### Six Killed When Train Hits Auto.

Two-Year Old Child Only Occupant to Escape Instant Death

Six out of an automobile party of seven, en route from Ohio County to Beardstown in Perry County, were instantly killed and the seventh, a baby two years old, was injured, though miraculously saved, at Bushart's Mill, near Gibbs, Tenn., early Sunday morning, when the southbound Illinois Central Chickasaw struck and demolished the car as it attempted to cross the track between a northbound freight.

The dead:

Mrs. Belle Cude, 50, wife of J. C. Cude, prominent Beardstown merchant.

Claude Warren, 40, son-in-law of Mr. and Mrs. Cude.

Two Warren Children, the eldest, aged 8.

Tom Carl, young farmer of near Beardstown.

The two-year-old baby, who survived the tragedy is suffering from a broken thigh.

Double Track Confusing

The party made the trip from Beardstown to Ohio county last week for a visit to Willie Cude, of Ohio, a son of Mrs. Cude. They started back to Middle Tennessee Sunday morning.

When they reached the Illinois Central tracks about two miles south of Gibbs, a northbound freight was passing. It is supposed that Mr. Warren was driving the car. The railroad is double tracked, and the freight was on the east track as Mr. Warren approached from the west. The tracks are higher than the road. Mr. Warren drove up on the west or southbound track as the freight cleared.

Evidently he did not expect a train on the other track. The unexpected happened. The Chickasaw, the St. Louis-Memphis train, was running late. It bore down on the car, tearing it to pieces and scattering the occupants.

The six victims, badly mangled, were taken to Union City, and prepared for burial.

### Public Schools Opened Tuesday

Splendid Address by Supt. Myers and Brief Talks from Brilliant Minds

The opening exercises of Fulton City Schools which was attended by a large and appreciative audience, composed of the pupils, patrons and friends of the schools took place at Carr's Park auditorium, Tuesday morning.

After the audience had sung "America" and "My Old Kentucky Home," the Rev. C. H. Warren, pastor of the First Baptist church, delivered the invocation. Vest C. Myers, the new superintendent of city schools, was gracefully introduced to the audience by I. W. Dobbins, member of the board of education. Supt. Myers delivered an eloquent and instructive address on education, especially emphasizing the virtues of faith, brotherly love, love of country and "starting right," as related to the desire for and acquisition of a real education.

Following Supt. Myers, brief talks were made by Harvey J. Alexander, principal of the high school; Rev. T. F. Moore, of the Flag, and Daily Leader; E. J. Fall, member of the board of education; Dr. J. C. Scruggs, representative of the Rotary club; Prof. J. C. Cheek, for 20 years superintendent of Fulton Public Schools; Mrs. E. J. Fall, president of the P. T. A.; Mrs. McLaurine, president of the High School P. T. A.; Mrs. J. C. Brann, president of the Woman's club; Rev. J. V. Freeman, pastor of the First Methodist church; J. W. DeVault, principal of Carr Institute; Mrs. Frank Fleming, principal of Terry-Norman.

The opening exercises were closed by singing "Onward, Christian Soldiers."

At the conclusion of the opening exercises, the pupils and members of the faculty adjourned to their respective schools where a line-up of classes and studies was made.

The enrollment of pupils for the 1925-26 term will be the largest in the history of Fulton city schools, with 32 teachers.

### South Fulton School Opened Monday

With Flattering Prospects for a Large Enrollment

South Fulton High school opened Monday morning with Prof. H. L. Jones in charge, and with splendid prospects for the fall term.

Rev. C. H. Warren, pastor of the First Baptist Church, made the principal address of the occasion and Prof. Jones and others made very interesting talks.

The same teachers will be in charge of the various grades as last term, with the addition of one teacher for the fourth and fifth grades, in the person of Mrs. Minnie Legg, of Central avenue.

An appropriate program was carried out at the opening and notwithstanding the hot weather, there was a large attendance and quite a number of visitors.

An interesting musical program was given by Misses Ruel Flippo and Lola Chappell which was thoroughly appreciated by all in attendance.

### See You All Thanksgiving Day

### Water Famine Hits Herrin, Ill., Hard

"Sponge Bath" No Novelty to Illinois Towns as Result of Drouth

"A sponge bath" water ration, faces all of "Egypt" (Southern Illinois) because of prolonged drouth.

Herrin long since has given up even its Saturday wash and is buying water by the jugful at 5 cents a gallon. The water wagons call at Herrin homes each morning to leave the jugs in the same manner that milk is distributed. The cost is 25 cents for a five-gallon jug. Families who can afford it have large tanks filled for \$4.

Nine water wagons are operating and their proprietors are doing a thriving business. They are hauling the water from Marion, 10 miles away. Many persons have moved tanks on the rear of their cars and haul water from Marion for their own use. They pour it into their cisterns.

Some water is being drawn from abandoned mine pits near by for industrial uses, but the large industries are hit hardest. It is costing the Franklin County Coal company \$3,000 a month to ship train loads of water from the Ohio river, 50 miles away. The Herrin ice plant is using water from an old mine pit on its property for their boilers but has to ship in

its supply for the manufacture of ice from Johnson City, five miles east. Tank railroad cars are used for this purpose and the cost is \$20 a car freight and water.

### POPULAR I. C. CONDUCTOR IS DEAD

James Connors, about 55 years old, well known Illinois Central railroad passenger conductor, died Friday morning in a hospital at his home in Louisville. Conductor Connors had been in the passenger service between Louisville and Memphis for over thirty years and he was one of the best known conductors on the local division.

Funeral services and burial were held at Elizabethtown, Ky.

### I. C. Picnickers Report Good Time

Big Dinner and Good Program Greatly Enjoyed

The annual employees picnic of the Illinois Central Railroad company was enjoyed Monday at Edgewater Beach on Reelfoot Lake. About 400 or 500 boarded a special train in the morning, returning home at 9:50. It was a delightful outing. Not a single accident was reported during the day. Many enjoyed the pleasure of swimming in the lake. A splendid program was a feature of the occasion in which many took part and captured prizes. The big basket dinner could not have been excelled.

It is said by all who attended that the people of Tiptonville did everything in their power to make their trip one of pleasure and furnished free transportation in autos from the train to the beach.

### Interesting Meeting of the Chamber of Commerce.

A brief session of the Chamber of Commerce was held Tuesday evening at their rooms on Main street. Owing to the illness of President W. O. Shankle, Vice-President Theodore Kramer presided. A number of good talks were made during the session and the meeting proved to be unusually interesting. Some good reports were made on road work, etc. The key-note of Mr. Kramer's talk was "Let's all stand together for a bigger and better Fulton."

### Roof Buyers Want Good Appearance

Growing Tendency to Artistic Homes Calls for Most Careful Planning

That a roof must be good looking, must stay good looking—so long as it is on a house—is the first requirement of the home builders, according to Mr. T. J. Kramer, who is one of the prominent figures in the local building supply field.

"Manufacturers of shingles," said Mr. Kramer, "are making every effort to satisfy this demand. Their problem has been an exceedingly difficult one because the roof must not only be attractive; it cannot be flashy or freakish. The loud roof is certain to tire the owner sooner or later, and dissatisfaction is bound to arise. The roof on a home is like a suit of clothes that must be worn throughout the lifetime of a man. Therefore, the first essential is dignity of appearance, with rich tones that harmonize."

The manufacturers of the new Improved Hexagon Slab Slate Shingle has not endeavored to produce so many colors but has confined its efforts to a few good tones that are distinctive and rich, and which enable the architect to carry out his most elaborate plans. Much of the success of the Improved Hexagon Slab Slate shingle is due to this sensible solution of the appearance problem.

"The new red, green, blue black and autumn blend shingles we are displaying, are all colors of dignity, recognized as the most attractive colorings ever produced in a composition shingle."

"Its heavy tile-like pattern is distinctive guaranteed not to curl. It is truly a wonderful roof for either new work or over old wood shingles. We especially recommend this roof."

### W. T. PILLOW IS DEAD

W. T. Pillow, a prominent farmer of Hickman County, residing some 3 miles north of Fulton, died Monday morning at 9 o'clock from the effect of injuries sustained some days before. He was 65 years of age.

Mr. Pillow was injured in some manner by a horse, when he went out from home to bring in some horses, and never regained consciousness sufficient to tell how he was hurt. Funeral services and burial were held Tuesday.

### Nailing's Hospital at Union City

A Blessing to Suffering Humanity With Dr. W. A. Nailing, Chief Surgeon

During our visit to Union City, Sunday, we dropped in at Nailing's hospital where Dr. W. A. Nailing greeted us with a welcome handshake. Our attention was at once attracted to the neatness of the premises and the splendid equipment for caring for patients. Union City is fortunate, indeed, in having this hospital with Dr. Nailing as its chief surgeon. The success of the Nailing hospital is nothing less than phenomenal. During the past eight or ten years, some of the most hopeless cases have been cured at this institution, as well as some of the most delicate operations performed successfully.

As a general thing hospitals are not very pleasing to visit, but it is a genuine pleasure to visit this institution and see the smiling faces of some, who perhaps have suffered for years before going there.

Down deep in our heart we longingly wished for such an institution for Fulton with just the kind of a man as Dr. W. A. Nailing at the head of it.

### NEW I. C. TIME CARDS

Always anxious to give the traveling public the best of service, H. L. Hardy, manager of the H. L. Hardy Taxi company, and Albert Smith, proprietor of Smith's Cafe, are handing out time cards showing the arrival and departure of trains on the I. C. at Fulton. Quite a number of changes were made Sunday, Sept. 6, in the schedule of trains arriving and departing in the city, and while the Illinois Central Railroad Company had advertised said changes extensively in the newspapers, it was indeed commendable on the part of Messrs. Hardy and Smith to issue cards. The cards are given free at the taxi station and at Smith's Cafe.

### Hickman News

There is more cotton open now than was ever known here before at this time of the season, due to the excessive hot and dry summer. Ordinarily, the cotton stalk grows through the month of August and September, but the excessive heat of the past month is burning the stalk up. The heat is also too intense for midday picking, or at least to any great extent, and cooler days will be greatly welcomed by the planters and cotton pickers.

### New Nurse on Job

Miss Frances Dreisbach of Louisville, Ky., has arrived here and taken up the duties of public health nurse for this city and community, working in connection with Dr. J. C. Morrison, county public health officer. She succeeds Mrs. Anna Sims.

### Schools Opened

The Hickman public schools, consisting of the high school, the two East Hickman schools and the school located in West Hickman, known as the Tyler Memorial school, opened Monday morning for the fall and winter terms. All parents and patrons were invited to attend the opening services and a large crowd was in attendance. The afternoon will be devoted to organizing and forming classes.

### Operate on Youth

E. C. Mosely, who was injured by the N. C. & St. L. passenger train, has undergone an operation at St. Thomas hospital in Nashville for the removal of two small pieces of bone from his skull. He is reported to be getting along nicely at this writing.

### Lesson for September 13

PAUL IN THESSALONICA AND BEREA

LESSON TEXT—Acts 17:1-15.  
GOLDEN TEXT—"Prove all things; hold fast that which is good."—1 Thess. 5:21.

PRIMARY TOPIC—Loving God's Word.

JUNIOR TOPIC—Studying God's Word.

INTERMEDIATE AND SENIOR TOPIC—Two Kinds of Hearers.

YOUNG PEOPLE AND ADULT TOPIC—Searching the Scriptures.

I. Paul Preaching in Thessalonica (vv. 1-4).

1. His Method (vv. 1-2).

He observed the divine order, to the Jews first wherever he went (Acts 1:8; Rom. 2:9-10). He was exceedingly anxious for his kinsmen in the flesh, but whenever they proved themselves unworthy, he turned to the Gentiles. His own kinsmen first should be the method of every missionary, but should not stop there. He went out on the Sabbath day so as to find them assembled together.

2. His Message (v. 3).

His message was always and ever the same, viz., that Jesus is the Christ. To the Jew the essential thing was to be convinced from the Scriptures. So Paul expounded to them the Scriptures. This is the business of all ministers, to expound the Scriptures, to prove their positions by the Word. Concerning the Christ, he set forth three propositions:

(1) The Scriptures prove that Christ must be a sufferer (v. 3). "It behooved Christ to suffer." No plainer reference need be made than Isaiah 53, but it seems that the rabbis of that time had explained away the fact of a suffering Messiah so that the Jewish people were only looking for a glorious and powerful king to come; therefore they rejected Christ because of His lowly appearance. The same method of exegesis is employed by many Bible teachers and preachers today. Only the emphasis is placed upon the literal suffering of the Messiah, while they spiritualize and allegorize the teaching of the glorious coming of the Messiah to judge His enemies and to reign upon the earth (II Sam. 7:8-16; Isa. 53; Jer. 23:5-8; Zech. 9:9-14; Luke 1:31-33; Acts 1:6-7).

(2) That Christ Must Rise Again From the Dead (v. 3).

This he proved by the Scriptures. The resurrection of Christ, and the bodily resurrection of believers, needs sound and practical exposition in our churches today.

(3) That the Historic Jesus Whom He Proclaimed Did Suffer and Rise From the Dead; Therefore, He Is That Christ, the Predicted Messiah (v. 3).

II. The Attitude of the Jews (vv. 4-10a).

While some Jews believed and many Greeks, the envy of certain Jews was so aroused at Paul's success that they gathered together the worthless fellows of the town and set on foot a riot. They assaulted the house of Jason and dragged him before the rulers, having failed to get the missionaries. In their indictment of the missionaries they uttered unwittingly some great truths. They said: "These that have turned the world upside down." It is true that the gospel is revolutionary, but it is not treason to right government. The real truth, however, is that the world is now upside down. The work of the gospel is to set it right side up. They turned the preaching of Paul into a specious lie. He did preach the kingship of Jesus (see verse 7), but not as they endeavored to make it appear. Jesus is most assuredly coming to reign on this earth (Ps. 2). Let all men acknowledge Him in humble submission.

III. Paul Preaching in Berea (vv. 10b-15).

1. His Method (v. 10).

He entered the Jewish synagogue and preached Jesus unto them.

2. The Reception of the Gospel by the Bereans (vv. 11-12).

It was with gladness of heart. The message was just as new to these Jews and just as counter to their way of thinking as it was to the Thessalonian Jews, but they had a more noble disposition. The success of the gospel depends altogether on the disposition of the hearers. Two things are said of them:

(1) They received the message gladly.

(2) They searched the Scriptures daily for the truthfulness of the preaching. For this worthy act Paul says they were more noble than those at Thessalonica.

### SCIENCE IS NEVER IDLE

Science has done great things for humanity because science is never idle. Almost every day we learn of something that will revolutionize methods in the field of activity to which it is applied. Scientific research is never marking time.

An English scientist predicts that some day through broadcasting of heat from the tropics, the North Pole can be changed to a winter resort.

It requires a keen imagination to conjure up a picture of the tropics where the mythical North Pole stands, with eskimo women disporting themselves in short skirts and rolled hose, and the men with summer-weight clothing lolling under the shade of the palm trees.

But if we were to let our memories travel back 25 years, and itemize the inventions of the last quarter of a century, we would not be amazed at any prophecy of scientists.

Two Englishmen have perfected a new application of photography which, they claim

will make it possible to deliver the news through the air to newspapers, so that no type will have to be set.

A film on which all kinds of letters, figures and the like, have been photographed, is operated by a machine similar to a typewriter. It picks out the characters it wishes to use and these are projected by fractional exposures with the result that the finished product is something like a column of newspaper type. The size of the type is increased or decreased by changing the focus. Printing is done by direct lithographing, by offset photolitho, or by some other process. It is said that a master machine can send this service by wire or wireless, from a central station, and all of the subscribing newspapers would have their type set, to all intents and purposes, when the service arrived.

Thus nothing appears impossible on this planet, even though though we have not been able to explore the regions beyond.

### PEACE IN HERRIN

Herrin, Ill., which became a byword for lawlessness and crime, has been converted, according to report, and harsh words and gun toting have given way to Psalm reading and Bible carrying. Howard S. Williams, tall and peppery evangelist, once a newspaper man, is hailed as the peace negotiator.

Williams hails from Hattiesburg, Miss., and when he decided that he could be of some service in "Bloody Williamson County," he went in and began preaching a new doctrine—that men shall be their brothers' keepers instead of their destroyers.

His arrival followed the last memorial street duel, in which Glenn Young, Ora Thomas and two other men had been shot down. This had been a chapter added to the period of hate that had swept Williamson county since 1922.

Williams opened a small revival service, as many another evangelist had done. The town at first paid little attention to this stranger who spoke of the "Brotherhood of Man."

But as Williams unlimbered, the crowd increased. Bitter factionalists started attending the tabernacle where Williams held sway. The conversions began to mount.

Then one day Williams surprised everyone by walking into the lobby of the cigar store where Glenn Young had fought his last battle. With very few words the evangelist started his little group of helpers to singing a hymn. There was a brief talk and a prayer.

After that Herrin and Williamson County belonged to the youthful evangelist. Stores closed at noon for an hour so that everyone could attend the noon-day services. The night services were packed.

Sheriff George Galligan,

whose name a few months ago evoked a hasty oiling of pistols, went into town unmolested. His deputies walked at his side. They visited the tabernacle and following the service some 5,000 persons walked up to shake the hand of the sheriff.

Williams has closed his meetings and departed. However, the town continues peace bent, with eyes turned toward improving the land—rather than "bumping off" opponents.

### Belief in Signs.

People who do not believe in signs, particularly road signs, in this day and age are as a rule of few days on earth.

Road signs are put up for a purpose, a wholly commendable purpose—to save people's lives. When their warning is disregarded, it is ignorance of the rank-est sort.

A sign reading "Danger, Bad Curve," means just what it says. If there were no danger at the curve, motor clubs and highway commissions would not have put one there.

A warning sign signifies that there have been accidents at that point—probably fatal accidents, and for one to disregard a friendly effort to save lives and property is unpardonable.

There may be occasions when warning signals seem superfluous, after they have been obeyed, but if the motorist who has such an idea will go back and travel over the same path at normal speed, he will find ample excuse for the sign, if he escapes unscathed.

Road signs require too much time, energy and money for them not to be taken literally and seriously. They are on the road to protect you and others who are driving. Use them, believe in them and you will never regret it.

### Unfair Abuse.

Money and the people who have it are let in for a great deal of abuse. All too often public speakers condemn wealth and close their addresses with appeals for funds for their pet hobbies. School children are taught that financial success is not genuine success.

But how much of this talk is cheap clap trap? How much do the people who give utterance to such sentiments really believe?

Of course the making of money should not be a single purpose in life; neither should it be the chief aim, but it should be one goal, because money is quite essential.

To save money means to make money, and the saving of money develops self denial, restraint and character. The habit of thrift is a fine habit to cultivate.

The abuse of money is wrong and has a bad influence on others, but the right use of money is an important factor of every worthwhile movement, whether local in character or national in its scope.

### Better Service Than Ever

THE scope and efficiency of long distance telephone service has made our nation one big friendly neighborhood. To talk across the continent is almost as easy as calling across the hedge to your next-door neighbor.

The long distance lines in Kentucky are a part of this nation-wide system, and also serve a vital need in the business life of the State and the South.

To care for this growing demand will require an expenditure of \$373,000 this year for reconstruction and additions to the long distance system in Kentucky alone.

The long distance service is better than ever before. The transmission is clear and the operators are handling a larger volume of calls with speed and accuracy.

Merchants, manufacturers and business men are utilizing this service to increase business and reduce expenses. Why not try it?

### FOUR INDICTMENTS AGAINST A. L. BRAND HAVE BEEN DISMISSED

The Mayfield Messenger says: "Four indictments against Art Brand, former Graves county politician and several times candidate for sheriff, who is serving sentence in the pen at Eddyville, have been dismissed. His two-year term will expire in October."

"Orders have been made in the office of Circuit Clerk Noah Caldwell's office dismissing the counts because of Brand serving in the penitentiary for charges growing out of these charges."

"The indictments dismissed were returned by the grand jury in session June 25, 1921, and were procuring money with which to bribe a judicial officer, and three charges of obtaining money by false pretenses and statements. The orders were signed by Commonwealth's Attorney F. B. Martin."

### MISS SYLVIA HARRINGTON KILLED BY AUTO AT HICKMAN

Sylvia Harrington, the 13-year-old daughter of Mr. and Mrs. J. E. Harrington, who reside eight miles below Hickman, was killed Saturday afternoon in the main business section of Hickman when she was struck by an automobile driven by Mrs. Edna Carpenter Shaw. The girl died within three minutes after being picked. The accident was said to have been wholly unavoidable, the child stepping off the sidewalk to cross the street and stopping to talk to her little sister on the walk, not seeing the car. Mrs. Shaw threw the brakes on as she saw the child step off the walk right in front of her car, the car skidding some 16 or more feet, but the child was struck just below the hips and pitched to the brick pavement, striking her head just above the left temple, the fall on the brick street killing her. The accident was witnessed by scores of people who were standing on the sidewalks. Mrs. Shaw, who is a well known cotton planter of this city was accompanied by her father, Val Carpenter. The car came to a standstill just as it reached the child's body. The child's parents and little sisters were only a short distance away.

### POULTRY SHOW HIGHLY COMPLIMENTED

There were many compliments passed on the poultry show at the County Fair, and it was the general impression that it was the best display ever seen there. An encouraging feature to the members of the Fulton Poultry Association is the reported intention of the Fair managers to greatly increase the size of the poultry pavilion for next year's show, and to obtain wire display coops, similar to those provided for the last show.

If the fair people and the Poultry Association members combine on this feature there is no reason why Fulton cannot put on a splendid exhibit of poultry, and in the course of a few years make this section of Kentucky and Tennessee one of the recognized poultry sections of the country.

Other states and sections not nearly so favored as to weather conditions, are way ahead of us in the raising of thoroughbred fowls, and have established a nation-wide market for poultry stock of all breeds, and this, in spite of more cold weather and added expense for housing and feeding than is the case in this section.

Like every other betterment of a community, this will take a lot of propaganda and cooperation, and the members of the Fulton Poultry Association should think and talk poultry on every and all occasions, so that when the time comes for the entering for next fall's show, they will be ready to crowd the new building to capacity.

### ANOTHER HARD-SURFACED HIGHWAY

Fulton will soon be enjoying the prospects of another hard-surfaced highway into its midst as there is every prospect that the highway from Paducah, via Mayfield will be started as soon as the preliminary work is completed.

Engineer Galbreath, of the Federal Highway Commission, was here last week and, it is stated that he has intimated that the Federal Commission will take over this work at an early date if the cost of the survey and right-of-way through Hickman and Fulton counties can be arranged without cost to the Federal government.

This seems to have been done, and it is understood that, as this is a part of Project 54, of which the Fulton-Hickman highway is part, also, the work will be started as soon as possible.

Winchester—The new rural school at Pilotview, Clark County, will be dedicated with formal exercises. This structure, modern in every detail, was completed only recently. It is situated in the center of a beautiful two-acre campus, and is one of the vicinity's most attractive schools.

Bowling Green—Squire Stahl, Richwoodville, held Ellis Cole, 81, to the September grand jury charged with stealing a horse from Samuel Raymer. At his examining trial held Monday afternoon, Cole's bond was fixed at \$250 which he failed to give and he was returned to the Warren County jail.

Mayesville—At a meeting of the directors of both the Kentucky Cardinal Band and the Mayesville Band, the two organizations were merged and will be known hereafter as the Mayesville Band. George L. Barnard will manage and direct the new band. The band has always been a municipal affair, supported by popular subscription.

Murray—Curt Jones, who shot and killed his wife at her home, northeast of Murray, and then shot himself in the head, died at the home of his brother, Lonnie Jones, north of Murray. Paris—With the exception of the first two dates, October 2 and October 3, the schedule for the Millersburg Military Institute football team is complete, and is one of the hardest schedules the team has had in recent years. Coach Rees has seven letter men to build around this year, and he predicts one of the strongest teams in the history of the school.

Bowling Green—W. D. Kirby, who came here with his wife from Glasgow, was arrested on five warrants sent here from Glasgow, four charging him with issuing cold checks and one for evading a board bill.

Mayesville—The Germantown Fair closed with the largest crowd that was ever on the grounds, estimated at between 7,000 and 8,000 people. And besides the largest crowd there was one of the prettiest rings of saddle and harness horses that has been shown there in many years.

### LEGION MEETING OPENS AT MT. STERLING

REPORTS OF OFFICERS SHOW BIG INCREASE IN MEMBERSHIP

Welcome Addresses Delivered—Silver Loving Cups Awarded—Golf and Tennis Preliminary Tournaments Held by "Buddies"

Mt. Sterling—The American Legion convention opened with appropriate exercises at the city high school auditorium. State Commander Frank D. Rash presided and welcome addresses were delivered by T. B. Hill, County Judge Scott, W. H. Sullivan and Mrs. A. B. Oldham. Responses were made by G. L. McLean, state vice commander; L. J. Dominick, past grand chief de gare of "Forty and Eight," and Miss Mary E. Clark, of Lexington.

Reports of State officers were given and showed the organization to be increasing in membership and in interest. Silver loving cups were awarded to Hospital Post No. 103, and J. Franklin Bell Post No. 100, of Dawson Springs, and Norman Barnes Post No. 70, of Covington, as membership trophies.

The addresses of presentation were made by H. D. Moorman, of Hardinsburg; Uncle Bell, of Washington, and M. K. Gordon, of Madisonville, all past post commanders.

The women and post members were given a reception at the History Club rooms by the woman's auxiliary of Montgomery County, which was largely attended. Golf and tennis preliminary tournaments were held at the Country Club in which many of the "buddies" played. The grand promenade of the "Forty and Eight" was given by the Lexington Vulture, headed by Conductor Justin R. McCarthy and Chief de Gare R. M. Guthrie, of Lexington, and the Lexington wrecking crew had charge of the work. The parade was lighted by red flares and with the humorous costumes of the many candidates and various stunts pulled off on the streets, was one of the best ever given. There were probably two hundred and fifty members in line.

Gen. George H. Harries, the first American General to enter Berlin, and John A. Drain, national commander, delivered addresses.

The woman's auxiliary held their first meeting, which was well attended, delegates being present from Harpersburg, Earnings, Madisonville, Mt. Mrs. William Lynch, state president, was in the chair and made an address and a vocal duet was given by Misses Cox and Robins, of Mt. Sterling.

Rash, bringing greetings to the Legion, the address of welcome, was delivered by Mrs. Ben H. Scott, president of the local auxiliary, and the response was made by Mrs. John Marshall, ex-national committee woman.

### CURVE TO BE MADE SAFE

Boyle to Place Signs on Dangerous Turn on Danville-Harrison Pike.

Danville—Nathan C. Levy, a member of the merchandise jobber firm of Jacob Levy & Bros., of Louisville, who recently was injured in an automobile accident at Cove Springs on the Danville-Harrowsburg Pike, made a complaint to the Louisville Automobile Club concerning the dangerous curve at this point. In a letter to the secretary-manager of the club, Mr. Levy pointed out the danger that lies in the curve, especially as long as it has no warning signs. The secretary of the club immediately sent a letter to Danville, asking about the curve and asking the citizens here to investigate it. The Louisville club has offered to furnish the signs if someone here will put them up. J. Curtis Alcock, a member of the Chamber of Commerce, wrote to the Louisville club asking for the signs and promising the co-operation of the Chamber of Commerce. The curve is well-known throughout Kentucky and numerous wrecks have occurred there.

### Belle Crowned by Pennyroyal Fair

Hopkinsville—Miss Louise Gregory, of Pembroke, is being acclaimed the most beautiful girl in the Pennyroyal, having been picked by the judges at the Pennyroyal Fair Grounds from among the contestants to represent this section at the Kentucky State Fair. Although the judging was close, the judges find it hard to decide who was the most beautiful among such an aggregation of feminine pluckitude, the beauty contest committee and the fair directors feel that in Miss Gregory the Pennyroyal will have as worthy a representative as could be desired.

### Monroe Countian Fatally Wounded

Glasgow—According to a report which reached here Carter Russell of Safford, Lick, Monroe County, has been fatally shot by a man by the name of Fred Page. Russell was shot through the stomach and chest at close range. According to the report, Russell can not recover. After a short talk the shooting followed.

### VIVIANI DIES OF BROKEN HEART

GREAT ORATOR'S MIND FAILED WHEN WIFE DIED

EX-PREMIER OF FRANCE

As Orator, He Held Same Position in France as Bryan in America, But Lacked Bryan's Deep Religious Background

Paris.—Rene Viviani, former premier of France and twice his country's representative on important missions to the United States, died in the Malmalson Sanatorium, where he had been a patient for the last two years. The part which M. Viviani played in the relations of France in the United States figures largely in the tributes which the press paid his memory. In describing his extraordinary powers of oratory, most of the papers mention the effect he produced on American audiences when he visited the United States with Marshal Joffre in 1917, and when he attended the Washington conference in 1921.

M. Viviani's end came peacefully after a long period of extreme feebleness which, friends said, was to be traced to the death of his wife, soon after his return from Washington in 1922. He collapsed while pleading a case in court June 8, 1923, and had been confined to the sanatorium since, suffering from complete breakdown.

His friend, Stephen Lauzanne, writing in Le Matin, recalls how M. Viviani said to him when they were returning to France aboard the liner Paris, from the Washington conference: "We may love several times in a lifetime but we really love but once." M. Lauzanne says that he only understood the meaning of these words when, a few months later, he saw M. Viviani at his wife's funeral. That was the date from which the former premier's mind began to fail, his friends write.

"He was not a man of action," M. Lauzanne sums up, "but let us not make the mistake of undervaluing our men of words. If they do not aid poor humanity to mount the hill, they at least light the road magnificently."

Rene Viviani, ex-premier of France and internationally famous lawyer and statesman, was the most renowned of the public men given to the French nation by her young colonies in Africa. Born Nov. 8, 1863, in the thriving little village of Sidi Bel Abbas, in the interior of Algeria—which was itself born of the brilliant French conquest—Viviani came to be known as a man who embodied in their truest sense the principles of liberty, equality and fraternity upon which the French republic was founded.

Destined by his pious mother to the cloth of the Roman Catholic Church, Viviani's taste for oratory and love of debate estranged him from the secular influence in early manhood and decided his choice of the law as a profession.

He was graduated from the University of Paris and immediately began the practice of law in Algiers, but it was not long before his ambitions required a wider field. He overcame many obstacles to establish himself in Paris, and many more before anyone knew he was there, yet his rise was meteoric and he took high rank at the bar, and an enviable niche in politics.

### 100,000 Bales Estimate

Clarksdale, Miss.—Estimates of Coahoma County's large cotton crop by numbers of planters in this section range from 75,000 to 100,000 bales. The cotton is rapidly opening throughout Coahoma and the biggest problem that is now facing the planters is securing adequate labor to pick what may prove to be the largest yield in the history of the county.

### Holcomb Electrocuted

Walnut Ridge, Ark.—Curtis Holcomb, aged 35, was electrocuted at the plant of the Arkansas-Missouri Power Company. While putting down a concrete floor his left shoulder touched a switch and his death was instantaneous. He leaves a wife, grandmother, Mrs. W. W. Sherry, and was a nephew of Dr. J. C. Land.

Monroe, La.—Following a coroner's verdict of murder and suicide in the deaths of Mrs. Nick Ramsey and Robert Witt, 23, police were endeavoring to establish which of the two did the shooting.

Jackson, Miss.—Projected into the federal courts, the \$12,000,000 suit of W. J. Miller, state revenue agent of Mississippi, against the Ford Motor Company, was the subject of considerable controversy in legal circles here.

### SHENANDOAH IS COMPLETE WRECK

COMMANDER OF BIG DIRIGIBLE LOSES LIFE

FOURTEEN DIE IN CRASH

Survivor Tells of Ship's Losing Battle Against Storm Over Ohio. One Part Falls Ten Miles Away

Caldwell, Ohio.—The giant dirigible Shenandoah is no more. It went down in three pieces here and killed its commander, Lieut. Com. Zachary Lansdowne, and 13 of the officers and men making up her crew.

The airship struck a line squall—a variety of storm most feared by airmen—near the Noble County village, while traveling at an altitude of 3,000 feet en route from Lakehurst, N. J., to the west.

There was no explosion. The big ship simply met winds of a strength which it was unable to combat. After encountering the storm at the high altitude the ship headed heavenward to an altitude of approximately 5,000 feet when it suddenly came down again, and broke into three pieces. One piece, 450 feet or more in length, fell into a field about one and a half miles from Ava. The control compartment in which the commander and navigating crew were riding, fell 50 feet away, a third section, 150 feet long, drifted through the air like a free balloon for 12 miles, landing near Sharon, Noble County.

Most of the dead were found in the tangled wreckage of the control cabin where a full crew was on duty attempting to ride out the buffeting winds which resulted in the complete destruction of the giant of the air.

Ambulances and other conveyances which carried physicians and others to the scene immediately following the accident, transported the dead and injured to nearby towns. Those who met death in the unsuccessful fight against the elements were taken to Belle valley, while the injured were scattered in the various hospitals of the community.

The story of the disaster is one of heroism of the crew, pioneers in the interest of the development of lighter-than-air transportation. It is best told by Col. C. G. Hall, United States Army observer, aboard the ill-fated ship.

"We were traveling west at an altitude of about 3,000 feet when we encountered a storm," Col. Hall said, in describing the accident. "By changing our course a dozen or more times, we dodged it only to encounter the line squall which sent us to an altitude of 5,000 feet before we realized what had happened."

"We opened the valves to let out gas and lowered the ship and were drawing away from the storm at a 50-mile per hour rate when the storm enveloped us and broke the ship into three pieces. I exclaimed to Commander Lansdowne: 'Everyone beat it.' When the crash came I was on the ladder leading from the control cabin to the rear portion of the ship. As I started to fall I clutched a girder to which I hung suspended, finally swinging my body over it and crawling 40 or 50 feet back into the ship."

When he reached the ship proper Col. Hall said that he found other members of the crew preparing to open the valves in order to bring about a descent. Here he found Lieut. Roland G. Mayer, loading officer, and Lieut. J. B. Anderson, aerologist. The latter, Col. Hall said, had made his way to the rear on the cat walk. All three descended safely.

### SENTIMENT FLAREBACK IN PUBLICITY ISSUE

Income Tax Figures Bring Unjust Criticism

Washington.—While there is probably as much interest manifested in the national capital in the publication of income tax figures of various individuals as there is elsewhere, there has been a decided flareback in public sentiment locally following the latest publicity experiment. The consensus of opinion here is that the publicity is undesirable from the standpoint of the public interest, regardless of the effect on individuals who fall under unjust criticism arising from the inference that they have violated the law in making their returns.

### British Ships Leave Port Despite Strike

London.—So far as British ports are concerned, the seamen's unofficial strike is petering out, owing to the ease with which men are found to replace the strikers.

Tokio, Japan.—An imperial palace, covering one acre of ground and costing about 600,000 yen, or \$200,000, is being built for Prince Chichibu within the compound of the Alaska Detached Palace.

### See the New Improved Hexagon Slate Shingle

This wonderful roof has been one of the leaders for many years, was 12 1/2"x32", now made 12 1/4"x36", making a full THREE thickness roof when laid. Comes in four colors—Red, Green, Blue Black and Autumn Blend. Easy to lay, does not have the waste that most patterns do on the hips and in the valleys.

Its heavy tile-like pattern is distinctive. Guaranteed not to curl. It is truly a wonderful roof for either new work or over old wood shingles. We recommend this roof and guarantee your satisfaction.

A few of the many roofs of this kind, on new jobs, are: The Pickle Filling Station, Bungalow of H. W. Williams on Green Street, The Christian Church, Over old wood shingles—M. C. Payne home on Park Avenue, Dr. T. F. Thomson home, Eddings and Fourth.

Look these roofs over, then come in and let us show you "THIS WONDERFUL ROOF."

## COUNT VOLPI TO HEAD BOARD

PIRELLI, RUBBER MAGNATE,  
ALSO ON COMMISSION

### BOARD REPRESENTATIVE

Government Calls on Press Not to  
Print Inflammatory Articles Which  
Might Embarrass Funding of  
Debt to America

Rome. — Count Volpi was officially named as the head of the Italian debt funding commission to the United States. The other members of the commission are Dino Grandi, under-secretary in the foreign ministry; Alberto Pirelli of Milan, Italy's rubber magnate; Mario Alberto, minister without portfolio; Giacomo de Martino, Italian ambassador to Washington, and Senator Count Bonin Longara, industrialist. Gino Butti, first secretary of the embassy at Washington and chief secretary of the commission, will be accompanied by a corps of experts in business and finance who are collecting facts and figures to be used in urging the most favorable terms for Italy.

The government, in a timely statement, calls on the Italian press to maintain its spirit of loyalty to the country and not print prior to or during the negotiations anything of an inflammatory or trouble making nature. That the warning was needed was evidenced by the publication in this afternoon's *Il Tevere*, under the heading "Made in the U. S. A.," of an article citing the refusal of the southern states, after the Civil War, to pay their debts to Europe, as proof that the repudiation idea was born in the United States.

*Il Tevere* is not an important publication, but is read by thousands, who, not being familiar with history, jump to the conclusion that the debt situation now and then are parallel.

On the other hand, the powerful and sane papers of the type of *Messaggero*, while naturally desiring the best possible settlement for Italy, temper their discussions with declarations that no move must be made to disrupt the cordial relations existing between the two countries.

These papers thus reflect, I am assured by high officials, a sincere wish for the success of the Mussolini government in its negotiations for funding the war debt to America.

### VISIT OF KLANSMEN CAUSES CHURCH ROW

Pastor and Helper Quit Mississippi  
Community

Philadelphia, Miss.—It has just developed here that the visit of a dozen klansmen in Klan regalia to a Baptist protracted meeting at Providence, beat five, this county, resulted in a first-class row terminating the meeting and the official tenure of the pastor of the church.

As the klansmen marched into the church the pastor lead the choir in singing "Onward Christian Soldiers." An aged member of the church arose, interrupted the singing and spoke in protest of the procedure. The speech was applauded liberally and tumult followed. Violence was narrowly averted. Early next morning the pastor, the Rev. Walter Kitchen, and the evangelist, the Rev. V. B. Kitchens, left the community.

### Wins Pistol Duel

Texarkana, Ark. — Ed Smiley, a time-keeper employed by the Cotton Belt Railroad at its commissary at Edson Switch, three miles from Texarkana, engaged in a pistol duel with three negro bandits shortly after 7 o'clock this morning when they attempted to rob the commissary stores. Armed with two pistols, Smiley opened fire upon the trio when they rushed him, and succeeded in wounding one of the negroes in the leg. The negroes fled after firing some shots at Smiley and two of them were captured later by Sheriff Lish Barber and Constable Virgil Grigson. The wounded man who was captured is Sol Almy and the other is Ben McCoy. Officers are searching for the third man.

Washington. — Release before Sept. 15 of Dr. Harvey J. Howard, held prisoner by Chinese bandits, was forecast in a cablegram to the State Department by Samuel Sokobin, American consul at Harbin. The consul asserted that he had just returned from Tatsihar, where Governor Wu "is doing his utmost to secure the release of Dr. Howard."

London. — Airship experts of the British air ministry appeared not to be disturbed professionally by the disaster to the dirigible *Shenandoah*, although they frankly admitted the tragedy would have an unfavorable propaganda effect against airships in all countries.

Waukegan, Wis. — Frederick D. Underwood, president of the Erie Railroad, may be operated upon within a week for a kidney complication, according to Dr. A. E. Fletcher, attending physician.
