We did not worry and fret a-  
round  
That the rainbow's end we had  
not found,  
And oft I think how much we  
lack  
When I get a spell of thinking

Benton.

As soon as one paper is gotten  
out of a weekly office on Thurs-  
day morning, hunt news and it  
being set and so on throughout  
the week. The personals and  
society should be in as soon as  
possible. If a social function oc-  
curs on Thursday night, it is  
much better to get news to-  
gether and send it in to the  
paper on Friday. News is not  
news after it is old.  
Won't you help us make it  
easier on those who work in the  
Courier office by getting your  
copy to the paper as early as  
possible. Don't put it off.

## PERSONALS

Roy Lawson of the county

## Phone Rates Will Be Raised Again In City, State

The Southern Bell Telephone  
and Telegraph Company filed  
notice today it will raise tele-  
phone rates in Kentucky by  
\$2,500,000 a year, effective Ju-  
ly 6.

The new increase will be the  
company's third postwar boost  
in Kentucky.  
The new increases will  
mean that Benton busi-  
nesses will be paying \$12.25  
more each month, and resi-  
dential phone users from \$3.  
to 50c more each month.  
The business rates for Ben-  
ton are \$5.00 per month  
plus 90c tax.

young swimmer was completely  
revived.

## Bible School To Start At Church Of Christ June 19

The annual Daily Vacation Bi-  
ble school will begin at the Ben-  
ton Church of Christ Monday,  
June 19, with classes schedu-  
led from 9:00 to 11:00 A. M. in both  
the old and new church build-  
ings.

Children from four years of  
age up are invited to attend and  
adult classes are a part of the  
program for each morning.  
A larger staff of teachers has  
been selected this year in order  
that smaller class groups may  
be had for better instruction.  
All general assemblies will be  
held in the old building since  
the new one is not entirely fi-  
nished.

Refreshment and recreational  
periods will be under the super-  
vision of adult members of the  
church.  
All children of Benton are in-  
vited to attend.

## Soil Conservation Notes By Herbert Anderson

**Soil Conservation Service**  
Henry M. Lecky, Sharpe, went to a little more trouble in digging a hog pond last Friday than most farmers do. He calls it a "two hog" pond because it did not cost any more than the profit he will get from two hogs. SCS specifications were followed in building the levee and digging the spillway.

"I can see that I need to build this fence on the contour to separate the class two land from the class four," says Vernon Walker. We were discussing fencing for a pasture program on his farm at Sharpe. Fairly steep land with moderately severe erosion is in class four while land with less erosion and nearly level is in class two. The better land will produce pasture longer periods than the class 4 land.

Renloe Rudolph, Eura Mathis, Sam

**Gold, James Solomon and Homer Chester** were present at the June meeting of the Marshall County Soil Conservation District Supervisors last Monday night. Charles K. Rudolph, Little Cypress, has a good stand of Ky. 31 Fescue which was seeded in standing corn in early fall. The corn rows were on the contour.

Rudolph's clipping his permanent pastures. A good improvement practice which most pastures need at least twice a year. "I would like to have new land capability maps which would show the classes of land on a new tract which I have bought east of the road," Rudolph told me as we looked at his old maps.

"I will order them for you and when they come, I will help you amend your complete soil and water conservation farm plan to include this land."

Farm plans were delivered last week by Scott DeMeyer, SCS technician, to Dallas Rose, Albert V. Rose, Fiddis, McGregor, and Ludie McGregor of the new Zion community; William Hancock, Sharpe; J. B. Dunn, Palma; and Walter Mason, Brewers.

## Kentucky On The March By Ewing Galloway

To Economic Security Commissioner Vego Barnes:

In your recent press release replying to what you call my "unethical attack on the state's unemployment insurance program," you say I violated "cardinal principles of the journalist's code." As I understand your letter, your accusation is based primarily on my failure to follow up on two young men who didn't seem downcast over their failure to find jobs. I said it was a twenty-to-one bet the men went to a handout office. I learned later that they did ask for relief other than unemployment insurance. A lady they asked for relief told them to come back next morning and she would give them some work to do. They didn't return. My capital crime was naming the wrong aid office.

I did not criticize the administration of your office. I did infer there might be chiseling by crooked claimants. You say yourself that your fraud squad has had 86 persons arrested for chiseling.

What you disliked most, Mr. Barnes was the general tone of my article, which was anything but praise for the unemployment insurance program. I don't blame you for hitting back. Your meal ticket is involved. Your letter would have been more effective if you had given more space to sound argument and omitted the name calling. Abuse is never very convincing. I'll forget the denunciation. I'll say I'm quite certain you are a first rate official.

Our difference in ideology, though, is wide and deep. You are sold on unemployment insurance. And, I take it, the welfare program akin to it. Well, I'm a dissenter, and I'll tell you why.

One of the first incidents in history to stick in my mind was Captain John

Smith's words to his crew at Jamestown when they refused to work—"Those who will not work shall not eat." I was seven years old then. In subsequent years I was to learn more history and see a lot of it made. Ben Franklin was my American patron saint. His gospel of thrift and frugality made a deep impression on me. In the most trying years of our budding nation neither Franklin nor anybody else of great influence proposed anything better than hard work for wage earners.

From Captain John Smith's time until 1935, when the social security law was passed, the American people made more progress than any other nation ever made. There was nothing to mislead them into thinking that if they didn't work the government would take care of them for a considerable period. Adversity was a tonic to all but the hopelessly lazy.

You may recall what happened immediately after the Civil War. The South was practically devastated, and the North was bleeding white, bankrupt. Yet in the ten years following Appomattox most of the mainline railroads were built. They were built with dump scrapers and hand shovels. The people of the South made a comeback that was as heroic as the fighting of the men in gray was gallant. And nobody dreamed of unemployment pay.

When this country was getting along without handout programs few people starved. Do you recall any that did? All knew that if they didn't save for a rainy day they'd wish they had. There was no serious lapse in labor morale. There has been a lapse since all the various public relief measures went into effect. If you don't know about it, Mr. Barnes, ask your neighbors. If you employ household help, ask your wife.

## Let The Chips Fall by Chip Wyatt

Trying to work and knowing the lake is as close as it is, is a hard matter during these hot days. We kinda wish this Linotype machine was situated a little on the edge of some good swimming hole.

The Telephone Company is having a hard time again — making ends meet — so they have asked the PSC for another raise in rates. I wish every time I couldn't make ends meet I could get a raise in something. From our own opinion the rates Benton residents have to pay for phone service is too much. Why not ask the PSC to have the telephone rates reduced. Benton's dial system shouldn't cost half as much to operate as towns where they have to pay a bevy of phone operators to handle the calls.

In most businesses where the volume grows a great deal — price begins to graduate. The telephones in this city alone have more than doubled in the past 7

years and so have the rates. If the PSC grants this new request for higher rates it will be because Mr. and Mrs. John Q. Public didn't raise a bigger fuss against it.

The progress made since Mayor Kinney and his group of councilmen have made and started on is a sight for other communities to see. Mayor Kinney said this week that the new city courtroom would be comparable to those in the larger cities. Even the new city jail will have its better qualities than most any city.

Congratulations are in order to the Rev. Roy D. Williams, former Benton pastor upon his appointment as District Superintendent of the Methodist churches. Rev. Williams is a brother to Rev. H. E. Williams, pastor of the local Methodist church and who was returned here for another period.

## Boy Scout Gets Gold Flash For Jamboree

MADISON, WIS. — Boy Scout Don Briehy is a lucky lad, for he will take to the International Boy Scout Jamboree at Valley Forge the gold-plated flashlight being presented to him here by Wisconsin Governor Oscar Rennebohm as Wisconsin Supreme Court Justice Marvin Rosenberry, a member of the National Boy Scout Council, looks on.

The Billioneer was created to commemorate the billionth Ray-O-Vac leakproof battery produced within the short span of 11 years. Visualizing the magnitude of a billion cells, they would make a single cell that would stand more than a mile high or, if laid end to end, would reach 37,500 miles.

Present also at the commemoration celebration were officials of the Army and Navy, representatives of the National Association of Manufacturers, as well as civic and industrial leaders of the state.

## Help for Our Times

Lesson for June 18, 1950

FOR TIMES that are dull, times without hope, Malachi is the prophet. When he lived the exile was over; but it was no golden age. In the dingy little city of Jerusalem, rich and beautiful no longer, lived only a comparative handful of rather poor people, dragging out a monotonous existence. To these people, living in discouraging times, Malachi had, and has, a message from God.

His prophecies do not have the bitter tang of Amos nor the melancholy of Hosea, the grandeur of Isaiah, the dramatic power of Jeremiah or the eerie visions of Ezekiel. But with inspired common-sense, he offers in the name of God a simple remedy with four ingredients.

**Better Leaders**  
SPEAKING DIRECTLY to the leaders of the people, namely the priests, Malachi condemns them for not really taking stock in the thing they were doing. How we need that today! If the church today in any place is dead, you may be sure there are some dead leaders. Dead from the neck up, that is, and not necessarily the preachers.

Many a good preacher breaks his heart for lack of support. How many men and women, in your church, can the minister count on to fill in where they are needed, without making up a dozen reasons why they "can't" do it?

Why do Christians talk and pray as if their religion were all-important, but act as if everything else came first?

**Law Observance**  
ANOTHER THING for which Malachi pleads is law observance. (2:2, 2:8, 3:5) They did not need new laws, for they had good ones. What they needed was to obey the laws they had. This again is what our times need. We have so many laws now that only an expert can keep up with them. No civilized nation could live, to be sure, under the unchanged statutes of a generation ago.

Nevertheless, if all the legislatures in America were to resolve to pass no more laws for five years, and if for five years the energy, time and money spent ordinarily on getting up new laws were put in on educating the people in the laws now in existence, and in fostering law observance and in preventing and punishing crimes, ours would be a better country.

**The Unbroken Home**  
AGAIN, Malachi stands for the unbroken home. He knows that no country can be strong when its homes are weak. (2:10-17) In the year 1948 there were about 420,000 divorces in the United States, and 1.80 million marriages. That is a divorce rate of about 21 per cent. In some states the percentage of divorce is even higher. Indeed, in one large midwestern city it was announced in the papers about two years ago that the marriages had "caught up with" the divorces, i.e., they were at last having more marriages than divorces! This was an extreme case.

To say nothing else about it, 420,000 divorces and 12,000 desertions means that in the United States alone there are at least 432,000 persons who have no regard for the most solemn promises.

**Support The Church**  
FIRST AND LAST, Malachi asks better support of the church. You need the church, of course; but then the church needs you. There is need for better leadership in the first place, and better support from the common man. Few persons want to live in a community without churches; yet a mere church building will not effect community life in the least. A beautiful building and a tall white spire are not a church.

The only church which will help a neighborhood is one in which the neighborhood takes an active part, a church where neighbors together worship God and where they are inspired to plans and acts of service for their fellow-men.

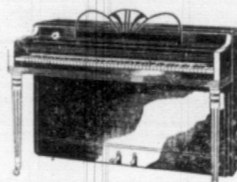

The main object of the church is not to shore up the country; still if you want a better country, one of the best ways to support it is to support the Christian church. For of all the institutions in the nation, the church is the only one devoted to the purpose of transforming human lives.

## Why Increased Telephone Rates Are Necessary in Kentucky

Present rates, based on costs of two years ago, are not  
sufficient for good and improving service under  
the much higher costs of today

Southern Bell's rates in Kentucky are based on the costs of providing telephone service up to March 31, 1948. Since then our costs have increased substantially—cost increases that were not considered in setting today's rates.

### Our Costs Have Risen Sharply Since 1948 Rate Increase

Southern Bell's wage costs in Kentucky went up \$926,000 annually as a result of a general wage increase in February 1949.

Employee pension costs went up in November 1949. Social Security rates went up in January 1950. Depreciation expense went up in January 1949. The Kentucky income tax went up in January 1950. Wage costs are going up further as a result of a shortening of wage schedules in May 1950.

From 1939 through 1949, wage increases added \$6,900,000 annually to our wage costs in Kentucky. The annual revenue from rate increases since 1939 is failing to cover this one item alone—failing by \$2,700,000 per year—to say nothing of other cost increases.

### Facilities to Improve and Expand Service Cost Large Sums of Money

The cost of improving and expanding telephone service has risen drastically. Present subscriber rates are based on our investment on March 31, 1948, when that investment averaged \$204 per telephone, but facilities for each telephone added since that date have cost \$325 per telephone. Subscriber rates intended to provide only a reasonable return for a \$204 telephone are, of course, too low for a \$325 telephone, leaving an investment of \$121 per telephone for which present rates provide no return at all.

Each added telephone increases the value of the service to existing subscribers because they can reach and be reached by more people. Since 1945 we have added 116,000 telephones in Kentucky. Adding these

telephones, and improving the service in other ways, has cost \$39,500,000 in new facilities.

### Good Telephone Service Essential to Progress in Kentucky

A constantly improving and expanding telephone service is essential to the progress and development of fast-growing Kentucky. To meet the telephone needs in the cities, towns and rural areas of the State, Southern Bell is now constructing new facilities in Kentucky at the rate of about \$10,000,000 a year—and continued construction at this high level will be needed in each of the next few years.

The money to pay for new facilities does not come from subscribers' payment of their bills. These monthly receipts cover only wages, taxes, maintenance and other day-to-day costs. Capital for new facilities must come from people who can be persuaded to invest their money in the telephone business.

### Present Earnings Are Inadequate to Attract Needed Capital

Southern Bell's earnings in Kentucky today are too low to persuade people with savings to supply the additional capital required to meet the State's full telephone service needs. In the postwar period of insufficient earnings, the capital for our construction has been obtained up to now because of investors' faith in the soundness and fairness of Kentucky and its institutions. However, actual earnings and not hoped for earnings must of necessity be the basis of raising capital for future construction.

That is why it is essential to good telephone service that earnings be improved by revising our present inadequate rates.

Kentucky telephone rates have advanced only about a third as much as the overall cost of living. Under the new rates, telephone service will continue to improve and will continue to be one of today's biggest bargains.

HERE ARE THE EASY RULES!  
1. Save the new style DR. PEPPER BOTTLE CAPS. The old Dr. Pepper bottle caps are NOT acceptable in this contest, and your use of even ONE old cap, or a cap other than Dr. Pepper, will make your entry null and void.  
2. By or before the close of the contest (July 31, 1950) or as many times as you wish prior to that date, take your new style DR. PEPPER CAPS to "Official Local Contest Headquarters." Your soft drink dealer will have a list of these "headquarters." EACH TIME you bring in new style DR. PEPPER CAPS, they will be counted and a copy of the Official Contest Certificate filled in showing the number of new style DR. PEPPER CAPS you turned in, and the original copy of the certificate will be given you. DO NOT MAIL individual certificates to National Contest Headquarters more than once. (SEE RULE 3 BELOW.)  
3. Send all your copies of the Official Contest Certificate, showing TOTAL NUMBER OF CAPS TURNED IN to:  
John Wayne, Honorary Chairman  
Dr. Pepper Contest Judging Committee  
Box 2789, Hollywood 28, California  
The envelope containing your certificates must be postmarked prior to midnight July 31, 1950.  
4. National Contest Headquarters will be advised of any discrepancies, which will result in disqualification of your entry.  
5. The 2,311 ENTRANTS TURNING IN THE LARGEST COLLECTIONS OF NEW STYLE DR. PEPPER CAPS will qualify for the National Finals, and participate in competition for the 2,311 prizes. Only one prize can be won by each entrant in the National Finals. Winners will be selected on the basis of completing the last line of the following jingle:  
When a Lift for Life You Need  
Dr. Pepper takes the load  
It's the Shop that Gives You Go  
"And all those who tie with the number turned in by the 2,311th entrant."

6. The entrants who qualify for the National Finals under Rule 5 will be notified of that fact by Western B. Connelley Corp., Contest Judges. Do not send in your jingle entries until you have been notified that you have qualified as one of the 2,311 National Finalists.  
7. Anyone may enter except employees of Dr. Pepper Company, Dr. Pepper Bottling Companies, their advertising agency, and their families. All jingles submitted in the National Finals, and all caps and certificates turned in to in this contest shall become the property of Dr. Pepper Company to be used as they see fit and none will be returned in case of loss, duplicate prizes will be awarded, and decisions of the judges will be final.

## A Plan For The Future

Or A

## Plan Of The Present

THE CORNELL has a plan which calls for a combination living-dining room. This room combination separates the service area of the house from the bedroom wing. A third bedroom into the left of the entrance vestibule can be used as a den, office, workroom or rented out, if desired. This room is equipped with a large closet and is accessible from both the front and side entrances.

The Cornell's modern kitchen is compactly arranged. There is ample space for a breakfast table under the high storage cabinets at the end of the room. The rear entrance hall leads to the bedroom, a shallow cabinet for storage.

The Cornell's bedroom wing has two lavatory, kitchen and basement. It has bedrooms, each provided with a wardrobe. The bathroom has a towel closet and there is a linen closet in the hall. The exterior of The Cornell is finished with siding on frame construction. It has no roof lines and wide overhanging eaves. The garage is optional. The Cornell's plan has an area of 1,100 square feet and contains a volume of 21,235 cubic feet, excluding the garage.

For further information about TRE CORNELL, write the Small House Planning Bureau, St. Cloud, Minn.

We hope we can be of service to you on plans for a New Home. We Invite you to discuss your plans with us.

Hot water, an essential requirement of health, sanitation and clean living, can be yours at the turn of a tap with a Fairbanks-Morse water heater. The conveniences of running hot water are limitless. Bathing, dishwashing, laundering and cooking take less time, and milk cans are kept sanitariously clean. Simple to install, the Fairbanks-Morse water heater operates automatically with thermostatic control.

Who uses more water every day than a homemaker? And if hers is a pump-and-pail household, think of the back-breaking work she must perform to carry water for washing dishes, clothes, for baths, shampoos, cleaning chores and cooking! And, if she is a farmer's wife... there are many more pailfuls to carry. Why carry water when this Fairbanks-Morse shallow well ejector pump — big enough for average family needs — can be bought so reasonably and paid for so easily! Let us recommend the right Fairbanks-Morse pump for the job. Call us today.

Reports from some sections of the county show that tourist business is again picking up following the slump after the month of May rush for fishing in the Lake.  
Reports trickle in that fish are beginning to bite again and some anglers believe it will yet be a good season, due to a late spring and summer.  
A report reaches this office that one man at least had good luck in the Big Bear Creek area when he ran into crappie. He was reported to have landed the limit of 30.  
A few reports also tell of a number of bass catches in and around the Lake region in the vicinity of Egner's Ferry and North of that point. Artificial

bait was used for the bass and some fairly large ones were landed.

Best luck was reported by Eddie Wolfe, of Detroit, who, with others made a large haul of catfish on two trot lines that were out one night.

Reports from below the dam tell of fair to good fishing for catfish and a few persons have had fair luck with stripers out of the swift water below the dam power house. This spot has been crowded almost daily by those eager to snare the hard to handle striper or pike in the swift water.

It is readily admitted by old timers that so far this has been the worst season yet since the water was impounded and it has numbers worried about the future of fishing in the Lake. A hundred or more have "foren" ideas as to what has happened, and no two of them are the same.

One perplexing thing is that very few little bass are caught any more. A year or two ago

it was an easy matter to catch quite a few small and big mouth bass from 6 to 8 inches in length. Now, if one is lucky to land one it usually weighs 2 1/2 to 5 pounds or more. The same applies to stripers caught in the Lake--they are all of average size with no little fellows in evidence. What is happening?

One angler suggests snakes, and he reports more of them this year than usual. He goes so far as to suggest we have a snake killing day, advertise it and everybody go out and bring to shore one or more snakes. It is thought they may be destroy ing fish nests. A mild winter seems to have produced plenty of snakes.

One fisherman reports landing a crappie that had a lamprey attached to its side. This may be a part of the answer as to what has or is happening.

The lamprey is an eel-like thing that attaches its self to a fish or human being, has to be cut apart or burned loose from the flesh. Watch out for them and destroy any found.

### Honor Truck "Driver of the Year"

WASHINGTON, D.C.—Lloyd Reiser of Hancock Truck Lines, Indianapolis, receives congratulations of President Truman at White House on his selection as trucking industry's Driver of the Year. Left to right, Major General Philip B. Fleming, general chairman of the President's Highway Safety Conference and chairman of the three-man board of judges which selected Mr. Reiser over nominees from all parts of the country; the President, Lloyd Reiser and Mrs. Reiser. Mr. Truman is examining the diamond and gold pin presented to Reiser by the American Trucking Associations, Inc., sponsor of the annual contest designed to promote highway safety. Reiser's selection was based on his long record of accident-free driving, plus a life-saving incident on the highway near Louisville, Ky.

### Do Gentlemen Prefer Blondes?

Since the musical comedy hit, "Gentlemen Prefer Blondes," opened in Manhattan, gentlemen all over are becoming more blond conscious than ever. But there are still many men about town who are true to brunettes. One of the latter is Patty Ann Jackson, an outstanding member of the "Blondes" cast. In the first act, this cute-as-a-button dancer wears a wispy costume sporting a white pique collar. Naturally it must be kept fresh and sharp looking like all starched collars and cuffs which are the season's femme fashion. Particular Patty launders hers with a wonderful new wax starch that makes her collar stay crisp longer and resist dirt better.

## the South LEADS in SUGAR from Sugarcane

with 100% of the Total U. S. Production

**BRINGING IN \$37,234,000 TO SWEETEN THE SOUTHERN TILL!**

Tender, juicy sugarcane, waving in the sunny Southland fields, brings a sweet profit to the South! During 1948, the South produced 5,778,000 tons of sugarcane for sugar . . . 100% of the nation's total . . . amounting to \$37,234,000 in total value of production. Sugarcane is but one of the many products with which the South is so richly endowed . . . that make the South a veritable storehouse of riches. And because business leaders the nation over are looking to the South as the most vital area for growth and prosperity, thousands of new industries are moving to the South—where opportunity is unlimited!

### THE NASHVILLE, CHATTANOOGA & ST. LOUIS RAILWAY... PUTS THE EMPHASIS ON PROGRESS

Although it was chartered in 1845 during the days of the leisurely old South . . . the NC&StL Railway is as modern and progressive today as the vital new South. For just as the South has become an alert, wide-awake region with the brightest future of any area in the nation . . . so is there new tempo and new progress evident everywhere along the NC&StL line. New roadbed, new track, new bridges, new equipment and buildings all bespeak its modern, progressive spirit. And by its constant program of improvement and modernization, the NC&StL will continue to give the South finer, better, safer rail transportation.

## Church Of Christ New Building Sunday

Worship services in the new Church of Christ building will be held Sunday July 2, 1950.

How a former minister of the Church of Christ, now of the Church of Christ, will bring the new brick building located on the street from the old building, which was erected at a cost of approximately \$50,000. The new building was designed by Hal Perry, of Kentucky Lake.

The new building is a fine example of modern architecture. It is a two-story building with a large steeple. The interior is bright and airy, with large windows and a high ceiling. The new building is a great asset to the community.

## Birmingham Schedule

Everything in the annual Birmingham Picnic coming which Sunday, July 2, 1950, will be a great day for the city.

The event will be held in the shade of the new building, which is a great asset to the community. The event will be a great success.
