W. C. CROFT PASSES AWAY

Died, at his home on Walnut street, Monday evening, July 16, W. C. Croft, age 58.

Pages could be written about this good old pioneer of Fulton, who found Fulton in 1825. Croft was a member of the Illinois Central Mansion at Chicago, and was one of the largest building owners in the city. He was the largest building owner in the world in the 1800s.

Croft had a passion for the arts and was an active member of the Illinois Central Mansion. He was known for his dedication to the arts and for his support of local events.

Croft was also known for his philanthropy. He was a generous donor to local charities and was a strong supporter of the arts.

Croft was a respected member of the community and was deeply missed by those who knew him.

He leaves behind his wife, one son, and two granddaughters. His mother, Mrs. Addie Rice, preceded him in death.

LOVELL'S PATRIOTISM
Patriotism, like other lovely traits, begins at HOME. It is only given to the few to serve in HIGH places. But all of us have the opportunity to serve at HOME. Loyalty to the HOME town is the test of REAL patriotism. When we fail to support Home Trade and Home Industries we fail in our loyalty to our country and to ourselves. Great are the rewards of Home Town Patriotism. Great are the results of it. It brings prosperity to us and ours, employment for all, activity in business and progress in every direction. With "Our Town First" as our slogan, our progress is assured.

LOVELL'S PAINTS
Rose Apple and Wild Wing

## Hand-Painting to Decorate Apparel

Cubist and Geometric Patterns Are Used by Pattern Designers

Pattern designers create their own designs right on the garment. They may use a brush, a sponge or a toothbrush to create cubist or geometric patterns. The more complex the pattern the more threads of many colors are used, which makes the design stand out. The cost of the pattern itself is usually about five dollars. The cost of the threads varies, depending on the color, but is usually about one and a half dollars per pound.

Fashion editors say that hand-painted designs are something that is here to stay. The possibilities of designs are endless, and it is a great way to show originality and creativity. Designers say that the patterns are becoming more popular because they are unique and cannot be found in stores.
LOYALTY TO HOME

Nothing will make a man more conscious of his obligations than the fact that he is not local to his home. I feel that you, the voters of this county, are much too sensible to allow your actions to be governed by your personal ambitions. You would not think of wasting the money of your county for the benefit of a man whose ambition is to become President of the United States. I therefore pledge to you that if I am elected Sheriff I shall at all times strive to make you all that you can be.

WALTER I. SHUPE
Candidate for
SHERIFF
of Fulton County.

TO THE LADIES OF FULTON COUNTY

As you well know you have a private and sacred privilege to cast your vote on August 1st, and I am quite sure in doing so it is your desire to cast it for a man who would have reasons to believe the best qualified for the office he aspires. I come to you in all seriousness and ask you to support me for the very important office of Sheriff. I now pledge to you, if I am elected your Sheriff, that I shall at all times strive to make all you that can hold for an office, and you may rest assured that I shall never shirk from my just and honest duty. If elected, my entire time, day or night, is at your command. Assurance of my appreciation for your support, I am

Most sincerely,
WALTER I. SHUPE.

What is the Chamber of Commerce?

The Chamber of Commerce is the voice of the city. It reflects the ideals of the community. It expresses the aspirations of the people. It works to perpetuate the welfare of the citizens. It combines the efforts of those who think in terms of the past to direct the city into the future. It is the clearing house of the people. It is the power house of the city. It is the magnet that draws the people. It is the spotlight that reveals the game in Dyersburg, the lien of the past few weeks between the two states. It is the Epworth League of Fulton, Tenn., and Fulton. It is the clearing house of the city of Fulton where refreshments were served and the visitors by Mr. Theodore Maddox and Mrs. J. Kelly were entertained. A series of midnight meetings was opened, and it is hoped that the young Leaguers will continue this work. The election of officers and agai-

ENTRANT BLAMES BEING EXCLUDED

ENJOYABLE AFFAIR

Tuesday evening, July 14th, at the Fulton High School auditorium, was held a social and exhibition contest for new chickens and eggs. The contest was sponsored by the Fulton Poultry Association. The contest was held in honor of the establishment of the Chamber of Commerce, and it is hoped that this event will help to correct this error. The Fulton Poultry Association, making it a composite picture of a

Young Chickas

Young Chickens are the most important item on the dairy's menu, as they are the only ones that can be easily raised and sold for profit. They are fed on a special diet that ensures they grow quickly and stay healthy. When they are ready, they can be sold for a good price, and the profit can be used to help fund other aspects of the dairy's operation.

Mineral Constituents

Protein Mixes

Eggs, Debris, Kernels

Calciu, Phosphorus, Kalmia

The most important mineral constituents are calcium, phosphorus, and potassium. These minerals are crucial for the growth and development of young chickens. Calcium and phosphorus are needed for strong bones and teeth, while potassium helps the chicken's heart function properly.

A High Easy Lift—

A Marked Improvement In Mowers

You who have used the ordinary mowing machine will truly appreciate the high, easy lift on the John Deere. It is so easy to operate that any boy old enough to drive a team can run the John Deere and cut just as easily and as thoroughly as you can.

John Deere High-Lift Mower

With the foot lift the bar is quickly and easily raised from 25 to 33 inches at the outer end. And, with the foot lift and hand lift combined, the bar is raised 41 inches. Ordinary or unusual obstructions are easily cleared.

A great feature, particularly in rough uneven fields or roadsides, is the great flexibility of the cutter bar. It hugs the ground and operates perfectly with the outer end several inches above or below the inner end.

You will find the John Deere a powerful cutter. Here’s why one set of drive gears offsets the thrust of the other pair. This prevents binding and undue wear. Maximum power is delivered to the knife bar because of the special arrangement of the pitman and thrust gears.

With an ordinary wrench you can take out all lag in the cutter bar after centering the knife bar; it is necessary. You can keep the John Deere in good order for indy years at a mighty little cost.

Before you buy a mower we want you to see the John Deere. You want a good machine. We think we have the best. Give us a chance to show you.
