CORRECTIONS CHEERFULLY MADE WHEN ATTENTION IS CALLED TO ERRORS

## Looking At Life By Wray Woodson Cross

Once upon a time, all the mice got together and decided to hang a bell on the cat.

The bell would tinkle, so the fairy tale said, when the cat crept upon them and they would be forewarned.

All the mice, natch, thought this was a great idea. Then a mouse asked, "who will put the bell on the cat?"

Not a one answered.

But in Cresskill, N. J., recently the story came true for the mice. Cats there are going to wear bells, by decree of the city fathers.

There is one hitch. The ordinance is designed to protect birds, not mice.

Bird lovers claim cats are causing tremendous carnage among some birds. Cat lovers are opposed to the ordinance, mainly because it involves a \$2 license fee.

The mice, not even involved in the scrap, look like the winners.

**SIGN SEEN ON A NEW FRONT LAWN** — "Please, I want to be a lawn. — Here's a hint for husbands after visiting the tavern, run the last mile home. When you get there you'll be all out of breath, and she won't be able to smell it."

**ALL FOR LOVE** — When her husband's love is waning, a Moroccan woman buys some honey, pours it on her forehead and lets it run down her face. She catches the drips from her chin with a spoon, pricks her tongue with a fig-leaf, mixes the blood with seven

grains of salt and honey, takes dirt from her footprint and puts the concoction into the food of her wayward husband.

After that, we suppose, he praises her cooking and they kiss and make up.

**PRETTY SLICK** — Pan American World Airways reveals it has found women's nail polish an important safety factor. When an engine is being re-assembled, each screw connection should begin to work loose, the break in the red stripe can be detected at a glance and the connection tightened. What would cause a serious mechanical failure thus is averted by a woman's beauty aid.

Nail polish is preferred because it is quick drying, brightly colored and comes with its own built-in paint brush.

**SENTENCE SERMON** — My grace is sufficient for thee; for my strength is made perfect in weakness. Most gladly therefore will I glory in my infirmities, that the power of Christ may rest upon me.

**NOT SO NEW** — Now that television is sweeping the nation, it is interesting to learn that the first drama to be presented on television was broadcast by General Electric at Schenectady, N. Y., on Sept. 11, 1928. The play was the Queen's Messenger.

**PARTING THOUGHT** — He who governed the world before I was born shall take care of it likewise when I am dead. My part is to improve the present moment. (John Wesley)

**NINE-STORY STORY**—It was just like an episode from "The Perils of Pauline." The heroine was four-year-old Karen Waller, who fell 100 feet from her ninth-floor apartment window. While Karen was rushed to the hospital, her distraught beau, Brian Cundelan, paced the sidewalk with his colleagues. The happy ending came when doctors declared Karen miraculously uninjured. Karen and Brian clinched in the final scene and Brian's cowboy pal, at 1:14, provided extra atmosphere by eating popcorn throughout the drama.

## Observations

(G. D. Kodger's Column)

### DURING THE PRESENT

year our town has had its face lifted quite a bit and during the past 10 years "The face" is not

hardly recognized by those who have been away for some time.

**A LOOK AROUND WILL TELL** us that this has been a building year. In and around Court square is the new City Hall, the Methodist church annex, the new

remodeled Bank of Marshall County building, the Roberts Motor annex, the Church of Christ building. Out on South Main street is the new Dental building, the Clinic addition, the Pont Nesson home, and the remodeling of the Treas Lumber Company building.

### TO GET AWAY FROM THE

Square and look around we may find many new and modern homes, and if we take a look in and around the Lake area we may find still many more improvements made this year. The new hotel at Ky. Lake State park is underway. Those hills in and around Aurora are also undergoing a face-lifting. Roads to Cherokee (colored) Park near Aurora are rapidly taking shape and in and around the cabin and hotel area the whole scene is undergoing a vast change.

### OUR TOWN AND COUNTY

does not look like it did 10 or 15 years ago. How long will it last? No one seems to know, but it appears that there is always room for one more. Late reports are that a new Drive-In theatre is to be built near Egner's Ferry. Well, we'll need more amusement places if Congress ever quits "acting up" for a while. After all, Ringling Bros. is not the biggest show on earth.

### DOWN IN LOUISIANA FOLKS

have had a frog jumping contest—the winner came in by a leg, after the champion was disqualified for jumping backward. One thing, this did prove, the former champ could still jump. Next we may be entertained by some fancy snail racing. Turtles and terrapins are not as popular as they were a few years ago. We may have to revert to something slower, but when that brings up more gossip.

### THE EXPERTS TELL US OUR

mother's best friend—A specially designed non-spill plastic cup for children has been placed on the market by a Chicago firm. Its patented design has "controlled flow" to prevent gagging or choking and its non-tilt features attract mothers who know only too well that "there's many a slip 'twixt lip and cup," where the young set is concerned.

It is going to shrink more. If it does, sister may be in style with a skirt made of 15 bills. We could have a lot of fun on a windy day seeing the dollars go up. Perhaps something may come along and help save the old green frog skin. The lowly brown penny was a coner until somebody invented the parking meter. This makes everybody scratch for the brownie. If the dollar bills go down again we could paper our homes with 'em just to remind us of the good old days.

### SOON YOU MAY GO TO

market with your basket—Not to carry home your week's supply of groceries, but to hold the shrunken dollar bills.

### HE THAT INFLATHETH

himself today may have to deflatheth himself tomorrow. If you don't believe it, try inflating yourself and see how you feel early next morning. Take it from old Kodger, deflation is much worse than inflation. It is fun while up in the air, but when a feller hits the ground, deflation sets in.

## Soil Conservation Notes By Herbert Anderson

Harold Bailey, west of Possum Trot, says, "I like the idea of building fences to separate the classes of land which are best suited for row crops from those best suited for pasture."

Bailey, his son, Robert, and I were going over their farms last week preparing complete soil and water conservation farm plans.

Robert found by studying the land capability map on his farm that by making two fence changes he could put twelve acres of class two land in one field. When this is done, he can protect the land with terraces and contour farming much easier.

J. M. Solomon, Calvert City, a supervisor of the Marshall County Soil District, has applied 1000 pounds of 37 per cent phosphate per acre where he has made new fall grass

seedings. Victor Ross, Aurora, came into the district office today to ask if his farm plan was typed ready for use. He stated that he had sown sixteen acres of soil saving grasses and legumes this fall.

"I could not plow this corn as soon as I needed to because of these wet low places," said Hughie V. Moore.

We were looking at natural low places where water collected to run off the field. When such places are not plowed but are left in sod for a waterway, they do not interfere with cultivation. Hay can be cut from them during the summer.

Marvin Jones, west of Benton, said, "I cut two loads of hay from my waterway which runs down through that corn field over there."

"Are you going to get that corn gathered in time to sow a cover crop?" I asked.

"My cover crop of crimson clover is growing in there now where I seeded it between the rows of standing corn," he replied.

On Friday, October 20, at chapel, the pupils heard the Rev. E. A. Mathis speak on "God Made All Things." From the reports everyone enjoyed and appreciated it. These parents were present: Mesdames Lola Nora worthy, Joe Sirica, Doll Ward, Ina English, Euel Jones, Novalee Johnston, Edward Henson.

Mr. Rider and Miss Colley met with our 4-H Club on the same morning at ten o'clock and presented a program.

The main lesson on "The use of wood" was given by Norman English.

Wood Substitutes was presented by Elaine Myers and wood in Manufacturing was given by Tommy Darnell, Nadine Weatherford, gave a talk on Other uses of Wood. Ruth Wallace recited the poem, A Notice. Mr. Rider completed the program with pictures of trees.

The following 4-H Club officers have been elected: Elaine Myers, president; Nadine Weatherford, vice-president; Norma English, secretary; Bonita Copeland, songleader; Shirley Jones, treasurer.

Our attendance is 994. We work hard for 100 per cent. But one of our boys had to work in the hay. After all to have good milk for good health the cows have to have hay and be fed. So we keep on working. If at first we don't succeed we will try, try again. We are planning an old time musical. Watch the paper for the date.

# GOOD ROADS BUILD GOOD CITIZENS

Under the administration of Earle C. Clements, Kentucky has built and is building some \$33,700,000 worth of roads and bridges. This covers 7,000 miles of roads. Every school child knows this mileage is almost one-third the distance around the earth.

Last year, Kentucky built and contracted for more roads than any other state in the Nation except Texas. And the State Highway Department now maintains over 12,000 miles of Kentucky highways.

Almost 3,400 miles of Rural Roads were built or were under contract up to October 1, 1950. In every one of Kentucky's 120 counties. Farm-to-market roads are being built every day for people living off the main highways. The people in rural areas are being given roads to let them out of their hamlets and hollows in any kind of weather.

Good roads mean a lot to Kentuckians. It means citizens often deprived of travel

to the doctor . . . school . . . market . . . church . . . their mail . . . or even to visit a neighbor . . . now are able to do this.

Good roads enable everyone to do more of the good things they are entitled to do. Good roads benefit everybody. Yes, indeed, good roads build good citizens.

When EARLE CLEMENTS became Governor, he had the foresight and vision to see this great need for good roads. AND IN LESS THAN THREE YEARS, EARLE CLEMENTS HAS GIVEN KENTUCKY MORE GOOD ROADS THAN AT ANY SIMILAR PERIOD IN HISTORY.

EARLE CLEMENTS' wise foresight enabled the 1948 Legislature to provide the means to build these good roads. This foresight is building for Kentucky a system of highways second to none in the Nation. He has shown his ability in government at the State level. Give him the opportunity to serve his Kentucky at the National level.

# Your Worst and Best

Lesson for November 5, 1950

"Within my earthly temple there's a throne. There's a throne that's proved for his sin. And one that, supernatural, sits from which the harpist's death I find. If I could sense he certain which I like me."

FROM some anonymous rhyme-ster comes this complaint, which any of us might have truthfully written if we had thought about it. Which is me, anyway? I seem to have three selves. One is a good deal better than my everyday or ordinary self. On rare occasions he will do something or other so good it surprises even my best friends. It is like me. On the other side is another self. Dr. Foreman much worse than my everyday personality. He too surprises me by acts or thoughts so dreadful I am afraid of him and ashamed too. Yet both these "other selves" are "me" too.

Life is a Fight  
THE TRUTH of the business is that life, when a man takes it seriously, is a fight. It is a war between your best and your worst self. Your two other selves are there every moment, like ghosts, or rather like a bright angel and a dark one.

It is always possible to become a better man than you are; also, alas, it is possible to become far worse than you are. No man stays the same through life. He is continually pressing upward, or plunging downward, or varying between the two. There has been only one person, Christians believe, who actually fulfilled all the possibilities possible for him. The possibilities for evil in his life remained only possibilities—he never let them come to pass.

The possibilities for good, on the other hand, became real. His dark angel remained only a ghost; his good angel was simply his real self. At no point in his life was he forced to say to himself, "I wish I had . . . I wish I had not." And yet, even for him life was a struggle. We do not believe he sinned. We do believe he was tempted; and if the temptation was real, then he could have sinned. No man can be really tempted to do what he cannot do. Yes, the Master had his fight. But the point is: he won.

The Way to Win  
CHRISTIANS are not exempt in this war of good against evil. We are not "carried to the skies on fluffy beds of ease" any more than Jesus was. We do not drift into the Promised Land. We have to fight our way up.

Yet Christians are expected to win. That is, God stands beside each Christian in his fight, and God's power is for the Christian's use. As Saint Paul says, with each temptation God provides a "way of escape." Our prayer "Lead us not into temptation" can always be answered. Sometimes it can be answered by ourselves. That is, we cannot leave the fight to God. But we can win as Jesus won: sometimes by standing and doing battle where we are, sometimes simply by leaving temptation behind. For often the best thing to be done is to retreat. Get as far as you can from whatever temptation you're up to. Don't stand debating between right and wrong when you know which is which. Turn your back on the wrong. . . . Run, don't walk, to the nearest exit!

Is Alcoholism a Disease?  
ONE OF the common temptations of millions at all times is alcoholism. It is popular to speak of this as a "disease" and yet it is the only disease of which victims have actually cured themselves.

Dr. Brady, whose medical columns are well known, reminds us that nobody ever got over migraine headaches, or heart disease, simply by deciding to be well. But men and women have got over alcoholism, essentially by deciding to be well, and sticking to that decision.

Alcoholics Anonymous, that well-known group of former victims, who have been very successful in helping slaves of this habit to become their best selves, use much the same methods we find in the New Testament: (1) staying out of temptation's way; (2) overcoming evil with good; and (3) laying hold of the "Power, not ourselves, that makes for righteousness."
