### John Thompson

#### Wins for Sheriff

Lon Adams Re-elected for County Attorney.

#### COUNTY TICKET

For Sheriff — John M. Thompson.  
For County Judge — Chas. D. Nugent.  
For County Attorney — Lon Adams.  
For County Clerk — Effie Bruer.  
For Tax Commissioner — Chas. L. Bondurant.  
For Jailor — R. L. (Tobe) Jackson.  
For Representative — Morman B. Daniels.

With 1593 votes, John M. Thompson passed under the wire a winner Saturday night, at ten o'clock in the Sheriff's race.

Goalder Johnson, one of the best known politicians in the county was second with Swayne Walker, a live wire, third, Walter I. Shupe who carried Crutchfield in the 1921 primary and who was thought by many to be among the winners ten days before the election, lost his grip completely and was fourth. John Rankin and Tom Hales brought up the rear. Edd Kelly, the only Fulton man in the race for county court clerk, was defeated by Miss Effie Bruer, the only woman in the race. Miss Bruer entered the race with Guy Hale and Joe Roper of Hickman and made a clean sweep of the entire county. The race was clean from start to finish. Each of the candidates showing their popularity with the splendid vote received, but the young lady left them all in the shade, with 1,707 votes.

Lon Adams, the Fulton candidate for re-election for county attorney, passed under the wire with a handsome majority and defeated Jim Roney, his closest opponent. Dee McNeill, received a splendid vote, but the split between three in his end of the county was too much. The same split proved disastrous to Stanley D. Stenbridge who received a good vote. After Mr. Adams' vote was counted in Fulton, Mr. Finch, who was the second candidate out from Fulton, had no chance at all and brought up the rear.

The tax commissioner's race was warm from start to finish. Chas. L. Bondurant, the Cayce candidate, winning by a safe margin over Chas. H. Moore, the Hickman man. Both candidates made new friends over the county during their campaign, but Bondurant had the edge over Moore by being better acquainted with the voters. Judge Chas. D. Nugent has the distinction of leading the ticket in his race for re-election over Guy Ledwidge, the popular Hickman attorney. Judge Nugent was given 2,804 votes, the largest vote ever cast for a county official, with an opponent. Mr. Ledwidge's vote was 1,662.

R. L. (Tobe) Jackson was re-elected for jailor without opposition.

Now that the election is over, let's get down to business and stick by the nominees to the finish. They are all good men and won their nominations fair and will make good officials.

Morman B. Daniels, of Hickman county, received more votes in the Representative's race than both of his opponents, W. J. McMurry and A. E. Brown, and won the nomination by a handsome majority.

Mr. and Mrs. C. S. Townsend and son, Junior, returned home from Newbern, Sunday, where they spent two weeks with her parents. Mr. and Mrs. J. W. Watlington. Tuesday night they were joined by Mr. Townsend and left for Rochester, Minn., where Junior will enter the Mayo clinic for treatment of the throat.

### A Live Organization.

The Woodlawn Land Company with a capital stock of \$15,000, incorporated under the state laws of Tennessee, and promoters of the Fulton Country Club, is a new organization of leading business men of our city.

One hundred and fifty shares of stock at \$100 per share, was sold in this organization in three days to 110 members by the promoters and the beautiful country place of Ed. Thomas, located just outside the city limits on the Dukedom-Fulton road was leased to the Country Club. The deal took in 78 acres of land on which is located a splendid log dwelling which Mr. Thomas built some years ago for his country home. In recent years occupied by W. H. Winsett and family.

The promoters of the Country Club are to be congratulated on the splendid work accomplished. For quick action it was one of the most successful campaigns ever put on in Fulton and means a step forward in our progressive activities worth while.

At an early date the stockholders will meet to elect a board of directors and plans will be mapped out for remodeling and beautifying the building on the property for a club house; beautifying the grounds and providing for golf and tennis, and other improvements in keeping with an ideal country club.

**Freight Car Loading**  
Loading of revenue freight week, ending July 18, passed the million car mark for the first time this year. The total was 1,010,970 cars, and represented an increase of 28,161 cars, compared with the loading for week before, or an increase of 80,257 over same period last year.

### New Freight Cars

A total of 83,291 freight cars were placed in service during the first six months of 1925, by Class I railroads, according to a statement issued by the Car Service Division of the A. R. A. This was an increase of 12,417 cars as compared with the number installed in the corresponding period of last year.

### I. C. Preparing for Cotton Business.

The Illinois Central is getting things in shape to handle the movement of cotton this fall, as well as other crops, and preparing to handle the business in a more expeditious way than ever before, in fact, they have recently tightened up the schedules of most of their fast freight trains, and permitting most of them to run 35 mile per hour, instead of the old schedule of 25 and 30 miles. This means that they may maintain a speed of 35 miles per hour over their respective territories, and will place commodities on the market several hours earlier than heretofore. The I. C. is constantly improving its service and constantly on the watch for anything that will make their service more efficient and pleasing to its patrons, and as Mr. Markham, president of the road, said in one of his circulars, "Good rail—(Continued on page 8)"

### Baseball Today.

This afternoon at five o'clock at the Fair Grounds Ball Park, the Chancellor Girls of Fulton, will play the Chancellor Girls, of Martin. Both teams are well matched and the game will be the best of the season. If you like to see a good game of ball, don't fail to go out and see the game today at five p. m.

### FULTON GIRLS DEFEAT PARIS

Paris, Tenn.—Paris ball clubs went down in defeat Saturday in two hard fought contests played on Barton Field. The girl team of the Fulton branch of the American cigar makers in the Chancellor league, 18 to 13, although it required two extra frames to decide the tilt. Paris overcame an early lead of the visitors only to pave the way for five runs by an error in the final inning.

### FINE PEACHES

S. A. Waggener, of Route 2, Crutchfield, brought a load of fine Elberta peaches to town Tuesday, which was a treat to lovers of this fruit. Some of the peaches measured more than ten inches in circumference and was a splendid demonstration of what can be grown in this vicinity. Mr. Waggener has thirty-four bearing trees, all fine fruit, selling at \$2.25 per bushel.

There is good money in growing fruit in this territory, when it is properly cultivated. Every farmer should have a good orchard. It is a paying crop and comes in just at the right time when the cash can be used to good advantage.

After the morning services last Sunday, a rally was held in the Parish House, which was attended by the entire congregation. A bounteous lunch was served by the ladies and was greatly enjoyed by all present, the time being pleasantly spent by the members in conversation and getting better acquainted.

These rallies will probably be more frequent in the future, as a part of the mission feature of the church work.

The attendance at the communion service was pleasingly large, and with the coming of cooler weather will undoubtedly be more largely attended, as many now absent on vacations, will have returned.

John Miles, an employe of

Most all of the contents were burned. He had a small amount insurance. Mr. Chambers is one of our oldest settlers and we regret his loss in his old days. This home had all the modern equipments of a city home. The beautiful lawn was badly damaged by the fire.

## IMPROVED UNIFORM INTERNATIONAL

## Sunday School Lesson

By REV. P. B. FITZWATER, D.D., Dean of the Keating School, Moody Bible Institute of Chicago.

### Lesson for August 9

## BEGINNING THE SECOND MISSIONARY TOUR.

LESSON TEXT—Acts 14:36-16:5.  
GOLDEN TEXT—"He shall have dominion also from sea to sea, and from the river unto the ends of the earth." Ps. 72:8.

PRIMARY TOPIC—How the Boy Timothy Became a Missionary.

JUNIOR TOPIC—Silas and Timothy Become Missionaries.

INTERMEDIATE AND SENIOR TOPIC—Missionary Recruits.

YOUNG PEOPLE AND ADULT TOPIC—Strengthening the Churches.

1. Contention Over John Mark (ch. 15:36-41).

1. Paul's Proposal (v. 36).

This was to revisit the scenes of their missionary endeavor, and see the state of the believers—what progress they were making in their Christian experience. This is a pattern for missionaries in all ages and countries.

2. Barnabas' Determination (v. 37).

It was to take with them John Mark. The human relation of these men was uncle and nephew. (Col. 4:10).

3. Paul's Opposition (v. 38).

He was suspicious of Mark because of his desertion on the former journey (Acts 13:13).

4. Their Separation (v. 39-41).

Their contention was so sharp that they separated. It is impossible to absolutely determine which of these men was right. It is quite clear that both were sincere. That John had done wrong in turning back, could not be disputed. That one failure in a young Christian should condemn him for life is a wrong conclusion. It may be that nearness of relationship warped the judgment of Barnabas. On the other hand, this very fact may have given insight into Mark's nature which better qualified him to judge of his fitness than Paul. Then again, it is to be presumed that Paul, whom God was thrusting out to be the leader, had a clearer understanding of the matter.

Besides it may be that this sternness of Paul was the very thing that brought Mark to his senses. Frequently the demands of justice make the man. This painful incident resulted in these devoted missionaries parting company, but God over-ruled it to the wider extension of the work. Barnabas took Mark and sailed to Cyprus, and Paul chose Silas, and being recommended by the brethren unto God, went through Syria and Cilicia, strengthening the churches. The fact that Paul went forth with the recommendation of the brethren may be a vindication of the rightness of his action. It is comforting to know that the frailties of men cannot thwart the purposes of God, nor even delay them. One of the most serious difficulties in Christian work at home and abroad, is to get Christians to work harmoniously together.

1. Finding Timothy (ch. 16:1-5).

1. The Place (v. 1).

This was at the very place where Paul on his first journey had endured cruel stoning. The conversion of this young man may be regarded as the fruitage of his testimony at that time.

2. His Parentage (v. 1).

His mother was a believing Jewess, and his father a Greek. The mother's name was Eunice (II Tim. 1:5). Timothy's unfeigned faith had passed from his grandmother Lois through Eunice to him.

3. His Character (v. 2).

He had a good reputation in the church at Lystra and Iconium. This shows that the young man from the very first had followed in the footsteps of his spiritual father as a witness for Christ.

4. Timothy Circumcised (v. 3).

Though Timothy had been carefully instructed in the Word of God by his mother and grandmother, the Mosaic rite of circumcision had not been complied with. Doubtless this was because his father was a Gentile. In order to avoid offense among the Jews, Paul circumcised Timothy. This may seem strange in the light of the decision of the Jerusalem Council which set them free from this rite, but it showed his willingness to conform to any reasonable demand for the sake of expediency. However, when this act involved principle he was unyielding, as in the case of Titus, when he refused to have this done at the best of Jewish teachers. (Gal. 2:3).

5. The Ministry of Paul and Timothy Through the Cities (vv. 4-5).

It is likely that at this time Timothy was ordained (I Tim. 4:14). They went through the cities and delivered the decrees which had been ordained at the Jerusalem council (Acts 15:24-29). This resulted in the establishment of the churches in the faith, and the daily increase in the number of believers.

A High  
Easy Lift—

### A Marked Improvement in Mowers

You who have used the ordinary mowing machine will truly appreciate the high, easy lift on the John Deere. It is so easy to operate that any boy old enough to drive a team can run the John Deere and do it just as easily and as thoroughly as you can.

### John Deere High-Lift Mower

With the foot lift the bar is quickly and easily raised from 25 to 35 inches at the cutter end. And with the foot lift and hand lift combined the bar is raised 44 inches. Ordinary or unusual obstructions are easily cleared.

A great feature, particularly in rough uneven fields or on roadsides, is the great flexibility of the cutter bar. It hugs the ground and operates perfectly with the outer end several inches above or below the inner end.

You will find the John Deere a powerful cutter. Here's why—one set of drive gears offsets the thrust of the other pair. This prevents binding and undue wear. Maximum power is delivered to the knife—and because of the special arrangement of the gears, pitman end thrust is entirely overcome.

With an ordinary wrench you can take out all lag in the cutter bar after wear develops or re-center the knife right out in the field if necessary. You can keep the John Deere in good order for many years at mighty little cost.

Before you buy a mower we want you to see the John Deere. You want a good machine. We think we have the best. Give us a chance to show you.

## HAYNES IS SHORN OF ALL POWERS

HAYNES LOSES HIS AUTHORITY BY EXECUTIVE ORDER.

IS EXPECTED TO RESIGN

Stormy Petrel of Prohibition Bureau Had Alienated Secretary Mellon and Others—Opposed Policy of "Decentralization."

Washington.—Prohibition Commissioner Haynes will be stripped of all authority over prohibition enforcement on September 1.

His duties will be lodged in the 24 prohibition administrators to be appointed under the reorganization of the enforcement forces effective the first of next month, and he will act merely in an advisory capacity to Assistant Secretary Andrews of the treasury.

An order authorizing the transfer of authority was issued by International Revenue Commissioner Blair, who under the law retains nominal jurisdiction over the prohibition unit. Actual direction of administration will be in the hands of Mr. Andrews who was appointed to the treasury with that end in view.

While the order had been forecast, it was much more sweeping than expected. It takes away from the commissioner all authority he had with respect to any matters relating to intoxicating liquors as well as all authority he has had in approving or disapproving acts of prohibition agents in the field.

Moreover, there no longer will be any requirement that copies of permits, bonds or other documents relating to the withdrawal, manufacture or other handling of liquors be forwarded to the commissioner. These will remain in the possession of the prohibition administrators, who will be stationed at 22 points in the United States and Porto Rico and Hawaii.

While the full effect of the order will not be felt until September 1, control of the manufacture, sale and use of specially denatured alcohol is to be transferred immediately from the treasury to the prohibition unit.

Commissioner Haynes was absent from Washington but it was said the prohibition unit that he would remain in his present place and that, as advisor to Mr. Andrews and active head of whatever force is retained in the prohibition headquarters after the reorganization becomes fully effective he will have as many duties as he can attend to.

While he had made no formal announcement it is expected that the commissioner will relinquish his office later to enter the gubernatorial contest in Ohio as a candidate for the Republican nomination in the state primaries next summer.

Treasury officials having to do with prohibition matters withheld comment on the order. Assistant Secretary Andrews referred callers to Commissioner Blair whose name was signed to the order.

Mr. Blair kept himself secluded in his office, but he sent out word to inquirers that "the answer" to the order simply was "decentralization" of prohibition enforcement.

### MILLIONAIRE FALLS EIGHT FLOORS TO DEATH

Relatives Say Schrebnick Was a Victim of Vertigo.

West Palm Beach, Fla.—The plunge of Carl Schrebnick, 50-year-old millionaire and pioneer citizen, from the eighth story of an office building here was attributed by members of his family to an attack of vertigo.

Authorities who at first had deemed an inquest unnecessary, later decided to conduct such an inquiry into the death.

Schrebnick, with his wife, had visited the building to consult with his attorney. While waiting in the outer office, he walked to the window.

Two clerks who were in the room at the time held different opinions concerning the affair. The first said that the man crouched upon the window sill a moment before diving to the pavement. The second was positive that he had become dizzy and fallen accidentally.

SUPER-TITE Asphalt Shingles give every advantage of other roof coverings—plus—two distinctive features combined in the same shingle.

They give double and triple thickness over the entire roof area—with the addition of a LOCK-BUTT to prevent curling or blowing up.

When laid, there is no part of a Super-Tite roof which has less than double thickness coverage—and—over 48 per cent of the roof area is triple thickness. This greater coverage, with the LOCK-BUTT feature, makes a roof covering which defies sun, rain, snow, wind or sleet. Super-Tite Shingles cannot curl up—blow up—nor can they warp.

### HICKMAN COUNTY'S SILVER-TONGUED ORATOR

In reporting the election returns, the Hickman Correspondent sent out the following:

"One of the most spectacular races of all was that of state representative, with two men in Hickman County and one from this city and county in the race. Norman B. Daniels, a college boy of Clinton, won by over 2,000 majority, getting the biggest majority of probably any one in any race in Western Kentucky. Daniels is just 24 years old, completed his university course at the state university of Kentucky in June, entered the race as soon as he got home, and if there is anything in the start he is making, has a most promising future. He has just finished a law course, but was unknown in this county when he entered the race, but through his oratory, gained rapid fire notice. At the speakings in this county he was called the baby candidate and silver tongued orator and got about 1,500 votes in this county. He has a splendid college record, having

worked his way through college, and in addition to that, during that time, he said to have saved \$3,000. He is for a tax on coal and has strong convictions."

### LET'S ALL PULL TOGETHER

In the city election, Saturday, some good men went down in defeat, men who have prided themselves in taking an interest in the development of our city, men who have taken an active part in civic affairs and given their services without any selfish motive in view, men who would have served the city loyally as they have in the past, but it was the will of the majority that other good men, who have proven themselves worthy be elected mayor and councilmen.

Now, that the election is over, let's forget all differences and devote our time in developing and uniting the working forces for the betterment of Fulton. When the men who were elected are finally conducted into office, we should not expect them to completely revolutionize and transform the city. There is work enough to be done in Fulton to occupy the time of each individual citizen and the city government needs our united support if we expect to accomplish great things.

### NEWLY ELECTED MAYOR

Mr. Shankle is a live, progressive citizen. His every act has proven it. Those who watched his movements during the time he was magistrate of the county know that he was never found asleep on the job and by his untiring efforts the people of this district was given the best of service and the expenditures of the county's funds carefully used. In fact, when he retired from office, many of his friends and admirers wanted him to make the race for county judge, but his large wholesale lumber business demanded the best of his time and instead of entering the race for judge, he put forth his best efforts in electing a good man for the office.

The members, when seeking a president for the Chamber of Commerce, the largest organization in the city, W. O. Shankle was unanimously elected last February. How well he has served in this capacity, the more than three hundred members can say. Today it is one of the liveliest organizations of its kind in any city of this size.

### NEWLY ELECTED COUNCILMEN

Joe Bennett, well known Fulton druggist, has the distinction of being one of the city's oldest druggists, engaged in the same business for the past 32 years. His success during all these years is due to his splendid management and courteous treatment and service rendered to the people. He has watched the development of

the city grow out of the village class and has been a factor in its progress at all times.

J. E. Hannepphin, who has been actively engaged in business here for more than twenty years, with several high-class barber shops, has made a success and took a live interest in every movement for the upbuilding of Fulton. He is a club and lodge man and stands high in the estimation of his associates and the entire citizenship.

L. S. Phillips, who has served on the city council for many years, holds a responsible position with the Illinois Central railroad, and is a man of pleasing personality with a keen vision for making the city in which he and his family reside the best place in the world to call home.

W. P. Murrell, well known lumber dealer, has already proven himself a faithful and loyal servant of the people, having served on the council for the past twelve years, and the voters were determined to keep him on the job.

Paul DeMyer, who has made a phenomenal success in the grocery and market business, takes a live interest in all public movements and is a man who has a real desire to see Fulton develop into a city of the first class.

Smith Atkins, the youngest man elected on the council, but old in city affairs, is the main stay of Fulton's million and a half dollar Building and Loan Association. The splendid service he has given this institution, the past eight years should be enough to convince anyone that he is a valuable man to assist in the conduct of city affairs.

We feel that the voters made no mistake in electing the above named men to serve them, and it is our duty to give them our cooperation and support in every laudable movement, for the good of the town and make their labor as light as possible.

### GRAVES LEADS THE WAY

In commenting on the bond issue voted in Graves county, August 1, the News-Democrat says:

"By voting a \$400,000 bond issue for the building of roads and culverts, Graves county has definitely turned her back on mud and reaction. This great county has swung in line with the march of development and progress established by Fulton, Hickman, Carlisle, Livingston and Trigg counties, and in a short time her people will be enjoying the fruits of their courage and enterprise. Nothing can be so conducive to better churches, schools and neighborliness than good roads. Nothing can so thoroughly quicken the life of a people than easy and permanent means of communication. We congratulate Graves county on her enterprise and vision and we congratulate the good men and women who have, by their interest, energy and hard work, brought to a successful conclusion the campaign for good roads in our neighbor county. We predict that just as soon as those who opposed the road bond issue begin to see the many and lasting benefits that Graves will receive from it, they will join its supporters with good will and enthusiasm."

## Leaders of Industry See GMC Trucks and Yellow Busses Making Strong Bid for Leadership

Detroit, July 18.—In the recent General Motors Corporation and Yellow Cab Manufacturing Company merger, those in the automotive industry in the greater Detroit area see GMC trucks and Yellow busses making a strong bid for the leadership in their respective fields.

Two reasons are given to support their claim, one is that General Motors is well equipped to operate on a large basis and the other is that Yellow Cab distributing facilities are exceedingly good. Under the new company, The Yellow Truck and Coach Manufacturing Company, these two factors can be operated to advantage.

Turning over of Northway Motors and GMC truck divisions to the new company will give these two companies an outlet for their products, especially Northway Motors. It is well known in local automotive circles that both plants had been operating at but 10 per cent of their full capacity and with the formation of the new company, they will be able to increase their production materially.

This increased production is expected to make for greater competition, and with Yellow

Truck and Coach Manufacturing Company striving to gain the leadership in the field, the industry is looking forward to much greater activity than in the past.

It reduces unorganized elements to an organized unit.

It speaks in defense of the good name of the city.

It defends the city against the trader.

It is the spotlight that reveals activities that are worthy.

It pleads in behalf of the voiceless.

It is the center of worth while enterprise.

It is the magnet that draws the outside world to your midst.

It is the clearing house of civic pride.

It is the power house of progress.

It is a composite picture of a city as its citizenship would have it.

## You Have An Interest In This Big Task

THE telephone organization in Kentucky is performing a big task in which the public has more than a casual interest. This is to be a year of construction and expansion to care for the present demand for service and provide for the needs of the immediate future.

During the five-year period, including 1925, our plans require an expenditure of \$12,363,000 in Kentucky. Practically all of this is new money, which must be secured from investors.

There is no difference in interest between the telephone subscriber and the telephone stockholder. If we serve the owners of the property wisely and efficiently, we shall render the largest benefit to the public.

We must have rates low enough to enable every person who ought to have a telephone to have one, but sufficient to pay the cost of producing the service and earn enough to attract capital to take care of this growth.

That is what your telephone organization is trying to do.

## GOODRICH RAISES TIRE PRICES FOR FOURTH TIME THIS YEAR

Automobile Pneumatics Jump 10 to 15 Per Cent—Other Companies Expected to Follow

Akron, O., July 18.—The B. F. Goodrich Company today initiated the fourth tire price increase since crude rubber started its phenomenal rise early this year.

Announcement is made by Goodrich officials of advances of from 10 to 15 per cent in prices of all pneumatic and balloon automobile casings and 15 per cent on inner tubes. Solid and cushion tires are boosted 10 per cent.

While official announcements were not ready, it is learned that executives of other companies are prepared to meet the Goodrich advance. The new schedules became effective today.

Simultaneously with the announcement of the latest tire increase, crude rubber soared to a new peak of \$1.17 a pound, the highest price reached in the last six years.

Prices of tires sold as original equipment to the motor car manufacturers also have been advanced from 40 to 60 per cent, it is announced here. The higher tire prices have increased car costs from \$5 to \$25, and while this must be added to future car selling, it is not believed automobile prices will not be raised immediately.

Tire manufacturers say that several of the volume automobile producers have contracted ahead for tire requirements throughout the last half of 1925. Many other car makers, however, are being forced to pay higher prices for their original equipment. Furthermore, the tire companies are showing reluctance in making long term contracts for future delivery to the automobile manufacturers.

## GET YOUR CHICKENS READY FOR THE FAIR

It is supposed by the time this article reaches you, that you have decided upon the chickens you wish to enter in the poultry show. Get your leg bands as soon as possible, make out your entry blank and forward to the secretary, so that he may assign you to your proper place in the coops. These bands may be purchased at the Huddleston Hardware Store very cheap and it is necessary each bird be banded. There seems to be some hesitancy about entering the show on account of the crowded condition at former shows at this fair, but you need not fear to get in the show, for the fair association has assured us they would build us a new house for the poultry show, which, added to the sanitary exhibition coops, will make this the best and biggest poultry show ever held in Fulton county.

"Meet Me at the Fulton County Fair, Fulton, Ky., August 25, 26, 27, 28 and 29," is the slogan with everybody now. The fair this year promises to be unusually entertaining and educational. The superintendents of each department are working overtime to make the exhibits outclass all former efforts and the premium list this year will help materially to do this. Of course, the races will be a feature every day. Many of the best pacers and trotters are already booked and arriving on the grounds.

The Fulton Poultry Association is cooperating with the fair, and a subsidy has been made to the poultry show, which is successful with a large list of added premiums.

Secretary R. H. Wade is making every effort to obtain the best free attractions to amuse the crowds, and if Henry Ford's fleet of aeroplanes can be obtained, there will be something doing all the time. Everybody likes a free ride, either in the air or on the ground.

## THE GUNS

The guns of the BIG CITY have been raking the country with deadly fire for more than forty years. The guns are bossed by the mail order kinds. The bombs are the catalogs. Many a fine community, many a thriving town, has been ruined by this constant hammering. But deadly as this catalog siege is, WE have weapons in our OWN possession that are able to beat back the siege guns. The trouble is we DON'T USE these weapons. We have been allowing ourselves to be bombarded without retaliating. Yet OUR weapons, if USED, mean victory to US. Reason, knowledge, common sense, community pride, co-operation—these are our weapons. OUR town can beat back any siege from the outside. But it is up to each one of US to KNOW this, to use this knowledge. And, having learned it, we must work at it. Then, let every man, woman and child ENLIST in this Trade-at-Home campaign. Let us beat back the siege guns.

### TAKING PRISONERS MONEY HELD ILLEGAL

PRISON OFFICERS MUST ACCOUNT TO CONVICTS FOR MONEY TAKEN, IS OPINION RENDERED BY ASSISTANT ATTORNEY GENERAL

Investigation begun when prisoner of State Reformatory claimed that \$19 of his money had been taken after he had been in solitary confinement until he revealed it whereabouts.

Frankfort, Ky. — Authorities in charge of the state prisons have no right under the law to take from prisoners money found in their possession and apply such sums to the operation of various affairs of the prison.

This opinion was given to M. F. Conley, commissioner of public institutions by Ovelton S. Hogan, assistant attorney general, in answer to a query as to whether prison officials had a right to confiscate money found in the possession of prisoners.

The question arose when a prisoner of the state reformatory made complaint to H. V. Bascom, former superintendent, that G. C. Hopkins, former assistant superintendent, had confiscated \$184 of his money, the prisoner saying that Hopkins had kept him in solitary confinement until he revealed the whereabouts of the money.

The charge brought about an investigation at the reformatory, conducted by attorney general Frank E. Dantzert, whose findings will be reported to Governor Fields.

While J. P. Byers was commissioner of public institutions it was the practice at the prisons to "shake down" prisoners for money and all sums derived from that source were applied to the library fund.

In his opinion, Mr. Hogan said that "any personal property obtained from convicts is merely held by the state or the officials of the penitentiary in trust for the use and benefit of such convicts. There is no law authorizing the expenditures of such funds on property."

"It is our judgment," he said, "that under the rules and regulations of the prison it is proper to prevent prisoners from having in their possession any considerable amount of money obtained from any source. We see no objection to taking the property from the possession of the prisoner, but when done, an account should be kept thereof and the prisoner given credit for the property taken from his possession and when paroled or released from the penitentiary a settlement should be had with the convict and if a balance is due, credit it should be turned over to him."

"To take the money of these convicts in the manner indicated in your letter and use it for the purposes stated, seems to us, would be the obtaining of this money without due process of law and a denial to the convict the equal protection of the law," Mr. Hogan said.

"As the Legislature made an annual appropriation for maintaining a library for the use and benefit of the convicts, it indicates," Mr. Hogan said, "the intent of the Legislature that the library should be provided for and maintained other than from the property of the convict."

CAPITAL STREETS REPAIRED

Old Frankfort Highways Named for Generals in Revolutionary War.

Frankfort — The streets of this more than century-old State capital, nearly all named for Generals who took a prominent part in the Revolutionary War, are being given a new summer dress of tar and oil.

The condition of some streets, long occupying a rough spot in local and tourists' discussions, is to be rejuvenated in Twentieth Century style. Excavating, preparatory to paving, has begun.

Wilkinson street was named for Gen. James Wilkinson, who had Frankfort established in 1787.

Washington street was named for George Washington.

St. Clair street was named for Gen. Arthur St. Clair, intimate friend of General Washington.

James Madison, fourth president of the United States, is the reminder in Madison street.

Rattlesnake season Opens in Bullitt

Shepherdsville — The rattlesnake season has opened in Bullitt County in earnest. Simmons Cochran, of this place, killed a large one on Crooked Creek after a hard fight. It measured three feet, eight inches and had eight rattles and a button. He skinned the reptile and will make a belt of the skin. Newton Pearl killed one of the same size and with the same number of buttons. He killed it near his home on the Shepherdsville and Pitta Point county road. It has been on exhibition in the show windows of the Kerr Drug company.

Hanging of Ross Again Delayed

Frankfort — Governor Fields, granted Ray Ross, Lexington negro who was to be hanged, a stay of execution until Friday, August 28, in order that Ross' mentality may be tested. Ross was found guilty of a criminal attack on a 10-year-old negro girl.

The stay was made upon personal representation of Ross' counsel, who extended a letter from Dr. J. B. Miner of the University of Kentucky, finding the negro has the intellectual development of the average 8-year-old white child.

### CLUB ENTERTAINED

Mrs. Paul Pickering was hostess to the Wednesday bridge club at her home on Eddings street. Brilliant flowers were used for the decorations. Tables were placed for the members and substitutes and five games were enthusiastically played.

Mrs. Abe Jolly held the club high score, while Mrs. L. O. Bradford won visitor's prize. At the conclusion of the game, delicious refreshments were served.

### VISITORS

Dr. and Mrs. H. T. Collier and children, Harris Fields, Mary and Miss Lalla Fields, of McKenzie, Tenn., were the guests of Mrs. Mary Collins, at her home on Park avenue, Sunday. In the afternoon an interesting reunion of the relatives took place. Mrs. Collier will be remembered as Miss Mary Fields, the daughter of the late Rev. Peter Fields, who used to live here.

Mr. David Galtney, of Corinth, Miss., spent several days of this week with his wife, who is visiting her mother, Mrs. Hattie Fields, on Eddings street.

### Mrs. Hester and Miss Snow Entertains

A delightful event of the week past was the pretty party that Mrs. George Hester and Miss Fern Snow gave Friday afternoon at the palatial home of Mrs. Hester on Eddings street. For the occasion the rooms were lavishly decorated in summer flowers. Five tables were placed to play bridge. Miss Lavern Browder won favors for high score, pretty hand-made handkerchiefs.

Miss Madaline Hedge, of Memphis, who is quite a talented musician delighted the guests with several piano solos.

At the conclusion of the games a delicious salad course was served.

The out-of-town guests were Misses McKay, Belmont, Miss, and Hedge, of Memphis.

### Miss Wade Honored.

In compliment to Miss Irene Wade, a charming bride-elect, Mrs. David Galtney entertained with a bridge-luncheon Wednesday morning at the home of her mother, Mrs. Hattie Fields, on Eddings street. Quantities of flowers were placed about the spacious living room where the hours were spent at bridge. After quite a spirited game, Mrs. Harry Murphy, who held high score, received a beautiful picture; Miss Wade was given a set of Madaria napkins. At the conclusion of the games a lovely two course luncheon was served from the tables.

The honoree was charming in a sport model of white linen while the hostess wore a sport model of white crepe. Only the most intimate friends were included in the hospitality.

### SCOUT BOYS HAVING A GOOD TIME

Messages received from the Boy Scout camp on Duck river tell of the boys having a great time there, but also that the cool nights are being felt there also.

Harold McWherter, who left for the camp on Tuesday morning, took eight blankets for the boys. He received six special delivery letters on Sunday, requesting him to bring extra blankets for individual scouts.

"Doc" Hughes is reported as having been indisposed, the first time that any scout camp member has been ill in three years. Possibly Doc has been trying to show the boys "how not to do it."

Several of the scouts who did not go to the camp have a sort of wistful look, as though they were sorry they had not been able to go, but we have yet to hear of one of them making any open lament. Scouts are trained to be "good scouts" and are not of the complaining kind.

Now, if the Camp Fire Girls can get well organized for next summer so they, too, can have a camp, the young folks of Fulton will be well provided for as to summer outings.

When the fall activities of the Womans Club start, it is to be hoped that the girls' organization will be perfected and plans made for them to participate in the outdoor enjoyment that makes the scouts such a happy and contented bunch.

(Continued from page 1)

way service is not a matter of convenience only. It speeds up business, and therefore it has commercial value that is measurable in dollars and cents. Prompt and adequate transportation means a reduction in the amount of capital tied up in commodities in transit and awaiting shipment. It also means there is no need for manufacturers, wholesalers, jobbers, retailers and consumers to carry large stocks to protect against transportation shortages of delayed shipments. \*\* When goods move promptly, there is prompt payment for goods that are sold payable on delivery."

With the arrival of some more large new locomotives, which we understand the Illinois Central has ordered, the organization will be as near perfect as possible to get a railroad.

### I. C. Has Campaign to Eliminate Trespassers and Hoboes from Riding Trains

We understand the Illinois Central has started a campaign to eliminate as near as possible the trespassers riding freight trains, which has not only become a nuisance, but a hazard to those who practice it. They are asking the city, and county authorities to cooperate with them in fining and working these trespassers and hoboes when they arrest them and turn them over. It was stated that in many towns along the line they had received splendid cooperation and had practically eliminated this practice in that particular territory.

This is not only good for the railroads, but for the towns as well. It will get rid of the hoboes and undesirables who break into stores and in other ways, damage property. The hobo soon learns the towns that will not tolerate him, and stays away. We believe with the construction of streets, and roads in this section of the country, if city and county authorities will cooperate with the Special Agent Department of the I. C. and put these trespassers and hoboes to work when turned over to them, that it will not only serve to stop this hazardous practice of riding freight trains, but will give the city or county some free service, and get rid of this element of floating trash that goes from town to town living off of the other fellow.
