FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudices based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

MAKING FARM RECORDS TALK

By F. H. OTIS

American Banking Association

Farmers can make no progress in agriculture, they cannot plan their operations for the future month by month, with confidence to know the progress they are making in their fields and the conditions which are influencing the results. To know these conditions is to have an important asset in the management of your farm. To know your conditions is to have the means to plan for the future, and to know your results is to have the means to make the best use of the results that you have achieved.

WHERE THE DOLLAR CARE FROM

Where is the dollar star? The answer is: from the money of the man who has worked, and the man who has saved. Where is the dollar to? The answer is: to the man who has bought, and the man who has sold. Where is the dollar now? The answer is: in the pocket of the man who has earned it, and in the pocket of the man who has saved it.

WHERE THE DOLLAR WENT

The dollar has traveled a long road since it was first coined. It has passed through many hands, and has been used in many different ways. It has been spent for food, clothing, and shelter. It has been spent for education, and for entertainment. It has been spent for amusement, and for recreation. It has been spent for travel, and for vacation. It has been spent for charity, and for relief.

Egg Eaters Increase in 1925

Prices Highest in Five Years

In 1925, the egg-eating population increased by 10%. The price of eggs rose by 5%, making it the highest price in five years. This increase was due to a combination of factors, including a shortage of eggs caused by the low egg-laying season, and the increased demand for eggs due to the higher prices of other food items.

OPEN big store girls must have their "neighborhood" stores. Most of them would no more think of going downtown, or that way through the crowds in search of a need than they would of walking to the factory to get a pair of shoes.

City women know that their neighborhood stores can supply them just what they want— and that, in most cases, the service is more prompt and friendly.

The same thing is true of this "neighborhood". Our merchants—the men whose ads you read in this paper—are in position to furnish your home with the best and most popular brands of goods. Not only do they save you money, but they gladly save you time.
