Ground Hog

You've heard of Ground Hog Day, this is Ground Hog Month.

The Ground Hog is not the only one who has predictive powers. Thus February is Ground Hog Month. All the animals know that if they are locked up when the Ground Hog says it is Spring, that it is still winter. The animals know. They have their own methods of gauging the weather.

Such dances as the Ground Hog's are not the only one. The birds have their dances also.

The Ground Hog is not the only one who can tell the weather, based on the amount of daylight. The birds can also tell the weather. The birds can also tell the weather.

The Ground Hog is not the only one who can tell the weather. The birds can also tell the weather. The birds can also tell the weather.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry? It means that at last the only remaining barrier between the housewife and the laundryman has been removed. In the modern laundry, not only is washed clean whatever you choose to send, but also duplicates in every respect the method of drying that the housewife has employed for time immemorial, namely, the hanging of the washing on the old fashioned clothes line, to bask and dry in the glorious sunshine.

The present development in years and years, comes to this gradually growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time unanswerable odds which hamstrung the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Drying Tumbler. This most wonderful machine between clean fresh air in such great volumes, that it gives clothes by pur, evenly and hastily, ventilating them thoroughly, leaving them entirely of all dirt, leaving them soft, fluffy and perfectly clean. Clothes dried in this manner are never shrunk, discolored or left with a harsh feel.

The Vorclone Tumbler used in our laundry is the only drying tumbler that does not depend solely on the weather. In it is the means an is on an otherwise perfect laundering process, it can take the work of the power laundry on par with that of the housewife's own present laundry.

The boy has been gone for about four weeks and Mr. Hardison has been troubled with an abscessed tooth. Mr. Hardison was cut so badly that he was unable to go to jail. His wounds are not serious. He was taken at once to Mason's Hospital in Murray, Ky., for operation, but recovery is very doubtful. A hearing of the suit will be held as soon as Miller is able to be brought to the jail, which will possibly be tomorrow. His wounds are not serious.

JOHN WESLEY, THE SUGGESTIVE TEACHER

The Methodist Episcopal Church, South

With this chapter we start into the subject of the work of John Wesley. This is one of the most important lessons of the whole volume. The standards of our mission.

The Law of the Lighthouse

The Law of the Lighthouse has been called a masterpiece of wisdom. It is not a mere exposition of doctrine, but a declaration of the will of God in the human spirit, to be understood by every man, however simple he may be.

A Proof of Holiness

There is no greater man in the world than Wesley. He was a man of God, who lived in the world, but did not belong to it. He was a man of prayer, who lived in the world, but did not belong to it.

His God's Way

God’s Way is a controversy that was as true and clear as those of before. The strength of the argument is the same as the arguments of the past. The arguments of the past were based on fact and on reason. The arguments of the past were based on fact and on reason. The arguments of the past were based on fact and on reason.

Trade among Friends
No matter what some folks say to the contrary, there is certainly a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And FRIENDLY SERVICE is the sentimental reason why you find it very much to your advantage to trade with our advertisers—to buy where you feel at home, where your friends will see that you are well satisfied.
