MOTHERHOOD

How To Gain The Happiness of Children

Motherhood is women's highest sphere in life. It is the fruition of her dearest hopes and most holy desires. Yet thousands of noble women, through the dragnet of the female generation organh brought on by female weakness and disease, are unable to produce children.

Ninety-nine times out of every one hundred Lydia E. Pinkham's Vegetable Compound will restore and strengthen the female organs as to make child bearing possible, easy, and safe.

Lydia E. Pinkham's Vegetable Compound

with its record of thousands of cures, is the remedy for women. Thousands of women are happy mothers of beautiful children today because in time of need they took Lydia E. Pinkham's Vegetable Compound. No matter what your female weakness or disease, it will afford you speedy relief and cure. Every woman who desires to become a mother should read these letters:

Dear Mrs. Johnson,—I had been married seven years and had not children, owing to female weakness and womb trouble, which caused me so much suffering each month. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and I did so, and now I have one more and I am perfectly well, barring having a little boy hoy. Mrs. D. H. Freese, Hinsdale, Ill.

Another happy and grateful mother writes to Mrs. Pinkham as follows:

Dear Miss Pinkham,—My husband advised me to try Lydia E. Pinkham's Vegetable Compound, and the result was so satisfactory that I cannot do enough to express my gratitude.

A letter from Mrs. M. E. Smith, of New York City, which is typical of many others:

Actual testimony to woman in every case. If any woman thinks she is sterile, let her write to Mrs. Pinkham at Lynn, Mass., whose advice is given free to all in want of and expectant mothers. Her letter will give you valuable information.

OPPORTUNITIES OF SUCCESS ARE GREATER THAN EVER.

JAMES J. WILK

There are more opportunities today than there ever have been before, and their value is greater than at any time in the past. The world is more complex, and that is a result of the complexity of the beliefs of the people. Everything that is in perfect order in the world is in order because it is in perfect order. The economy is bigger and life is better than ever before. The opportunities have with it, and the world is a better place to live in. There is a greater variety of opportunities available today than ever before.

A young man has always been teachy. He is taught that he is a member of the younger generation, and that he has opportunities to do things that the older generation did not have. He is taught that the world is complex, and that he must be smart in order to succeed. This is a good thing, for it makes him more responsible and more independent. He is also taught that he must work hard in order to succeed. This is a good thing, for it makes him more disciplined and more determined.

Young people have more opportunities today than ever before. They have the opportunity to do things that the older generation did not have. They have the opportunity to change the world, and to make it a better place. They have the opportunity to make a difference, and to leave a lasting legacy. They have the opportunity to be happy, and to live a fulfilling life.
