clock a. m., at which time all members are urged to be present.

The Sulphur Spring Picnic.

About 2,000 people attended the tobacco association picnic at Sulphur Springs, near New Concord, last Saturday.

It was an old fashioned basket picnic, everyone who attended and expected to eat dinner on the ground carried their own basket. It was an enjoyable day and much good resulted to the association. Many new names were enrolled as members of the association. Mr. Stone, of Lyon county, was one of the speakers.

Little Doing in Court.

But little business has engaged the attention of court officials during the present term.

Court was adjourned last Friday until Monday of this week and was again adjourned Monday until Thursday. The petit jury was dismissed last Friday. The grand jury finished its labors Tuesday and was dismissed. Thirteen indictments were re-

E. M. Taylor secured a judgment against Ed Starks of \$200 for injury. This suit resulted from the shooting of Taylor by Starks about two years ago.

C. Buchanan, who was brought back here on an indictment for forgery, was released from the charge and his case re-submitted to grand jury. An indictment was returned against him for embezzlement. He made bond of \$250 and was released.

Afraid of Our Production.

Clarksville, Tenn., Aug. 9.—Last Monday night some one placed a few gun shells and a stick of dynamite on the gatepost near the residence of Dr. John Barker, in district two. It has been reported that Dr. Barker last year sold a part of his crop out of the association, but he has been reported as being now a member in good standing. Dr. Barker supposes some one did not know that he has promised the present crop to go straight.

G. N. Gentry, who had a large amount of tobacco pulled up several weeks ago by "Night Riders," has sent the following letter, which was received by him requesting that it be published as per instructions:

"St Bethlehem, Tenn., Aug. 7, 07.—Mr. Gentry: We just want to give you a taste of high life. We want the acreage cut to the limit. If you don't think we have got enough please pull up the amount. We advise you to live a truer man than you have been, if you do this you need not fear any further trouble. We expect to see that the acreage is cut all over the black patch. All men had better pull it up for fear that we will get too much. We want you to have this published, please. Good bye, old fellow; we expect to return to our families sometime tonight. S. S. S."

Italian Contracts.

Mr. L. G. Dunington, the general representative in the United States for the tobacco buying department of the Italian government, has left for his home in Farmville, Va., after spending several days in the city on business connected with renewal of contracts he has with different firms of this section to buy for the Italian government. He will return the fifth of next month and renew the contracts, and probabilities are the old buyers will be contracted with for another year.—Paducah Register.

Princeton Took Both.

The Murray boys were defeated in two well played and interesting games of base ball played with the Princeton team last Thursday and Friday. The games were played in Princeton. The scores were 1-4 and 1-5. The Murray boys played the Dawson team Saturday and put the scalp of that team in their belt to the tune of 19-2.

STATEMENT FROM MR. FORT.

President Fort arrived at Springfield to-night from Guthrie, where he attended a meeting of the Executive Committee.

When seen by a representative of the American, he stated that he would under no conditions, withdraw from the association, and that the charges in the anonymous letter are absolutely false. "Without solicitation on my part," said Mr. Fort, "I was elected to the office of President when the tobacco growers first organized, and accepted in order to relieve as best I could the farmers from the most cruel and heartless oppression ever practiced upon any people."

"I have tried to perform my duty as best I could at all times, both in private and public speeches. I have counseled conservative measures and strict obedience of the law. I have said and so has my brother, Joel B. Fort, that we wanted no man to join our ranks except of his own volition. We wanted no conscript, but men who loved their country and their country's welfare. Along these lines we have fought a long and laborious battle to free the tobacco growers of the black patch from the oppression of combined capital merged into one of the most tyrannical trusts and taskmasters the world has ever known."

"I shall never resign the office of president until requested to do so by the people who elected me. I consider the office as honorable as the people who conferred it on me, and I know that they are as honorable, upright and courageous a people as live upon the earth."

"The charge that I or any brother of mine has done anything to cause the ruin of our peaceful community is without foundation and absolutely false. I have nothing to retract. I condemn lawlessness and have done so all along as the records of the Chancery court at Springfield now two years old will show."

"I regret as much as anyone that there have been acts of lawlessness committed in the black patch. I have done all I could to prevent it, but so embittered were these agents and hirelings of the tobacco trust that they would throw all the charges that it is possible upon me as president in order to break up the only organization that has ever stood in their way."

"No, I will hang with the association, for it has fed more hungry children, paid more mortgages and put more clothes on poor children than any organization that ever existed in this land."

"My life of 46 years is before the people of the country and they know that at all times I have stood for justice and fair dealing, and for the right as against the wrong."

Bad Symptoms.
The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has a crawling distress or heavy full feeling in stomach, faint spells, dragging down, easily startled or excited, frequent or painful periods, with or without pelvic catarrh, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated such cases often run into malady which demands the surgeon's knife if they do not respond to medicine.

CLEOPATRA AS SHE WAS

Historians and Poets Have Given Us Diverse Characters.

On the pages of Plutarch and Dion Cassius—as far as we are concerned—stands the one and only Cleopatra of history, written by P. L. Littlewood, in London Chronicle. Quite undoubtedly for any one who reads these without prejudice the Cleopatra who emerges is above all the Cleopatra of political necessity, the vicious, able and unscrupulous queen, fighting for her throne and dynasty by every method in her power.

In the Cleopatra of the undorated story there is remarkably little hunger and thirst after unrighteousness for its own sake. Each one of her immortal actions had its political purpose. As for her suggested decadence, it is significant that she was a most excellent mother to her children—not to Caesarion, but to the three she had by Antony, of whom the two eldest sons were twins. She is charged nowhere with any unnatural vice, and the money she lavished on Antony's pleasures was mostly his own. Also it is worth remembering that at her best she was not beautiful, but lively, witty and "good company."

Now, out of this real, strenuous, practical Cleopatra what diverse wonders have not the poets created!

TONIC IN A SUN BATH.

In Most Cases Better Than Any Medicine Taken Internally.

Some one called the sun God's antiseptic and sterilizer, and certain it is that not half the people on the earth realize how large a part sunshine can play in cleansing, purifying and making whole.

No one can overestimate the value of a sun bath, and each year you see an increased number of children, wrapped up from the cold and comfortably tucked into the perambulators on the sunny end of the piazza, getting the benefit of this greatest of nature's tonics.

Sun baths that are taken as a remedy for rheumatism, or to ward against sleeplessness, have better effect if they are followed by a warm massage. If they are taken for any skin disease (and in such troubles they are exceedingly valuable), they should be followed by a warm bath.

Even when there is no special disease to fight, but a sense of languor and fatigue, and a run-down nervous system, the sun bath will do good work—better than medicine.—Boston Herald.

How Porlock Got Its Name.

In North Somerset, England, said Henry Bradley, one might be told that once upon a time the devil and a giant laid a wager, the latter betting his soul, as to which could throw a stone furthest. The giant threw his stone four miles, but the devil beat him by a couple of yards, whereupon the giant exclaimed: "Poor luck!" and so the place has been called Porlock ever since.

Mr. Bradley then instanced the corruption of the word Kent (whose British name was Canticum) from a Welsh word meaning open country. It was possible that the word Canticum was derived from an old British word meaning promontory. As to London, the ancient name was Londinica. Llyn is Welsh for lake, and din for town or fort. What was more easy, asked Mr. Bradley, than to explain London as lake fortress? But it was known that in British of the second century the compound meaning lake fort would have been Lindondun, so Llynadun would not explain London. The only philological explanation possible was that the place was called after a Briton named Londinos, meaning wild or fierce.

Revival of the Stock.

The early Victorian dandy has reappeared in Piccadilly, London, heralding a revival of the stock as the fashionable neckwear for men.

Walking down the classic avenue, a rising young author, tall and of distinguished appearance, attracted attention by wearing a faithful reproduction of the stock of the 1830 period. He was otherwise faultlessly dressed in the style of 1907.

To be a strict devotee of the new cult the modern dandy must wear a stock of black English silk, wrapped round the front of the throat, fastened at the back and tied under the chin in a large bow. The correct collar to be worn with the stock is a new style, cut low at the back and showing rounded points in front a quarter of an inch above the stock.

Has the Earth.

Some months ago excavation were being made for new tracks on the line of a certain famous railway. At one point a nearby resident obtained permission to remove a quantity of turf to reseed his premises, the section boss being instructed to notify the excavating "gangs" when the resident should have secured all he desired. The laborer's report is as follows: "The man that wanted the earth has got it."

After Business.

"My dear sir," began the stranger, "I would very much like to marry your daughter."

"What?" cried old Mr. Stoddard. "I do not even know you."

"Pardon me, I do not wish to be married to her, but merely to perform her ceremony. I'm a struggling minister, sir, and I need the fee."

"BUNGALOW"

Word of Comparative Modern Date Is Anglo-Indian.

The word is of comparatively modern date, and its Anglo-Indian origin can be traced to the adjective bungalow (Hindustani) which literally means "belonging to Bengal." It is an easy step from this to the manuscript preserved in the India Office (England), dated 1876, which has a reference to "bungalows or hovels" for all English in the company's service. Any sketch of a native dwelling in India will show how at first it was not unnatural to bracket "bungalows" with "hovels." The word was in the making, and the building improved with the word.

In 1711 we find a reference to a "Dutch Bungalow" on the shores of the Hugli. In the eighteenth and early nineteenth centuries there are references in Anglo-Indian correspondence to wayside houses which are spelled "bungala" and "bungalow," and in one instance, in 1809, a journal of residence in India describes the bungalow as a garden house. The most striking reference which tallies with our own view of the building as described by the word is contained in a book dated 1847, which says: "The bungalows of India are for the most part built of unbaked bricks, and covered with thatch having the center of a hall, the whole being encompassed by an open veranda." That is probably the shortest and most complete definition of the broad meaning of the word that can be found. Of course we build bungalows nowadays of many other materials besides bricks; but the latter are used, sun dried, in many quarters of the globe besides India. Primarily, a bungalow is a building specially suitable for a hot climate where the broad verandas make cool, shady places for sitting outdoors.—Lauders and Out.

JOYS OF A COLLECTOR.

Occasionally He Is Able to Snap Up a Prize.

Collecting will always have its romances. I know of one that occurred recently as the sale at Christie's of the effects of the late Sir Henry Irving. Some one I know had been to see the collection before the sale. He came across a portrait with which he was familiar, because he had seen it 39 years before. On consulting his catalog he discovered that the portrait was described as being that of a man unknown, and further, the artist was also unknown. Now he knew that the portrait was that of a famous actor by a famous English painter. He longed to buy it, but decided that it would go at too high a price. He went to the auction with very little hope. The Whistler and the Sargent were sold, and then it was the turn of this picture. Nobody recognized it. Finally he had to start the bidding himself, and this he did. Only one man bid against him, but he soon stopped, discouraged, and then the picture was knocked down to the man who had never expected to get it. He hurried to the desk to pay the small amount and to carry off his prize. "Do you happen to know anything about that portrait?" the auctioneer asked him, as a porter took it down to a cab. "I know it very well," said the new owner, conscious that it was now safely his property. "It is a portrait of Buckstone, the actor, by Daniel Maclise. There is an engraving of it in the Maclise Portrait Gallery."—Mrs. John Lane, in Pearson's Magazine.

Light from Sugar.

Starlight, sunlight, moonlight, gaslight, lamplight, candle light, electric light and now sugar light. A phenomenon whose cause has not as yet been satisfactorily explained recently was observed by an expert during the course of certain experiments. Disks of loaf sugar were mounted on a lathe and rapidly rotated while a hammer played lightly against them. An almost continuous radiation was thus produced from the sugar. It was shown that the light did not arise from heating the sugar, and it is believed to have been caused by some change having taken place in the sugar crystals. The act of crystallization is known to be accompanied sometimes by flashes of light. The practical bearing of these experiments is on the question of obtaining artificial light by methods as yet untried.

A Big Task.

The French government has entrusted to M. Laurence Fleuder, of Paris, a mission to make an exhaustive investigation into the social and industrial conditions of women and children in America. The purpose of her work, Mme. Fleuder says, is to raise the standard of women's wages in France as well as the social standard of her country women in every department of industrial and commercial work.

YOUNG MAN WAS INTERESTED.

Visitor Found Little Difficulty in Holding His Attention.

At a hospital for the insane in Philadelphia a coterie of society women provide weekly concerts for the patients. At a recent concert a lady well known for her rigid conventionalism was on the platform reserved for the entertainers. Glancing down at the audience she saw a young man of bright appearance.

"Poor fellow," she remarked, "how miserable he is so afflicted at his age." The young man's eye caught hers. "Dear me," she pursued, "there would be no harm in amusing him with something else than music," which was then sounding through the room. She slightly agitated her handkerchief. The young man took out his own. The grande dame raised her cambric to her lips. The young man raised his to his lips. "I have interested him," she said. "That is a point gained. They do not try to hold the attention of the insane in these places."

Enthusiastic over her success and thinking that no one saw her, she threw a kiss to the young man, who promptly reciprocated. Then the lady went to the physician in charge and singing out the young man asked if he had been long in the institution.

"Not very," answered the alienist. "He is my new assistant."

HINTS ON STORING FRUIT.

Amateurs frequently gather their apples and pears before they are thoroughly ripened. Under these conditions it is impossible to obtain the full flavor of the fruit. An even temperature in the fruit store is important, and adequate ventilation must be provided at all times. Many excellent varieties of apples have been pronounced of inferior quality owing to their being placed in ill-ventilated store rooms. The use of straw or hay should be avoided. Fruit will taste of the flavor of these materials if used. The choicest dessert varieties should be placed on wadding or wool in single layers. Take great care in handling the fruit not to bruise or otherwise damage it in any way.—Gardening for Beginners, in the Garden.

TRIBUTE TO WASHINGTON.

The first public recognition of George Washington's military genius is an appreciation written by an English army officer under the illustrious Gen. Braddock. This was published in the Scot's magazine of Edinburgh in 1757, a year after the famous defeat. The officer who wrote the letter said that the entire command would have been annihilated if it had not been for the bravery and sagacity of Maj. George Washington and Capt. Stephen Donohoe of the Alexandria Rifles. A faded copy of the Alexandria Rifles is exhibited with pardonable pride by the seventh Stephen Donohoe, who is now the editor of the county paper at Fairfax Courthouse, Va.

THE JOYS OF RELIC-HUNTING.

Quite apart from the beauty and intrinsic worth of such things, it is astonishing on looking back on one's experiences of collecting to realize how much pleasure one has got out of even a dilettante quest of antiques. The exhilarating joy of this treasure hunt, the finding of the treasure, the bargaining for it, and the final bearing of it home in triumph, unwrapping it and discussing its beauties and merits, are things which add zest to life. And as the taste for beautiful old things is more or less an acquired one and can be cultivated, this is a joy in which most people who are fortunate enough to have a little spare cash and a little spare time can share.—The Tatler.

HIS SIMPLE REQUEST.

A young musician in Philadelphia who, as a "side line," plays accompaniments for the performers at private fashionable entertainments, tells of an amusing experience that befell him recently.

"Here, you see," said an amateur flute-player, indicating to the accompanist a passage in the opening solo. "I have no chance to take a breath for ten bars. There are a number of such places in my solo. If you'll hurry the time a bit whenever you come to them, it will be a great favor to me as well as a relief to my wife, for all of our family are subject to apoplexy, and I've already had one slight attack."—Harpers Weekly.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

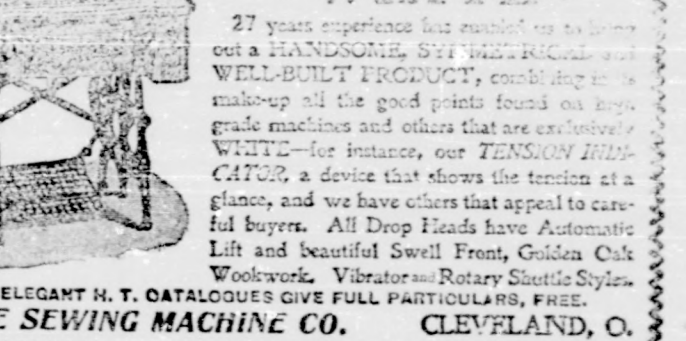

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and cuts into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If very particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

How HE MIGHT QUIET BABY. Simple But Energetic Method Advised by Mother.

"Before I got this job I had no idea so many funny things happened on street cars," said a new conductor. "Every day I see and hear things that are amusing. For instance, a woman with a baby about two years old boarded my car and rode downtown. She reached Fifteenth and California she rose to get off. The baby was tucked snugly in the corner of the seat. The woman hesitated in the aisle. 'Say,' she said to me, 'I'd like to ask a favor of you.'"

"What is it I asked?"

"I've got some shopping to do," she said. "Would you please take baby around a trip with you? I don't want him with me. I'll be back when you return to this corner and take him."

"Madam, I replied, I can't take care of your baby. Suppose he should get to crying, as he undoubtedly would?"

"Well, goodness me!" she said, "you could slap him, couldn't you?"—Denver Post.

Granted in Advance.

The young doctor who had lately settled in Shreveville had ample opportunity to learn humility, if nothing else in his chosen field.

One day he was hailed by an elderly lady, who requested him to step in and see his wife, who was ailing.

At the close of his visit the young doctor asked for a private word with the man.

"Your wife's case is somewhat complicated," he said, "and with your permission I should like to call the Brookfield physician in consultation."

"No, no!" exclaimed the man indignantly. "I told her I knew the doctor, and she said she would be able to cure her. I told her I knew the doctor, and she said she would be able to cure her. I told her I knew the doctor, and she said she would be able to cure her."

Inflammatory Rheumatism Cured in Three Days.

Morton L. Hill, of Lebanon, Ind., writes: "My wife had Inflammatory Rheumatism in every joint and limb; her suffering was terrible and her body and face were so swollen beyond recognition that she was unable to get up. I had eight physicians, but received no benefit until she tried the Botanic Blood Balm. It gave me immediate relief and she was able to walk about in three days. I am sure it saved her life." For State Senator,
CONN LINN.

STONE A BOLTER.

Capt. W. J. Stone, of Lyon county, has made his official announcement as an independent candidate for state senator from this district in opposition to Conn Linn, the regular democratic nominee.

This action upon the part of Mr. Stone does not come as a surprise to the people who are familiar with his record since Wm. Goebel was nominated for governor, defeating Stone in the Music Hall convention.

Mr. Stone certainly does not flatter himself with the belief that he has any chance of success, but if he does entertain such an idea he is assuredly not possessed of the wisdom with which he has been accredited.

Honored by the democratic party of the First congressional district, his counsel and advice sought in previous years of his usefulness by the leaders of the party throughout the state, wreathed with laurels of success and the crown of gratitude placed upon his brow by loyal citizens and admiring friends, in his declining years he deserts this party and these friends and lends his assistance to disrupt and disorganize the organization that made his political career. He has been a bolter since Goebel's nomination and lent his assistance to the republican ticket in the campaign following, and thereby helped to bring about the chaotic condition at Frankfort which brought shame and a reign of lawlessness upon the state.

His defeat will be signal and decisive. The nominee, Conn Linn, of Calloway county, will be elected by the usual democratic majority.

Mr. Stone may anticipate that by virtue of his affiliation with the tobacco association that he will be able to ride into office upon this great organization. Woe be unto the man who makes

such an attempt. Woe be unto the great and good association when it permits any man to enlist in its ranks and claim allegiance to its cause for political pull or personal advancement. He who attempts it is a traitor and disorganizer.

Thomas B. McGregor, of Benton, the well known young attorney, was unanimously nominated by the Republicans of the Marshall-Lyon district, for the Legislature last week. Resolutions adopted were in harmony with the state platform and the national administration. McGregor's opponent is Editor Smith, of the Lyon County Times.

NECROLOGICAL.

Mrs. Mary Radford, one of the county's aged and most highly respected citizens, who made her home with her son near Kirksey, died last Friday afternoon at 2 o'clock of the infirmities of age. She was about 84 years old and is survived by a number of relatives. The body was buried Saturday afternoon at Asbury cemetery in the presence of a large crowd.

A six months old infant of Joe Broach, near Harris Grove, died last Sunday and was buried at Beech Grove.

Remedy for Diarrhoea. Never Known To Fail.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the last five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I can not say too much for the best remedy of the kind in the world."—S. JENKINS, Spring Grove, York County, Pa. This remedy is for sale by Dale & Stubblefield.

An Ugly Threat.

Mayfield, Ky., Aug. 13.—A report came from the neighborhood of Green's mill, in the east part of the county, this morning, that a tobacco grower of that section had received on Sunday night a notice that if he did not cease so much talk in favor of the Dark Tobacco association that he would be handled in an unkind manner. This farmer's name cannot be given out now, but it is said he is an extensive tobacco grower, having out a big crop this year. Early in the spring he found one of his plant beds sown with clover seed, but it did not handicap his planting, as he had three more beds on another part of the farm. He believes the warning was sent by one man who has a personal ill feeling toward him.

ROSE BUD.

How To Be Good.

Ed Ledger:—Will you allow me, through your columns, to call attention to a tract entitled "Fallen Women and Fallen Men," which I believe every man, woman and child may read with profit. It was preached by a Little Rock, Ark., pastor to his congregation, and received such wide spread indorsement that it has been published in tract form for distribution. Every pastor who loves humanity should secure and distribute them freely among his people. In my judgement there has not been a tract issued for years that deserves wider circulation or will do more to encourage purity in the lives of the people. The pamphlet is a compendium of information, and startling revelation, and though the language is unmistakable it is chaste and well chosen, and the subject is handled with a master hand that does credit to the author. Had I a hundred sons and daughters I would want them all to read it. W. G. LOVE.

For The School Children.

The September number of the New Idea Woman's Magazine contains several articles which will be of great practical help to those who have to provide and care for the needs of school children. Our regular dress article is devoted to a discussion of the necessities which the wardrobe of a girl going away to school or college should contain. Read a "College Girl's Outfit" before sending a young member of your family away for a year's absence. Those to whom the packing of the school luncheon basket is a daily bug-bear will find much valuable information in an article on this subject by Elizabeth W. Morrison. "The Children's Study Room at Home," contains directions to provide a suitable place for the growing child to study. The carelessness prevalent in American homes in this respect shows that it is not realized sufficiently that, if children have only a corner which they can call their own, their pride in it often becomes a strong incentive to good work. Many suggestions for school clothes for both boys and girls are found among the September patterns.

Mrs. A. E. Wofford died last Thursday afternoon at her home near Dover, Tenn., after a prolonged illness of stomach trouble. She was about 42 years of age and leaves a husband and family of children. She was a sister of J. D. and Bert Sexton, of this place.

National Commander Army and Navy Union

Says: "I Have No Hesitation in Endorsing Peruna As An Efficient Remedy For Catarrh."

J. EDWIN BROWNE

J. Edwin Browne, National Commander Army and Navy Union of U.S.A., 410 11th street, N. E., Washington, D. C., writes:

"I have no hesitation in endorsing your Peruna as a most efficient cure for catarrh. My own experience and that of many friends who have been benefited by its use recommend it to all persons suffering from that complaint."

Says Peruna Saved His Life.

"Peruna has cured me of catarrh. I can work all day, eat heartily, sleep well, and my digestion is all right. I was not able to do a day's work last year. I candidly feel that using your medicine was the means of saving my life. I find it is just what it is recommended to be, and I speak in highest praise of Peruna. I shall recommend it to all my friends."—A. V. A. News, Virginia, Va.

When any one has catarrh of the head or throat they know it. Snuffing, sneezing, coughing, spitting, gagging, choking—these are some of the symptoms. When any one has catarrh of the bronchial tubes they are not quite so apt to recognize their trouble as catarrh, although there are a great many people who begin to appreciate the fact that catarrh of the bronchial tubes is sure to create a cough.

Catarrh produces symptoms according to the place in the body where the catarrh is located. Catarrh deranges the function of any organ. If the catarrh be in the stomach it produces dyspepsia.

"The most popular remedy in Otsego County, and the best friend of my family," writes Wm. M. Dietz, editor and publisher of the Otsego Journal, Gilbertville, N. Y., "is Dr. King's New Discovery. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle in the house. "As a general thing, I have been opposed to what are known as patent medicines, but Peruna has long since overcome this feeling. It is now, as it has been for a long time, a well established family medicine with us, upon which we rely to give tired nature substantial restoration."

Terrific Case of Indigestion.
Mr. Donald Robb, Jr., 16 Wrights Ave., Halifax, Nova Scotia, Deputy Supreme Chief Ranger, Independent Order of Foresters, writes:

"While on a visit to Boston I must have eaten something that did not agree with my stomach, as a terrific case of indigestion followed. Peruna was recommended to me, and after using three bottles I was entirely cured. I therefore recommend Peruna to any one suffering with stomach trouble."

Every Trace of Catarrh Gone.

Mr. James P. Bracken, 610 Tenth Ave., New York City, N. Y., has occupied the office of Water Inspector of New York City, for the past fifteen years. He carries on an extensive plumbing business at 610 Tenth Ave. He is Past Deputy of Grand Knights of Knights of Columbus, N. Y. He writes as follows:

"For nearly a dozen years catarrh has bothered me in one form or another. It was troubled with nasal catarrh, that had affected my stomach, which troubled me most in the morning. My appetite was poor, and I did not seem to relish my food. Indigestion bothered me at times also. I was advised to take Peruna, and I took it as prescribed for a month when my cure was almost complete. Today there is not a trace of catarrh in my system, and I can say without hesitation that Peruna cured me."

Agreeable and Effective Tonic.

General John Finn, Washington, D. C., veteran soldier of the civil war, a prominent Grand Army man and commander of the oldest post in the United States, John A. Rawlins Post No. 1, department of the Potomac, Grand Army of the Republic, writes:

"Peruna was recommended to me by many of my associates and I have tried it a fair trial. Have found it a most agreeable and effective tonic, pleasant to the taste, and leaves one free from the deleterious effects produced by the many nostrums now on the market. I have suffered from catarrh all through the past winter, and have found Peruna most beneficial and commend it for what it has done for me."

Relieves Mind and Body.

Mr. G. W. Woodbury, Rogers, Ohio, formerly Captain and Center of the Hiram College Basketball Team, writes:

"When body and mind alike were weary and refused to work, a few doses of Peruna restored lost strength and invigorated quicker and more permanently than anything I know."

Tobacco Sales Last Week.

Salesman Jones last week disposed of 154 hogsheads of association tobacco at graded and above graded prices. Leaf prices ranged from \$9 to \$12 and lugs from \$6.50 to \$7.50. This sale disposes of all but about 40 hogsheads stored with the Peoples Warehouse. The sales made by this house during the season have averaged about 35 cents above graded prices on every hundred pounds sold.

Will Be More Than \$100.00

The owners of the warehouse will increase the prizes as stated below which will add about \$75 to the three premiums:

MR. O. J. JENNINGS, Editor Ledger, March 6, 1907.

In order to add more interest to the guessing contest you are running we hereby agree to furnish money to INCREASE the first premium you offer, at the rate of 3 cents for each hoghead over 2000 stored in our warehouse, and will increase the second and third premiums at the rate of 1 cent each for every hoghead over 2000 stored with us; provided you allow our patrons the privilege of making one guess in your contest, for each thousand pounds of tobacco, or fraction thereof, stored in our warehouse. This should cause your readers to become interested in INCREASING the amount of tobacco to be sent to our warehouse.

We presume every farmer understands that he can have the prize to send his tobacco to us to be stored, no matter where it is raised.

Respectfully,
LONG, FRUTEMA & CO.

Can You Use This Money

Here Is the Way to Get It.

The person who guesses the correct number or nearest correct number of hogheads of association tobacco that will be stored in

The Peoples Tobacco Warehouse,
(This is the one operated by Long, Frutema & Co.)

by November 1, 1907, will be presented With \$75 in gold; the person who makes the second nearest correct guess will receive \$15 in gold, and the person making the the third nearest correct guess will receive \$10 in gold.

Conditions.

All guesses must be dated and signed by the person making them, and **THEY MUST BE LEFT AT THE LEDGER OFFICE.** No employee of the Ledger office, or the warehouse can make a guess. All guesses must be received at this office on or before Saturday, August 17th. The guesses will be polled by a committee of county officials and the premiums awarded Saturday, November 2nd. If two or more guesses are the same and are the correct guesses then the person who made the guess at the earliest date, as shown by the date, will be entitled to the premium.

How to Secure the Guesses.

Every person who pays \$1 for a year's subscription to the LEDGER, whether old or new subscriber, will be entitled to **TWO** guesses. Every person who stores as much as 1000 pounds of tobacco in the "People Tobacco Warehouse" will be entitled to **ONE** guess, and for each additional 1000 pound, or fraction thereof, will be entitled to **ONE** additional guess. More plainly expressed, you get **ONE** guess for each 1000 or part of one thousand pounds stored in this warehouse.

\$5,000 Reward

will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform or their derivatives in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with. Dr. Miles' remedies cure by their strengthening and invigorating effect upon the nervous system, and not by weakening the nerves.

"I consider that there are no better remedies put up than Dr. Miles' Nervine, Anti-Pain Pills, and Sore Throat Lozenges. We have used them for years, and recommend them to many others. My wife is using the Nervine, and considers it the best medicine in the world. A lady friend of mine, who was almost a total nerve wreck, through my earnest solicitation, has used several bottles of the Nervine with wonderful results." WM. CROMIE, Salt Lake City, Utah.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 cents, 50 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

SWALLOW'S FLIGHT IS RAPID. Speed of 128 Miles An Hour Determined in an Experiment.

The French scientific weekly, *Ciel et Terre*, prints an interesting article about the speed of several birds, as observed by August Vershcurin of Antwerp. The rapidity of flight credited to the swallow (290 feet a second) seemed exaggerated to him and he undertook some experiments on his own hook.

He sent several baskets of pigeons to Compelgne, France, and in a set race cage a swallow which had its nest under the eave of the roof of the road station at Antwerp. On November 7, at 7:30 in the morning, all the birds were liberated at Compelgne; the swallow took a northern direction as quick as lightning, while the pigeons made several spirals in the air before they started in the same direction. The swallow arrived at its nest in Antwerp at 8:23, a number of witnesses being present at its arrival.

The first pigeons only arrived at their destination at 11:30 of the same morning. The swallow had, therefore, covered the entire distance of 146 1/2 miles in one hour and 18 minutes, which is equal to a speed of 128 1/2 miles an hour, or about 168 feet a second, which is about double the speed of an express train.

The pigeons only reached a speed of 25 miles an hour, or 32 feet a second. It may be gathered from these figures how rapidly the migrations of the swallows take place, as with the speed given above it would require only half a day to fly from Belgium or Central Germany to northern Africa.

TRICKS OF PARIS BEGGARS.

All Stock Tales of the Trade Well Known to Fraternity.

This city is the happy hunting ground of the beggar, and especially at the New Year. He stops you at every corner of the street; he tries to hand you out of your carriage the moment you stop before shop or restaurant. It is partly the influence of the season, but it is an evil that is always with us more or less. Some have quite ingenious tricks to tempt the pity of the passerby.

One lady, who is well known, declares every evening at the Gare St. Lazare to any sympathetic looking stranger that she is a governess, and has lost her purse, and would the kind gentleman lend her 20 centimes. "And be pleased to give me your card," she adds, "so that I may return the money." The ruse generally succeeds, but the mendicant has never been known to take the 20 centimes, except at the close of a profitable evening, when she has probably victimized a dozen good natured persons. Another woman who piles her singular industry in the place de la Concorde, addresses her self exclusively to the French, as a result, she obtains as much as five or ten francs from kindly matrons who are touched by her story.

At the New Year the usual crop of beggars is so immensely increased that one supposes that the comparison they well off must descend into the street to try their luck. No doubt it is a "meter" that has its fascinations, especially if it be but temporary—Paris Correspondence Fall Mail Gazette.

Literary Fame.
"Zangwill," said a magazine editor, "entered literature by the back stairs. Instead of submitting his first story to the magazine he had it printed in pamphlet form, and sold it on the news stands at a cent a copy. He made out of it \$150. Now had this story been submitted to me I should undoubtedly have rejected it."

"Zangwill has turned to plays because he doesn't think there is much in books. Once I heard him say bitterly:

"If you are blessed with talent, great industry and conceit it is possible, by dint of slaving day and night, for years, during the flower of your youth, to attain to fame infinitely less widespread than a prize fighter's."

Tobacco and Bad Temper.
"Bad weather and bad temper do our business good," said a tobaccoist. "What other business can you say that of?"

You see, the more dismal the weather is, the more men seek the solace of tobacco. By consequence, the more money falls into the tobaccoist's till.

"Bad-tempered men are always the cigar dealer's best customers. The ill-natured man not only dies to his pipe or weed often than a 'cut,' but he smokes twice as rapidly as his placid, mid-tempered brother."

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Inc., 1010 Broadway, New York, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Burlington, N. Y., on every bottle.

HURRY AND WORRY

THE TWO CHIEF CAUSES OF NERVOUS EXHAUSTION.

Avoid These, Says a Leading Physician, and You May Live Out Your allotted Days and Do Your Life's Work Well.

Dr. Thomas C. Ely, of Philadelphia, in an article on neurasthenia in the *Journal of the American Medical Association*, lays much stress on hurry and worry as leading causes of nervous exhaustion. He has this to say:

"Learn to hurry little and worry not at all. An illustration consists in the fatigue in the hurry to catch a train, which is out of all proportion to the physical effort expended. Individuals are too much like the modern telephone sign, always on duty. For hurried and worried business or hurried and worried pleasure, hurry alone or worry alone are poisonous to the normal functions of the nervous system. But the American combination of hurried worry is deadly. Each urges into action the worst features of the other."

Of course every one who stops to think will agree with the author, but how few are able to follow his good advice? Worry is only the extra work, the increased wear and tear for which we are never paid. It always hinders and never wins. It means incapacity for anticipated efforts, and yet we constantly blame circumstances rather than our individual selves. The man who is always ready and takes time to be sure before he starts never needs hurry or worry. How few can do this consistently? Then comes the breakdown which is so often charged to mere overwork. In 50 cases in a hundred it is the worry, always useless, that eventually weakens and kills.

The physician foretold not only says the "energy of all radiant endeavor to conquer difficulties," it checks us in the end by proving the old adage, that "the expected never happens." If we cannot make notes we can easily prove the comforting truth of the saying. If the disconsolate man who years ago feared the death of his invalid wife could have known she would survive him for more than a quarter of a century, how much unnecessary mental suffering would have been spared him!

The absolute utility of worry is the lesson of it all. The future, as a rule, is more often a surprise and delight than a disappointment and discipline. We grope when we look ahead and smile when we look back. But with most people experience counts for nothing when new obstacles appear. It is the old story that the last difficulty will be insurmountable. But each control events, disturb the relations of cause and effect or alter the human law of destiny, no matter how strongly he may yearn to do so. The only reasonable way to adjust matters is to wait until the time comes for the solution of the dreaded problem.

Mostly, also, we lack the courage, patience, good judgment and preparedness to meet the issues as they arise. We waste thought, strain nerve and hamper sleep in anticipation of that which never transpires. "Don't shoot until they come out" combines lots of sound wisdom with no end of good philosophy. We not only worry in advance of the thing, but after it is done. If we calmly planned our escape and tried our best what more could have been done?

A main difficulty is in striving to do too much and in overtaxing our capacities. The strong, steady, self-reliant man has no misgivings, but the weak one mistrusts every thing himself included. He contrives against odds and worries and hurries, while others eat, sleep and are merry.

But this is going to be the way with the average nervous American. It was he, in fact, who invented neurasthenia. The disease has become a habit with him, and worry, hurry, restlessness and irritability are its leading features. He takes his business home with him, eats with it, sleeps with it, dreams with it. It is his shadow at the bedside and table; it blurs all his pleasures, stands between him and his family, all because he must borrow trouble and mortgage happiness, health and life in the balance.

The Best Nervine.

To sleep out of doors for a month is better than a trip to Europe. In this climate one must have a roof, of course, but any piazza that is open to serve as a bedroom, and the rain in happiness is unbelievable. With an abundant supply of good air the sleep soon grows normal, deep and untroubled and refreshing, so that we open our eyes upon the world as gladly as a hunter on any piazza shepherd in the morning of the world. We grow anxious and flustered and hurried with distractions; the goblins of worry become an inseparable companion, and we groan in spirit that the universe is all awry, when in truth half a dozen deep breaths of clean air would lead a different complexion to life. Our anxieties are nearly all artificial, and are best indoors, under the stifling oppression of walls and roofs and the multitudinous clamor of pavements, and a day in the open with often dispel them like a mist—Bloss Carman, in *American Craftsman*.

Results just as fast.
The Doctor—Pardon, sir, will you kindly explain to me why you have three wives to support?
The Pedestrian—Why, do you mean to say you are a bigamist?
The Doctor—O, no, sir. Two of them are the wives of my sons in law.—Stacy Steele.

Ten Thousand Seeds for One Experiment.

Burbank's achievements with the daisy are more fascinating than a fairy tale. From England, Japan, Germany, Australia—everywhere where daisies grew—he got seeds of the best varieties, not a few, but hundreds, thousands. These were carefully planted and watched with closest care. They were all going to be slain, but out of their death was to come a new daisy, larger, more beautiful, more hardy, and that would flower in every climate perennially. The result was his "Shasta" daisy, one of the most beautiful flowers ever seen—of clear brilliant white, great size, the center of pure yellow resting upon slender, yet strong stems. Ten thousand seeds required for this one experiment? Yes, and often the ten thousand become fifty or a hundred or five hundred thousand before he gets what he wants. It is this large dealing that has differentiated Mr. Burbank's plans from those of other men. He speedily learned that great results are not to be obtained from inadequate methods. The ten thousand daisy-seeds were only a starter. Millions and millions of daisies were grown from these seeds, and it was only after the experiments were completed, and the habits of the "Shasta" permanently fixed, that the experimental plants were destroyed.—From "A Little Visit to the Home of Luther Burbank," by George Wharton James, in the August Circle.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of **Herbine** after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901:

August American Magazine.

The August American Magazine is a story number from beginning to end. Even the leading article by Lincoln Steffens is a story. It is an account of the early life of Francis J. Heney, the man who has prosecuted "Abe" Ruef and Mayor Schmitz in San Francisco and the land thieves in Oregon and elsewhere. Mr. Steffens describes Heney as "a fighter who has fought, not only for his life but for his principles." In this first article of his new series Mr. Steffens takes up Heney as a fighter for his own life in the wild west. The stories he tells are exciting, and, in some instances, blood-curdling. David Grayson writes a character sketch of a country doctor.

"The Interpreter" tells the inside story of the making of Roosevelt.

HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM. H. GWIN, Concord, Ga. For sale by Dale & Stubblefield.

Calloway Citizen Hurt.

Paducah, Ky., Aug. 9.—Unconscious for about two hours on account of being struck a severe blow by a negro was the experience of Frank Val Dolar, a well known farmer of the Hazel section of Calloway county, last evening, but he finally regained his senses and returned home late last evening on the excursion train. The stiff blow was one Sherman Hudson, colored, was passing around celebrating his eighteenth of August. The assault occurred in front of Garner Bro.'s furniture establishment on South Third street between Washington street and Kentucky avenue.

Mr. Van Dolar was coming down Third street when he accidentally knocked into the negro Hudson, who took exception to the contact and with one stiff, awful blow from his fist, he caught the farmer underneath the jaw and Van Dolar went down and out, lapsing into unconsciousness on striking the hard concrete sidewalk. Hudson wheeled and dashed off around the corner, but was caught hiding behind the city hall in the stable used by the public street cleaning department. He was locked up by Lieutenant Thomas Potter and Driver Thad Terrell, of the patrol wagon, finding a huge dirk upon the darkey, who is charged with carrying concealed weapons, and also with malicious assault.

Van Dolar was picked up and carried inside the Garner Brothers' store, where Dr. Jeff Robertson administered medical attention, but it was two hours before he regained consciousness. He was then carried to the train and sent homeward. The assault occurred at 6 o'clock and it was 8 before he recovered. The doctors think it marvelous his jaw was not broken by the blow or his skull cracked by coming in contact with the hard pavement, inasmuch as the blows were hard enough to render him insensible.

"Everybody Should Know"

says C. G. Hays, a prominent business man of Bluff, Mo., that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. I've used it and know what I'm talking about." Guaranteed by H. D. Thornton & Co., Druggists, 256.

The best time to sow seeds of many biennials and perennials is during August. Notably, pansies, hardy pinks, columbine, hollyhocks, delphinium, delphinium, perennial sunflower, Canterbury bell and sweet william. Make the surface of the soil smooth with a rake, and remove any lumps or stones which may be in the top inch of soil. If the soil be poor, sprinkle it with enough bone-meal to whiten the surface, working it in. Or, still better, a two-inch dressing of very old manure, black as earth. After sowing the seeds, firm the soil with a piece of board or back of a spade, water it well with a sprinkler, and if not in a semi-shaded location, provide some means of shading. A lath-covering is good, spacing the laths with their width between. A strip of common unbleached muslin, attached to four substantial stakes at the corners of the bed, is a good device.—From "The Garden in Midsummer," in The Ladies World for August.

Children In Pain

never cry as do children who are suffering from hunger. Such is the cause of all baby's who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial.—Dale & Stubblefield and H. D. Thornton & Co.

Hon. John K. Hendrick, of Paducah, was transacting business in Murray Wednesday.

Salary Question.

A dispatch from Springfield, Tenn., says: "The Robertson county branch of the Planters' Protective Association met here yesterday. County Chairman Dunn, speaking of the recent kick made concerning the high salaries paid some of the officials, explained the matter and contended that no officer is being paid more than he deserves."

A Clarksville press dispatch in a notice of meeting of the association in that city says that Ed Webb, of Trenton, Ky., discussed the salary question. He said in part:

"Do you know what you pay for selling a hoghead of tobacco in every independent house? Two dollars and fifty cents is what you have to pay, when in the association you pay only \$1.75, and you have to pay 1 per cent everywhere and when you pay it to the association house you pay it for your business. Compare the situation now and three years ago, and see if there ever was a gigantic business run on less money than 1 per cent of its receipts. This one per cent runs everything. There is but one man in the association who is drawing a larger salary than the service warrants, and that is the treasurer, but we consider that he gave two years hard work for the association free of charge. I believe that the present salary is to only partly remunerate him for these past services. Let us stand by our officers in the discharge of their duties and everything will work out all right."

Celebrates Her 76th Birthday.

The children, grand children, relatives and friends of Mrs. Durrett Pedgitt surprised her Monday, Aug. 5th, by giving her a birthday dinner and celebration. She seemed to be very happily surprised and to have enjoyed the day exceedingly well. The guests continued to arrive until about 12 o'clock, when the merry crowd was called to the dining room where the "feast was waiting." The tables being loaded with every thing desirable to eat, and every one ate to their hearts' content. The back porch was a scene of merry making. The ice cream freezers were kept busy and the ice lemonade disappeared as if by magic. Nothing was omitted to make the day one of enjoyment and it shall ever be remembered as one of the most pleasant of our experience.

Mr. Bray, of Murray, made his appearance in the afternoon and took a photo of the crowd. As the day was nearing its close Rev. Humphrey called the crowd to the hall where they engaged in singing, accompanied by Miss Dona on the organ, after which we knelt in prayer and thanked God that we all were permitted to be present and engage in the festivities and also for a continuance of His blessings on the dear one whose birthday we were celebrating.

Soliciting Right of Way.

The Southern Construction Company, which has been incorporated in Paducah with a million dollar capital stock for the purpose of building an electric railway from Mayfield to Paducah, has sent representatives out to solicit for the right of way for the line. Where the right of way is refused the company offers good inducements and bond to secure it. They agree to give a certain amount of stock in the company for the right of way where it is refused. The plan appears to be a popular one and many people will accept the proposition.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors.

"Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—Mrs. B. J. SONSTON, Linton, Miss. For sale by Dale & Stubblefield.

Killed By Lightning.

Howard Morgan, son of R. A. Morgan, of Benton, the well known shoemaker was killed by lightning Thursday afternoon while seeking refuge in his partly completed house. Lloyd Owen and Joe Copeland who were in the house, were shocked but not seriously. A bolt of lightning struck the wall and running down singed the hair on Morgan's head made a blue spot on his chest and came out through a hole burned in the lower part of his body. Death was almost instantaneous.
