The Political Pot is Boiling Hot

Candidates Are Making Their Last Appeal to the Voters

This has been a lively week with the candidates, featured with barbecue and ice cream suppers. Some of the candidates have developed into real orators and can press their claims with telling effect.

The sheriff's race is becoming intensely interesting; the clerk's race is warming up, while the attorney's race is sizzling hot.

Since Dee Reid withdrew from the Tax Commissioner's race, Chas. Bondurant and Chas. Moore are taking it easy—each confident of being the favorite Charlie. Tobe Jackson is the real lonesome candidate in the jailer's race with no one to "fuss" with. Tobe is out for re-election and not a man in the county had courage enough to oppose him. In the election four years hence, Tobe will make a "live wire" candidate for sheriff.

In the judge's race, Nugent and Ledwidge are taking it easy, both being well pleased with the outlook.

The Representative's race is being hotly contested in both counties. Surely a good man can be selected out of the three—which one will it be? Tell it to us, Pauline, we may want to whisper it to our readers next week.

THANK YOU

During the past week I have spent as much time as possible in soliciting votes in my campaign for mayor and before election day I hope to have had the pleasure of talking to each and every voter in Fulton. In order not to interfere with their household duties, I shall make no morning calls upon the lady voters but will endeavor to see them in the afternoon.

Believing that a thing worth having is worth working for and realizing the strength of the machine which is opposing me, I have decided to make a house-to-house campaign.

The support accorded me so far has exceeded my expectations and I want to thank the good men and women for their aid and counsel. I realize that many are supporting me as a matter of principle rather than from personal grounds. They know what is the matter with Fulton and understand what is necessary to do to make this a better and cleaner town in which to live.

Being one of those who believe the people should be allowed to rule and have a voice in all public affairs, without dictation or intimidation, I can promise you a careful hearing any time you may have a plan to promote the moral, business or educational interests of Fulton.

No selfish motives prompt me in making this race and if I can be of any real service in making this a better and cleaner place in which to live, my ambition will have been realized.

Respectfully,
W. O. SHANKLE.

NEW CORPORATION

The Estes Motor Company, located on State Line street, near the O. K. Steam Laundry, was incorporated July 8, with a paid in capital stock of \$18,000. E. P. Estes is president, with an experience of fifteen years in the automobile business. The Estes Motor Company sells Hudson, Essex, Willys-Knight and Overland cars; also a complete line of auto accessories and used cars.

During the past six months Mr. Estes reports sales of more than fifty new cars and forty used cars. This is a splendid record for the company.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

JULY 18 IS SPECIAL DAY TO REGISTER

Voters will be given a last chance to register for the coming election on July 18, when a special registration day will be held. The registration office will be open from 6 a. m. until 7 p. m. Fulton citizens will register at the City National Bank before N. G. Cooke, deputy county clerk.

The registration will be for all persons who have reached twenty-one years of age since the last general election or who were out of the city or sick on the last registration days. Voters who have moved into the city or who have transferred from one precinct to another will also have to register in order to vote.

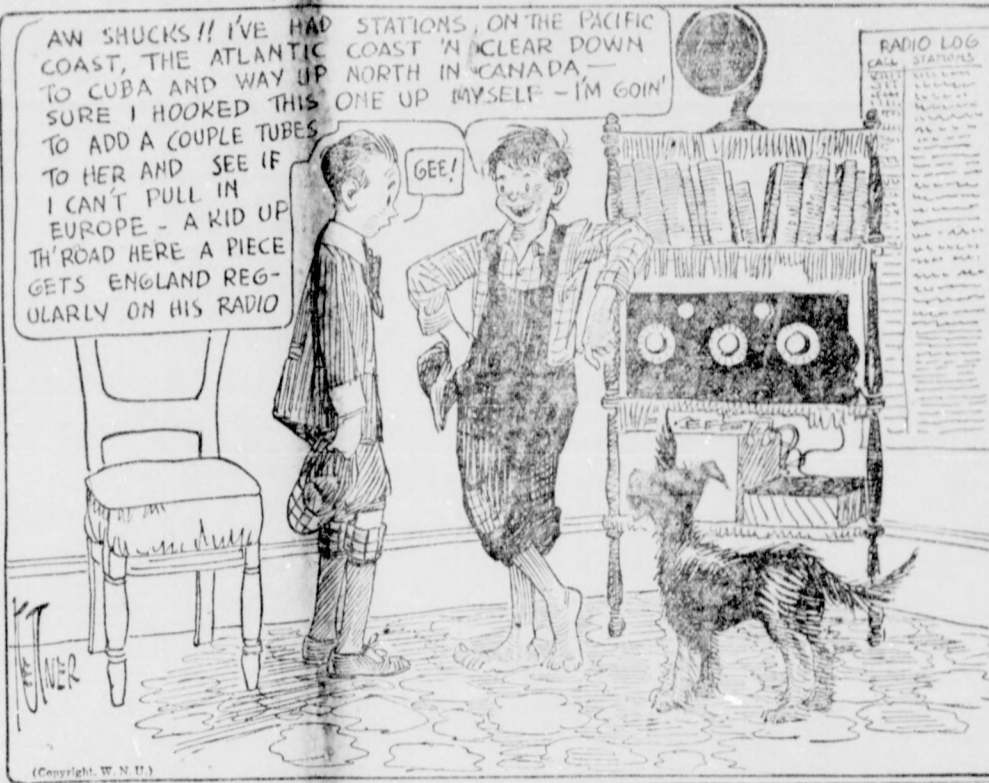

Others who were not able to register at the last registration on account of attending sick members of their families also will have an opportunity to register Saturday.

BILL BOOSTER SAYS

"OPE, I HATE TO SAY IT, BUT THE TROUBLE WITH SOME BUSINESSMEN IS THAT THEY HAVE A WISHBONE INSTEAD OF A BACKBONE! YOU GOT TO STEP OUT AND HUSTLE IF YOU WANT THE DOLLARS TO ROLL YOUR WAY, AND I DON'T MEAN MAYBE!"

Jolting the City Cousin

Railroad News

Whisky Dick to Be Discontinued

It has been officially stated that Train Nos. 36 and 37, known as Whisky Dick, will be discontinued between Cairo and Fulton and Fulton and Paducah in the near future, this announcement was made by Superintendent H. W. Williams, Tuesday of this week. It had been rumored that this would be done, but it had not been definitely decided upon until early this week; however, the date for the discontinuance has not been set.

Supt. Williams stated that the citizens along the line from Cairo to Fulton and Fulton to Paducah would in turn receive better service, as the fast trains Nos. 1 and 2 will make local stops between Cairo and Fulton, which will be better than at present, for the reason that patrons now have to catch Whisky Dick or some other local train and either come to Fulton to catch No. 1, or go to Cairo to catch No. 2, as these are fast trains and heretofore have not made local stops, except in very rare cases.

In addition to this service, Mr. Williams states that he will put a coach on the local, which service the patrons have not heretofore enjoyed, and in fact, is additional service, and will permit the citizens along the line to go from one station to another at an hour in the day that they heretofore could not do.

There will be a train between Fulton and Paducah which will not be known as Whisky Dick, but will have practically the same schedule as Whisky Dick, leaving here late in the afternoon after No. 5 arrives, and arrive in Paducah in time for supper, in addition, there will be a coach placed on the local between Fulton and Paducah.

The officials of the railroad state that this arrangement will not only render the patrons along the line better service, but will save the railroad company about \$500 per month, which they are losing on Whisky Dick.

The arrangement is especially desirable so far as the City of Fulton is concerned, inasmuch as those living between here and Cairo can come to Fulton on the early morning train, do their shopping and return to their home on the fast train No. 2, which privilege they have not heretofore enjoyed.

Due to the improvement of

highways in different sections of the country, and the increase in travel by automobiles, is resulting in great loss to the railroads of the country, especially on local passenger trains, and for this reason the railroads are forced to discontinue a number of local trains, due to the fact they have been losing a considerable amount each month that they are operated. This reduction in local passenger trains is not only on the Illinois Central, but on all other railroads as well. In fact, the M. & O. railroad several weeks ago, discontinued a number of their local passenger trains.

It is understood that the Illinois Central will also discontinue one of their trains between Dyersburg, Tenn., and Hickman, Kentucky. They now operate two trains between these points daily, one leaving Hickman at 8 a. m., and returning at 1 p. m., and the other leaving at 1 p. m. and returning at 8:30 p. m. Should one of these trains be discontinued, the remaining train would leave Hickman in the morning and return at night. It was stated that the Illinois Central has been losing money on these trains for some time, and especially during the summer months, when most of the travel in this section of the country is done by automobile.

Supt. Williams stated that it was the intention of the railroad to render the best possible service to its patrons, but that it could not be expected of the railroad to operate trains at great losses to the company. He stated that the present arrangement would not work any hardships on anyone, as the additional service provided, would more than offset that taken off.

Illinois Central Makes New Purchases

The Illinois Central has purchased, or rather placed order for 47 locomotive equipments and the necessary wayside materials for installation of the Union continuous inductive automatic train stop system between Champaign and Branch Junction, Ill. The installation covers 122 miles of double track and is the continuation of the 22 mile trial installation of the Union continuous system previously installed.

1,227 Labor Disputes in 1924

The department of Labor reports that in 1924 there were 1,227 labor disputes which have come to the attention of the bureau of labor statistics, as compared with 3,789 in 1916. A gradual reduction in the number of strikes having taken place during the past nine years. The total number

of persons involved in disputes during 1924 was 654,543, which is only about a third of the number in 1916.

President Markham of the Illinois Central, accompanied by members of his staff, passed through Fulton en route north this week.

Superintendent H. W. Williams, spent several days on the Birmingham District between Jackson, Tenn., and Birmingham last week, and during this time held an investigation regarding an accident at Fayetteville, Ala. It was stated that the accident was only a minor one, however.

Miss Lois Covington of the Division Office spent Saturday in Memphis.

Harry Fields Dezonie spent the week end, last in Chicago, visiting friends.

Mrs. J. F. Williams has returned from her vacation.

Trainmaster A. W. Ellington of Jackson was in the city Monday of this week attending meeting held in office of Superintendent Williams.

U. W. Jones, of the Division Office made a business trip to Haleyville, Ala., last week accompanying the superintendent.

President C. H. Markham, of the Illinois Central, has also been elected President of the Gulf & Ship Island Railroad, which the Illinois Central has taken over.

SOUTH FULTON TO VOTE ON \$40,000 BOND ISSUE ON JULY 25.

The vote on a \$40,000 bond issue will be held in South Fulton on July 25. With their vote, the citizens of South Fulton will say whether they want a sewerage system or not.

Notwithstanding the vast importance of the vote on the bond issue to Fulton and South Fulton, little is being said or done on the eve of the election.

Unless some good missionary work is done, the voting of bonds in South Fulton is in doubt, and Fulton, Ky., will continue to watch the stars twinkle awhile longer—with the accent on the word, longer.

EYE SPECIALISTS

Drs. W. T. and Lula L. Dallas, the D. C. Eye Specialists, of Dyersburg, Tenn., have leased office rooms in the Alexander building, 207 State line street, where they will equip an up-to-date optical office. See announcement in this issue.

Kasnow's Sixth Anniversary Sale

A Big Feast of Bargains for Economical Buyers

We have concentrated every ounce of merchandising resources and power to make this the greatest value giving occasion in our history. It is a whole-hearted response to a public need, reflecting our willingness to forget profits temporarily in an attempt to demonstrate the Kasnow's spirit of helpfulness and service.

Our merchandise is known throughout this trading area as the best standard quality goods. It has always been as low in price as good merchandise can be priced. Now, with the added appeal of sharp and sweeping reductions, it represents the best investment offered to the public in years. Read our double page ad in this paper and carefully note the prices.

REAL ESTATE TRANSFERS

Julian Scates to C. A. Karmire, property in Fulton, \$1.00 and other considerations.

J. C. Bondurant to R. R. Burnett, property in Hickman, \$800 cash.

A. O. Cruthers to Cecil Roper, 1-2 3 town lots in Hickman, \$1.00 and other considerations, stamped for \$9.00.

Lee Myrick to W. Dobbins, 50 acres land. Exchange of land stamped \$1.00, assured \$950.

C. E. Holloway to Joe Browder, et al, property in Fulton, \$9,500 cash.

P. M. Hornbeak, et al, to Clint E. Reeds, property in Fulton, \$1.00 and other considerations.

G. D. Cook, et al, to J. S. Cavender, property in Fulton, \$1.00 and other considerations.

W. B. Hogan to C. T. Rutherford, property in Hickman, \$1.00 and other considerations.

J. A. May to W. A. Brown, 51 acres land near Fulton, \$1,500, \$2,000 cash, assured \$2,500.

Mose Homra to Board of Education of Fulton, property, \$350 cash.

Joe W. Beadles, to Board of Education of Fulton, property, \$150 cash.

Elizabeth P. Ligon to Board of Education of Fulton, property \$150 cash.

Dick Thomas to Board of Education of Fulton, property \$350 cash.

Elizabeth Milner to Joe Browder, property in Fulton, \$300 cash.

Mrs. J. L. Hornbeak to R. L. Johnson, property in Fulton, \$1,000 cash.

ADMINISTRATOR'S SALE

773 Acres of rich farming land, located in the Mississippi River Valley and within one mile of good cotton town. 165 acres of fertile cottonwood soil. 158 acres of well improved up land, all being handled as one farm. Main dwelling containing 8 rooms is freshly painted and in good repair; 5 well built tenant houses; 3 good barns; one 3,500 bushel crib; good live stock scales; fences in good condition; plenty of water. 250 acres of growing corn to be seen now which will speak for the quality of the soil. This is not a foreclosure sale, which would indicate that some one had tried and failed. Most of this land has only been transferred twice since the original grant. From an income point of view this land is most desirable. Write for details.

Details may be obtained from Mrs. W. S. Gavie, 709 Vine St., Fulton, Ky., Phone 873.

MRS. SANDY HOPKINS DIES

Mrs. Sandy Hopkins, 76, died at her home in Murray, Monday. Surviving Mrs. Hopkins are two children, Mrs. W. L. Naney of Memphis, Tenn., and Delon Hopkins of Fulton, Ky.

Read the advertisements in this paper.

COAL STRIKE IN ENGLAND LIKELY

MINERS AND OPERATORS HAVE REACHED IMPASSE

WAGE CUT DUE JULY 31

Government's Efforts to Bring Men and Mine Owners Together Has Failed—Conditions in Coal Trade Desperate

London.—Surface signs indicate Great Britain is plunging ahead towards an outbreak of an economic civil war August 1. A complete coal stoppage owing to the refusal of miners to accept wage cuts announced by operators, is to be followed according to the announced program by leaders, by united action involving 5,000,000 workers in the principal industries. The secretary of the miners' union, speaking at Sunderland, said:

"The constitution of the proposed alliance of miners, railway men, transport workers, engineers and shipbuilding workers has been signed by a committee of the unions and the scheme will come before meetings of executives of the unions involved."

Meanwhile the mining deadlock appears complete. The men have demanded that mine owners withdraw their notification of wage cuts to take effect July 31, as a prelude to any further negotiations, and Evan Williams, president of the mine owners' association, declined to do this.

The government's efforts to bring the men and the mine owners together through unofficial negotiations by minor ministers have so far failed. It is assumed that if the crisis endures, Premier Baldwin will appoint a court of inquiry to investigate present conditions in the coal fields but how this is to avoid a stoppage and the falling of the agreement between the men and the mine owners does not appear.

The outlook could not be more black, considered in the light of current news. But there is general confidence the strike will be avoided somehow, for various important reasons.

Conditions in the coal trade are desperate, owing to the loss by Great Britain of most of her foreign markets, and more than half the mines are at present running at a loss. This tends to stiffen owners, many of whom gain by a complete stoppage, under existing conditions.

The miners' union is in no position to attempt to fight without outside assistance. Union funds, depleted by the disastrous strike of four years ago, never have been replenished; hence the chances of the miners are hopeless without assistance from the rest of British labor.

There is no doubt British trade unions all sympathize profoundly with efforts to forestall a reduction of the prevailing almost starvation wages of miners and to lengthen the present seven-hour day which including time going down to pits and coming up, means at least eight hours.

The general council of the Trades Union Congress in a manifesto declares:

"The council is confident it will have the backing of the whole organized trade union movement in placing itself without qualification and unreservedly at the disposal of the Miners' Federation, to assist the federation in any way possible."

DR. WORK PLANNING TO QUIT THE CABINET

Frank W. Mondell May Be Secretary of the Interior.

Washington.—Secretary of the Interior Work has told several Republican leaders here he is planning to resign as soon as President Coolidge finds a successor.

Reports of Dr. Work's probable resignation have been circulated from time to time since the death of his wife a year ago, but he has remained in the cabinet largely upon the insistence of Senator Phipps of Colorado, who is heavily interested in electric power projects subject to Interior Department jurisdiction.

Frank W. Mondell's resignation from the War Finance Corporation revived rumors among administration leaders that he would replace Dr. Work.

Dr. Work came into the Harding cabinet as postmaster general, succeeding Will Hays, and was shifted to the Interior Department when Albert B. Fall resigned.

Philadelphia.—Indictments for the illegal diversion of half a million gallons of alcohol were brought by the June federal grand jury against 48 individuals and six companies holding withdrawal permits. The companies indicted were Tobacco Specialties Corporation, Standard Veterinary Products Company, Sanitary Liquid Soap and Supply Company, Sterline Manufacturing Company, Consolidated Ethyl Solvents Corporation of America, and Pennsylvania Distributing Company, all local concerns.

BOARD OF TRADE TO BE REFORMED

SECRETARY CONFERS WITH FRANK L. CAREY

JARDINE APPROVES PLAN

Clearing House to Be Established and Six Hundred Out-of-Town Members to Be Given Voting Privileges

Chicago.—The Chicago Board of Trade has begun its task of self-reformation with earnestness sufficient to cause William M. Jardine, secretary of agriculture, to voice his approval of the board's plans as they have thus far progressed. Secretary Jardine, on his way back to Washington after six weeks of "getting acquainted with his job," a period of intensive farm study all over the western states, conferred in his rooms at the Congress Hotel with Frank L. Carey, president of the Board of Trade.

The clearing house proposed as a major remedy for the difficulties, a cure for its bad reputation, will be established within a month. Mr. Jardine declared after the conference. That reform, and the admission to voting privileges of 600 out-of-town members, are the most important parts of the plan which Mr. Jardine hopes will save the board for Chicago as "a market that is a market, not a place of wild price manipulations and gambling."

Evidently Secretary Jardine's ultimatum to the Chicago traders last May that they must clean up their house or be throttled by federal legislation has had its effect, for the secretary said he now wished to cooperate in every way with the board members in their efforts to promote their own ideas of reform.

"The best members of the board are strong for ridding their business of the features that have brought only trouble and disrepute for the board," Mr. Jardine said. "They are working to my entire satisfaction, and my purpose in conferring with Mr. Carey was simply to learn what progress has been made."

With the establishment of the clearing house, through which all trading balances will be cleared, all large operations will be disclosed. The government will have access to all information, and in this manner will expose the floods of selling and buying which have caused the unnatural rise and dips in grain prices, Mr. Jardine declared.

JUDGE ROSS IS BURIED WITH SIMPLE HONORS

Hundreds Pay Tribute to the Jurist's Memory.

Jackson, Tenn.—With a simple benediction, the body of J. W. Ross, United States District judge, who was drowned in a drainage canal when his automobile plunged over a 10-foot embankment, was lowered into a grave in beautiful Hollywood Cemetery.

"Here we pay the last rites of the living to the dead," came the solemn words of the Rev. E. D. McDougall, D.D., pastor of the First Presbyterian Church, and a minister of the old Scotch school. "Earth to earth, ashes to ashes, dust to dust. The spirit has gone to the God who gave it. We thank thee, O Lord, that thou art the resurrection and the life." No eulogy was delivered, no hymn was sung. The minister adhered strictly to the old-fashioned ritual of his church. The service was extremely simple, but none the less solemn.

Hundreds of men, including scores of friends from over West Tennessee, stood with bare heads. Women bowed. Children were silent. The sobs of the widow and children were audible. Probably 300 persons assembled on the spacious lawn of the Ross residence on Highland Avenue, for the first service.

Pledges Aid to Dry Law.

Indianapolis, Ind.—Constant vigilance that the enemies of the prohibition law may not bring about its repeal was urged upon the Baptist Young People's Union by the Rev. J. E. Dillard, Birmingham, Ala. "We must never let this law be repealed," he declared, advising the union members to give their influence only to those candidates for office who favor complete enforcement.

Naples.—Mme. Louisa Tetravini, the coloratura soprano, has decided to make a farewell tour of the United States and Australia commencing the latter part of this year.

Bruceard Named on Tariff Board. Swampscott, Mass.—The president has appointed Edgar Bernard Bruceard, of Utah, to be a member of the United States tariff commission, succeeding William C. Culbertson, recently appointed minister to Rumania.

Flue Hits Alaska.

Juneau, Alaska.—An influenza epidemic, similar to that of 1919 when hundreds of Indians died, has broken out in an Indian fishing village on Bristol bay.

DEMAND A HALF BILLION TAX CUT

SECRETARY MELLON CAN SEE BUT TWO HUNDRED MILLIONS.

URGE LOWER INCOME TAX

Republican Senators Gradually Getting Together on a 25 Per Cent Basis—Pou Opposes Confiscatory Levy.

Washington.—The tax issue is warming up and Democratic leaders demand a far greater reduction than Secretary Mellon or Assistant Secretary Winston can see at this time. Two hundred millions is approximately the administration estimate while the Democrats would lop off levies totaling \$450,000,000 or \$500,000,000.

Republican senators are gradually getting together on a 25 per cent income tax, five for the normal and twenty for the surtax rate. Treasury officials would go lower than that but members of Congress doubt if they can pass a bill with an income tax under that.

Representative Edward W. Pou of North Carolina, now ranking Democrat on the rules committee of the house, declared he would support a levy of 20 per cent on surtaxes, but before he would agree to such a provision he would have to know that it would bring in the revenue needed.

"That, however," said he, "can easily be proved. The experience under the present law fully demonstrates that if we had reduced surtaxes to a figure even below that proposed by Secretary Mellon we should not have faced a deficit."

Mr. Pou is opposed to taking one-half of a person's income. Such a tax, he argued, is confiscation. "If he has obtained his income improperly," Mr. Pou pointed out, "there are other ways to deal with him, but in times of peace there is no reason for such a drastic raid on his possessions. A sharp reduction in the income tax will be productive of a larger aggregate volume of revenue."

Mr. Pou thinks individual members of the House should be allowed to vote as they see fit, without being forced to follow a caucus.

An independent spirit among Democrats is manifesting itself.

Senator James E. Watson of Indiana, Republican member of the finance committee declared that he favors a \$200,000,000 reduction. He believes the income tax should be cut to 25 per cent or less.

FIGHT FOR CONTROL OF AIR MAIL LINES

Ford and National Air Transport, Inc. Are in the Race.

Washington.—Henry Ford and the National Air Transport, Inc. are now engaged in nationwide battle for control of the government's air mail lines, according to postoffice officials here.

Victory will not only give to the winner a practical monopoly in air mail service, but will place him in a position to practically control the commercial air express and passenger transportation business expected to develop rapidly over the air mail lines.

Mr. Ford announced his plans to organize a gigantic air mail service with a view of securing contracts from the government early this week. The National Air Transport made known it will shortly inaugurate overnight express transportation service between New York and Chicago.

Gen. Harry Hale Retires. Chicago.—The retirement from the active ranks of the United States army of Major General Harry T. Hale, commanding of the Sixth corps area, marks the close of 42 years of active service as officer. Brigadier General William S. Graves, commander of the American expeditionary forces in Siberia during the World War, will succeed him.

Priscilla and Husband Separate. Los Angeles, Cal.—Priscilla Dean, the Los Angeles Times says, has agreed to a "friendly separation" from her actor husband, Wheeler Oakman, but no divorce action has been contemplated. Oakman is appearing in a New York play. Miss Dean is making a series of motion pictures here.

Mobile, Ala.—Four men were injured, two of them seriously, in an explosion on board the government patrol boat Ab-20.

Admits He Killed Girl.

Chicago.—Raymond Costello, recently paroled from the Pontiac reformatory for good behavior, confessed to the murder of 16-year-old Madeline White, whose bruised body was found beneath a porch four blocks from her home. The girl had been brutally beaten.

New York.—Charles N. Greene, veteran actor, who rose to prominence through the "burnt cork" minstrel shows, died in Mount Sinai hospital.

Tire and Tube Sale

Notwithstanding tires and tubes have advanced about 33 1-3 per cent in the last month, and two more advances are expected soon on account of the British restriction act, which has forced the price of spot rubber up to 30 cents a pound compared with 17c last year, we are offering our entire stock which we bought before the advance at the old prices. Compare our prices, quality taken into consideration, and buy your summer supplies before our stock is exhausted, which can't be duplicated again at near the price offered.

DESIRE FOR THRILL BLAMED FOR CRIME

WEALTHY AVIATION STUDENT
TRAILED AS KILLER.

PROFESSED TO BE BORED

Letter Found in Effects of Young Philip Knapp Recalls Motives in the Famous Leopold-Loeb Kidnaping Case.

New York.—Search for a new thrill following half mad dashes into the realm of soul psychology—the same motive which guided Richard Loeb and Nathan Leopold in their esoteric slaying of youthful Robert Franks in Chicago—is believed by the police and military authorities to have caused the slaying of Louis Panella, a taxicab driver, at Hempstead, L. I., by Philip K. Knapp, 23, college graduate and aviation cadet at Mitchell Field, L. I.

Knapp, son of well-to-do and socially prominent parents in Syracuse, N. Y., who disappeared from his command the day before Panella's body was found underneath cement slabs in a trench on Hempstead Plains, July 4, was sought by Detectives acting under orders of District Attorney Charles H. Weeks, of Nassau county.

Letters left by Knapp detailing his desire for a thrill, his identification by a dealer as the man who sold Panella's car the day after he had been seen in company with the driver, constitute some of the links in the case which the authorities assert they have against the brilliantly educated, soft-spoken young man.

But from other evidence in their possession the authorities and Maj. William H. Hensley, commander of Mitchell Field, assert that Knapp, in carrying out his plan, not only slew and hid the body of his victim, but went further in his grim "psychological prank" by attempting to assume the name and personality of the man he killed. They charge that Knapp, in selling Panella's car, not only used his victim's name, but substituted his own photograph for that of Panella on the chauffeur's license.

One letter, addressed to his father, William W. Knapp, Syracuse civil engineer, and to Capt. Harry C. Drayton, commanding First Observation Squadron, his immediate superior officer, was found among the aviation cadet's effects when they were searched after he failed to return from a three-day tour and his pistol an army .45 calibre automatic, was also found to be missing.

JOHN D. IS HOMELESS;
SELLS HOUSES TO SON

Rockefeller's Mansions Bring Over Three Million Dollars.

New York.—Sale by John D. Rockefeller, Sr., of his estates at Poston Hills and at Lakewood, N. J., of his town house and garage in New York City, and of his winter home at Ormond, Fla., to his son, John D. Rockefeller, Jr., for a price "in excess of \$3,000,000," was announced.

The sale leaves one of the world's wealthiest men without a home of his own. The price paid for each parcel of property sold was announced as being in excess of the taxable value of the property.

A representative of the Rockefeller family denied that the sale was made to escape payment of inheritance taxes on the property. He said that the valuation had been reached by real estate experts.

The sale did not decrease the wealth of Mr. Rockefeller, Sr., but constituted an exchange of cash and securities for his real estate holdings.

New Miracle of Faith Reported.

Paris.—The Lourdes miracle season has opened with the report of the instantaneous cure of a Spanish woman in the last stage of tuberculosis complicated by an ulcerated stomach. Bedridden since 1917, Senorita Ventura, 45, had been given up by doctors; but as a last hope she was carried on a stretcher to the station at Barcelona and taken to Lourdes, where she arrived her friends believed her to be dying and prepared for her funeral. Nevertheless the woman, semi-conscious, was plunged into the water of the famous spring. Her first impression was that her chest had been torn to pieces. Then came a feeling of well being and she was able to wade out almost unaided. Twelve doctors signed a certificate declaring her cured.

Fire Hits Animal Show.

Sioux City, Ia.—Twelve draft horses, a pony, three trained dogs, a trained goat, and one monkey, were cremated here. The trained animals belonged to a dog and pony show billeted at the barns, when fire destroyed the Chapman barns. The loss is estimated at \$12,900.

Washington.—Will H. Hays was named head of a public relations committee by the National Air Transport, Inc., newly organized \$10,000, 800 commercial air service company.

(© 1925, Western Newspaper Union.)

Lesson for July 19

THE GOSPEL IN LYSTRA

LESSON TEXT—Acts 14:1-28. GOLDEN TEXT—"Blessed are they which are persecuted for righteousness' sake: for there is the kingdom of heaven."—Matt. 5:10.

PRIMARY TOPIC—Paul Heals a Lame Man.

JUNIOR TOPIC—Paul Stoned at Lystra.

INTERMEDIATE AND SENIOR TOPIC—Gospel Forward in the Face of Difficulties.

YOUNG PEOPLE AND ADULT TOPIC—Triumphs and Triumphs of Missionaries.

1. Paul and Barnabas Preaching at Iconium (vv. 1-7).

Their experience here was similar to that at Antioch. They entered the Jewish synagogue and preached, causing a multitude of Jews and Gentiles to believe. The unbelieving Jews stirred up the Gentiles to the most bitter opposition.

2. Their Manner of Preaching (v. 1).

This is suggested by the little word "so" in verse one. They spoke that a great multitude believed. They were true preachers. Only that which brings conviction of sin and induces decisions for Christ can be truly called preaching in the biblical sense. It is not enough to merely bring the truth to the people. It must be brought in such a way that men and women will decide for Christ. This is also true of the Sunday school teacher.

3. Their Attitude Towards Opposition (v. 3).

This is suggested by the word "therefore." Long time therefore they tarried. The opposition did not prevent their preaching, but incited them to continue preaching.

4. The Lord Accompanied Their Preaching With Miracles (v. 3).

Since the opposition was so fierce, the Lord granted special help which was needed.

5. The Effect of Their Preaching (v. 4).

The multitude of the city was divided. Where men faithfully preach the gospel, there will be division.

6. Paul and Barnabas Assailed (vv. 5-7).

The Jews and the Gentiles united in this assault. Being apprised of their effort, they fled to Lystra and Derbe.

7. An Attempt to Worship Paul and Barnabas as Gods (vv. 8-18).

1. The Occasion (vv. 8-10).

It was the healing of the lame man. God's gracious power shown in healing this lame man occasioned a new difficulty. That which ought to have been a help was turned into a hindrance. This was a notable miracle. The man was a confirmed cripple. He had never walked. On hearing Paul preach, faith was born in his heart (Rom. 10:17). When Paul perceived that he trusted Christ, he called with a loud voice that all could hear for the man to stand upright. The cure was instantaneous for he leaped up and walked (v. 10).

2. The Method (vv. 11-13).

Barnabas they called Jupiter and Paul, Mercurius, because he was the chief speaker. The priest of Jupiter brought oxen and garlands ready to offer sacrifice unto these men (v. 13).

3. Their Efforts Frustrated (v. 14-18).

This foolish act was hastily averted by the tact of the apostles.

(1) They denied that they were divine beings, and declared that to worship beings with like passions to themselves was criminal.

(2) They directed the people to turn away from these vain things unto the living God who made heaven and earth, and has left witness of Himself in that He has always done good, giving rain and fruitful seasons, and filling their hearts with gladness.

III. The Stoning of Paul (vv. 19-22).

Wicked Jews from Antioch and Iconium pursued Paul with relentless hate to this place where they stirred up the very people who were willing to worship them a little while before. This shows that satanic worship can soon be turned into satanic hate. This hatred took form in stoning Paul and dragging him out of the city for dead. God raised him up, and with undaunted courage, he pressed on with his missionary duties, bearing the good tidings to the lost.

IV. The Organization of Churches in the Field (vv. 23-28).

Evangelization with Paul did not mean a hasty and superficial preaching of the gospel, but the establishment of a permanent work. Elders were appointed in every church. The work of the missionary is not done until self-governing and self-propagating churches are established on the field.

Seeing Christ in Men

St. Vincent de Paul made it a rule of his life to be always looking for the Christ in every man he saw or met. When that is a master-thought in anyone, in that person all men see Christ.—Dr. R. F. Horton.

Our Destiny

We make our destiny by our thinking, and the only determinism in nature is furnished by the verdict of the mind. The course of history is the course of thought.—Harold Regbie.

GROWING COMMUNITIES

The rapid growth which many progressive cities and towns have enjoyed has been one of the marvels of American life.

People who are ambitious to have their own communities get ahead in the procession often ask how it is that these advancing places obtain such quick gains.

Investigation would commonly reveal that such progress is not always the result of favorable locations. The citizens of such places have not sat down and waited for opportunities to come to them. They have done some hustling on their own account.

The reputation that any community has for being a live place has a lot to do with its advancement. Nothing breeds success like success, applies to communities equally as well as to individuals.

People like to buy real estate or engage in business in places that appear to be alert and growing as they feel that their investments will increase in value. They enjoy the feeling of life and activity that is apparent.

Chambers of Commerce, boards of trade and boosters' clubs have much to do with the development of communities. Results that such organizations obtain are broader than the surface indications disclose.

It is commonly true that when men band themselves together in associations of this nature, they usually achieve some of the definite results they aim for, in the shape of public improvements, and new industries, in addition to a better community spirit.

But even if an organization of this type does go along for a time without much tangible achievement, the mere fact that the business men are working unitedly for new facilities and advantages, creates an atmosphere of progress.

The activities of such an organization are reported in the newspapers and discussed by travelers and residents. The idea spreads that such a community is an active place where the people are hustling to get things done.

THE BEST YEAR IN SIX

Good financial prospects for farmers this year are seen by the United States department of agriculture which says in its July report on the agricultural situation that "given strengthening livestock markets and fair feed crops, plus fair returns from wheat and cotton, farmers would come out of 1925 better than they have in most of the years since 1919."

Much can happen between now and the harvest of fall crops, it is pointed out, but "taken as a whole, the main crops promise fairly well except in the case of winter wheat. The present nice balance in both livestock and crop production is a tribute to the

readjustments made by American farmers since the fall of 1921."

The central fact in the present outlook is that while production will be ample to meet consumption needs, agriculture will not be in the market this fall with any large surplus of the major products.

DEBT CANCELLATION

The war debt cancellationists have started a new offensive. Their inactivity left the impression that they had put up the white flag and retired in disorder.

Senator Frank Willis of Ohio, member of the foreign relations committee, says no. The propaganda has been renewed and the senator blamed the international bankers in an address delivered at Valley Forge.

Their only support is the contention that America has not done her duty to the world. The facts contradict them.

What does a hundred thousand graves on foreign soil mean? Aren't the maimed and disabled and the ruined young lives mute evidence yet that America did her part in supplying manpower?

Spokesmen of the international bankers say America failed to fulfill her obligations financially. Was giving forty billion dollars to bring the war to a successful end dodging our obligations?

Few Americans think so. The foreign governments must pay. If they don't the American people will have to, when the Liberty bonds fall due. It is not their debt, but Europe's and Europe has to toe the mark.

KNOWLEDGE

If we are honest with ourselves, we will all have to admit that we don't know much. But neither does anyone else, and in that there is great satisfaction. It's a comforting thought to turn over in the mind.

Knowledge is only relative, anyhow; so don't let it worry you if someone makes a display of knowing something about which you have no information. You know more about the job you are holding, down and both of you would stand dumb before an Einstein or an Edison.

There are more books of facts than any person can absorb in a lifetime; in fact, there is such a vast amount of information even in the Sunday newspapers that no one has the mental capacity to remember a very small part of it.

All any of us can do, then, is to eat the pie and leave the ice cream, or vice-versa, according to taste, leaving it to nature, or Providence, or our subconscious mind—whatever that may be—to bring us in contact with our greatest fields of usefulness.

The things that we actually know, by dint of experience, will always be few. The things that we assume to know, such as that the world is round and that light travels at a certain speed, are numerous. But the things that we do not know at all are beyond computation.

CUT-OFF WORKER DIES UNDER CAR

Raymond Barriger, 31, Crushed to Death When Cars Jump Track

S. Raymond Barriger, 31, employee of the Brooks Construction company, was killed Saturday afternoon about 1 o'clock when he was crushed under a dump car which jumped the track with several others. The accident occurred near the Graves county line road, west of Melber, where the construction company is building the cut-off for the Illinois Central railroad. Two other workmen barely escaped being seriously injured when Barriger pulled them from the car in an effort to save himself.

Barriger's father was summoned from his home to Jenny Corners after the accident and hastened to the scene in a horse and buggy. When the horse nearly reached the spot it dropped dead in the road. Coroner O. M. Merritt held an inquest over Barriger's body and a jury announced that death had been caused by accident.

Barriger is survived by his wife, Ruby Reeves Barriger; his father, Ben Barriger; two brothers, John Arleigh Barriger, and by one sister, Opal Barriger.

Walter I. Shupe

Candidate for

SHERIFF

of Fulton County.

To the Voters of Fulton County:

I know you are deeply interested in the selection of your next sheriff for Fulton county. In asking for your generous support, I want you to thoroughly investigate my qualifications. Having served three years as night police for the city of Fulton; four years as deputy sheriff; ten years as special detective for the Illinois Central railroad, I feel that I am well fitted for the very important office of sheriff. If I am elected your sheriff, I now pledge to the citizens of Fulton county, my untiring effort in the performance of my duty as sheriff and I shall at all times cooperate with the people in making you the officer to which you are justly entitled.

If honored at your hands with the office of sheriff my entire time, day or night, is at your command and I shall at all times strive to do my just and honorable duty. I desire to thank each of you in advance for your support and influence.

With all good wishes, I am,

Most sincerely,

WALTER I. SHUPE.

Prices On CLEANING RUGS

REDUCED

For this season only and to give the public an opportunity to see the value and beauty of our Rug Dry Cleaning, we have reduced our prices to 3 1-4c per foot.

2x4 RUGS DRY CLEANED	26c
3x6 RUGS DRY CLEANED	58c
6x9 RUGS DRY CLEANED	\$1.75
8x10 RUGS DRY CLEANED	\$2.60
9x12 RUGS DRY CLEANED	\$3.50

This is house cleaning time, and we are delightfully equipped to make the burden easy. No house can be considered clean with carpets filled with dirt. When you send your carpets to us they are returned to you as clean as the day you bought them; the colors are brought out and they are fresh and clean.

PHONE 130 FOR PROMPT SERVICE

O. K. Steam Laundry

J. J. OWEN, Proprietor

In Case of Emergency

When you want a thing in a hurry you rush to a local store and get it. But do you realize that the existence of our stores depends upon continued business.

If every person in this community were to use the stores only for emergencies there would soon be no more places to satisfy those urgent needs.

The Best Buying Policy

You should do your part towards keeping local business alive and in a constant state of betterment by doing all your trading at home. It will be profitable to you as well as to the entire community.

**A High
Easy Lift—**

A Marked Improvement in Mowers

You who have used the ordinary mowing machine will truly appreciate the high, easy lift on the John Deere. It is so easy to operate that any boy old enough to drive a team can run the John Deere and do it just as easily and as thoroughly as you can.

John Deere High-Lift Mower

With the foot lift the bar is quickly and easily raised from 25 to 35 inches at the outer end. And with the foot lift and hand lift combined the bar is raised 44 inches. Ordinary or unusual obstructions are easily cleared.

A great feature, particularly in rough uneven fields or on roadsides, is the great flexibility of the cutter bar. It hugs the ground and operates perfectly with the outer end several inches above or below the inner end.

Before you buy a mower we want you to see the John Deere. You want a good machine. We think we have the best. Give us a chance to show you.

You will find the John Deere a powerful cutter. Here's why—one set of drive gears offsets the thrust of the other pair. This prevents binding and undue wear. Maximum power is delivered to the knife—and because of the special arrangement of the gears, pitman end thrust is entirely overcome.

With an ordinary wrench you can take out all lag in the cutter bar after wear develops or re-center the knife right out in the field as necessary. You can keep the John Deere in good order for many years at mighty little cost.

THE CHAUTAUQUA

While the Chautauqua season was fairly well attended, it seems too bad that Fulton does not patronize such amusement schemes more liberally.

The opportunities for amusement of a high order and the obtaining of information on current topics which such organizations provide should be appreciated to a much greater extent than seems to be done in Fulton.

Other towns no larger than this are often visited by two or

more such courses each year, but there certainly seems to be a field for much more of this class of amusement and instruction if the citizens would only cooperate to a greater extent.

THE ENGINEER

Listen to me a moment, please,
 You folks who drive a car,
 Who think that my life is one of ease,
 And moves without a jar,
 I pull a limited train you know,
 A thousand tons of steel,
 Swift as an arrow from a bow,
 Along my path I wheel.

Do you ever give me a single thought?
 Do you think that I have no fear?
 Don't you know that my very nerves grow taut

When a speeding car draws near,
 Time after time I've held my breath
 My heart a-trembling with fear,
 As I've seen a driver flirt with death,
 With those he holds most dear.

I've seen the look of despair on a face,
 I've heard the moans of pain
 Of those who ran a losing race
 With my swiftly moving train.
 I've felt the engine leave the rail
 As she struck a passing car,
 I've lain for weeks upon my back,
 I've glimpsed the gates ajar.

And as I returned from the shadow of death,
 In anguish and in pain,
 I muttered a prayer beneath my breath,
 For the fool who raced a train.

Please use the brain, the eye, the ear,
 The sense the good God gave
 And save yourself and the engineer
 From grief or an early grave.

Bundle kindling is clean and easily handled. Makes a fire quickly. Call us for your needs.
 CITY COAL CO. 4t

Dukedom News

Dukedom is still on the boom. The large brick garage of Jim Si Cavender's is almost ready for business. That wide awake citizen, Dick Farmer will have charge of the garage. Mr. Farmer is putting lumber on the ground for a new grist mill.

On last Wednesday afternoon, Mrs. Jessie Vaughn Rushing attempted suicide by drinking carbolic acid, at the home of her mother, Mrs. John Vaughn, south of town. Owning to the small quantity taken, the result was not fatal, but is suffering from a badly burned mouth and face.

The protracted meeting at Pleasant View began Sunday with two sermons and dinner. Services will continue through out the week. The pastor, Bro. Cox, is doing the preaching.

News has been received an-

nouncing the arrival of twin boys to Mr. and Mrs. Paul Griffin at their home in Detroit. Mrs. Griffin was formerly Miss Ernestine Slack of near here.

Mrs. Pernie Simmons, wife of the late Dr. Simmons, ended her life last Thursday morning, by firing a shot into her heart. Neighbors hearing the report rushed to the scene only to find her dead and her clothing on fire, caused by the close contact of the gun. She has been in declining health for several weeks and this was thought to be the cause of her death. She only left a short note stating where she wanted her children to be taken. Funeral services were held at Mt. Moriah, followed by interment in the cemetery at that place. She leaves four children without father or mother, one sister, and two brothers, besides a number of other relatives and friends.

One of the fastest and most interesting ball games of the season was seen Sunday, when the Dukedom team met the hard South Fulton boys on the Brann field. The final score was, Dukedom 9; Fulton 8. The batteries for Fulton were Chambers and Weaver and for Dukedom, well, of course, they were Webb and Jackson.

KENTUCKY BRIEFS

Danville—L. E. Rine, whose term as postmaster of Danville is about to expire, was informed by local Republican leaders for reappointment.

Ashtand—At a meeting of City Council plans were made for construction of a new city hall. The city clerk was instructed to advertise for bids.

Paducah—J. A. Rudy & Sons' department store here was burglarized, and about \$1,500 taken when the combination was hammered at the vault door.

Pineville—Rice Griffith, employee of a coal company, suffered serious spinal injury as when he stepped from a train into the path of a locomotive and was struck.

Russellville—Cutting weeds with a pocket knife caused Mendell Holland, 3, to suffer serious injury to his eye, the knife slipping and splitting his eyeball.

Hopkinsville—Wallace A. Shaw, 37, farmer, shot himself through the stomach with a shot gun and suffered a fatal wound. He had been ill for some time.

Leitchfield—A school house near here was destroyed by fire of undetermined origin with a loss of \$1,200, without insurance. A barn owned by Mrs. Jim Stinnett also burned.

Princeton—Fiscal Court shortly will consider the question of repairing the Courthouse, recently damaged in a bomb blast, or floating a \$100,000 bond issue and build a new structure.

Constance—The body of a man found in the Ohio River near here was identified as that of Charles R. Hudson, 22, of Cincinnati, who was drowned when a canoe overturned.

Mt. Sterling—Ed Columbus, 23, of Bourbon County, was arrested here on a charge of forging a number of checks on local merchants. He was held to the grand jury under \$500 bond.

Frankfort—Elmer Lushy, of Owen County, has been appointed a guard at the reformatory here, and L. B. Jerossett, Charles Wilson and B. Watkins, who resigned recently, were re-appointed.

Harrodsburg—James Alcorn was injured severely and Sherman Corman suffered slight injuries when the auto in which they were riding left the road and went over a cliff, overturning four times.

Princeton—Arch Vick, 23, suffered a broken leg when lumber slipped in a freight car and crushed his leg against the side of the car. Had he been two inches taller his skull would have been crushed.

Paducah—Mrs. Dora Burchett was injured slightly in an auto accident when her husband drove the car across the pavement and crashed into a mail box as he attempted to avoid hitting another auto.

Frankfort—Nineteen oil companies operating in 30 counties in Kentucky in May paid a 1 per cent petroleum tax of \$13,913.46. Production amounted to 574,958 barrels, with Lee County leading with 102,729 barrels.

Bowling Green—John C. Doolan, of Louisville, and J. Versey Connor, of Louisville, were elected president and secretary of the Kentucky Bar Association here. D. Collins Lee, of Covington, was named vice president.

Frankfort—It cost \$24,508.04 to run the state for the fiscal year ending June 30, 1924, according to statistics made public by the Department of Commerce at Washington. Net indebtedness of the State was given at \$2,391,627.

Pineville—Billy Hammond, 10, was injured seriously when he was knocked from his bicycle by an auto driven by Letcher Bishop, who was absolved from blame. The boy suffered a fractured skull and a serious laceration in his abdomen.

Bowling Green—Charles E. Whittle, 24, president of Owen College and the youngest college president in the country, has resigned, saying he will practice law and enter politics, having announced as the Republican candidate for county attorney.

Harlan—City of Harlan voted and just sold a bond issue for \$115,000 and let a contract for construction of three concrete bridges across streams near the city. Council also let a contract for construction of a City Hall and fire engine house to be completed early in September.

Bardonia—Three persons had a narrow escape when an auto backed over a 100-foot embankment. The car had been stopped, and when the brakes slipped it backed over the cliff, injuring Mrs. Otis Beum, Mrs. Samuel Irvine and Mrs. Sue Irvine.

Frankfort—T. Scott Mayes, state inspector and examiner, filed a report on Warren County with Governor W. J. Fields and turned into the state treasury \$377.84 collected from county officials. Of this amount, \$327.40 was from Charles Drake, county judge.

GRAFT AT REFORMATORY IS CHARGED

HOPKINS GOT FOOD AND SHOES GUARDS SAY

Two Score at Prison Testify Against Former Assistant Superintendent—\$184 Said to be Taken in "Shake-Down" Process Missing

Frankfort—Testimony of about 20 guards and the same number of prisoners before Attorney General Frank E. Dugsherty has brought forth corroborated statements, under oath that C. E. Hopkins, former assistant superintendent, received wearing apparel, food and furniture from the State Reformatory.

Hopkins resigned recently at the demand of Gov. William J. Fields. The Attorney General concluded his third day's hearings at the prison here. Investigation is proceeding at the request of the Governor following charges of Buford Munday, negro prisoner, from Madison County, that \$184 had been confiscated from him in a "shake-down" administered by Hopkins.

Testimony developed that Munday had been placed on solitary confinement until the alleged "shake-down" was completed. The "shake-down" is a customary procedure of removing money from prisoners and crediting it to them on the books of Chief Clerk Fuller. Mr. Fuller testified, however, that the \$184 did not appear on the books. Hopkins got the money several others testified.

Mr. Hopkins sent out a letter to the guards, just before he resigned, urging that they resign with him guards and prisoners who served as messengers, testified.

James Turner, negro prisoner from Letcher County, serving a life term for murder, said he had left as many as twenty pairs of men's and women's hunting, high and low shoes on Mr. Hopkins' desk; that they always disappeared, but that the prisoner did not know where they went.

Walnut furniture, several loads were moved from the prison factory to Hopkins' house, the testimony developed. Cedar chests were said to have been included. Sewing machine cabinets were moved to the office and disappeared, it was testified.

2300 VOLTS BURNS TWO

London, Ky., Man Finds Wife Trapped as High Tension Wire Hits Line—Body in a Maze of Sparks.

London, Ky.—Presence of mind of a London, Ky., motor car dealer probably saved the life of his 23-year-old wife, when she closed a contact with a high tension electric wire carrying 2,300 volts.

The man who risked his life to save his mate is Mark A. Watkins. The victim, Mrs. Margaret Shanks Watkins, is at St. Joseph's Infirmary, burned on the legs and feet. Watkins was burned about the feet.

The accident occurred when Mrs. Watkins answered a telephone, the wires of which had come in contact with the high tension carrier. It is believed a storm blew the heavy cable across the telephone wires.

The injured woman, according to her husband, was awakened shortly after midnight by the ringing of the telephone bell.

As she stood on the steel cover of a floor radiator and took the telephone in her hand, the wire which had crossed the "head in" to the house formed a ground and she was hurled against a chair where she fell unconscious. Watkins, who was in bed, heard his wife fall and rushed downstairs where he found her caught in shower of sparks.

In the dim shadows left by the darting flashes, Watkins worked to save her. Once he tugged with all his might, and managed to raise his wife from the latticed floor covering, but he was hurled against the wall by the force of the 2,300 volts which flowed through his own body.

Inch by inch he managed to move her, while the heavy current passed through his arms, and inch by inch he realized he was winning against the heavy odds of death.

Summoning his strength, the automobile dealer managed to free his wife from the coils of wire.

Bank Is Closed In Elkhorn City.

Elkhorn City—The First State Bank of Elkhorn City, Pike County, Ky., voluntarily closed its doors and turned its assets and affairs over to the State Banking Department for liquidation. This action followed an examination made by S. A. Phillips, Deputy Banking Commissioner and Examiners W. L. Combs and J. B. Smith, who advised the officers and directors of the true status of the bank.

Man Resisting Arrest Is Shot

Lancaster—Clarence Alford, 33 years old, Marion County, said to be wanted in that county on a charge of attempting to kill his wife several weeks ago was shot four times on the farm of J. C. Williams near Bryansville, this county, by Sheriff James Robinson, when he resisted arrest and drew a knife on the sheriff. The bullets entered Alford's right hip, both legs and left wrist. He was brought to the Garrard County Jail here and Marion County officials were notified of his arrest.

There Is a Reason

Join us, and Grow with us.

SUPER-TITE Asphalt Shingles give every advantage of other roof coverings—plus—two distinctive features combined in the same shingle.

They give double and triple thickness over the entire roof area—with the addition of a LOCK-BUTT to prevent curling or blowing up.

When laid, there is no part of a Super-Tite roof which has less than double thickness coverage—and—over 48 per cent of the roof area is triple thickness. This greater coverage, with the LOCK-BUTT feature, makes a roof covering which defies sun, rain, snow, wind or sleet. Super-Tite Shingles cannot curl up—blow up—nor can they warp.

tion is extended to all to at-
tend the services of the church.

Church News

Mrs. A. C. Boyd, secretary
of the church school has resum-
ed the duties of the office after
a vacation of seven months,
due to illness. The thanks of
the school are due Mrs. Charles
Karmire for filling the vacancy
in such a creditable manner
during the absence of Mrs.
Boyd.

Mr. H. S. Stansbury, wife
and children spent last Sunday
in the country.

Mrs. Sophia McPherrin, who
has been ill at her home on Cedar
street, is convalescing. She
is being cared for by her
daughter, who has come from
her home in Mississippi to be
with her during her illness.

Mrs. Mary Heywood, Sr.,
who has been detained at her
home for some time on account
of illness, was able to attend
church school and church last
Sunday.

The Mohawk club held its
council and lunch at the rectory
last Wednesday evening, as
Dr. Boyd was necessarily de-
tained at home. There was a
full attendance of the chiefs.

AS WE SEE IT.

Isn't it funny how many
people will stop on the street
to look at any sort of unusual
work being done?

Last week the proprietor of
the old opera house block had
a bunch of painters at work
improving the looks of the
building, and at almost any
time there were anywhere from
two or three to a dozen people
standing on the walks, both
sides of the street, watching
the painters at work.

Occasionally some lady
would start to pass under the
swinging scaffold, and either
would suddenly discover the
dangling ropes, or some one
would call their attention to
the danger, and then, what a
squealing and rushing to get
from under. This always caused
a laugh from the bystand-
ers, and the "victim" looked
foolish and got away as soon as
possible.

The white paint certainly im-
proves the looks of the build-
ing and by the way, Legg's
Barber shop and Barrett's store
also indulged in a little white
paint last week. Wonder if
the booster committee has been
doing a little missionary work?
A Jay Walker.

BLOODHOUND TRAILS STORE THEIF AND LOCATES STOLEN GOODS

The blood hound recently
purchased by Deputy Sheriff
Guy H. Webb, of Hugh Pigue,
of Fulton, Ky., was successful
Saturday morning in locating
the thief who entered the store
of Adcock and Melton Friday
night at Huron and carried off
a number of things from the
store.

The dog, picking up the trail
at the store, led the officers di-
rectly to the home of Albert
Brinkley, one and one half
miles south of Huron and the
man confessed to the theft,
which implicated Floyd Brown,
both of whom were arrested.

Officer Webb was notified of
the theft early yesterday morn-
ing and taking the dog with
him, went to Huron yesterday.
The dog was taken to the store
and immediately picked up the
trail of one of the alleged
thieves. The articles were
found in a hollow tree to which
the dog led the party and then
the trail was followed to Brink-
ley's house.—Jackson Tenn.
Sun.

PIONEER CITIZEN DEAD AT HICKMAN

After a brief illness, follow-
ing a stroke of apoplexy, John
Stubbs, one of Hickman's oldest
citizens, is dead. At the
time of his death, July 11, Mr.
Stubbs was 84 years old, one of
the pioneer settlers of the low-
er end of the county and a re-
tired farmer, highly honored
and esteemed by a large ac-
quaintance.

BAPTIST CHURCH BUILD- ING NEARING COM- PLETION

One of the most handsome
church buildings in this vicinity
is the First Baptist Church edi-
fice, nearing completion at the
corner of Eddings and Second
streets. All of the brick work
is about finished; the massive
stone columns placed and the
roof will soon be completed.
The work has not interfered at
all with the services of worship
in the basement.

BOY SCOUTS AT DUCK RIVER CAMP

Being a Boy Scout at the
Duck River Camp will not be
entirely a time of unalloyed
enjoyment, as the boys will
find out upon arrival there.

There will be plenty of hard
work as well as fun and those
who are anxious to perfect
themselves so as to be promot-
ed to the next rank will have
ample opportunity to study
and practice for the advance-
ment.

Scoutmaster Hughes will be
assisted by assistant scoutmas-
ters who will hold daily classes
in the work, so that every scout
will be able to obtain the train-
ing that he requires, and it will
depend very largely how well
he has worked at home, how
he will advance in camp.

Instruction will be given in
first aid, swimming, signaling,
both with flag or wig-wagging,
or semaphore, bird study, ani-
mal life, trees, trailing, map
making, boxing the compass,
and the constellations and
cooking.

In signaling and cooking
there are two classes, one for
the second and one for the first
class scouts. Closely allied
with the cooking lessons, will
be the instruction in fire mak-
ing, which requires that the
scout must be able to make a
fire with forest materials, on-
ly, and on a damp day with
but two matches. This test will
show how well the candidate
has applied himself, for no pa-
per, pine shavings or kerosene
will be available or allowed.
The scout must hunt his mate-
rials "on the grounds" and
build a clear, serviceable fire
with the materials at hand.

In the first year of signaling
accuracy in sending and receiv-
ing messages either by sema-
phore or wig-wag will be the
test. In the second year, the
time taken in sending and re-
ceiving will be the principal
test.

These classes will be held
every morning at 9:00 o'clock
and the older scouts will assist
the scoutmasters and assistant
scoutmasters in the work, and
the aim of Scoutmaster Hughes
is to have every scout ready to
take the examinations before
the examining committee on
their return from the camp so
that they may be passed to the
next class.

Another feature will be the
instructing of the boys in the
proper care of the knife and ax.
He will be taught how to fell
and trim timber, and other kin-
dred work so that any boy will
be able to properly house him-
self if caught in the forest with
only limited equipment.

To the older generation,
which had no such training, it
must seem a wonderful experi-
ence, and one that can only be
appreciated by the small num-
ber who have either been sit-
uated so as to see the work
done by the scouts or to have
been fortunate enough to have
spent some time in the woods
or mountains, with a competent
guide in charge of the party.
Monday, July 20 will be the
last day on which scouts can
register as members of the
Scout camp. Registration
blanks can be obtained from
Scoutmaster Hughes, who says
that the capacity of the camp
is fast being reached.

POPULAR YOUNG COUPLE MARRIED

A wedding of interest to a
large circle of friends took
place at Union City, Saturday
evening, when the Rev. W. T.
Hamilton united in marriage,
Miss Evelyn Norris to Mr. Han-
ley Jamison, both of this city.
The bride is the charming
daughter of Mr. and Mrs. L. T.
Norris, and assistant chief op-
erator of the local telephone
exchange.

Mr. Jamison is a popular
young man of sterling qualities
and is a salesman at the Hag-
ler-McDade Grocery Co. He is
the son of Mr. and Mrs. J. L.
Jamison.

After visiting St. Louis, the
newlyweds returned home
amid showers of congratula-
tions.

POPULAR COUPLE ARE MARRIED

Mayfield, Ky., July 13.—
The wedding of Chauncey Y.
Dodds, assistant cashier of the
First National Bank, and Mrs.
Charlotte Burke, daughter of
the Rev. and Mrs. Clough A.
Waterfield, which was solemn-
ized at the home of the bride's
parents Sunday afternoon at
4:30 o'clock, came as a distinct
surprise to their many friends.
The ceremony was performed
by the Rev. Mr. Waterfield, on-
ly the immediate families and
a few friends being present.

The bride arrived in the city
recently, with her little one
year old son, for an indefinite
stay with her father, and the
acquaintanceship then become
rapidly ripened into love, and
the marriage is the result. She
is a native of Mayfield, having
been born in this city during a
former pastorate of her father,
and is a most charming young
woman, and talented. The
groom is one of the county's
most prominent young men,
the son of former county school
superintendent, W. D. Dodds and
Mrs. Dodds. He is a world
war veteran, and is head of the
trust department of the bank of
which he is assistant cashier.

AUTOMOBILE TIRES AND TUBES INCREASE IN PRICE 10 TO 15 PER CENT

Goodyear, Miller and General
Lead Advance Caused by
Rise of Crude

Akron, O.—Most of the
leading rubber manufacturers
put into effect this week in-
creases of about 10 to 15% in
prices of automobile tires and
inner tubes. Ford size balloon
tires are boosted slightly less
than other casings.

Official announcements of
price revisions are made by the
Goodyear Tire and Rubber Co.,
Miller Rubber Co., and General
Tire and Rubber Co. Other
companies are preparing revised
lists to become effective at
once.

Tube prices are boosted
33 1-3 marking one of the larg-
est single revisions in the his-
tory of the industry by Gener-
al, but this company's sched-
ules have been out of line with
its competitors. This is the
third General tire advance to
be made within the past three
months, due to the 300 per cent
rise in the crude rubber market
since the first of the year.

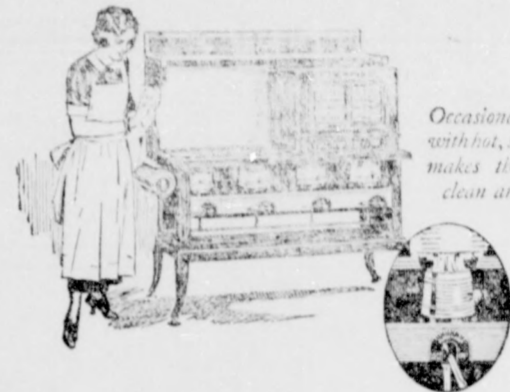

The British restriction act
has been largely blamed for
forcing up the cost of the raw
material, but the unexpected
heavy production of tires this
year also helped to deplete
stocks and create a temporary
shortage of rubber. Spot rub-
ber sold early this week at 90
cents a pound, compared with
17 cents last year.

this paper.

The Florence

Occasional washing
with hot, soapy water
makes the Florence
clean and bright.

How you can banish the dirtiest day of the week

The dirtiest day of the week
for the woman who cooks with
coal or wood is stove-polishing
day.

Why soil your hands and
your clothes and fill the house
with a disagreeable odor when
a small sum will put a cleanly,
perfect-looking Florence Oil
Range in your kitchen?

This range puts an end to

coal-gas, soot, and ashes. It
gives heat only when you want
heat—and as much as you
want when you want it. The
flame is a gas flame. It is not a
wick flame, such as you see in
the ordinary lamp.

Drop in today and let us ex-
plain in detail how the Florence
develops this hot blue oil-gas
flame.

FLORENCE OIL RANGE

GRAHAM FURNITURE CO.

IRAD BUSHART

Real Estate, Farm Loans, Insurance

Never before in the history of our Real Estate business have
we been able to offer Farm Lands and City Property at as
low price as we now quote. It is a wonderful opportunity for
a safe investment. Come and talk it over with us whether you
want to buy or not.

5% Farm Loans

We represent the strongest Farm Loan companies do-
ing business in this vicinity, and can now make 5 per
cent loans on farm lands on either short or long time.

Abstracts of Titles.

We also specialize in the drawing of abstracts of title,
writing deeds, mortgages, etc., of Hickman, Graves, Ful-
ton, Obion and Weakley county properties. Unless you
know that your title is perfect, it will pay you to investi-
gate.

We also write all forms of Insurance on farm proper-
ties, also Life, Accident and Health Insurance.

We can rent, sell or exchange your property, and col-
lect your rent.

See us before you buy borrow or burn.
