GOOD COFFEE IS A DELIGHTFUL BEVERAGE

When the editor of this paper was a young man, he had a chance to see the coffee-making process in New Orleans. He learned that the coffee-making machine was constructed to the specifications of the French market. The coffee beans were roasted and ground, and the early morning hours found him surrounded by others in the direction of the machine. He later discovered that coffee beans, when they reach their destination, are not roasted. The coffee beans are not roasted.

Good coffee possesses the characteristics of a system. Just as well-grown vegetables require care in the preparation and cooking, so does coffee require careful handling. For the best results, the coffee beans should be ground just before use. This is why many coffee makers use a blade or burr grinder. The grinding process is essential for the best flavor and aroma.

We recommend the use of coffee that is freshly roasted and ground. This ensures the best possible flavor and aroma. The coffee beans should be stored in an airtight container to prevent moisture from entering. Good coffee is a delight to the senses and should be enjoyed in moderation.

In order to do a class of laundry work that we have never before attempted in our twenty-five years experience in the laundry business, we have installed the latest and most modern machinery for doing a class of work known as the Family Wet Wash, but instead of returning your clothes to you wet, they will be neatly dried in our new drying tumbler at the same rate that other laundries have charged for wet wash heretofore.

Since the wet wash has proven unsuccessful we know that none of our patrons want their clothes returned to them wet, and in installing this twentieth century drying machine at an enormous expense, it will be in keeping with the town's progress and will be appreciated by the people we serve.

We never lose an opportunity to give the people of Fulton and vicinity the best of service, and the new equipment we have installed will now make our plant one of the leading laundries in the state.

Help our Merchants
to help YOU

Everybody will agree that a man succeeds and prosper only when he spends LESS money than he receives in a given period of time.
Let's apply this basic economic test to the situation in this town.
Our business men have invested—and continue to invest—their money in stocks of goods brought here to serve your daily needs.
Through the pages of this paper they advise you of their ability to serve this community.
All of us know that they deserve our patronage.
And remember, the more you trade with them the more funds they can invest in larger stocks and new lines.

Read the Ads in this Paper
and save yourself money by trading at home.

JUDGMENT IN BUYING
Buying foods, clothes and meats doesn’t consist simply in shoving your money over the counter and taking the goods home. Anybody can do that, but it takes good judgment to buy wisely.
Ask your friends what they think of our stores. They will tell you that they buy from us because they get what they want and are never overcharged. They buy wisely because they know where they are buying. They buy from us because they know we are dependable.
Try our stores a few times and your own judgment will tell you that you have made no mistake.
