"This importance following in, and is still one of the most important revolutions in the history of man."

There are still some who are doing it. Hasting by discovering and burning them, many millions have been saved. Over two hundred thousand electric battles in Europe, Italy, in all the countries of the world, have been with great success. The United States has a number of electric meetings every year. The invention of the steam engine has been in the same manner. The problem is a common one to be met in the history of mankind. Electricity is the natural and necessary thing of all electric devices.

Filling the glass with beer, put the pieces into an oven, then take them off and put them into a hot place. This will remove the carbon from the beer. When the beer has been thoroughly cooked, and the heat has been removed, it is ready for use. The beer is then placed in a bottle, and the bottle is corked. This will save the beer from the presence of air. The bottle is then put in a cellar, where it will keep for many years.

BUYING AND SELLING FOR CASH

Is the only business method by which

High Grade Clothing can be sold at

POPULAR PRICES!

By going direct to the manufacturer with SPOT CASH we get the best possible price. By selling our customers for SPOT CASH we avoid any losses. When we price our goods at the popular prices of $7.50, $10.00 and $12.50 we figure to a cent what our profit will be in cash. By our cash methods we do not have to add from $2.50 to $5.00 per suit to cover possible losses, which must be done by houses doing a credit business.

Did you ever notice that when CREDIT HOUSES have their cut price sales and put their goods down to our all-time-prices they always advertise them for CASH ONLY? Isn't that proof that high-grade clothing can be sold at our popular prices if the loss due to a credit business is cut out?

It is up to you--

As to whether you will pay $12.50, $15.00 or $20 for your winter suit at houses where you have to help pay for their losses or buy the same quality of us at $7.50, $10.00 and $12.50, prices that pay us a legitimate profit, because there is loss from people who don't pay their bills. Isn't the saving of from $2.50 to $5.00 worth coming here to investigate?

If you carry a Grand Leader bundle your friends will know you paid for the clothing.

In the city the weather is cold and snowy. Palace Square is cleared of all the newspapers, and the men are busy about other things.

In the country the farmers are busy with their chores and the children are at school. The snow falls heavily and the roads are slippery.

A letter from the General Manager of the railroad announced that the work was progressing well and that the track would be finished soon.

In the town the streets are empty and the stores are closed. The people are busy with their chores and the children are at school.
