The Giant of the Fraternal Insurance World.

By the courtesy of the Modern Woodmen, 1,000,000 men have been insured under the auspices of the Modern Woodmen of America, with 22 members. This society was organized for the purpose of making men and women 1,000,000 members of the fraternity of the modern age, and now they are 1,000,000 members. Each man joins with his wife, and takes advantage of the benevolent features in the best interest of himself and his family.

The Modern Woodmen of America is a national organization reaching the entire United States by extending its membership. The Modern Woodmen has been recognized as one of the greatest fraternal societies of the age. And his wise leadership and the present social conditions, the last and highest form of the modern age, has made it possible, in union with the Modern Woodmen of America, to establish for the benefit of all members a society of the greatest importance to the welfare of the American people.

The Modern Woodmen of America has flourished as a fraternal society in every country, and has, by having widespread membership, become a national organization. The Modern Woodmen of America has been recognized as one of the greatest fraternal societies of the age, and is the greatest benefactor of the American people.

The Modern Woodmen of America has been recognized as one of the greatest fraternal societies of the age, and the Modern Woodmen have been recognized as one of the greatest fraternal organizations of the age. The Modern Woodmen of America has been recognized as one of the greatest fraternal societies of the age, and is the greatest benefactor of the American people. THE DAILY LEADER

As we are saying much about other people, about Fulton and Fulton residents, we have thought it might not be amiss to speak about a word about the people who are reading this page.

The first news of the Fulton Daily Leader came to the attention of the people of Fulton as the Leader was issued on June 25th, 1890, founded by Mr. J. C. Pogue. The paper was a six-page daily and weekly newspaper. It was a local newspaper in giving local and state news, and such political news as was available at the time.

The Leader made it to the top of its field, and was soon one of the leading newspapers in the state. It was a testament to the hard work and dedication of the staff.

The Leader was a newspaper of the people, by the people, and for the people. It was a voice for the voiceless, and a platform for the unheard.

The importance of the Leader in the lives of the people of Fulton is shown in the fact that it is still in operation today, over a century later. The Leader is a testament to the power of the press, and the role it plays in shaping society.

The Leader is a newspaper with a mission. It is dedicated to serving the community, providing the latest news and information, and being a voice for the people.

The Leader is committed to accuracy and fairness. It is dedicated to providing a platform for all voices, and to being a source of information for the people of Fulton.

THE ILLINOIS CENTRAL RAILROAD,
FULTON'S GREATEST SINGLE ASSET.

WE ARE SITUATED AT THE GREAT CARDINAL POINTS CROSS-INGS OF THE SYSTEM—OVER FIVE HUNDRED EMPLOYES HERE—LAST IMPROVEMENTS PAST FEW YEARS—IMMENSE PAY ROLL—SUPERINTENDENT J. J. GAVEN, HEAD OF DIVISION AND HIS STAFF OF ASSISTANTS.

The individual firm or corporation are kept up by a landscape gardener and assistants and which are a joy to the eye and present a lovely attractive and restful scene through all the spring and summer and fall months.

In addition to this the company property interest in Fulton that the Illinois Central Railroad Co. has. Fulton sits at the crossing of the two most Important arms of this great railroad stretching to the cardinal points of the compass, north, east, south and west and making this city the gateway to the south, and about the center of the system.

The fact is Fulton is a kind of protege of the Illinois Central Railroad, and we expect some time it may make this place the base of some of its most important offices and work shops.

The company a few years ago expended a large sum of money in improving its tracks through the city of Fulton, building its division headquarters, a large way office building, improving its facilities and establishing a system of beautiful flower parks in the beauty of the city adorned with fountains and fountains, which build what is known as the New Yards, one is in the northeastern subdivi- sion on "C" street, and Choir, a flat yard yard in the south. These are placed many shops for round houses and repair of engines requiring quite a force of men. Here the expense for the northern division is incurred.

All these improvements represent more than a hundred thousand dollars.

SUPERINTENDENT J. J. GAVEN.

Here are located division headquarters at the head of which is Superintendent J. J. Gaven, one of the best equipped and most respect- ed railroad men in the south.

The importance of the I. C. R. to Fulton is manifest in the large number of employes and the pay- roll. The average monthly payroll for the Fulton employes proper, is $25,000.

The average monthly payroll for the trainmen, engineers, etc., running in and out Fulton is about $70,000.

The number of employes who reside in Fulton is about 500; of these are located in the division headquarters and in the city proper as follows:

- Superintendent: J. J. Gaven
- Chief Clerk: E. N. Eaves
- Roadmaster: J. M. Eges, foreman

OSTEOPATHY—WHAT IS IT?

Something of the Science Which Is Becoming So Popular with Suffering Humanity.

Dr. Andrew Taylor Still

The discoverer of osteopathy was born in 1818. In 1847, at the age of 29 years, he was a school teacher at the Connemara Academy, near Independence, Missouri. In 1854, he opened a medical department of the Western University Medical College in Galena, Ill., and, later, opened the first school of osteopathy in the United States. The subject has been studied by many of the most prominent physicians of the United States.

It is difficult at first to grasp the full significance of this thought, for its medical acceptance which he now advocates would be a matter of time, since it is a radical and far-reaching change in the whole trend of thought of the world.

The presidio, looks at it, the thought of any change in the world of the mind, of course, overpowering importance to imagine, in the future, of such a kind as is apparent, it not only seeks, it will not only seek, it will not only reach, it will not only be, it will not only be.

In other words, the thought is to have that normal functioning in existence, limited in the book or there is an unstructured abnormality preventing normal function.

The above is a good likeness of him as he was when he was in the rear of the store.

He has been a teacher in the American Institute of Osteopathy.

It is difficult at first to grasp the full significance of the thought, for its medical acceptance which he now advocates would be a matter of time, since it is a radical and far-reaching change in the whole trend of thought of the world.

But only truth could obtain from the constant repetition of such a thought by a man, namely the establishment of a school in which an attempt might be made to effect what is now possible.

In 1869, Dr. Still was appointed to the position of superintendent of the American Institute of Osteopathy, which he held for six years, and during this time he made considerable progress in the advancement of the science.

The story of the first of his patients, the woman, was a school teacher at the Connemara Academy, near Independence, Missouri.

But only truth could obtain from the constant repetition of such a thought by a man, namely the establishment of a school in which an attempt might be made to effect what is now possible.

In 1869, Dr. Still was appointed to the position of superintendent of the American Institute of Osteopathy, which he held for six years, and during this time he made considerable progress in the advancement of the science.

The story of the first of his patients, the woman, was a school teacher at the Connemara Academy, near Independence, Missouri.

It is difficult at first to grasp the full significance of the thought, for its medical acceptance which he now advocates would be a matter of time, since it is a radical and far-reaching change in the whole trend of thought of the world.
