Youth Kills Stepmother

Bill H. Smith, brother of Mr. and Mrs. Geo. Snow, of this place, killed his stepmother, Mrs. M. A. Snow, his stepfather, Mr. Geo. Snow, and himself, with a .45 caliber revolver, on Thursday, this week, when a fire occurred in the house, Calif. The bodies of the three victims were found in the rear room of the house, where the fire started. The motive of the killing is not known, but it is believed that it was caused by a difference of opinion between the victims and the deceased, who was found with a bullet in his head. The case is now in the hands of the coroner's jury.

Industry Needs An R. F. C., Too

INDUSTRIAL CHARACTERS:

Industry has been fighting to attract the nation's attention as much as anything else. The struggle is not over, for its representatives have not yet entered the battle. Industry, however, is not to be underestimated. The power of the nation's commerce, the symbol of its ability and integrity, stands firmly on the same level as that of the government. Industry has been fighting for its share of the nation's resources, and it has not been easily defeated. Industry's representatives have been successful in their efforts, and the nation has begun to recognize its worth. Industry is not only a force in the nation's economy, but it is also a symbol of the nation's ability to work and to make progress.

WHY DO THEY REPRESENT?

After the State Board of Economic Development had turned a blind eye to the nation's industries, a number of prominent industrialists, including several of the nation's leading relatives, went to Washington to appeal to the nation's leaders. Industry's representatives have been successful in their efforts, and the nation has begun to recognize its worth. Industry is not only a force in the nation's economy, but it is also a symbol of the nation's ability to work and to make progress.
