**JOE ELY LAST RITES  
ARE HELD HERE  
MONDAY AFTERNOON**

**FUNERAL SERVICES HELD  
AT FILBECK CHAPEL HERE  
MONDAY AFTERNOON**

Joe Ely, 58 years of age, died at 12:45 P. M., Saturday, June 23. Death was attributed to a heart attack. He had been slightly ill, but was up town Saturday morning and had told friends he was feeling much better. Mr. Ely had a previous attack several weeks ago in Paducah and was confined to a hospital for a few days.

He was a member of the Benton Methodist church, was a former Postmaster here and was clerk of the local draft board during world war II. At the time of his death he was connected with the Federal Income tax department in this district with offices in Paducah.

He was the son of the late Pete Ely, who was Sheriff of this county two terms. His survivors include his widow, Mrs. Lalah Lovett Ely; one daughter, Mrs. Eugene Crayton, of Louisville; three sons, Billy and Jimmy Ely, of Benton, and John L. Ely, of Newport News, Va., his mother, Mrs. Mary Ellen Ely, and one brother, Will Ely, of this city.

Funeral services were held Monday afternoon at the Filbeck chapel, the Revs. Harry E. Williams and J. Frank Young officiating. Burial was made in the Union Ridge cemetery.

Besides his wife, Mrs. Ethel Beasley, he is survived by three sons, Frank Beasley, of Grahamville, Ky.; Joe and Charles Beasley, of Benton; four daughters, Mrs. Clara Cornish, of Lexington; Miss Mamie Beasley, of Paducah; Mrs. Paul Stice, of Calvert City, and Mrs. Pearl Chambers, of Benton.

**24,500 VISIT KENTUCKY  
DAM OVER WEEK END**

An estimated 24,500 persons took advantage of the summer weather and visited the Kentucky Dam and State Parks during the past week end, according to TVA officials. Captain Paul Crockett, head of the TVA safety service, said 7,800 persons signed the registers for tours of the Dam. The balance of the crowd was scattered over the picnic area and on the beaches at the Parks.

**DRIVER'S LICENSE  
WILL GO ON SALE  
DURING JULY**

Renewal of Motor Vehicle Operator's License for 1950-1951, commonly referred to as "driver's licenses", will be on sale at the circuit clerk's office, W. B. Hall, during July, it was announced today.

An important change in the law this year states that no operator's license of any type can be issued to anyone not 16 years of age. Licenses issued for operating a 5 HP motor vehicle or a motorcycle will be identified as such on the face of the license and cannot be used for the operation of a regular automobile.

Applicants for any type of operator's license between 16 and 18 years of age must have the father or legal guardian sign that he assumes responsibility under the Operator's License law.

**GRAND JURY IS DISMISSED  
WEDNESDAY NOON AFTER  
REPORTING 12 BILLS**

The mid-summer term of the Marshall county Circuit Court was begun here Monday morning, with District Judge, Holland G. Bryan, presiding, and Attorney David Reed in charge of investigations for the Commonwealth.

The general routine of opening of Court was followed by Judge Bryan. Grand jurors for the term were examined and qualified, and sworn in for duty. The Court then gave final instructions to the jury, pointing out their duties under the laws of this state and also pointing out some violations of the laws that would be brought to their attention.

Due to late crops and the urgent need for farm work, some of those summoned were excused by Judge Bryan. The following 12 men were accepted for service:

J. W. Lyles, Foreman; Raymond Allen, Elmus Rudolph, Alton Anderson, Luther Morehead, Curtis Owen, Clarence Blakney, Henry Hawkins, Rollie Roberts, Raymond Green, Evans Culp, Dewey Siris.

At the conclusion of their investigations, the jurymen reported to the Court of the finding of 12 indictments. The jurymen then made an investigation of the operation of the County Home and the County Jail, reporting to Judge Bryan that both were in first class condition and being operated satisfactorily.

The Grand Jurymen were dismissed at noon Wednesday after a two and one-half day term. Jury trials listed on the criminal docket got underway. Three youths were given sentences on charges of storehouse breaking, the sentences were pronounced by Judge Bryan and the youths turned over to Probation officer, Paul Cross.

Two local option cases were tried by jury and resulted in a fine of \$50 and 30 days in jail for Lawrence Wilkins. A. D. Jones, who was arranged on a local option charge was also given a fine of \$50 and a 30-day jail sentence. Both defendants had been fined \$100 and 30 days in County court, but both cases were appealed to Circuit court.

Other cases on the criminal docket are listed throughout the balance of the week. No cases are listed for July 4th of next week.

**CALVERT CITY YOUTH  
KILLED IN PIT CAVE-IN**

Curtis Stokes, 19, was fatally injured Friday June 23, when trapped by a gravel pit cave-in at Lone Valley.

He was a resident of Calvert City. Although his body was recovered in a short time, the youth died before would-be rescuers reached him.

Marshall Sheriff, Volney Brien said Stokes, James Neal and Eugene Wright, a contractor, were working at the pit when the cave-in occurred.

The youth is survived by his parents, Mr. and Mrs. Elmer Stokes, and two sisters, Wanda and Marlene, and two brothers, Richard and Donald Ray, all of Calvert City, two grandfathers, R. R. Stokes, of Calvert City, and Will Bratcher, of East Prairie, Mo.

Funeral services were conducted Sunday afternoon at the Calvert City Methodist church by the Rev. G. E. Clayton and burial was made in the Calvert City cemetery.

Palbearers were Clarence and Junior Watkins, Kenneth Bayan, Robert Neal, Cecil Emith, and James Tolbert.

### City Has Slight Edge Over 1940

The population of the City of Benton showed little gain over the Census of 1940. According to figures released this week by the Census Bureau, Benton's 1950 population figures are 1974 compared to 1,906 in 1940.

The county tabulated as a separate unit showed a loss of over three thousand people. The figures for 1950 were 13,396 compared to 16,602 in 1940. The figures for the county were expected since the 1940 census was taken at a time when several hundred TVA workers were making their homes here at that time. However, the gain in the Benton population was expected to be much more.

Marshall county together with Fulton, Ballard, Carlisle and Hickman counties were the only ones to show losses.

Calloway county registered a gain.

This counties dwelling units increased in 1950 and so did the County farms showed an increase for the ten year period.

Following are the figures released by the Census Bureau:

County population — 1950, 13,396; 1940, 16,602; 1930, 12,689, 1920, 15,215.

Benton population — 1950, 1,974; 1940, 1,906.

County dwelling units — 1950, 4,598; 1940, 4,611.

Benton dwelling units — 1950, 646; 1940, 526.

County farms — 1950, 2,802; 1940, 2,182.

**SOUTHERN BELL TO  
BUILD TELEPHONE  
LINE FOR RURAL AREA**

The Southern Bell Telephone Company plans early construction of a new telephone line to serve the farm families in the Benton community, it was announced today by Mr. B. F. Harwood, local telephone manager.

Mr. Harwood said that Mr. W. A. Hazelwood, a Southern Bell man well qualified to develop the new line, already is on the scene calling on the farmers to work out details. The exact route of the line, the number of subscribers to be served and other details will be known a little later when the Southern Bell representatives have completed working out matters pertaining to the line with the farmers themselves.

The new line will be connected with the Benton exchange. Construction will be of the latest type, Mr. Harwood stated. The actual construction is expected to be started as soon as the preliminary planning and engineering can be completed. Specially trained telephone men will supervise the building of the line and installation of the telephones.

Mr. Harwood stated, "We're doing our level best to hasten the day when rural telephone service will be available for everyone who wants it."

**GERALDINE DUNN RETURNS  
HOME AFTER ALMOST TWO  
YEARS AT KOSAIR CLINIC**

Geraldine Dunn is now at the home of her parents, Mr. and Mrs. Woodrow Dunn on Route 7, after having been a patient at the Kosair hospital in Louisville since August 10, 1949.

Young Miss Dunn, a polio victim of the 1949 epidemic, was admitted to the Riverside hospital July 22, 1949 and stayed until she was transferred to Louisville, where she received treatments which brought about her recovery.

The parents extend an invitation to all friends of the little girl to visit her at any time.

## Looking At Life

Arthur C. Clark, British expert on interplanetary flight, forecasts mass migration of persons over 70 years of age to the moon "for health reasons," once space travel has become a reality.

Mr. Clark said scientists believed the low gravity force of the moon would take the load off weak hearts and prolong life.

We knew somebody would come a-long and knock that down-to-earth feeling out of us.

We guess, the Tin Pan Alley song writers of the future will come out with something like this:

"How you gonna keep 'em down on the earth, after they've seen the moon."

With septagenarians and octogenarians kicking up their heels on the moon, it's sure going to make present day young folks' courting at the drive-in theatres seem even duller than the horse and buggy days.

An advertisement of the year 2,050 may read like this:

Visit Niagara - on - the-moon Reg. moonlight boat rides. Dance among the stars. Plenty of Old Hill-side moonshine. Special rates to honeymooners

during the eclipse. Near-est thing to heaven there is.

**ASIDE TO THE MIDDLE AGED:**  
Nobody grows old by merely living a number of years. People grow old only by deserting their ideals. Years wrinkle the face, but to give up enthusiasm wrinkles the soul. Worry, doubt, self-interest, fear, despair—these are the long, long years that bow the head and turn the growing spirit back to dust. (Quotation by Watterson Lowe)

## Soil Conservation Notes By Herbert Anderson

"More than 150 TONS of soil per acre may be 'splashed' by raindrops from a one inch rain falling on bare ground!" said R. V. Leighty, Soil Scientist of the SCS, in Mayfield, Kentucky.

You have seen the water splash when a faucet drips. Around new buildings you have seen mud clinging for a foot or so up the wall. A drop of water hitting a solid surface makes a crater like a small blockbuster.

It's a one way trip down. On bare ground a raindrop can blast topsoil particles loose, raise them two feet in the air and deposit them again five feet away. With any slope to the land soil will move rapidly downhill.

Clean tilled fields of tobacco, strawberries, and corn in Marshall County have been damaged by our recent heavy rains. On any bare fields it is easy to see washed out crops on the slopes and those below covered with the silt from above.

Moving, silt-laden water has clogged the channels of our creeks and rivers, often until there are no channels. Our own Clarks River is a good example. Farmers along the river are almost to the point of abandoning probably the best land in the county because the water gets their crops.

Water carries the light, fine soil par-

ticles. These you need to keep. Sand and gravel, which you don't need, are often left.

No one is rich enough to let the land wash away. Control of water and saving our soil is everybody's problem. We have facilities and agencies to help us reduce raindrop splash and slow the moving water.

The energy of the raindrop is lost when it hits the land's raincoat, grass, and it can't splash soil. Keep the sloping land always covered with close growing grasses, legumes, and grains.

On the more level land, winter ground cover planted after cropping and turned under before the next planting will add that magic humus, which reduces splash and allows the ground to hold more water for the crop. Keep the ground surface "rough" with crop residues.

When plowing, planting, and cultivating, go "with the grain" around the hill instead of "across the grain" or up and down hill. A terrace or two on lands suitable for cultivation will give the line and let the water ease off instead of rush off.

Natural draws where water normally collects to run off down the hill, needs to be put in sod and never broken. The grass in these draws will serve not only to catch soil and slow the water but will give us hay or pasture as well.

These are some of the ways and means to keep the splash of raindrops from doing damage. With these in practice we are farming the conservation way.

## Kentucky On The March By Ewing Galloway

You may recall my nagging at Henry Ward, conservation commissioner, about getting more road signs to help people from outside the state find the great scenic wonders in Kentucky.

Well, everything is lake now. At least for the present. No more bronx cheers. Mr. Ward gets the kinds of cheers that thrill the souls of actors and cause many public speakers to keep on talking when they ought to shut up and sit down. From your humble correspondent a lot of amens and hallelujahs.

Mr. Ward says he has had his own troubles getting the signs. That was to be expected in view of the fact that special arrangements had to be made.

A letter from Commissioner Ward follows:

"I appreciate your interest in continuing to point out that adequate signs have not been placed, directing visitors to Kentucky Dam and Kentucky Lake. You may be surprised to know that thirty signs have been erected along the highways, not the two that you mentioned in your article recently.

"The trouble is that there are so many highways which must be covered, that

thirty do not make a dent in the picture. Twenty-five new signs have been on order for several months and I have just placed an order for forty additional. These will be large metal signs in Scotch-lite, so that they will be effective at night as well as in the daytime.

"The delay in acquiring signs has arisen from the fact that the Highway Department has been unable to furnish us with signs and arrangements had to be made for their manufacturer elsewhere.

"I hope that you will continue watching this situation and calling attention to any shortcomings."

Maybe in a year or two we can get all the signs that are needed to direct people to the big scenic attractions in the state. That might mean 500 metal signs 16x20 inches. That number wouldn't make much of a dent in the state's treasury.

Signs directing people to Mammoth Cave and Kentucky Dam should be over the border in Illinois, Indiana, Ohio and Tennessee. I believe I have seen one or two Mammoth Cave signs in Indiana.

Road signs are the cheapest advertising the state can buy.

### Helps Grocer Hard, Long Hours

of hard work in the retail grocery business is especially true in the summer months. You will find that a lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances. Your food will not agree with you. You will suffer from heartburns, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains. And if you suffer from such a disorder, there is no known cure except the administration of the Vitamins and the Minerals which your system lacks.

HADACOL contains not only one, but 5 of the B Vitamins. HADACOL contains not only one, but 4 of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL. So it matters not how old you are or who you are. It matters not where you live or if you have tried all the medicines under the sun, give this wonderful preparation, HADACOL a trial. Don't go on suffering. Don't continue to lead a miserable life. Be fair to yourself. Temporary relief is not enough for you. Give HADACOL a trial. Accept no substitute.

Insist on the genuine HADACOL.

Sold at all the leading drug stores. Trial size only \$1.25, but save money—buy the large family and hospital size—only \$3.50.

We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.

### ELTIS HENSON IS COLLEGE PUBLIC RELATIONS MAN IN MURRAY, KENTUCKY

Professor Eltis Henson, a Marshall County young man, who has been Principal of Trigg County High School for the past four years and residing at Cadiz, has resigned this position and will go to Murray, Tenn. There he will fill a place which he has accepted as Public Relations man at the Murray State College.

His primary work will be extension or field service work. He will begin his new duties July 2. A news story concerning his new position in the Trigg County Gazette carried a large picture of Mr. Henson and praised his work while with them very highly.

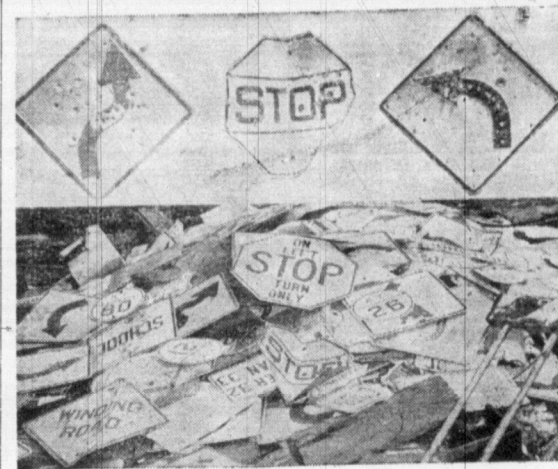

### NEW HARMONY WOMEN DISCUSS MAKING TRAYS AT HOMEMAKERS MEETING

Tray making was the subject for the New Harmony Homemakers Club for June. Several trays were made.

Mrs. Gracie Nimmo President called the session to order. Officers were elected for the coming year. Plans were made and discussed for the Marshall County Fair and annual day. Also plans were made for a picnic which will be held July 11 at Kentucky Lake Park in the late afternoon. Our friends and neighbors are invited to meet with us.

Potluck luncheon was served to Mrs. Irene Powell, Marie Barker, Eula Crowell, Nellie Reed, Thelma Payne, Gracie Nimmo, Laura Jane Portis, Mayme Neil Phillips, Emma Barnes, Lalah Smith, Verna Minter, Esther Howard.

Visitors, Misses, Eudene Watson, Lou Ann Portis, Julie Beth Howard, Ina Faye Powell, Mayme Jewell Phillips, Judy Portis, and Miss Sunshine Colley. The next meeting will be held August 8th, in the home of Mrs.

Pictured above are some of the hundreds of Kentucky road signs which reach the junk heap each year after being damaged by vandals. Many of the signs deliberately knocked down or rendered illegible were placed to warn the motorist of approaching danger which could cause a fatal accident. Hundreds of other signs, similarly mutilated, are recommended for further use.

Guy Phillips. Visitors are always welcome.

## Observations

(Old Kodger's Column)

**ONE OF MY TWO READERS**  
Wanted to know why this column was so short last week. It was because ye Kodger has been laying a lot of brick over on the new city hall building. It now looks like an all-summer job—the annex to the Methodist church will have to be built.

**EVERY SO OFTEN HELP**  
By Elvis Holley, Putt Stillee, and Bill Kuykendall, three expert brick layers, come by and help out by carrying mortar and rolling wheelbarrows. This gives old Kodger a chance to fill in this space. Every now and then we have to show the other fellows how to do the job—right.

**ONE DAY WHILE HARD AT**  
Work under one of the Court yard shade trees my head became dizzy and a drowsy, lazy, nappy feeling crept upon the old body and almost instantly the thought of a long snooze came by with the cool breeze that came in from down Calvert City way. Pretty soon I could see the clouds floating by—and a jaybird directly over my head. The situation was uncomfortable. If you've never had a jaybird cock his head, look down upon you in a way you could imagine hearing him say, "opportunity knocks, boy, you don't understand!"

**WHAT DO YOU THINK HE**  
Did? He flew away in the direction of G. O. Pace's whippoorwill hatchery and hinted that I quit laying brick and go look after my eggs. Next thing was the clouds lazily drifting by and in them is another interesting story. Did you ever lie down flat on your back and watch the big, snow white clouds float by? And have you ever tried to figure out their shape and forms? One can see all types of animals, human beings, castles, and the likeness of old Abe Lincoln may float by. If you will use your imaginative power.

**WONDER IF LIFE ISN'T**  
Like that? We create many things in our mind while it is up in the sky. It has been said that more than half of the troubles we create in our minds never happen. Like the pictures in the clouds—they are not real, but bridges we cross before we get to them. It's easy to find almost any kind of picture in the clouds. It is also an easy matter to create pictures of others in our minds. The pictures look real, but are they? Perhaps if we looked a little closer, it might be just another group of clouds floating by.

**COMING DOWN OUT OF THE**  
clouds for awhile and instead of imaginary ghosts, let us take a squint at a real ghost—war. It is now going in in Formosa and this may be a rehearsal for the real thing to come later. If you recall just a few years before world war II, there was a rehearsal in Spain, and in this civil war in Spain it was a war of the people against the Dictator and the Dictator won. He is still in power in Spain. What's happening in Formosa today may be duplicated in Berlin. It appears inevitable, but when, of course no one knows.

**AFTER THOUSANDS OF YEARS**  
man has not yet learned how to get along with other men. He still sees imaginary things floating by and the only way to get them is by force. Christianity is on the march with loaded guns and another "shootin' war." The forces of one ideal versus another, and with a possibility that both are wrong in the scramble for material wealth and power in the world. The Russian people have their ideals and others have theirs—they conflict, and usually in the end that means war. We have not found any plan whereby we can live together in peace.

**THERE MUST BE A PLAN**  
somewhere that will enable all creation could live together in a peaceful world. But, Christian believers say, "we have it." Moslems, Hindus, and hundreds of others speak the same thing. No one is willing to give a point. It is the same thing in a different manner in our own county—We too, have not learned how to get along with each other. If this be true, and most of us agree that it is, how do we expect to teach others and convince them our way is the only way. What is the natural thought about a neighbor who continues teaching good and at the same time is busy buying shotguns and loading them?

## Calvert Future Homemakers To Sponsor Community Recreation Night June 30th.

CALVERT CITY RECREATION NIGHT SPONSORED BY FUTURE HOMEMAKERS OF CALVERT By Avagene Freeman

The Calvert City Chapter of Future Homemakers of America have set a date and place for the first community recreation night, which has been selected for the night of Friday June 30th at 7:30 o'clock. The place is in the gym of the Calvert City High School.

Everyone is cordially invited to attend and help make this project an outstanding success.

Since one of the purposes of the FHA is, "To Provide Wholesome Individual and Group Recreation", we have decided that this community recreation is a very worthwhile project. We feel that such a project in this community has been very badly needed for a long time. We have been planning it for quite awhile.

Only now, is this dream of ours about to become a reality, and with the help and cooperation of the citizens of this community, it will be a success.

I would like to explain to you that this project is not for the benefit of the FHA and school pupils alone but that it is for the benefit of everyone young or old in the community and the county, so we are asking YOU to help us in this and give us your full support.

We can't expect this to go off with a bang the first time we try it, and we are prepared to meet with all but failure the first few times, but with patience and guidance this very worthy project will be properly put over and be a great benefit to the people around here.

Remember now, the FHA is counting on you to help make this community recreation program a success. The best way you can help is to pile the family in the old buckboard and ambles down to Calvert City Friday night.

Come on now, let's everyone be there, it's for fun and we promise you a good time.

Mr. and Mrs. Charles Goheen, of Scale, were visitors here Saturday.

**THE BIBLE SPEAKS**  
By DR. KENNETH J. FOREMAN  
SCRIPTURE: Genesis 25:27-34; 27:29-34; 28:1-15; 37:29-36; 46:1, 29-34  
DEVOTIONAL READING: Psalm 91

**Black and White**  
Lesson for July 2, 1950

A GROCER in Minneapolis received a letter from a former customer who had left the city owing a large grocery bill. "I have been converted in a review here," the letter said, "and I want to make everything right in my life that has been wrong." Enclosed there was a certified check for the old bill. The grocer wired back: "Who was the evangelist who converted you? We need him in Minneapolis."

Conversion is God's operation on the heart. No one can actually see the heart, but if the operation is successful, the symptoms of disease will disappear and the symptoms of health can be seen by any one. The patient is a new man.

Jacob Black PERIAPS the most notable case of conversion in the Bible, aside from the Apostle Paul, is the man named Jacob. His life is a study in black and white; up to a certain point hardly anything good could be said of him, but after that point he can hardly be accused of anything bad.

All his younger days he was principally noted for giving trouble to other people and "doing them out of" something he wanted for himself. First he tricked his older brother into selling him the family birthright, for the ridiculous price of a bowl of soup (potage). You would not think any one would sell his birthright; but Jacob caught Esau when he was dog-hungry. Then we see him outsmarting his brother again by birthright, Jacob was by that time a shameless liar and thief. It became so hot for him at home that he had to leave town.

We have a glimpse of him on his journey, dreaming about a ladder to heaven. Evidently his conscience did not trouble him. Indeed, he proceeds to bargain even with God; if God will prosper him, he says, he will see that God gets ten per cent. God did indeed prosper him; but he grew no better for it.

The rest of his life, for the next twenty years, is one piece of trickery after another, and his uncle Laban taking turns trying to outsmart each other, with Jacob usually coming out ahead.

Jacob White THINGS came to a climax on the night when Jacob, fearing death at Esau's hands, arranged his family to go ahead of him, keeping himself in the safest place in the rear. . . and there at last he came face to face with God. The story of his all-night struggle at the brook Jabbok is a strange one; but one thing is certain. After that night even his name was changed, for the man himself was a new man.

He is patient in trouble, no longer resentful. He is not only a good man himself, he does his best to help others. He conducts what can only be called a family revival; he persuades one and all to give up the idols they had been worshipping and turn to the one true God. He offers sacrifices, like his fathers before him.

He goes down into Egypt at last, a humble man, no longer the cancelled young crook he had been when he went to Padan-Aram. He depends now on God and not on himself.

The God of Jacob A FAMILIAR Psalm carries this refrain: "The God of Jacob is our refuge." Why the God of Jacob, not Abraham nor Isaac? Well, if it were only the God of Abraham, most of us might as well give up. For Abraham was a great genius, a man such as appears scarcely once in a century. Or if he were the God of Isaac only, we would be led to think of him as caring especially for the weak-minded, the lame and the lazy. But Jacob—just a plain man full of meanness? Yes; the same God who changed him can change the meanness of us.

The real test of religion is not what support it can give to noble souls, or what comfort it gives to the weak. The real test of religion is: Can God turn black into white? Can God take an ordinary, conceited, slippery customer and make a good man of him? The God of Jacob can do this; and he is the God most of us need.

**Why A Telephone Rate Increase Is Necessary**

An important message to every telephone subscriber and every prospective subscriber in Kentucky.

The Southern Bell Company wants you to know why it is necessary to revise telephone rates. Here's why:

**1. Operating costs have continued to increase**

Since March 31, 1947, the date on which current telephone rates in Kentucky are based, costs of rendering service have increased substantially, including a wage increase last year that is costing us nearly a million dollars a year.

Wage increases made effective in Kentucky from 1939 through 1949 are costing us \$6,900,000 annually, but annual revenue from rate increases made effective since 1939 is falling by \$2,700,000 to cover this one item alone, to say nothing of other cost increases.

**2. Costs of new facilities has continued to go up**

On March 31, 1947, our investment in telephone facilities in Kentucky averaged \$204 per telephone, but facilities for each telephone added since that date have cost \$325 per telephone, or \$121 more. We've already added and are still building tremendous amounts of new facilities to improve and expand service.

New facilities are not paid for out of subscribers' monthly payments for telephone service. New facilities must be paid for with new capital brought into the business from people who will invest in telephone facilities because they expect to realize adequate earnings on their investments.

**3. Earnings too low to attract needed capital**

As a result of steadily increasing costs, Southern Bell's earnings in Kentucky today are too low to attract the investment capital required to meet the state's full telephone service needs. We are eager to meet these needs, and we feel our obligation to do so in the public interest. To do this, additional capital is necessary—and improved earnings are necessary to attract it.

We do not like to ask for increased rates any more than we like to see costs go steadily higher. But the two are tied together. We know that the people of Kentucky want good, improving and enlarging telephone service at the lowest practicable rates, and that is what we want to furnish.

How well have we succeeded up to now? The answer is that Kentucky telephone rates have advanced only about one-third as much as the overall cost of living. Under the new rates, you can be sure that telephone service will continue to improve and will continue to be one of today's biggest bargains.

**A Plan For The Future Or A Plan Of The Present**

THE BLOUNT has a garage which, attached to the house by a screened breezeway, gives a wide appearance, although the house itself is only 36 feet wide. If necessary, the garage and breezeway can be left off without detracting from the general appearance.

There are two bedrooms and bath and connecting living and dining rooms. The plan shows a cased opening between the rooms, but this can be omitted to form an L-shaped living-dining room.

Kitchen cabinets show the sink under the windows, range to the left, refrigerator next to the door, and dining room to the inside corner. The entrance breezeway, at grade level, has a kitchen and basement. Cost, \$10,000. Both entrances, and there is a bathroom in the hall and wardrobe in the bedrooms.

Plans call for an exterior porch and asphalt shingles on the roof. Overall dimensions are 36 feet wide, 36 feet deep. Floor area totals 308 sq. ft. For further information, write to BLOUNT, write the Small Building Bureau, St. Cloud, Minn.

We hope we can be of service to you on plans for a New Home. We invite you to discuss your plans with us.

New Hotel At State Park May Be Ready  
In March 1951 Contractor States

Above is pictured an artist's drawing of the proposed new hotel at Kentucky Lake State Park on Kentucky Lake.

Contract for construction of the 50-room hotel was awarded to George W. Katterjohn, Paducah, Tuesday.

Mrs. Katterjohn, won the contract on a bid of \$366,562. The state's original estimate on the hotel was \$400,000.

Henry Ward, state commissioner of conservation, said an additional \$100,000 will be spent on a water system, sewage disposal facilities and furnishings for the hotel.

Mr. Katterjohn said the building probably will be completed in March 1951.

# **VIRGIL L. BROWN TO TAKE VACATION ON COAST AND RETURN TO KY. THEN TO MD.**

Virgil L. Brown, brother of Mrs. R. P. Wald, who resides in Frederick, Maryland, and has been visiting his relatives in this county for several weeks, will leave after the Fourth of July holiday for Los Angeles, California and Vancouver, Wash. On this trip he will be accompanied by Bobby Thompson, of the Dogtown community, who will do the driving.

After a vacation on the coast he will return to Kentucky for several weeks and then back to his home in Maryland.

Mr. Brown is the son of the late Professor T. D. Brown and Mrs. Brown.

# **BENTON WOMEN HONOR WORTHY GRAND MATRON MRS. CLARICE CROW**

On Wednesday Mrs. Antha Pugh, Worthy Matron of Benton Chapter, Mrs. Virginia Furchess, Worthy Matron of Murray Chapter and Mrs. P. E. Ene, star point in the Benton Chapter, entertained Mrs. Clarice Crow, Worthy Grand Matron

of the O.E.S. of Kentucky, from Beaver Dam, Ky. A fish dinner at the cafe Number 94 on the Murray Highway and a sightseeing tour of the Ky. Lake made up the program for Mrs. Crow.

# **HAVE YOU RENEWED THE MARSHALL COURIER FOR ANOTHER YEAR**

Years have a habit of rolling around before one realizes it, and it may be that your subscription date is "out of date". The numbers opposite your name indicate what month and year your Marshall Courier is out, after the time that you paid the dollar.

Won't you look and see if yours is out and bring us a dollar, and save the wear and tear on old Mrs. Rodger hunting you up to find out if you still want it.

# **CURTIS D. REYNOLDS ASSUMES DUTIES AS THEATRE MANAGER**

Curtis D. Reynolds, of Pocahontas, Ark., assumed the management of the Benton Theatre this

week, replacing Miller Stroup, who has been transferred to Covington, Tenn., as house manager of the Ritz Theatre there.

Mr. Reynolds has had previous theatre experience, starting early in youth, having worked for years at the Imperial theatre in Pocahontas as projectionist and assistant manager. He received his education at Pocahontas high school, later serving 41 months in the army; 13 months in Europe and seven months in the Pacific.

Mr. and Mrs. Reynolds have moved into a Hawkins apartment.

# **REV. AND MRS. HARRY WILLIAMS ATTEND TEA AND RECEPTION IN PADUCAH**

The Rev. and Mrs. Harry E. Williams attended the reception at Wesley Hall in First Methodist Church of Paducah Tuesday evening of the past week.

The reception was given in honor of the Rev. Roy D. Williams and family, of Mayfield, who will reside in Paducah while the Rev. Williams is Presiding Elder of the Paducah District.

# **PERSONALS**

Mrs. Chris Garrath, of Miami Beach, Fla., Mr. Greg Klump, of St. Louis, Mo., Mr. and Mrs. George Gillion and Mr. and Mrs. T. M. Thompson, of Paducah, visited the Schmauces Thursday night.

Miss Geneva Ross, of Route 5, was a business visitor in town Friday.

Cool As A Snowflake

Cool to look at; cool to taste! What could be more appealing on a sultry summer day than this luscious Coconut Lime Chiffon Pie. And best of all—especially if you are the one to do it—it's cool to make because this lovely dessert never sees the inside of an oven. That's right—not even for baking the shell. The refrigerator does the job.

You see, this Coconut Lime Chiffon Pie boasts a tasty graham cracker crust—and that, of course, can be put together in no time and then chilled. Without benefit of oven, it is crisp, tender, and delicious.

The filling is whipped-until-fluffy lime-flavored gelatin—a fresh, cool green that makes this pie a real appetizer. It is topped with whipped cream, generously sprinkled with frosty white coconut. A really heavenly dessert with so little effort—and no hot-weather-baking discomfort!

# **Coconut Lime Chiffon Pie**

- 1 package lime-flavored gelatin
- 1 1/2 cups hot water
- 1/2 teaspoon salt
- 2 teaspoons lemon juice
- 3/4 cup cream, whipped
- 1 cup shredded coconut, cut
- 1 Graham Cracker Pie Shell

Dissolve gelatin in the hot water. Add salt and lemon juice. Chill until slightly thickened. Then place in bowl of ice and water and beat with rotary egg beater until fluffy and thick like whipped cream. Fold about one-third of the whipped cream and 1/2 cup of the coconut into the whipped gelatin and turn into Graham Cracker Pie Shell. Spread with remaining whipped cream and sprinkle with 1/2 cup coconut. Chill. Graham Cracker Pie Shell: Mix together 1 1/2 cups melted butter, 1 1/4 cups fine graham cracker crumbs, and 2 tablespoons sugar. Press firmly on bottom and sides of 9-inch pie pan. Chill.

Leonas Thweatt, of Route 1, was a business visitor in Benton Friday, and while here had the Marshall Courier sent to him.

Mr. and Mrs. T. A. Lane, of Route 2, were shopping visitors in Benton Friday morning.

Mr. and Mrs. John Morgan, of Route 5, were shopping visitors in Benton Friday.

Mrs. George Morse and children left Sunday of the past week for Southampton, N. Hampshire to visit her relatives. Mr. Morse will join them next week and return with them.

Ophus Jones, of Route 4, was in town Friday on business.

Mr. and Mrs. George Wood and daughter, Beverly, of Elva Route 1, were Friday visitors in Benton.

Solon Henson, of Hardin R. 1, was in town Friday on business.

**Kroger**

Next Tuesday, July 4, we celebrate our country's most important anniversary. 174 years ago the men who signed the Declaration of Independence pledged their faith in the future of a free nation. By renewing that pledge we help preserve a free America and keep it strong to meet the challenge of those who would destroy our way of life.

## Texan Gives Lesson in Courage—Overcomes Handicap to Success

HOUSTON, TEXAS—Deaf and mute since birth, Clennan S. Scott above (left), has used a brave heart, cheerful mind and determination to succeed in life by his own effort achieving success, financial security and an interesting occupation.

Through his Scott Novelty company he has become tops in pinball game operations. For nearly 20 years he has operated peanut and gun vendors, pinball games and phonographs.

Quickly-scribbled comments on little slips of paper serve as his "voice" and a memo-talk with Scott is an experience no one can forget. He converses and wise-cracks with ease.

His first years as a coin-machine operator were hard years of learning service and repair . . .
