LIST OF TRANSFERS.

R. C. Bell to Texas conference. J. R. Harding to Texas. T. C. Pettigrew to Texas. J. C. Throgmorton and J. T. Rickotts to St. Louis conference.

J. L. Lucas to Arkansas conference. J. R. Nelson White River conference.

Saturday evening there was quite a spirited contest as to what place would secure the next session of the conference, the principal contenders being Covington, Tenn., and Paducah, Ky., Covington securing the most votes will be the hostess of the next annual conference.

Hamlin.

Health is generally good at this writing. A nice rain fell here Sunday night.

The farmers are about done gathering corn. The yield is not hardly as good as was expected. Thomas & McCage have started their new saw mill.

The timber business is quite dull at present but may possibly be better in a short time. Tom Bell has gone to Elm Tree, Tenn., to engage in the mercantile business. Tom is a hustler and we wish him success.

George Bell is building near A. C. Thomas. Eld. G. M. Workman has his new dwelling about completed. Pleas Jones has moved to J. F. Thurman's and will work on the farm next year.

J. L. Rowlett and wife have been quite sick but are reported better at this writing. Bob Parker and Bob McCage are the proud fathers of brand new babies.

Dick Patrell will work on J. N. Lassiter's place next year. M. C. Hodges went to Murray Monday on business.

Well the election is past, and the first thing we may look for after Willson takes the chair is W. S. Taylor with a pardon in his inside pocket. Others will follow later.

Success to Jennings and the Old Reliable. TOM TINKER.

Will Come to Murray.

In referring to the removal of W. E. King, agent for the N. C. & St. L. railway company at this place to Paris, and his possible successor the Paducah Register of the 16th says:

"Agent W. E. King for the N. C. & St. L. at Murray, has been transferred to Paris, Tenn., to be agent for the road. He will probably be succeeded at Murray by Mr. William Hills, at present night train dispatcher for the road in the Paducah office. Mr. Hills has returned from Murray, where he arranged to buy Mr. King's home if the former is made the Murray agent. He is one of the best railroaders in the country and would make an excellent local agent representative."

ENDS HIS LIFE

Strother Harding, Former Citizen of This County Committed Suicide in St. Louis.

The remains of Strother Harding, son of H. W. Harding, formerly a citizen of this county and now living near Martin, Tenn., was brought to Murray last Saturday evening, and after services Sunday at 11 o'clock a. m. at the Baptist church by Rev. H. B. Taylor, were laid to rest in the City Cemetery.

Strother Harding was a native of this county and left here only a few years ago and went to Texas where he was employed as a bank clerk. From Texas he went to St. Louis where he had similar employment. The St. Louis Post-Dispatch gives the following detailed account of the suicide:

Officials of the Mechanics-American National Bank can assign no reason for the suicide of Strother Harding, 29 years old, one of the bank's most valued clerks, who ended his life in his room at 2341 Whittemore place Thursday night.

Lying open on a table before him as he drank two ounces of carbolic acid was a letter from his mother, Mrs. H. W. Harding, of Martin, Tenn., in which she mildly reproached him for leaving home and pleaded with him to "be a man."

With his roommate, Raymond Voss, a railroad clerk, Harding moved to the Whittemore place house from 3035A Bell avenue a week ago.

Mr. and Mrs. B. M. Comins, who keep the house, say that he always was home by 6 o'clock. But that Thursday night he did not arrive until 9:30. He went at once to his room, but a few minutes later he went to the room occupied by Lewis Birch and Eugene Bachman and borrowed a bottle of ink, saying he was going to write a letter home.

Five minutes later Birch and Bachman heard a scream. They ran to Harding's room and found him unconscious.

He had been sitting on the bed with a table pulled up in front of him. When the other roomers found him he was half reclining with his elbow on a pillow, but was unconscious.

The letter from his mother, which lay on the table, read:

"Strother, my dear boy—I received your letter yesterday and it read as though you were not at work at the bank, by your address being changed. I want to know if you are still at work in the bank or what you are doing."

"You said you had no place to call home. Why don't you have a boarding place? That ought to be your home. Where your clothes are is your home. You had a home with us but you wouldn't stay. I know there never was a mother that loved her children better than I. I did all in my power for you but all my kind words and all I could do did no good, so I can only ask God in His mercy to be with you."

"I feel God has answered my prayers in time of trouble and feel that He will again. While I am fighting the battles of life I am fighting for a better world."

"You just remember that, if I can't reach you with words, my prayers can follow you to the ends of the earth. My whole desire is that my children shall make useful men and women."

"Just resolve that you'll be a man and stick to it. There is none of us that is perfect, the Bible says—that one."

"If you don't want to write me a letter every week, just drop

me a post card.

"With lots of love, MOTHER."

In Harding's effects also was a letter in which his father, a Southern planter, asked searching questions about the young man's affairs and seemed particularly anxious to learn whether the son had paid the latest installment on a note to a "Mr. Thompson."

Assistant Cashier Trumbo of the Mechanics-American Bank said Friday that he was shocked greatly when he learned of the young clerk's suicide.

He said the young man had worked all day Thursday and that his position was secure. "I can't understand it," he said. "He came here with splendid recommendations from several Texas banks and we considered him one of the best and most reliable men we had. He worked here as usual yesterday."

A Great Opportunity.

To buy one of the best farms in Calloway county low down if taken within the next 30 days. Farm of 172 acres, known as the "Billie Ivan farm," 1 mile west of Dexter. 160 acres in cultivation, balance in timber. All fenced and cross fenced, 50 acres grass, nice orchard, two story brick residence of 10 rooms, with good cellar, 2 tenant houses, 2 wells of fine water, cistern, and one of the nicest ponds in the county, well stocked with fish, good stables, crib, 3 good tobacco barns and all necessary out buildings. If you want to buy an ideal home at a great sacrifice and on easy terms you had better see me quick as this place is sure to go at the price asked.

D. F. PACE, Murray, Ky.

Death of Prominent Lady.

One of the saddest deaths it has ever become our duty to chronicle is that of Mrs. G. H. Wells, wife of the principal of our graded school, which occurred at her late home here last Saturday morning about five o'clock. Septic poison was the cause of her death.

While it is always sad to see any one called from their daily walks of life upon this earth just in the bloom of life and at a time when they are just beginning to realize what there is in life and what they are living for, but in this case it is all the more sad from the fact that in her death a ten days-old infant son is left to battle with life in this cold and uncertain world without the tender watchcare and loving hand of a mother to guide him aright.—Cadiz Record.

New Providence.

Some sickness this week. Little Mavis Henry has pneumonia.

Whooping cough is still raging in and around here. Farmers are all about through gathering corn and getting wood and hauling ties is the order of the day.

Dr. E. B. Curd and wife, of Hazel, visited their children in this city Sunday and Sunday night. We are always glad to see these good people in our midst.

Mrs. Fannie Wilkerson and son, Leonard, of Pryear, visited in this community several days last week.

Dick Lee has returned from Fulton where he visited relatives. Everybody come to hear Pigue first Sunday night in November.

There was a grand reunion at the Christian church last Sunday in this little place. It was a day set apart for the New Providence, Hazel, Blood River and Green Plain churches to come together

and have a "reunion." But they did not stop just at these four churches, they were there from Murray, Pryear and beyond these places. There was dinner on the ground for everybody. There was a multitude fed and we are sure there was twelve baskets full taken up and we feel safe in saying that we listened to two of the best sermons ever preached here. Those that know and have heard W. T. Boaz know when he enters the pulpit that he enters a clean man and will preach Gods word as set forth in Divine Revelations. Never has he been known to preach anything more, he takes it from start to finish, he neither takes from nor adds to. Such was the sermons last Lords day. We wish to thank the vast concourse of people for their good behavior and undivided attention. We feel that every unprejudice person, man or woman, can say they were benefitted by being there. We are very sorry to think Bro. Boaz will be with us but one more time 4th Sunday eve in November he has been here for three years and has done a good work. Every one feels that it is well to have him with us. He will leave soon for Columbia, Tenn., where he has accepted work. A true Christian leaves us and goes to them. We can say to the people of that place that you have a good man, a christian preacher, one that you will never feel sorry for having among you. We hope the time will soon come when he will be here and we will all enjoy another Lord's day as we enjoyed the 2nd Sunday in November.

Why Left Off.

Washington, Nov. 16.—In answer to one of the numerous protests that have been received at the White House against the new gold pieces which have been coined without the words "In God We Trust," President Roosevelt has written a letter, which he today made public. He says: "When the question of the new coin came up, we looked into the law and found there was no warrant therein for putting 'In God We Trust' on the coins. As the custom, although without legal warrant, had grown up, however, I might have felt the liberty to keep the inscription had I approved of its being on the coinage. But as I did not approve of it, I did not direct that it should be put on. Of course, the law is absolutely in the hands of Congress, and any direction of Congress in the matter will be immediately obeyed. At present, as I have said, there is no warrant in the law for the inscription."

REXALL

REMEDIES HAVE ARRIVED IN TOWN.

No doubt you have heard of them. They are used by several millions of people throughout the United States, and we sell them to you with a guarantee that if they are not what we claim we will gladly refund your money. One remedy for each human ill.

Some three years ago a number of prominent retail druggists—realizing that a big change was to be made in the proprietary medicine business, that the public demanded to know what the ingredients were of the preparations they were advertising, and that a general reform was about to take place in proprietary medicine manufacturing and advertising, formed a co-operative company to meet the public's demand. This company was called The United Drug Co., of which the undersigned has become one of the two thousand members. Our object was, first, to manufacture a line of prescriptions such as we had tried out in our stores and found to give the very best of results, and second, by owning our own co-operative manufacturing company we would be able to know the exact formula of every preparation we were selling, thus enabling us to give to the public the very best remedies we could find at actual manufacturing cost, plus a single retail profit.

This enabled The United Drug Company to escape the heavy charges for advertising and other expenses such as have to be paid by proprietary remedies. What was most important, it insured safety and satisfaction to our customers, because we druggists know just what we are selling.

A committee of experts was appointed who spent a long time in testing the merits of more than two thousand formulas and prescriptions recommended.

Three of the 200 "Rexall" Remedies, one for each human ill, are:

FOR CATARRH—MUCO-TONE

The chief ingredients of Muc-Tone are Gentian, Cane Sugar, Cascara Sagrada, Glycine, and Sarsaparilla.

Gentian is recognized in medicine as one of the greatest tonics ever discovered. It is the foundation on which Muc-Tone is built. Gentian combines in high degree the tonic powers of all the known "bitters," with none of the disadvantages attending their use.

Cane sugar has long been recognized as a vehicle in the treatment of all catarrhal conditions. Its action is prompt and its benefit almost instantaneous. In whatever part of the body the inflammation or discharge exists, the use of Cane Sugar has been recommended by the best physicians for many generations.

Cascara Sagrada is especially introduced for its laxative properties.

The combination of these with Glycine and Sarsaparilla makes Muc-Tone a remedy that attacks catarrh from every point, gradually restores and rebuilds the diseased tissues to their former health and strength, promotes digestion and creates a normal appetite. Bottle, 50c.

FOR NERVES—AMERICANIS ELIXIR

The Rexall Americanis Elixir is a tonic composed of free Phosphorus, Glycophosphate, Iron Phosphate and Calca.

The wonderful results of this remedy are due to the fact that it supplies phosphorus to the nerve cells. In a condition in which it is between the nerve cells and the brain, it is the only known preparation in which free phosphorus—that is, phosphorus which remains indefinitely assimilated—is used.

The Glycophosphate, actual nerve tissue builders, are combined in the most recent and valuable additions to the field of this branch of medicine and independently a more efficient remedy than the well-known Nerve Tonics.

The Iron Phosphate is the most recently assimilated form of iron which, gives tone and color, and the combined addition of these various elements, the very highest degree of pharmaceutical skill has been employed. The and a normal appetite. Bottle, 50c.

FOR HAIR—REXALL "99" HAIR TONIC

The famous Rexall "99" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin.

Resorcin is one of the latest and most effective germicides discovered by a scientist, and in connection with Beta Naphthol, which is highly germicidal and antiseptic, a combination is formed which not only cleanses the scalp, but also prevents the hair from falling out.

Pilocarpin is a well-known stimulant for the hair, and its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye—it produces its effect by stimulating the scalp and hair follicles to health and activity.

This combination of resorcin and pilocarpin, with the addition of a stimulant, produces the most effective remedy for hair and scalp conditions known today. Bottle, 50c.

"Rexall" Remedies are found only in the stores of druggists affiliated with The United Drug Company—only one in each town and each backs up this "Rexall" guarantee printed on every package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you, and we want you to have it."

Ewing Sustains Loss by Fire.

Springfield, Tenn., Nov. 14.—Glenraven, the home of Hon. Felix G. Ewing, was the scene of a very disastrous fire last night between the hours of 9 and 10 o'clock. The fire destroyed the paddock, together with a large amount of feedstuffs and five thoroughbred young saddle horses in training. Mr. Ewing, who has just returned from New York, was interviewed over the telephone and stated that while he could not at the moment estimate his loss, at the same time it was fully covered by insurance, as he always carried full insurance on everything.

The origin of the fire is unknown, but the same is being investigated by T. G. Payne, sheriff and ex-officio fire marshal.

NOTICE.—To the corn bread eaters.

I have put in a grist mill at Cherry and will appreciate your patronage. Grind every Saturday. Yours for service—W. L. BAUM.

Heavy, impure blood makes a muddy, pimply complexion, headache, nausea, indigestion. Thin blood makes you weak, pale, sickly. Burdock Blood Purifier makes the blood rich, red, pure—restores perfect health.

A PUZZLE FROM LIFE.

Now, the Lady Married One to Two Men—Which? Do You Know?

There was a lady who from her youth up had many suitors; but as the years were on her gradually fell from their allegiance, until one day she awoke to the fact that of all the many but two remained. This led to some earnest communion with her soul and caused her for the first time seriously to consider the question of marriage.

"I am no longer as young as I was," she remarked to herself, "and although my friends are kind enough to call me charming, their very insistence upon it leads me to believe that I should decide at once which of my two remaining suitors I had better accept."

Then she cogitated long and spent sleepless nights over the problem, but found it ever more difficult to solve.

"Why," she asked, "the strong and masterful. He will guard me from all rude contact with the world. He will view me as a rare and fragile hot-house flower which must be sheltered from every rude blast, every varying change of temperature. The sun must not shine too strongly upon me, nor the wind blow too keenly. He appeals to my feminine sense of dependence and to my love of being loved; but, there is no use disguising the fact that his excessive care to me will prove a bore."

"He will always be solicitous to see that I wear my rubbers when it is damp underneath. He will insist on deciding for me all the questions of life, whether trivial or important, what books I shall read, what religion I shall adopt and, probably, what breakfast food I shall eat. Within two years I shall be a pampered nonentity without either a will or an intelligence of my own."

"Now, I must weigh Jack in the balance. He is a dear, lovable fellow, a charming and amusing companion, but with a little sense of responsibility as a kitten. He appeals strongly to my maternal instinct. I feel that he needs my affection and, in a measure, my guidance; but I cannot deceive myself. I shall have to bear the brunt of everything, decide all important questions and grapple with all the problems of the world. He demands of me existence sunshine and roses, a song and a jest; but in times of storm and stress he would be as a broken reed. And yet in fair weather he would be a delightful playmate. A chance to let my individuality expand and develop, for I should be the head of the house."

Now, the lady married one of these men. Which? Do you know?—Life.

HOW TO SERVE BLACK COFFEE.

Neither Cream Nor Milk Should Be Added to the Beverage.

Black or after-dinner coffee is usually made exactly like that taken for breakfast and made by filtering, steaming or boiling, save that double the proportion of the beans is used. Two heaping tablespoons coffee to each cup of water. It should be strong and perfectly clear. Serve in small cups with black sugar.

As after-dinner coffee is used as a digestant, neither cream nor milk should be added. There is a growing fancy for making the regular Turkish coffee for the Sunday dessert, but it is extremely "puttery" work, as only small cups are made at a time. The essentials for the Turkish coffee are one of the Turkish coffee mills of brass that grind the bean as fine as powder and one of the tiny Turkish coffee pots that can now be found in any of the householding stores.

To make the coffee, in these, put a pot containing freshly boiled water on the fire with two or three lumps of sugar. Add two teaspoonsful of coffee powder to the water, which is just enough for two after-dinner cups, stir well and let the pot boil up four times. Between each boil, the pot is taken from the stove and tapped gently on the bottom until the froth appears on the top. Then return to the fire until it boils again. It requires very close watching.

After the last boiling, pour off the coffee from the sediment, first into one cup then in another so as to divide the froth evenly.

Have more boiling water in readiness and repeat the operation until all are served.

PEACH MOUSSE AND RUSSE.

Recipe for Two of the Most Popular Dessert Dishes.

"Fruit Recipes" gives the following for peach mousse and russe: To each cup of peach pulp (fresh or canned) allow a heaping teaspoon of gelatine (two cups of pulp make a generous quantity). Dissolve gelatine in one third cup of cold water, then place over steam to dissolve, and strain into the peach pulp. Sweeten well, add a tablespoonful of lemon juice and a little raspberry or strawberry syrup. Coat the lining of a fancy mold with a tablespoonful of melted gelatine, then pour in the mousse, pack well, cover with ice, and freeze six hours.

Make the russe in similar manner, but fold in at the last a pint of whipped cream and the grated rind of a lemon instead of the lemon juice. Use also a little almond flavoring.

Cleaning Down Quills or Pillows.

Down quills and small feather pillows which have become soiled can be washed at home, with very little trouble or expense. First choose a good day, for the drying is half the battle, and you need plenty of sunshine and a gentle wind. Use lukewarm water and one of the many pure soaps that are in the market just now, and avoid a washboard. It will not be of any help and it will certainly pull your quilt or pillow out of shape. Rub thoroughly with the soap, squeezing and patting with your hands as you might fine wooden underwear. Rinse in two or three clear waters, and hang up to dry in the sunlight. A dash of salt in the water will keep the colors from fading.

Spinach a Fine Tonic.

Spinach should put in a frequent appearance on the table as it is a wonderful tonic. It is a very wholesome vegetable and has a beneficial effect upon the digestion.

It is frequently recommended for the doctor to those in middle and advanced life. It is light and nutritious and wonderful properties have been ascribed to it.

It is useful in cases of rheumatism, though, in this respect not so valuable as celery which all sorts of subjects should partake of raw, but cooked.

Pineapple Vintner.

Pineapple vintner's brand might be thrown away, as there is no other wine in the world in flavor and coloring that made from pineapples. The fruit parishes (fruit) may also be added to the sugar, as in crocks and covered with water, sugar or even brandy added to quantity according to the condition of the fruit. Allow this to ferment thoroughly, and when this has been accomplished, strained and clarified, the pineapple vintner must be strained from the fruit and placed in jars or bottles.

Celery and Orange Salad.

Select firm oranges which are not very sweet and cut into sections, removing all inner skin and seeds. Cut crisp celery into small pieces and mix the two in equal quantities with a French dressing in which lemon juice is substituted for vinegar. A few raw nuts may be added to advantage. Serve on a bed of watercress. Make a French dressing with a level teaspoon of salt, one-fourth spoon of paprika, six tablespoons of olive oil and three of vinegar or lemon juice.

Cut for Old Kid Gloves.

Cut off the hands and extra the ends of your long kid gloves. Use these for polishing shoes, removing stains and greases. One of the tops of old tan or kid gloves you can make cleaning bars for carrying soap, brushes, etc. Cut the kid to the shape of a bar and use for silk or velvet shoes. Use with silk or velvet shoes, and trace your initials on the outside in water colors or with embroidery silk.

Nice of Tom.

"Yes," she said, "I always like to go out with Tom."

"But," her friend replied, "he seems so stupid. He hardly ever says anything."

"I know. Still, I can tell and tell him my troubles by the hour and he never lets me know by word or sign that he is being bored."

BAKING HAM AT HOME.

Cooking in the Oven Gives Meat a Superior Flavor.

With the spring season on hand, the household will do well to have cold meats, salads, etc., prepared in quantities, so that she can continue her work in the sewing-room without constant interruption to prepare food. Here is a very excellent recipe for baking ham in a way that will make it retain its flavor, and furnishes a delicious cold dish for many days.

A ham cooked in the oven has a superior flavor to one which is boiled in the usual manner. Soak the ham and after washing it dry, it frequently over the paper with warm dripping; if the paper should get all burnt place another thick sheet over it. A fairly small ham should be selected for roasting in the oven and for one weighing five pounds four hours should be allowed. When it is done remove the paper and paste, then strip off the rind and as soon as the ham is sufficiently cool brush it over with several coats of glaze and put away to get thoroughly cold.

Garing for China.

Strong soap and soap powders are disastrous to gold decorated china. In drying china thus decorated, instead of heaping each piece on another as fast as they are dried, they should be allowed to cool separately, as the steam not only causes them to dry in streaks, but will mar the gold decoration.

Valuable pieces of china may be mended to be as good as new if taken to a china painter. After sticking the pieces together, the whole is fired in a china kiln. This makes it possible to use the china afterwards as though never broken. Cut glass may be mended by riveting with small silver rivets, which scarcely show. Any china or cut glass article will have this done.

Baked Chicken.

After the chicken has been properly cleaned split it down the back, lay it in a dripping pan, season with salt and pepper and dot with bits of butter. Four half a pint of water in the pan and bake in a hot oven; it should be baked every ten minutes. When done place on a hot platter, where it will keep hot; set the pan in which it was cooked on the stove, stir in one tablespoonful of flour dissolved in a little milk. Add one-half cupful of milk and one-half cupful of butter, stir well and cook thoroughly.

But after all—

"To roast spring chickens is to spoil just what you down the back and head."

Apple Fudding.

The following is a good recipe for apple fudding: Peel and slice several raw cooking apples into a pudding-dish; add sugar and water as for stewing. Cover and bake until nearly tender. Sift together two cupfuls of flour, three tablespoonsful of baking powder, and a scant half teaspoonful of salt. Beat one egg, mix in half a cup of sugar, two tablespoonsful of melted butter, and one cupful of milk; then stir the latter into the dry ingredients. Pour the batter over the partly cooked apples, and bake about 20 minutes. Serve with whipped cream or a creamy sauce made with sugar, white of egg, and lump of butter.

How to Shine Plate Glass.

To polish plate glass and remove slight scratches rub the surface evenly first with a clean pad of fine cotton wool, and afterward with a similar pad covered over with cotton velvet which has been dipped into fine rosin. The surface will acquire a polish of great brilliancy, and will be quite free from any scratches.

The value of soap bark is cleaning action materially known to nearly every woman who makes over dresses. An enterprising housekeeper recently found that she could use it in washing a small oriental rug with most gratifying success.

She got a five-cent package of the soap from the drugstore and steeped it for two hours in a quart of water. Then she strained it through a cheese-cloth bag, so that the fine particles of the bark would not stick to the rug.

Into the bath tub, which was half full of warm water, she poured part of the clear, brown fluid made from steeping the soap bark. Then she put her rug, well beaten and swept, into the tub and lathered it with a stroke. The water was soon very dirty. She got this water run off, and the tub half full again and put in more soap bark liquid.

Then she drew the rug up over the edge of the tub, three or four inches at a time, scrubbing it across with a stiff brush as she did so. After two rinsing waters she hung the rug on the line in the sun and wind. It dried after several hours and was exquisitely soft. It was also cleaner than it had ever been after being over to the carpet cleaner. The colors were richer and the design itself seemed clearer.

The Murray Ledger

O. T. JENNINGS, Editor and Owner

Entered at the postoffice at Murray, Ky., for second-class mail, October 10, 1901, under no. 100,000.

By reference to Gov. Beckham's Thanksgiving proclamation it is very evident that he, in common with all other democrats, have but little to be thankful for at this particular season.

The next governor of Kentucky will be inaugurated on the 2nd Tuesday in December, which will be December 10. The Lieutenant Governor will take the oath of office at the same time. The remaining officers of the state will enter upon their duties in accordance with the State law, on the first Monday in January, which will be January 6.

Along with the defeat of the Democratic State ticket the cause of the Anti-Saloon League also suffers correspondingly. Nearly all of Kentucky is as dry as a powder horn under a Democratic administration; and yet the vicious puritans were dissatisfied and must betray their best friend. This was even attested in Mayfield. How would the dry cause survive here were it not for good Democrats?—Mayfield Mirror.

Judge S. W. Hager, the recent Democratic nominee for Governor, will not retire from his office of State Auditor until January. Judge Hager's friends say his administration of the State Auditor's office stamped him as an ideal business man and a splendid executive, and that he will engage in a big business enterprise shortly after his retirement. It is believed that Judge Hager will make his home at Ashland, which is the place of his birth. The chances are that he will continue to take a lively interest in politics, but may not be active in it.

A new star was added to the American flag Saturday by the admission formally to the Union of the state of Oklahoma. President Roosevelt at 10:16 signed his proclamation admitting the territories of Oklahoma and Indian Territory jointly as one of the American states. But little formality attended the ceremony, which meant so much to the people of the two territories. In appending his signature to the proclamation the president used a pen made from a quill plucked from the wing of an American Eagle. The pen will be deposited with the Oklahoma Historical society.

DALE & STUBBLEFIELD

William J. Bryan will accept the nomination for president in 1908, but he will neither ask for nor make a fight for it. He says, in an editorial in the current issue of his paper, The Commoner, that for a year or more he has been pressed to answer the question, "Will you accept the nomination?" and he believes the public is entitled to an answer and to know the position he occupies. The question, that ought to weigh most, he says, is whether his nomination will strengthen the Democratic party more than the nomination of some one else. Not only will he not seek or ask for the nomination, but he will not assume to decide the question of availability, and if the prize falls to another he will neither be disappointed nor disgruntled. At the same time, he denies that he has waited this long in a desire to see whom the Republicans are likely to nominate, or to ascertain the chances of victory.

LINGERING COLD

Withstand Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. L. Quigley, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by Dale & Stubblefield.

A Reasonable Excuse.

The Ledger may not be up to the usual standard this week, and again, it may be far above. However, if there is any lack of news please attribute the fault to an unusual occurrence at the editor's home—a baby boy made his arrival there Sunday morning, and since that time we've been rather busy reading directions on the assafoetida, paregoric and castor oil bottles. We say this is an unusual occurrence with us and we believe time will evidence the correctness of the assertion, when we say that it is the first happening of the kind in the past eight or nine months and we promise now that it shall not occur again for fully that many months in the future.

Case Continued.

The Paducah Register of the 19th says:

J. M. Radford, of Murray, was given a continuance and a new bond of \$500 executed. He asked for the postponement because of the absence of his attorney, Former U. S. District Attorney Wm. Smith, who is detained and could not attend court. Mr. Radford is the Murray banker, and former sheriff of Calloway county. His son-in-law is Attorney Will Linn, who left Murray and now resides at Chickasha, Oklahoma. Mr. Radford was indicted on the charge of opening a letter his son-in-law, Linn, had written Miss Belva Broach of Murray. Linn was here to testify, while Miss Broach has moved here from Murray since the transaction.

Hog Cholera.

The greatest drawback to the hog industry [which breeders in this country have to contend with] is what is known as "hog cholera" and "swine plague."

Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time.

Mr. A. P. Williams, of Burdett Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some fine hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."

Write for Dr. Sloan's free book on the treatment of Horses, Cattle, Hogs, and Poultry. Address: Dr. Earl S. Sloan, 615 Albany Street, Boston, Mass.

Little Doing in Court.

The present term of the Calloway circuit court has been one of little importance. The petit jury was discharged after the first week. The grand jury finished its labors Wednesday after returning a small batch of indictments and was dismissed.

C. Buchanan, the former Singer sewing machine agent who was under indictment for breach of trust; forfeited his bond and left last Thursday for parts unknown.

Other minor cases have been disposed of and court will adjourn this week.

Officials Selected.

At a caucus of the elected city councilmen held the past week Gus Nix was selected as chief of police for the city for a term of two years and Attorney F. F. Aere agreed upon as city attorney for a like term.

The new council is to be congratulated upon the good judgment and timely wisdom displayed in the selections. Both gentlemen chosen for the places are capable and will serve the city with credit and ability. Mr. Nix will move to town at an early date.

Edw. Starks Dead.

Edw. J. Starks died last Monday at his home a few miles north of Murray after suffering several months of stomach trouble. He was about 57 years of age and one of the well known citizens of the county. He was a native of Calloway and had resided on the same homestead during his life time. He is survived by a wife and two sons. The funeral services were held Tuesday afternoon by Rev. Bourland, pastor of the Murray Christian church, after which the remains were laid to rest in the City Cemetery.

He Fought at Gettysburg.

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great all-around and body builder; best of all for lame back and weak kidneys. Guaranteed by H. D. Thornton & Co., druggists, 50c.

Army Recruits.

Recruiting Sergeant C. A. Blake, of the United States Army, will arrive in Murray November 25 and open a recruiting office, to remain open Nov. 25, 26 and 27. This recruiting party is under the command of Captain William L. Reed, of the Evansville, Ind. district. Sergeant Blake will examine and accept men for all arms of the service.

MAYOR OF SUNBURY Says Peru-na Is a Good Medicine.

Hon. C. C. Brooks, Mayor of Sunbury, Ohio, also Attorney for Farmers' Bank and Sunbury Building and Loan Co., writes:

"I have the utmost confidence in the virtue of Peru-na. It is a great medicine. I have used it and I have known many of my friends who have obtained beneficial results from its use. I cannot praise Peru-na too highly."

HON. C. C. BROOKS.

These are a host of petty ailments which are the direct result of the weather.

This is more true of the excessive heat of summer and the intense cold of winter, but is partly true of all seasons of the year.

Whether it be a cold or a cough, a tarrh of the head or bowel complaint, whether the liver be affected or the kidneys, the cause is very liable to be the same.

The weather slightly deranges the mucous membrane of the organs and the result is some functional disease. Peru-na has become a standby in thousands of homes for minor ailments of this sort.

Peaceful Army in Hopkinsville.

A large body of farmers rode into Hopkinsville last week and after a meeting at the courthouse sent a committee to call on the representatives of the tobacco manufacturers to ask that no effort be made to buy tobacco pledged to either the Society of Equity or the Planters' Tobacco Association. The promise was readily given and the buyers said that any contracts for tobacco that had been pledged would be annulled.

W. H. Draughon, the bookkeeper for the firm of Long, Fruitema & Co, last season, leaves Murray this week, with his family, for Springfield, Tenn., his old home, where he has accepted a responsible position in the sales office of the Association. Anyone having aught against Mr. Draughon, either financially or otherwise, is requested to see him before his departure, as his pocket is bulging with "filthy lucre," his heart overflowing with good will and forgiveness.

Counterfeit silver dollars in bunches are turning up in Paducah. Many complaints have been received at police headquarters since Saturday morning. The dollars are of the "mintage" of 1899. They are well made but a little short in weight and have a greasy feeling. Policemen and detectives are of the theory that crooks are taking advantage of the shortage in money. It is figured that people are so anxious for change that they will accept money without much of a look. Many of the phony dollars have been turned up to police headquarters.

A Good Liniment.

When you need a good reliefment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by Dale & Stubblefield.

Rev. Cleanth Brooks.

To those who are closely acquainted with the man comes genuine regret in the announcement that Rev. Cleanth Brooks is to leave Murray. For two years he has lived amongst us and labored in the Master's vineyard, during which time he has won an abiding place in the hearts of many of our people that time nor circumstance can ever efface.

Rev. Brooks is a man, and truly in the image of his God, devoted to his labor, consecrated to his work. He is intelligent and meek, not full of boasting and too splendid a disciple of the man of Galilee to entertain a mean thought or harbor an ill feeling. His superior ability was not appreciated by the ignorant, but he never quitted his research for knowledge; he would not play a dual role to satisfy whimpering factions, and zealously labored to practice and proclaim from his pulpit Christ and him crucified. His living with us will be of lasting benefit and we can ill afford to lose such a man. We wish him the accomplishment of the splendid success he is entitled to receive, and supreme happiness as he toils in the cause of the Man of Sorrows.

This picture has reference to Calloway county lands. I want to buy several farms and I want them bad. I can use at once farms as follows:

Three farms of 40 to 50 acres each well improved with dwelling, stables, barn and water, at prices ranging from \$600 to \$1500.

One farm of 100 acres well improved with house room for 12 in family, plenty of stable and barn room and plenty of water. I am in a hurry for this place and will pay anywhere from \$20 to \$30 per acre. Call at my office and let me know about it at once.

One good farm of 150 to 200 acres well improved with good dwelling and one or two tenant houses, barns etc. Must be level land and most all tillable. Will pay any price from \$20 to \$30 per acre according to quality and location.

Sheep ranch. I want 1000 to 2000 acres of sheep land anywhere in West Kentucky with plenty of water on each two or three hundred acres. Will pay \$2 to \$4 per acre according to quality and location.

In the meantime I have inquiries for all kinds, sizes and prices every day. If you have a farm or land of any kind for sale, you will be flooded with buyers if you come right up the steps at rear of Corner Drug Store and list it with me. One man sold before he got out of the office, the same day he listed. I had seven buyers on J. W. Swann's place the very day he sold, and six of them there at

same moment.

If your price is right your land cannot remain listed on my books very long without being sold. I will from now on have buyers from the North here every month, besides all the local buyers are continually looking over my books.

TERMS FOR SELLING FARMS.

From now on my terms for selling will be only 2 1/2 per cent of the selling price. List your land with me at what you think it is worth and if sold through the Calloway Real Estate Exchange you will owe me only 2 1/2 per cent of what you sell for. In the mean time you sell to who you please and if I did not bring, send or give the buyer your name and list price in writing you owe me nothing.

On this proposition I do not propose to run around with the buyer, but simply give him the location and sellers name, and let buyer and seller do their own trading.

IF YOU WANT TO BUY come right on up the steps and look over a list of all the farms for sale in Calloway county and post yourself thoroughly, and thereby save much time running around looking at random, and much money by being posted. Look for the sign.

**The Tax Commissioners of the
States Agree**

In Denouncing General Tax System
Like Ours—Full of Evils
In Operation.

In discussing tax questions in Kentucky and elsewhere, frequent reference is made to the "general property tax." *This is the kind of system Kentucky has in force. It is the system that is in force in most of the states.

A uniformed valorem tax levied upon all classes of property alike, regardless of the nature, of the earning capacity or of the use of the property, or of the character of the property. The taxing authority of a state, for instance, will levy a tax of 50 cents. This tax is to fall upon every kind of property alike. Everything of value, whether real estate, money in bank, notes, bonds, stocks, automobiles, trucks, motor wagons, carriages, jewelry, furs, furniture, any sort of personal property, or franchises of corporations is subject property and must pay this tax. This is the general property tax. The general property tax is a valorem tax on all property for all purposes.

As distinct from this system is the system of classifying property, raising state revenues from one kind of property, county revenues from another kind of property and city revenues from still another kind, and also the raising of revenues by special taxes of various kinds. The argument in the tax world today is between these two systems of raising the public revenue.

The Kentucky system is the general property tax. Our constitution binds us to the levy of a uniform ad valorem tax on all property of every kind for all purposes. If a piece of property located in the city is taxed for one purpose, it must be taxed for all. If it is a property-earning 6 per cent return to its owner, it must pay the same tax as property earning 20 per cent. If it is a kind that can be re-

to nurse before the patient is ready to begin her day. The bed must be made, the linen changed, and all the things that the nurse has to do must be done. Remove the pillow and roll the patient to the other side. Keep her still, warmly wrapped in the bath blanket. Roll the exposed part of the lower chest over to the middle of the bed, then gently move the patient's legs to the middle of the bed, and pull the blanket up to her waist. Put on the bed-caps in the evening—once half at a time. Slip on the fresh pillow cover and put the pillow under her head. Remove the bath blanket and quickly replace it by the clean upper sheet, the blanket, and the spread. When the patient lies as bright and fresh as a morning glory, feeling on the whole that she has just had a rather good time.

Set up, the nurse should assist her to this position by slipping her arm under her neck, so that the patient's shoulder rests on her own, and her own hand clasps the body under the neck. She should then slip her left arm for this. Next, she should replace it by her right, across the patient's chest this time, to support her while she uses her left to pile the pillows high and arm behind. The question then arises: How can a patient much as she would a child in her lap. The covers should then be tucked warmly about her form, and a warm shawl thrown over her shoulders. A little device can easily be made to take the place of a table. It is made of a piece of board, about two feet square, with four legs about ten inches high. Cover this neatly with a cloth and set it across the patient's lap. She will find it far more comfortable than trying to support her arm in a perilous position of her knees.

Illustration by John

The horse whisperers might be an

and to-d— but there are not a few men who exercise a wonderful control with their voices over horses which, when the dominating influence is absent, they would be sure to exhibit in traces, says a writer in the London Stock Journal. In the thoroughbred stables of England and Ireland to-day there are not a few stablemen and jockeys who succeed in holding their charges in the vicelike grip of their voice in a demonstrative manner show that they cannot tolerate the presence of the grooms or attendants.

The horse whisperer of to-day is a more educated and trusted creature to a combination of sounds or words. There is no bullying done, and the whisperer can face a man horse with his hands behind his back and apparently at the mercy of the beast. He is a more subtle creature than one means of keeping remount horses quiet in stations during the South African war that came employed by the yeoman, who sat in a ring of head-to-head, and who, as recently as 1890, was able and riveting the attention of the otherwise sprawling and

At the time negotiations were proceeding to the very close, it was proposed to the name of J. Wyman Jones, a brother-in-law of the late Marcus A. Hanna. — *Editorial*

Rheumatism

Do you want to get rid of it? If so, take Dr. Miles' Nervine modified as directed in pamphlet around bottle. In addition to the direct curative properties it has a soothing effect upon the nervous system by which the rheumatic pains are controlled, and rest and sleep assured. It has made many cures of this painful disease, some of them after years of suffering. If it will cure others why not you. If your case is complicated, write us for advice, it costs you nothing and may save you prolonged suffering.

It was so cruel that I could scarcely walk. After having my shoes on for an hour or two I could manage to walk by suffering the pain. Then I began to have pains in my system. My doctor told me I had an acute attack of rheumatism. I read about Dr. Miles' Nervine, bought a bottle and I commenced to get better from the start and for the past six months have enjoyed my pain, and am able to walk as well as ever.

FOR THE SMALL PEOPLE.

Gum Drops a Healthful Home-Made Confection.

Dissolve one pound gum Arabic in a pint and a half of water, strain and add one pound sugar. Heat until the sugar is dissolved, then flavor to taste and color all or part as desired. These should be added while the mixture is warm. When about the consistency of honey, fill a shallow box with cornstarch, smooth the surface and with a stick rounded at the end the size you desire to have the gum drops, make little indentations in the starch. They should be as close together as can be, without interfering. If a large number of the gum drops are to be made, round buttons of wood may be fastened to a flat board and the whole set of indentations made at once. Place the mixture of sugar and gum in a vessel with a long lip or spout and pour out slowly, striking off with a wire. When the mould is filled, set in a warm place for several days until the drops are hardened enough to handle. Then dampen a little and shape in granulated sugar.

WHEN HANGING UP COWNS.

Bag of White Muslin is a Good Thing to Have Handy.

Don't hang a gown wrong side out before hanging it up, no matter how delicate a color it is.

Nothing ruins the set more quickly, which is soon evidenced by the creases which creep here, there and everywhere.

It's natural enough, for the outside must necessarily be made a little larger and looser than the lining, and reversing the usual order of hanging is bound to react in some unpleasant way.

If the gown is a delicate color, make a big bag of white muslin to slip it in while hanging up, or pin a white cloth—big enough to cover it—over it, taking care, in either case, to have the covering hang from the hook or from the coat hanger, instead of dragging upon the dress itself.

Cup That Cheers.

There is surely nothing more welcome than a good, properly brewed cup of tea. Nor can anything so stimulate jaded senses in the summer season as the same infusion from the east served in of several ways. No tea is drinkable by anyone with the slightest claims to taste unless it has been freshly brewed within the last 15 minutes, for instance, says *Woman's Time*.

The water must have just boiled for the first time, and only boiled five minutes at longest. The teapot must be hot, the tea Ceylon or some other black mixture, not the green or cooling varieties, if the best is desired. As to the teapot, though silver may charm the eye, the ordinary cheap brown earthenware makes the better tea.

Washing Pocket-Handkerchiefs.

Remember to wash all good pocket-handkerchiefs by themselves, quite apart from anything else. Soak them overnight in cold water, then wash in hot water, using the best white soap; rinse in clear cold water, squeeze the water out of them, rub well with white soap, and boil for 20 minutes with a little dissolved borax in the water. Then rinse again, and if any spots remain wash them. Fine in the usual manner, and iron before they are quite dry with a well-polished hot iron. Handkerchiefs treated in this way will keep their color and wear well.

Lemon Marmalade.

Take 5 pounds lemons, take nine pounds sugar. Peel the lemons, then cover the yellow partings with water and boil until tender. Strain and let cool, then shred the parings fine. Measure the peeled fruit, pour over it the sugar and add the juice of the lemons. Cover the whole with white pulp remaining with three times cold water, and boil one-half hour. Strain out the sugar and add it to the juice and soft pulp with the yellow rinds. Boil all together, then add the lemon sugar, boil down to the consistency required, and place while boiling hot in small jars or marmalade pots.

Onions.

Onions are chiefly employed as flavoring. They are almost the finest service known and can brace up the nervous system well. Onion enters into beautiful combinations by securing skin action. Many vegetables cool the blood, but an onion eaten raw will send a glow of warmth through one's body on the coldest day.

No other vegetable has the same sustaining and strength-giving qualities.

Its bite is due to a small amount of sulphur, the agent that causes the smell.

Spaghetti.

Just a delicate cheese flavor can be imparted to spaghetti by steeping it in a cream sauce and serving it in a cheese shell. Add a roux of flour and butter in proportion of two tablespoons each to a pint of milk, and simmer the spaghetti—already cooked tender—in it for ten or 15 minutes. After it is turned into the cheese shell let it simmer a few minutes in the oven.

Luscious Oranges.

Prick luscious oranges are made by cutting a piece off the top of each orange and taking out all the pulp, leaving the edge of the orange, peel in points and mix the pulp with shredded coconut and sugar. Add a teaspoonful of sherry or cream de menthe to each glass, pile a little coconut on the top and serve with a sprig of dark green leaves on the plate.

Tobacco Growers of Calloway and Adjoining Counties.

DEAR SIRS:

We take this method of extending to you our thanks for the liberal patronage which you gave us in the past season, hoping that you will give us a larger part of your tobacco to store and warehouse of the 1907 crop.

We don't hesitate to say that our business for the past season has given general satisfaction in every particular to the farmers storing tobacco with us.

We feel that our long experience in the warehouse business and our fair dealing with the farmers in the past is certainly sufficient evidence to every farmer storing tobacco with us that they may feel assured of getting fair treatment and the best return for their tobacco that can be had, and receive the full benefits of our long experience, in handling and selling their tobacco.

All tobacco stored with us will be sold through the sales-room at Murray by the regular salesman of the association Esq. C. A. Hood.

Farmers storing tobacco with us can call at any time at our office and we will take pleasure in giving them the grading on their tobacco and make inquiries about sales, etc.

There is a very important part for the farmers to do and that is to assort their tobacco well, tie in small hands both leaf and lugs and making two classes of lugs, and deliver to your prizer in a good, safe keeping order—this will assure you better results.

You may expect better prices this season than you have realized in the past.

There is a disposition among some of the farmers to deliver their tobacco this winter, hence it is very important to get your tobacco in good condition.

We have inquiry for November delivery of tobacco suitable for African trade; farmers having such grade of tobacco will do well to strip and deliver early, that they may get the benefit of early sales.

We are now moving into our new quarters and our office will be in the Diagonal brick warehouse on the West side of railroad which will also be part of our storage warehouse. The management of the Murray Association Warehouse Co., will be under the personal supervision of Mr. Z. C. Graham, the former manager. Mr. C. H. Moore will continue to be our general book-keeper and accountant and will also be a member of the firm and is one of your own county men.

All business entrusted to us will have our careful and personal attention, and we will appreciate your business. Instruct your prizers to deliver your tobacco when prized to Murray Association Warehouse Co., and we will guarantee to you satisfaction in every particular. When you are in town we shall be glad to have you call at our office, or telephone No. 143.

Sunday School Resolutions.

On Nov. 8th, 1907, death visited our Sunday School and claimed for his victim, Lena Hood, a member of class No. 7. While Lena had been in our midst only a few years we had learned to love her because of her excellent qualities. She was loving and kind to all those who knew her and always thoughtful of their happiness in the discharge of her duty. Her death seems to us a mystery, we can scarcely realize that she is gone, she was so young and full of hope, always striving to attain to a knowledge that leads to perfection, but in youth her hopes have been blasted, her voice hushed, her lamp went out, her spirit was wafted on wings of love and mercy to the Sunday school above, where Christ reigns and there is no separation.

Though Lena had been ill for quite awhile, she was ready and willing to go when the Master summoned her to her home above.

Sometimes we think it hard to give up one so young, but we bow to the will of Him who doeth all things well.

We would urge each member of her class and the entire school to be faithful as she was faithful.

Let us be ready for God is apt to call us when in the bloom of youth and happiness, from this home, to the one he has prepared for us in heaven.

Resolved:
That in Lena's death her class has lost a faithful member; the Sunday School a devoted pupil. That we extend our deepest sympathy to the family and commend them to one who is able to comfort them in all their troubles.

That a copy of these resolutions be given to the family of the deceased, a copy be placed in the hands of the editors for publication, and that a copy be given to each member of the class.

Thanksgiving Proclamation.

Frankfort, Ky., Nov. 15.—The following proclamation has been issued by Gov. Beckham:

"In accordance with custom and the proclamation of the President of the United States, I hereby appoint Thursday, November 28, as a day of thanksgiving and prayer throughout the Commonwealth. It is expected on that day that all of our people shall refrain from their usual business, employments and give thanks to an All-wise Ruler, who has so generously blessed us as a nation, and who has so bountifully provided for us.

"In testimony whereof, I have hereunto set my hand and caused the seal of the Commonwealth to be hereunto affixed.

"Done at Frankfort this 15th day of November, 1907.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wis. You don't have to boil it twenty or thirty minutes, made in a minute. This is really the "Health Coffee," really the "Health Coffee" Imitation ever yet produced. Not a grain of real coffee in it either. Health Coffee Imitation is made from pure toast, cereals or grains, with malt, nut, etc. Really it would fool an expert—were he to unknowingly drink it for coffee. Sold by W. W. McElrath.

We have just received the third lot of new Dress Goods, Silks, Laces and Wraps for this winter. Come and see them while our stock is new. Asher Graham.

For a mild, easy action of the bowels, a single dose of Doan's Regulax is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

WORST FORMS

Tells How To Prepare a Simple Mixture To Overcome Dread Disease.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses

This prescription states a well-known authority in a Cleveland morning paper, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers so prefer.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say—

"I never was sick since using Ballard's Horse Liniment Syrup. Such a man exists."

Mr. J. C. Clark, Denver, Colo., writes: "For years I was troubled with a severe cough that would last all winter. This cough kept me in a miserable condition. I tried Ballard's Horse Liniment Syrup and have not had a sick day since. That's what it did me." Sold by Dale & Subblefield and H. D. Thornton & Co.

Notice.

To my friends and customers I have purchased Mr. W. G. Loves interest in the photo business and will continue the business at the same stand. Thanking one and all for past favors and hoping to have a share of your valuable patronage in the future, I am very respectfully, W. R. BRAY.

Panacea for blues—The Ledger.

Most people know that if they have been sick they need **Scott's Emulsion** to bring back health and strength.

But the strongest point about **Scott's Emulsion** is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

ALL DRUGGISTS, 50c. AND \$1.00.

When the Stomach, Heart, or Kidney nerves get weak, then these organs always fail. Don't drug the stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this sample test. Sold by H. D. Thornton & Co.

Hendrick May Run.

Paducah, Ky., Nov. 14.—John K. Hendrick, of this city, recently candidate for Attorney General, is a receptive candidate for United States Senator. He declined to commit himself as a candidate in an interview to-day, but admitted that he had been spoken to about the matter by West Kentucky friends, though he is not seeking it. The Clinton Gazette started the boom for Hendrick, and Representative-elect Joe Jackson, of Hickman county, is for Hendrick. Jackson will support any Democrat against Beckham.

A Significant Prayer.

"May the Lord help you make Becken's Anemia Salve known to all," writes G. Jenkins, of Chapel Hill, N. C. It quickly took the pain out of a fever for me and cured it in a wonderfully short time. Best on earth for sore, burns and wounds. 25c. at H. D. Thornton & Co's drug store.
