Chamber of Commerce Enthusiastic Meeting.

From a standpoint of appreciation, the Chamber of Commerce meeting of last Tuesday made an excellent and opportune meeting. The presence of the visitors and those interested in the Chamber of Commerce activities was gratifying. There was an attendance of over one hundred persons, which is an indication of the interest which the citizens have in the Chamber of Commerce.

The Florence - the oil range with focused heat - is a marvel of modern, labor-saving invention, and yet its working principle is so simple.

In the Florence, the burners are built scientifically to focus the heat on the cooking. They see to it that the heat goes directly - not out into the kitchen, where it is useless.

The top of the Shut, wireless Florence burner is only 1-2 inches below the counter. But that's not all. Florence burners force air inside the flames, giving a quick and intense clean heat. Hotted heat close up under the cooking - this is focused heat.
