TERMS OF PEACE

Received With Consternation, and Indignation By

JAPANESE SOLDIERS IN LONDON.

News of treaty was first brought to the attention of the London papers to-day, and they all hastened to give it publicity. The news was received with consternation and indignation, as the Japanese had been promised, and expected, a more severe punishment of the Russians than that which has been announced. The London papers were unanimous in their approval of our President's answer to the Japanese note, and also of the advice of Mr. Bryan to re-negotiate the treaty, and to demand a further extension of the restriction on trade with Japan. The papers were unanimous in their condemnation of the Japanese action, and declared that the Japanese authorities hoped to compel the restoration of Japanese control over Manchuria, but that it was not intended to recognize the independence of Korea. The London papers were also unanimous in their belief that the Japanese had been made to feel their power, and that they would be more likely to be satisfied with the terms of peace if they had been given more power.

LOOK AT THAT OVEN!

If there is one thing in the world above a range that will interest and improve more than this oven, it is the stove. Lithos.

The stove and sale of all Rock's stoves are WHITE ENAMEL, something you'll find no other range. This one not only makes it easy to keep your own as clean as new, and does a three job, but the white enamel resists rust, and REFLECTS THE heat. Your range won't dry up or stick in a Rock's oven — it's really a self-lighter.

Any stove of any kind, cooking or heating, bears Buck's trade mark, and can be supplied.

The Jefferson Club of Chicago last night honored W. J. Bryan with the presentation of a resolution expressing the sentiments of the club in connection with his recent acceptance of the nomination for the presidency of the United States.

The meeting was held in the auditorium of the club, and was attended by a large number of the members. The resolution was presented by Miss L. M. Arner, the chairman of the Committee on Resolutions, and was adopted by acclamation.

The resolution expresses the deep interest of the club in Mr. Bryan's candidature, and pledges itself to give him the hearty support of its members in the coming campaign. It is believed that Mr. Bryan is the only candidate who can unite the sectional interest of the country and save it from the disunion that threatens from the deadlock in the Senate.

The meeting adjourned after the presentation of the resolution, and the members of the club gathered in the hall to hear the speeches of the district leaders in support of Mr. Bryan's candidacy.

The speeches were made by Messrs. A. D. White, of Indiana, and T. W. Cook, of Illinois, both of whom spoke highly of Mr. Bryan's qualifications for the presidency and his ability to lead the country to a prosperous and peaceful future.

The meeting closed with the singing of the national anthem, and the members of the club marched out to the cheers of the crowd that had gathered to listen to the speeches.
The Great Struggle for the Secret Ballot

(Largely Italian)

The Kentucky legislature at its latest session allowed a constitutional amendment to the people of the State which it was anticipated would lead to the adoption of the ballot system. This amendment provides that voting must be done by writing a secret ballot in the polling, but it is to be counted in public, and, if in favor of the amendment, a majority of the votes cast was required to be recorded to become an act of the legislature. The movement for the ballot in Kentucky is said to have been small, but it is anticipated that the legislature will be able to carry the amendment this session. The ballot system has been in operation in a number of States for some time, and the results have been quite satisfactory.
