Interpret it for peace, and by going, if necessary, to the source of the signal. A person recently said that there are two things that cause people to go to court—namely, money and freedom. That statement does not go far enough. There are a few left who also seek honor, love, and principle.

AS AN EXAMPLE OF A "PUFF" of smoke signal, an honest endeavor to reach the other side, I was handed a poem, entitled "A Lad Grown Up." I like poems, especially those that touch the heart, but somehow the smoke signal falls in many such cases and more damage than good has been done because of a lack of understanding. A poem written to a Lad grown up applies to a Lad—Not an adult "grown up." So, herein is another way of wrongly promoting good intentions. It is that way through most of our lives—we see things we don't see and we promote smoke signals that do not carry the true signal.

THE PROMOTION OF A PUFF of smoke signal to another tribe, while transmitting a message, is the wrongfully, either through ignorance or misunderstanding can cause and help add to an already confused world. May I repeat, we make our own harm in thousands of cases, and then when disaster comes accuse the Master of a curse, because we ourselves get our signals crossed. In some way and refuse to accept or try to understand the only perfect signal—His truth.

IT HAS BEEN ONE OF life's greatest ambitions for me, to contribute something to a better community—a community free of so much religious strife; a community where that great philosophy of "you go to your church and I'll go to mine, but let's walk down the street together," might be a reality and sincerity; a county where religiously and sincerely practice this philosophy. But, it has come to me old one long ago that this ambition of seeing it done would never be realized, only the hope and effort prepare daily for others; I now prepare to let someone else, I hope, finish the job.

Bus Strike Is Still On West Ky. Line

Drivers of the Western Kentucky Stagebus Line left their posts at various points along the routes at midnight last Friday.

The strike tied up the entire line that serves Paducah, Hopkinsville, Murray, Mayfield, Benton, Clarksville, Tenn., and other western Kentucky and northern Tennessee towns.

Officials said this week "there seems to be some uncertainty as to what the actual dispute in the case is, but evidently the dispute is about wages rather than working conditions."

The bus drivers are affiliated with the AFL and, according to company headquarters, "a union leader called the men off their jobs."

Soil Conservation Notes By Herbert Anderson

Homer Ford, Calvert City, said, "I want enough Caly pea seed to sow two acres for seed production. I have never heard of a better way of getting a winter cover crop in standing corn than by the use of this reseeded winter legume."

Home Ford, Floyd Sutherland, Daniel Irwan, Lowell Bradley, Elton Oakley, Everett Treas, and the Veteran's Agricultural Classes of Sharpe, Benton, and Brewers pooled orders or a 3600 pound shipment of Caly pea seed from the South.

Lexie Thompson, James Irwan, Robert Bailey, James Arant, James Angle, and Clovis Smith in the Sharpe Class got 400 pounds of Refus Rose 100 pounds of home grown seed from W. L. Frazier. Last year Frazier received enough seed from the Soil Conservation Service nursery to sow one acre. This is a total of 4100 pounds of scarified seed which will sow 82 acres and help to

make a part of Marshall County green this winter.

Delmo Harper, William Edwards, Arvel Norris, Del Phelps, and William Hancock are the others in the Sharpe Class who are sowing an acre seed plot.

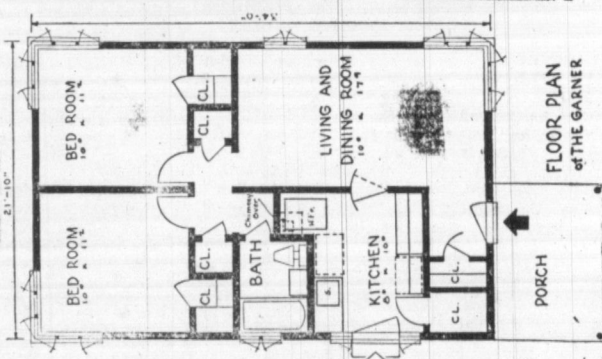

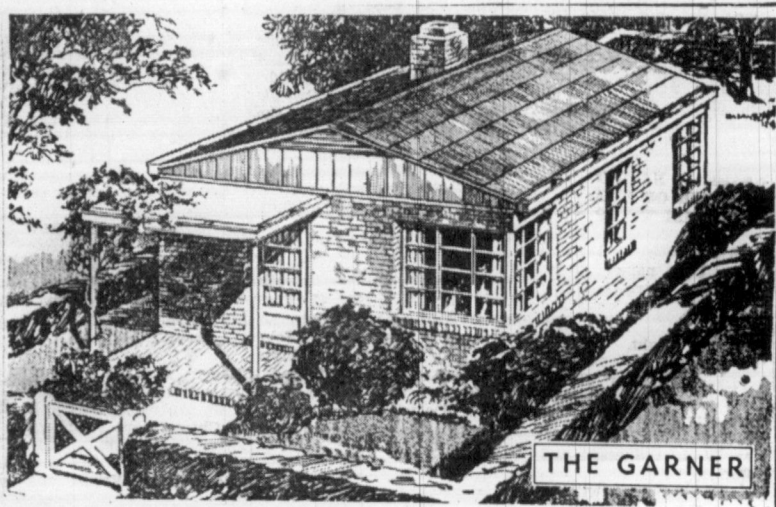

L. J. Rickman, James Hamlet, Alford Downing, S. G. Guthrie, and Weldon Draffen in Paul Walker's class at Benton are going to sow 1200 pounds.

Pat Wilkins, teacher of a Veterans Training Class at Brewers, said, "I hope we have success with these peas because I believe they will solve our cover crop problem."

Pat is seeding 300 pounds and Edward Gore, John Alcock, Robert Carlisle, Ollie Hall, Walter B. Mason, James Kenneth Reed, Garland Reed, Grover Seaford, Victor Seaford, Jesse Techenbrock, and Douglas B. Starks are seeding a 1000 pounds among them.

The Marshall County Soil Conservation District Supervisors and the Veteran's Teachers hope that neighbors of the above farmers who are seeding these peas and others in their community will watch these plantings.

Quitter Makes Good

Lesson for September 16, 1950

UNLESS THAT boarding house in Antioch was different from other boarding houses, you could hardly have a private quarrel in it. There would be some inquisitive people who would notice when voices were raised, and who could not resist the temptation to listen.

One of the quarrelers was none other than the famous Apostle Paul, and the other was his best friend Barnabas. At least, Paul and Barnabas had been good friends up to that day.

After that day's argument we do not know that they ever saw each other again. Paul never mentioned the incident, but the story got around, and Luke put it into his book of Acts.

Young Man Seeks Position

THE ARGUMENT was all about a young man named John Mark. Young people do not always realize how often they are discussed by their elders, or how much those discussions affect their lives. A young man applies for a job (which he would rather call a "position") and he either gets the job or he does not. But he never sees the files. He never hears the conversations about himself. He never knows just what remark got him the job—or cost him the job, as the case may be. So John Mark may never have known just what Paul and Barnabas said about him.

The facts were plain. John Mark was a native of Jerusalem, son of a woman at least well-off enough to have a large house of her own. He was some relative of Barnabas, perhaps a nephew. (Tradition says he was the young man in embarrassing circumstances described in Mark 14:51-52.) When Paul and Barnabas set off on their first missionary journey together, this John Mark went with them as a general assistant.

All went well at first. But when the party landed on the hot steamy shore of Pamphylia, and when the missionary expedition was about to take off over the high lonesome ranges through bandit country, John Mark left the party and took the first boat back to home and mother.

Two Bosses

WE HAVE no idea why he went. Maybe he had good reasons, maybe not. Anyway, we do know that he quit. And that was all Paul wanted to know. A new missionary party was being made up, and Barnabas wanted to take his young relative along, again. But Paul could not see it.

Why take a man who had already fallen down on one job? Why take an assistant that could not be depended upon? The argument between Mark's two bosses boiled down to this: Paul judged their assistant on past performance. It was all he had to go by. Barnabas judged Mark by his love for him and his belief in him. The quarrel was sharp, and the two old friends could not agree. Finally the incredible happened: Paul and Barnabas parted company, and each went his separate way from that time forward.

What happened to Barnabas we do not know. But we do know that Barnabas was right about John Mark. Years later we read in more than one letter from Paul that Mark was a real help to him. We find that another great leader, Simon Peter, called Mark his "son." These leaders of the Christian church, though they might differ on some things, agreed about Mark, that he was a man to rely on.

What This Goes to Show

ALL THIS GOES to show several things. For one, it is clear that even an Apostle may be wrong. No man can be an infallible judge of another man. And another thing: You can't judge a man on his record alone. There may be more in the man than the record shows.

On the other hand, people do judge others by their records. The dubious young man does not always have a relative who will give him the benefit of the doubt.

If your record is bad, you must realize that there are numbers of people, even good people, who will judge you by that alone.

NEWS From OAK LEVEL

Mrs. Joe Parker and son, Damon Dean Parker, of Route 2, were Labor Day guests of her sister, Mrs. Robert Copeland and family.

The women spent the day in canning beans.

Mrs. Nora Hixon left Sunday for Detroit, after spending four weeks in Marshall county with her mother, Mrs. H. B. Carper, her daughter, Mrs. Jess Collier and other relatives and friends.

Mrs. Rudy Bolen and little daughter, Patricia Ann, Mr. and Mrs. Ilen Bolen were shopping visitors in Mayfield Tuesday.

Mr. and Mrs. Houston Cole and children, Mrs. Mattie Cunningham and son, Billy, of Paducah, were Sunday guests of Mr. and Mrs. Rudy Bolen.

Tom Houser, of Detroit, spent the week end in the home of his parents, Mr. and Mrs. Raymond Houser.

Everybody in this community have been kept pretty busy cutting tobacco lately.

Mr. and Mrs. Clay Howard were Sunday guests in the home of Mr. and Mrs. Joe Carper.

Eugene Bell and daughter, of Detroit, spent the week end at Oak Level with his parents, Mr. and Mrs. Joe Bell.

Parker Smith is on the sick list this week.

We are very sorry to hear of the death of Mrs. Addie Parks.

CARD OF THANKS

We wish to express our heart felt thanks and appreciation for the kindness, sympathy, beautiful floral offerings received from our friends and neighbors during our bereavement in the loss of our beloved husband and father, Herschel Watson. We especially thank the Revs. Otis Jones and Ernest Thompson.

Mrs. Florence Watson and daughters.

MOSQUITO POPULATION IS LOW EXCEPT IN KENTUCKY LAKE AREA

During the month of July mosquito populations continue to remain at unusually low levels for all TVA lakes except Kentucky Lake.

The relatively high numbers in the Kentucky Lake area are due largely to catches at mosquito collecting stations in the

depopulated zones where control measures are not applied.

Low production of anophelis quadrimaculatus has apparently been general in the south-east during the current season, but production in the TVA reservoirs has been observed to be unusually low even in those instances where breeding in areas beyond the reservoir have been high.

TVA's Electricity Sales Statistics report for the month of June shows, 1,102,300 consumers of TVA power, an increase of 12 per cent over the preceding year, served by 145 municipal and cooperative systems.

The 347,500 farms being served at the end of the fiscal year 1950 represent over 80 per cent of the farms in the power area.

The average annual residential use reached 3,079 kilowatt-hours for the fiscal year, which is 74 per cent above the national average. The area's average residential rate of 1.48 cents was 49 per cent below the national average.

Fishermen counts during the fiscal year 1950 show that tailwater fishing was heaviest below Kentucky Dam, with total of 148,185, Plewick 122,451, Fort Loudoun 58,728, Wheeler 50,822, Watts Bar 45,422, Wilson 27,902 and Chickamauga 25,174.

For the fourth consecutive year fishermen counts on the tailwaters below mainstream dams show an increase in fish-line intensity. On Douglas Dam tailwaters, the only storage dam where fishermen counts were made, fishing trips totaled 67,867, nearly double that of last year and three times that of 1948.

FRONT COVER OF PUBLICATION IS BY MAC PARTEE

The front cover of the September issue of the Southern Industrialist publication was drawn by McCullough Partee, of Nashville, Tenn. Mr. Partee is the son-in-law of Mr. and Mrs. Oscar Shumway.

He also wrote an article for that issue describing his trip to Old Mexico. He is art director of the publication in which his article appeared.

Housewives And Farmers Must Make Reports

Housewife is going to have reports and payments on their workers, beginning this month, on Social Security taxes. A special "simple" form is being prepared for housewives' reports. Officials said it's probable that the only information required on this form will be the servant's name, Social Security account number (which the servant should apply for now on forms obtainable at post offices) wages paid, and tax due. Except for self-employed persons, the tax due will be the same for all groups of employees and one-half per cent on the employee and one and one-half per cent on the employer, on the first \$3,600 of wages paid in 1951. Self-employed persons will pay two and one-fourth per cent on earnings up to \$3,600 in 1951. The law gives housewives, like all other employers, the option of deducting from the servant's pay the servant's half of the total three per cent tax due, or paying the whole three per cent out of her own purse, sending the check or money order along with each report she files. Families which have business employees as well as household servants can skip use of the special form for housewives and add their servants to their regular Social Security returns. Servants, to qualify for Social Security coverage, must work at least 24 days in the same quarter for the same employer and be paid at least \$50 by that employer in the same period. Farm workers must stick with the same employer five months to qualify. As a preliminary, there must be one quarter's non-covered "continuous" work for the same employer. Then, to be covered, they must work another quarter and get \$50 or more in cash pay during the quarter. The idea of using stamps or coupons for paying Social Security taxes for servants was strongly considered once, but dropped when Congress restricted Social Security coverage to regularly employed servants rather than workers who put in a few hours weekly for various persons.

FEATURES THAT COUNT
at a price that is right

BIG ENGINE—Longer life and greater fuel economy with 125-cu. in. displacement engine, operating at 1500 rpm.
POWERLINE DESIGN—Raised rear axle and offset final drive for clearance. Torque tube construction puts weight of transmission and differential over rear wheels for traction and stability.
PRACTICAL WORKING SPEEDS—More work per hour with more acres plowed, disced, planted or cultivated in a day.
MOUNTED IMPLEMENTS—A full line of quick-hitch implements, including front-mounted cultivator.
