**An Unusual Prescription Service!**

We like to refer to the completeness of our prescription service, for we believe it is second to none.

Let us tell you briefly how it works out. Just suppose the doctor has prescribed a drug for you, and you found it inconvenient to go to a drug store to have it filled. In such cases, step to the phone and give us a ring. Call 11 and we'll send a messenger right away.

This prescription will be brought back to our store, where it will be filled quickly and accurately by an experienced pharmacist and returned to you. And the whole transaction will be handled in less time than if you went to a drug store yourself.

And remember, too, that our charge for this unusual prescription service is not at all unreasonable. Our price is based only on the cost of the best grade of materials, plus the time consumed in manipulation, and only a fair profit.
