CITY HALL, MASONIC and I. O. O. F. BUILDING

FULTON, KENTUCKY, APRIL 8, 1911
These headlines contain statements which, if true, mean everything to the buyer who wants the most a given amount will buy. If this advertisement will cause you to act—induce you to make an investigation of the claims we make for OVERLAND Cars and compare them with others. It will have accomplished its mission.

Take your comparisons thoroughly, part by part. The more thorough your investigation, the stronger your conviction that the OVERLAND is the car to buy.

Viii comparison will prove, first that you get in the OVERLAND, the largest, handsomest, most luxuriously finished car. That you get a power plant not equalled for efficiency, reliability, quietness and flexibility in any car selling at less than $2,500. Compare the motor in Model 52 OVERLAND with the best car you know selling at $1,700, $2,000 or $2,500.

Compare the springs and riding qualities, the speed, the hill climbing ability, the wheelbase, the frame, transmission, brakes, rear wheels and axle, steering gear. Compare the finish, upholstery, the body design and workmanship. You'll find that OVERLAND fore door models are designed and built as fore door models, not old bodies patched up to meet the prevailing style with shifting lever and emergency brake outside and out of reach. See the detail cut to the left, showing OVERLAND center control, the approved practice in all up-to-the-minute, high-class cars.

Consider, and bear this point in mind always, that the OVERLAND is a MANUFACTURED car, every part and every piece made by us, after our own designs, by our own men, in our own plants.

You'll find, too, that the OVERLAND is a thoroughly standardized car. Each operation on every part is made by an expert workman on that particular thing, by special machinery in a special jig, from the best material.

Each cylinder, gear, shaft, bearing, axle, frame, transmission, body, etc., etc., IS EXACTLY like the other in the same OVERLAND chassis. No fitting or filing is necessary or permitted in the final assembly.

On parts like cylinder pistons, cam shafts, etc., we work as Insane as one one-thousandth part of an inch. One one-thousandth part of an inch is as close as OVERLAND combines.

All lesser combinations of motored vehicles, an ideal combination of engine, body and body frame, are to be seen in the OVERLAND. The true cost of ANY car is found in these cars.

We are supplying Illustrations just a suggestion of their beauty. YES, OVERLAND cars are as nearly perfect as brain and muscle can make them. Look the next time. Note the stability of construction, the neatness of finish, the graceful lines, their desirability and utility. They fairly bristle with good points, from radiator to affirmed.

If you have questions, write or call. There are 22 models of OVERLAND for 1911. The Portland at the automobile craft is found in these cars, and we are supplying Illustrations just a suggestion of their beauty. YES, OVERLAND cars are as nearly perfect as brain and muscle can make them. Look the next time. The First National Bank

The Oldest Banking Institution In the City.

Solid Basis and Leading Business Men.

Officers and Directors.

The First National Bank is the oldest banking institution in Fulton and one of the most solid financial institutions in Western Kentucky. It was founded here May 16, 1874. It was moved from Mayfield to Fulton in 1875. Its capital stock is $150,000. The deposits are $12,411,100. The bank has paid in each dividend to its stockholders $14,500, nearly four times its capital. Besides the stockholders there is a handsome surplus and the bank is in its present spacious position. It was organized here years ago to take the entire business of the bank and lend to its advancing business.

The officers are E. T. Chaney, cashier; H. T. Smith, president; H. E. Wade, vice president; and Harry Ekdahl, manager.

R. H. Smith was one of the starting spirits which caused the development of the bank from Mayfield and the establishment of the First National here. He was active in the beginning and in his responsible position has successfully carried the bank to its present status. The bank is in present favorable position. There are over 100 families in its present clientele.

When the First National Bank was established in 1874, it was a small business. The bank was operated by a few men, and a man could lend and take their money without any difficulty.

Fulton's Greatest Advertising Medium

THE FULTON COMMERCIAL AND FARM JOURNAL

ONLY THOSE WHO ADVERTISE IN THE FULTON COMMERCIAL & FARM JOURNAL KNOW ITS REAL WORTH AS AN ADVERTISING MEDIUM. WHY? BECAUSE IT GOES INTO NEARLY EVERY HOME IN A RADIUS OF TWENTY-FIVE MILES OF FULTON AND IS READ BY AT LEAST 5,000 PEOPLE EVERY WEEK. THEREFORE QUICK RESULTS FOLLOW. THE COMMERCIAL IS DONE MORE TO Bring TRADE TO FULTON THAN ALL OTHER COMBINED SOURCES. THE COMMERCIAL IS RECOGNIZED BY THE PEOPLE OF THE SURROUNDING COUNTRY AS THE BEST PAPER EVER PUBLISHED IN FULTON AND CONTAINS NOT ONLY ALL THE HOME NEWS, BUT GIVES A SUMMARY OF THE NEWS OF THE NATION.

THE MAJORITY OF PEOPLE WHO LIVE IN FULTON DO NOT REALIZE WHAT SUCH A PAPER IS TO THE TOWN. BUT IF THEY PLACE AN ADVERTISEMENT IN ITS COLUMNS THEY CAN READILY SEE THE RESULTS. GO OUT IN THE COUNTRY AND SEE FOR YOURSELF HOW THE COMMERCIAL STEADS IN THE RURAL DISTRICTS. CALL AT THE COMMERCIAL OFFICE ON LAKE STREET AND ASK FOR A COPY OF THE PAPER AND YOU WILL GET TWELVE PAGES BRIGHTFUL OF NEWS AND ADVERTISEMENTS OF FULTON'S PROGRESSIVE MERCHANTS WHO HAVE LEARNT LONG AGO THAT IT WAS AN UPHILL BUSINESS TO GET THE CREAM OF TRADE UNLESS THEY ADVERTISED THEIR WARES AND LET THE PEOPLE KNOW WHEN THEY HAVE BARGAINS FOR THEM.

IF YOUR ADVERTISEMENT IS NOT IN THE COMMERCIAL THAT ACCOUNTS FOR DULL TIMES AROUND YOUR PLACE. PERHAPS YOU DO NOT HAVE AN OPPORTUNITY TO GET UP YOUR ADVERTISEMENTS. IF THAT IS THE CASE LET US GET THEM UP FOR YOU. TWENTY YEARS EXPERIENCE ALONG THAT LINE AND THE CONSTANT STUDY OF ADVERTISEMENTS PLACED US IN A POSITION TO SHAPE YOUR ADS IN AN ATTRACTIVE WAY. TRY US.

JIM PIRTEL CAMP NO. 990 U. S. VETERANS
ROLL OF MEMBERSHIP ALIVE AND DEAD.

The most interesting picture in this special number of 1911 is that of the Confederate reunion held in Fulton last year under the auspices of Jim Pirtle Camp No. 990. That gallant band of heroes who wore the gray and forever wore the name of Forrest Cavalry, has become fewer in number.

The following is the roster of Jim Pirtle Camp No. 990 organized in Fulton, Ky., and has been taken from the muster roll of 1861.

The men who say they are not as well as they were, for no reason, have living word away from Fulton.

John Byrd, (dec'd), Co. C. 1st., Confederate Tennessee Infantry.

The mood interesting "Mirror" as this special "Mirror" edition is that

W. A. BAYLOR.

W. A. Taylor was born Nov. 26, 1837, near Cuyahoga Falls in Fulton county where he resided until moving to Newtonville to take charge of the office of County Judge. He is serving his third term, and during his brief administration has built more steel bridges and good roads than all his predecessors, introducing into this county the road drag, and to us doing is lying a foundation for future good roads as well as for his own future.

Modern Woodmen of America.

The Giant of the Fraternal Insurance World.

On the 5th, day of January 1883, a little outside of the famous financial metropolis of the day, not in the little city of Lynn, nor as a sectional agent for the Modern Woodmen of America, with 12 members. This society was not organized for the purpose of making money, but to furnish reliable insurance to its members at absolute rates. It was to be owned and managed by its members. These principles together with its strong and attractive feature, its beautiful and instructive ritualistic work, and a truly representative form of government, at once applied in the American colonies, and its marvelous growth has been one of the wonders of the age. From the small beginning of one host and 12 members it has grown until today it has over 600 local camps and nearly a million and a quarter members in good standing.

The society's death rate last year was only 0.07 per 1,000 members which speaks well for the rigid medical examination that applies emblems and benefits to its members and a marked advancement in health.

In addition millions have been paid to beneficiaries of the order just passed 1,008,184.51 was paid to benefactors of the year just passed 910,876.88. Since that organization reaches the entire world it has been a fraternal triune men of the day organized for the purpose of making money and organized Camp No. 1. Modernly representative for its growth and development, it is beautiful and instructive, and the society was not organized with its strong and attractive fraternalism for the purpose of making money but to furnish reliable insurance to its members at absolute rates. THE LUXURY OF YESTERDAY

and the necessity of today.

There are but few telephone subscribers today who can recall the days of the ticket agent in the telegraph office. He was the sum total of the present telephonic service; and now, at last, after a journey so often undertaken in a few minutes, it is usually required a journey of three days and through some of the roughest roads and through some of the most uncomfortable places of about six weeks to deliver any message at all, and then later it is required from three to four days to deliver a message over the railway service; and now, at the present time, in a very few minutes, it is only a matter of a very few minutes. Just such a service, one which is so quick, so inexpensive and so satisfactory, is the great advantage. The telephone is recognized as one of the greatest innovations that is being made in business in these trying times of our heavy cotton and our heavy cotton. The telephone is recognized as one of the greatest innovations that is being made in business in these trying times of our heavy cotton and our heavy cotton.

We have the railway and the steamboats, and the telephone. It is worth while to telephone and yet, despite all these, there are people who do not telephone. A luxury in residence is...
Mr. R. N. Phipps, Leading Jeweler, Proprietor and His Successful Business Career.

One of the sights and also one of the most famous structures in Fulton, or New York is the Flat Iron building, as it is sometimes known in the heart of the city. The most famous and best known jewelry house in Fulton, as well as the handiest and most complete at the Flat Iron building, which stands three stories high and is in the center of Church Street and the Illinois Central railroad is the most commanding business site in the city. This splendid structure was erected by Mr. R. N. Phipps, the well known jewelry jeweler in 1907. He occupies the first floor with his handsome jewelry made and also of the business. For under the Vendome Opera House, Main street and by straightforward carries one of the largest and most valuable jewelry in Western Kentucky, which is complete in every line. He has an old standing department store, first floor and is most reasonable prices and satisfaction guaranteed.

A special department also in diamonds and Hillion photographs with former Miss Irene Owen, of Atlanta, as a member of this business is the store, to whom much of the splendid jewelry of the business is due. Mr. Phipps employs the best master jeweler and associates to do his fine work, as well as watchmaker in the working and checking of time. Mr. Phipps is watch inspector for the I. C. B. R. from Fulton to Dyersburg and from Fulton to Jackson and inspection and keeps in exact time all the time pieces of employes.

FULTON ICE COMPANY. UP-TO-DATE PLANT.

One of the substantial manufacturing enterprises of the city is the Fulton Ice Company. This plant was established in 1899 and has been in operation ever since then. The plant is up-to-date in every particular, using the latest machinery and proper methods of manufacturing. It is one of the best in Kentucky.

The ice is made in a large new brick building which has been erected during the past two years. A large cool storage building is provided for the ice in winter months ready for service the coming summer.

Mr. R. H. Wade, the general manager, and head of the plant, was elected to this position the day the plant started in 1899, and he has held this position ever since. He is thoroughly familiar with the business personally, so that orders promptly take form and are shipped to the various dealers and customers of the plant.

The ice is made from pure, unadulterated water, coming from a source of considerate depth in the earth. There is no deposit of any kind in the ice which is made from it, so that the boxes are perfectly pure and do not become as rapidly as they do in the case of other water ice.

The ice is made in boxes of suitable sizes for every dealer and customer. The boxes are made of wood and lined with a solid body. The boxes are sterilized of par

One of the leading and most popular enterprises in the city is the Furniture and Undertaking establishment of Graham & Johnson Bros.

This firm has been in business for eleven years, and the past five years in the new location on West Main Street.

The firm has been known and respected for its business blooming in every direction. The stock of furniture and household equipment is constantly being increased.

Graham & Johnson Bros. have been in the furniture trade for over twenty years, and have been largely responsible for the growth of the business.

Twenty-One Years in the Jewelry Business in Fulton.

Everybody who knows anything about Fulton, knows the popular jewelry house of Mr. M. F. DeMyer. This firm has been in business more than twenty-one years, and has been the business of Mr. DeMyer for the past fourteen years.

Mr. DeMyer has been in business for a longer time in Fulton than any other firm, with the exception of two or three.
