borhood, and I hear of a few hogs suf-

Personal.

Prof. J. W. Rust spent yesterday in Nashville. J. G. Davenport, of Trenton, was in the city yesterday.

Miss Mattie Whitfield, of Trenton, is visiting Miss Little Waller.

Mr. Frank P. Cook has accepted a position in Moore & Davidson's Coal office.

Richard Seales left yesterday for Owensboro to accept a position in a commission house.

Mr. F. C. McCarroll, representing Norris, Leonard & Pigot, of New York, is in the city.

Mrs. E. A. Burnett and daughter, Misses Mae and Sallie, of Cadiz, are visiting Mrs. Sallie W. Martin.

Moore, Frank Dabney and Lumen Jones left Thursday for New Orleans and California. They will be gone about six weeks.

Dr. A. P. Spert, of St. Bethlehem, Tenn., was in the city Thursday. His brother, Col. L. A. Spert, accompanied him home.

Being More Pleasant.

To the taste, more acceptable to the stomach, and more truly beneficial in its action, the famous California liquid fruit remedy, Syrup of Figs, is rapidly superseding all others. Try it. Sample bottles free, and large bottles for sale by H. B. Garner.

Religious Notice.

Services in the First Presbyterian church on Sunday, the 17th inst., will be conducted by Rev. R. W. Cleland, Evangelist of the Presbyterian of Louisville, who is assisting the Rev. Montgomery May in a protracted meeting. There will be preaching in the morning and evening as usual, and also the regular children's meeting at 3 o'clock in the afternoon. It is expected that the meeting will be continued through the coming week.

Live Stock.

In Louisville on the 13th inst. good to extra shipping cattle \$1.75 to \$5.00; light shipping \$1.25 to \$3.00. Receipts were more liberal, with weaker feeling generally prevailing on account of the full supply, but more especially is this noted in the light and medium weight stock cattle, as buyers, on account of the extreme cold, have not been on the market.

Choice packing hogs \$4.05 to \$4.10; fair to good butchers \$3.90 to \$4.00. The whole number of hogs packed in the West to date since November 1, is 4,624,000, against 4,695,000 last year.

Herds of Cattle Frozen.

Dispatches from Waco and Batesville, Texas, report great losses among the herds of cattle on the prairies. The storm which swept over Texas last Thursday, and continued with little abatement up to the present date, is without parallel in this part of Texas in its extent, severity and duration. From the Southwest and West news is received that the cattle are drifting against the fences and are rapidly perishing from cold, and that the loss will be unusually heavy. All water pools and streams throughout the heavy cattle growing districts of the State are frozen over hard, and to add to the gravity of the situation, a heavy snow-storm set in late Monday night, and Texas from Sabine to the Rio Grande and from the Red river to the Gulf, is covered to a depth varying from two inches to one foot of snow. Indications this morning point to another fall equally as heavy. This will completely cover the grass on the ranges, and, as no provisions have been made for feeding, the death-rate among stock from cold will reach frightful proportions and entail a loss of millions.

In the Indian Territory the herds of the cattle syndicates have suffered greatly. Cattle have drifted for miles, and in many instances have been stopped by wire fencing and frozen. Streams have been frozen over for many days, and want of water and food, with bitter cold, have combined to cause the death of unnumbered cattle and horses. An advance may be expected in the beef market on account of the heavy losses in the source of meat supplies.

Tobacco Market.

W. G. Meier & Co., Louisville, give the following statistics of Western tobacco crops for 1885: Kentucky Burley 100,000; Kentucky 120,000; Tennessee dark tobacco 120,000; light tobacco 150,000; total 490,000. Total crop of the country last year 342,000 hds. against 351,000 in 1884.

The visible and prospective supply of American tobacco in hogheads, constituting the Western, Virginia, Maryland and Ohio crops, exclusive of seed leaf, is as follows: Liverpool, London, Bremen and Antwerp, Dec. 1, 1885, 61,326 hogheads; held in New York, Dec. 31, 1885, 30,405 hogheads; in New Orleans, Dec. 27, 400 hogheads; in Baltimore, Dec. 27, 13,728 hogheads; in Virginia, Oct. 1, 19,633; in Louisville, Dec. 31, 9,730; in Cincinnati, same date, 12,616; and in other Western markets 8,560 hogheads, making the stock on hand 156,908 hogheads as against 112,009 in 1885, 115,598 hogheads in 1884, and 115,598 hogheads in 1883. The stocks in the same markets in 1881 were 177,771 hogheads; in 1880, 106,289; in 1879, 105,912 hogheads and in 1878, 198,964. For three years within the past decade the stocks in the principal markets at home and abroad were greater than at present.

Add to these stocks on hand the present estimated crop, and the visible and prospective supplies of American tobacco, exclusive of seed leaf, are as follows: For Dec. 31, 1885, 498,908 hogheads; for 1884, same date, it was 496,000 hogheads; for 1883, 403,508; for 1882, 454,244 hogheads. The largest supplies were in 1879, when the visible and prospective supplies Dec. 31, were 501,209 hogheads.

What the Rev. G. H. Means, Pastor of the M. E. Church, South, Says Concerning the Valuable Treatment Given by Dr. H. Sherman.

I have had bronchial catarrh for eleven months. I have also had an affection of the throat. Having tried a number of remedies, nothing has relieved me, even for a time, or relieved the bronchial trouble temporarily. I have been under the treatment of Dr. H. Sherman for two weeks, and am better in every respect than I have been since the trouble began. His medicine has already done what twenty remedies have utterly failed to do. I cheerfully and earnestly recommend him to all afflicted with throat and lung affections.

Geo. H. Means, Pastor M. E. Church.

Around Town.

If you want a first-class piano at factory prices don't fail to call on J. D. McPherson.

Chas. White, living on the Antioch road, nine miles from town, was 92 years old Thursday.

We regret to learn that Mr. A. G. Bush, of Dabney & Bush, is confined at home by sickness.

The Rockford watches are the finest time pieces made. Call at Howe's Jewelry Palace and see them.

A man living in this county went before a Magistrate the other day and took a solemn obligation never to touch another drop of liquor.

The mild-looking young man who played the organ for Rev. Sam Jones' tent service in Nashville, is in the Penitentiary at that place, says the American.

Dr. C. P. Bacon, of Evansville, and Mr. Hillery Bacon passed through the city yesterday en route to Roaring Springs to attend their father who is quite ill. Mr. Bacon is suffering from paralysis and is not expected to live.

Examine the world renowned Miller Organ, at J. D. McPherson's.

W. T. Walker, the man who was shot by deputy sheriff M. M. Handberry, Christmas, has recovered from his wounds. Mr. Handberry went down to Lafayette Wednesday and placed him under bond to appear in answer to the charges resting against him.

"Characters"—both ladies and gentlemen—of the "Dickens Festival" are requested to meet at the rooms of the Young Men's Christian Association, this (Saturday) evening at half past six o'clock. A full attendance is desired, in order that the programme may be permanently arranged.

Emily B. Perry.

Owing to the inclemency of the weather a small audience greeted Baird's Minstrels last night. The performance was up to the standard. The song and dance artists and the bell ringers were the striking features of the evening. Baird can always draw a house in Hopkinsville.

What has become of the small game which two or three years since was abundant in fields and forests? There has scarcely a quail, rabbit or squirrel been offered for sale this winter in Hopkinsville; and as to venison, it is a rare thing for one to be brought here in a whole season. As to wild turkeys and ducks, they have become a tradition.

The Signal Service flags donated to the city of Hopkinsville by Hon. Hunter Wood, proprietor of the New Era, will arrive this morning. There will be seven flags in all, one old wave signal, and the others weather and temperature signals. A suitable location will be selected and the signals will be displayed in a few days.

See the elegant stock of ladies' and gentlemen's gold watches and chains at Howe's Jewelry Palace. All the latest and newest designs at low prices.

In spite of the untoward elements and the swamps of slush and snow under foot the children turned out heroically to the Public Schools yesterday. The rooms are very comfortable and if the youngsters get there with dry feet and clothes, they will be all safe. Parents must look closely after their children's feet if they want teachers to do much at the other end.

Messrs. D. H. Baldwin & Co., of Louisville, have opened a fine display of sample pianos and organs at Geo. O. Thompson's furniture store under the management of Mr. A. F. Williams, their traveling salesman. This is something new for Hopkinsville, and is a fine opportunity for any one who thinks of buying, to get a first-class instrument at lower prices and terms than ever before.

On Thursday evening Policemen Biggerstaff and Wallington arrested Mack Taylor, colored, on Weber street for disorderly conduct. They put him in the calaboose. In a few minutes he complained of being cold and the officers brought him out into the hallway by his back to the negro, when suddenly, the prisoner grabbed a large iron poker, saying as he raised it to strike him, "now—do you, I'll get even with you," but before he could carry out his purpose, Jordan Barker, colored, caught him and probably saved Biggerstaff's life.

In order to reduce my stock for spring goods, I am now selling goods at cost. Special bargains in clothing, ladies cloaks and all other goods in my line.

M. Lipstine.

M. G. Miller, of Pembroke, is now occupying his new stores recently completed at that city, and we can safely say the building will do credit to any town of much larger population. Mr. Miller has displayed excellent taste in the construction and finish of his business houses, the dry goods store being large and commodious, with broad stairway in the rear leading to the second story. The drug store is a model of beauty and convenience and filled with an entire new stock of drugs, prescribed over by an experienced prescriptionist. In addition to his stores at Pembroke Mr. Miller has a store at Garrettsburg and Longview. So much for business push and energy. Success to such men. We wish our county had more of them.

The sale of the personal property of the late F. P. Holloway, on the 19th inst., will be largely attended. There will be offered 29 head of high grade and registered and short-horn cattle, 3 mules, 1 extra saddle horse, 2 harness mares, 2 brood mares and 3 colts; 2 farm implements; one good rockaway and harness, and a lot of fat cattle and hogs. The sale will take place four miles from the city, on the Cox Mill road.

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's Own True Laxative. This pleasant California liquid fruit remedy may be had of Mr. H. B. Garner. Sample bottles free and large bottles at fifty cents and one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidney and Bowels gently, yet thoroughly; to cure Headaches, Colds, and Fevers; to dispel Constipation, Indigestion and kindred ills.

THE TRAMP ON METEOROLOGY.

The little group huddled around the grocery store, richly bronzed with rust and amber, had been arguing the respective merits of the town thermometers, the thickness of the ice, cold waves and thaws, until a chance visitor might have reasonably supposed that the talkers were the local college of meteorology. There was no sound from the almost deserted streets save the monotonous humming of the rain, the trickling of the water-pipes, varied by the occasional interpolation of a vigorous exclamation, as an unlucky market-man or errand boy fell with a sudden thump on the slippery pavement. The dullness of the thrud was then hotly spiced by peppy words taboored in the Sunday School vocabulary.

Presently the chance visitor entered, a thin, watery-eyed, ready-looking old man, who begged a twist of long green for his pipe as he sat down on a nail-keg.

"I've never seen the world run down hill as fast as it's going this winter. Burning stone coal has made folks so tender that they can't stand anything. When women nursed their babies before big, blazing, roasting log-fires the children grew up tough as hickory and hard as a pine knot. In those times people would go to a great camp-meeting, sleep in tents, sit on logs listening to a two-hours' sermon, and lay in enough religion to last them a whole year, and sometimes had lots of it left to warm over for next season."

"Treckon," said a by-stander, "that people have become better and want to attend church every Sunday."

"No such thing," replied the old man. "It isn't what a man hears, but what he remembers that does him good. I've got the first camp-meeting sermon in my mind, just as clear as if I had heard it yesterday. The text was 'Remember thy Creator in the days of thy youth, and don't you forget it,' and the preacher made every body cry, and fifty of us joined, and some of us went to a watermelon patch that night and on died of cholera-morbus. Ah, those were solemn times. There ain't any cloud now." And the old man blew a cloud of smoke from his pipe, as a tear stole down his cheek.

"Don't you think people live more comfortably now than they did then?" asked a listener.

"No, they don't. Its real blasphemy to try to boss Providence, as some people do now, with thermometers and barometers and Signal Service flags. Only think of a man pouring good spirits into a thermometer to tell how cold it is. It's a simple waste of good liquor which would make a poor man feel happy. Then just think of a General at Washington trying to cook up raw weather there to suit himself, and sending it out in telegrams over the country."

"Here we go with red sun weather and blue sun weather; red star days and blue star days; and now and then a black square patch hung out to tell the women when to shut their drawers up close and to set their cream jars by the fire place, to make the butter come."

"It's wicked and presumptuous. Before next summer I suppose we'll see niggers in uniform galloping mules up and down the streets, shouting at the top of their lungs at the female eclogues and at everybody's door—"

"Cold wave! Put on your dannel!" "Rain-storm coming! Take in your girls!" "If a man hasn't sense enough to know when the cold enough to make a fire, or when to hoist his umbrella, without the government telling him, its time for him to pass in his checks."

Just at this moment the cry of "Dog-fight!" sounded in the street and all hands rushed to the door.

The Aurora Watch

Is decidedly the most perfect of all the American watches now made. It has all the latest improvements known to watchmaking, it being the latest production of American skill, only two years on the market, consequently it is a great improvement on all the other American watches, as it has to be to achieve the unparalleled success that it has in so short a time. Something no other factory ever did in the first ten years of its existence. And while they are the best, they are also the cheapest quality considered. Call and see them at M. D. Kelly's, our leading jeweler, and if you are in need of a fine time piece, something that you would be proud of, get you an Aurora.

G. U. West

wishes to let the public know that he is still at his old stand, near the depot. He has replenished his stock of groceries and proposes to sell as cheap as the cheapest. Go and see him for bargains.
