A MUNICIPAL LEAGUE IS TO BE ORGANIZED HERE

Preliminary steps taken for organization to oppose giving away franchises, regulating rates and municipal ownership of water and plants—A non-political organization.

A movement that means much to the citizens of Paducah is now in process of organization. In the interest of municipal ownership of public utilities, and to prevent such giving away of franchises to private parties as has been done in the past, a municipal league is now being formed. The first meeting of the new organization was held in the courthouse last Thursday night. A strong and able board of directors was elected, and the work of the league is getting under way.

The league will have for its object the prevention of giving away franchises to private parties which has been done in the past in Paducah. The members of the league will work for the establishment of public ownership of water, gas and electric plants in the city. The first meeting of the league was held in the courthouse last Thursday night, and a large number of citizens were present.

The treaty will also provide for the establishment of a neutral zone in the South Pacific, and for the withdrawal of the American marines from that region. The treaty will also provide for the establishment of a neutral zone in the North Pacific, and for the withdrawal of the American marines from that region. What seems to be diagnostic of a case of acute laryngitis is a persistent coughing, the cough being most active at night. In an old case, coughing is not so acute. To prove this, several times to try a case, and in every case the cough was more acute than in the old case. It is well known that acute laryngitis is a common ailment of the throat, and that it is best treated by exercise and diet.
