and then failed to pass any legislation.

FULTON COUNTY NEWSPAPER

Fulton, Ky., under Act of March 2, 1879.

Outside First/one, Year --

grave at governmental crises in it., worked the public school system.

The thing most needed by the people can be blamed except the inefficiency and the dastardly ploy. The - von, and bin without fund to join the ranks of the economy.

tax was reduced the real estate, present tax has been brought to bear.

They have not sufficient power to do anything from that source.

I will use the following figures:

lives. and the deadly plague.

Irritability, Restlessness, Sleeplessness, often caused by nervousness.

It is interesting to note that all grain foods were brought in the 1840's. How much of these foods can be related to the food consumed today?

There is some talk of a third party. The voters in our county are not being foreclosed during the process of self-improvement. Wheat corn, rice and the like are essential foods. The nature and quality of what is called "Malnutrition" must be determined. The nourishment of the body is necessary for health. The more of meat, rice and cereals the commercial flour will not maintain.

The amount of food consumed by the body is a great health influence.

A human body of a certain weight needs a certain amount of food. In the absence of food many diseases are caused by the amount of food consumed. Nearly every food requires the right amount. But there is no food or amount of food that can be called the perfect food.

MOTHERS LOOK FORWARD

to this Hour...

Grumow, exclusively uses the magic fluid, Carrene—the safe refrigerant which has caused pure people everywhere to carefully "look inside" before they decide on buying an electric refrigerator.

Come to our store and let us make the thrilling Carrene demonstration for you. We will let you see Carrene, smell it, and hold it in your hand.

WHEN you buy an electric refrigerator please don't think only of the first cost. Think what is going to happen after a few months and a few years have passed. Get your Grumow dealer to show you the mechanism, how it works—who happens inside the refrigerator. He'll gladly show you how Grumow's exclusive refrigerant is safe, why it cannot corrode the mechanism, why it cannot explode, why it

froze ice cubes so quickly, why it actually helps to cut down your light bill when you start using an electric refrigerator. Look inside, too, and see the beautiful rounded corners of the Grumow, see how easy it is to keep clean. Notice the plentiful supply of ice cubes, the tray release feature, the cross-hatch shelves, the county shelf arrangement and a host of other wonderful Grumow features.

Graham Furniture Co.

L. A. Downs says:

An experiment tested at Baltimore, at the home of Mrs. W. S. Peck, which was found to be successful, has shown that a telephone ear can be used as a human ear can be used. This means that the telephone ear can be used to listen to a person's voice without actually hearing it. The ear of the telephone ear is made of a special material which can be made to respond to sound vibrations just as the human ear can.

The telephone ear is made of a special material which can be made to respond to sound vibrations just as the human ear can. In the first place, the ear of the telephone ear is made of a special material which can be made to respond to sound vibrations just as the human ear can. In the second place, the telephone ear is made of a special material which can be made to respond to sound vibrations just as the human ear can.

How many of you June Brides-to-be know how you can keep that nice new Husband contented?

Home Comforts the Secret

You CAN get a long way toward ensuring a happy married life by providing your husband with such old-fashioned creature comforts as plentiful meals and plenty of rolling water for his shaving and bathing. No kidding!

WHEN an Electric Range and Water Heater can save about $13.00 in practical terms of providing these creature comforts without time or expense. It doesn't mean that he and everybody shall slide abjectly to hell with fire.

Here's a hint on how to guard against developing a lifetime of antagonism or常德t and also to make your home more than a mere four walls;

Buy Before Prices Go Up!

KENTUCKY UTILITIES COMPANY

E. C. HARDESTY, Mgr.
The Windsors held a dinner Tuesday night with an享受 the bridge to six tables of club members. Mrs. William M. McCord was present in her best attire, accompanied by a number of guests.
