On July 18 IS SPECIAL

Voting will be given a last chance to register for the primary election on July 29, when the polls close. The registration of the qualified voters, as determined by the Census of 1910, was the basis for this registration. The Illinois Central, at the request of the central county, has agreed to make registration at the various county seats.

For persons who have not registered or who wish to register, I state that there will be a registration committee at the various county seats. The registration committee will be composed of the following persons: Stockton, Chas. W. Moor; Van Buren, Geo. W. Clark; Marion, Geo. W. Clark; Fulton, E. H. Haldane; and Cairo, Geo. W. Clark.

The Illinois Central will have a train at each county seat for the purpose of making this registration. The registration committee will be composed of the persons named above. Walter I. Shupe
Candidate for SHERIFF of Fulton County.

To the Voters of Fulton County:

I know you are deeply interested in the selection of your next sheriff for Fulton county. In asking for your generous support, I want you to thoroughly investigate my qualifications. Having served three years as night police for the city of Fulton; four years as deputy sheriff; ten years as special detective for the Illinois Central railroad, I feel that I am well fitted for the very important office of sheriff. If I am elected your sheriff, I now pledge to the citizens of Fulton county my untiring effort in the performance of my duty as sheriff and I shall at all times cooperate with the people in making you the officer to which you are justly entitled.

If honored at your hands with the office of sheriff my entire time, day or night, is at your command and I shall at all times strive to do my just and honorable duty. I desire to thank each of you in advance for your support and influence.

With all good wishes, I am

Most sincerely,

WALTER I. SHUPE.

A High Easy Lift—

John Deere High-Lift Mower

A Marked Improvement in Mowers

You who have used the ordinary mowing machine will truly appreciate the high, clean, thorough mowing that can be done with the John Deere. With the foot lift the bar is quickly and easily raised from 25 to 55 inches at the outer end. And with the wheel lift, the bar is raised only 44 inches. Ordinary or unusual obstructions are easily cleared. A great feature, particularly in rough uneven fields or sides of roads, is the great flexibility of the cutter bar. It hugs the ground and operates perfectly with the outer end several inches above or below the inner end.

A High Lift, another construction is perfectly economical. With an ordinary, uneven surface in the path, the wheels allow the machine to pass over the unevenness without trouble or notice. Before you buy a mower consider the John Deere.

Super-Tite Asphalt Shingles give ev-
ey advantage of other roof coverings—plus
—two distinctive features combined in the
same shingle.
They give double and triple thickness over the en-
tire roof area—with the addition of a
LOCK-BUTT to prevent curling or blowing
up.
When laid, there is no part of a Super-Tite
roof which has less than double thickness
coverage—and—over 48 percent of the roof
area is triple thickness. This greater cover-
sive, with the LOCK-BUTT feature, makes
a roof covering which defies sun, rain, snow,
wind or sleet. Super-Tite Shingles cannot
curl up—blow up—not can they warp.
