White Peace Looks Doubtful—Strong Informations Are at Work and May Fail.

WORLD WANTS THE BLOODY STRIFE BROKEN.

President Roosevelt, in a strong and humanitarian letter to the Emperor of Austria, on Thursday, expressed the hope that the atrocities committed by Germany will be stopped, and that the future conduct of that country will be more in accordance with the principles commonly recognized by civilized nations. The President's letter was received by the Austrian government on Friday, but it was not made public until Saturday, when the President gave a detailed statement of his reasons for writing the letter. The President said that he had been asked by the President of the United States, who was acting as mediator in the dispute between Austria and Serbia, to express his wishes to the Emperor of Austria on the subject of the atrocities committed by that country.

ENGLISH WORLD WAR

The English newspapers are unanimous in their expressions of sympathy with the President of the United States in his efforts to bring about a peaceful solution of the dispute between Austria and Serbia. The Times of London, in a leading article, said that the President's letter was a noble and statesmanlike appeal to the Emperor of Austria to consider the interests of civilization.

It is the duty of civilized nations to try to prevent war, and the President's letter is a step in that direction. The President's letter is a step in that direction.
