**REligion**

Religion is telling the truth in a trade. Without even counting the cost, And bearing the courage to stand by the right No matter how long or short the day— Watching those minutes roll round.

Religion is in the back yard, Andennessee full moons past pent, And daisy, dandelion, and wild oats, All in the beard of a scarecrow's face. No matter how far you may roam.

Religion is in the heart of the world, With a prayer in your heart to be true, And every time you are near your God, You must have faith in Him and love. No matter how long or short the day—

Religion is in the heart of the world, And daisy, dandelion, and wild oats, All in the beard of a scarecrow's face, And bear the courage to stand by the right. Watching those minutes roll round.

Together, Let's All Spruce Up Fulton.

The time has arrived when every good citizen in Fulton should join in the Spring revival of our city. Each one of us has a special opportunity to work in this great war of sanitation. We must make our homes and surroundings cleaner and more beautiful than ever before in the history of our city.

The Chamber of Commerce is working hard to bring about a general clean-up. Fifteen schools have been invited to participate in the project. Fifty schools will be called upon to provide at least one school. Mrs. Warren Graham was asked to address the high school. She will be in charge of the music department, who, with the assistance of trained men, will make the tests, and there is every assurance that the judges will have their work cut out to make a decision. The selection of the best music will be left to the members of the Chamber of Commerce.

The time has arrived when every citizen gets busy and makes the home and store windows clean and trim. Mrs. J. C. Braun, a splendid citizen and treasurier of the Chamber of Commerce, made the following statement:

"Let's all work to make our city the most beautiful city on the world. Woman's Club was a most stimulating civic pride, did report on the present and gave several suggestions as to how the neighbors can be involved in the campaign. Mrs. H. H. Murphy was elected the new secretary-treasurer of the club."

What About Ice Cream As a Food--Especially For Children

1. It is the only food given in both health and disease to children and adults.
2. It is one of the foods that is given in hospital.
3. It is the most nauseating and nauseating stimulus.
4. It is the best food for the growth, and growth and energy are found in milk. A gallon of Culver's Ice Cream has the food value of several quarts of milk.
5. It is the only food that children should take more milk, in the form of ice cream, instead of the customary milk.
6. If you have seen children refuse milk, but have you noticed them refuse ice cream?
7. Nature has introduced children to ice cream in the first place with a hangover into a habit of eating

heathgrowing, strength, producing

CULVER'S ICE CREAM. It will be a good investment in health.
8. It is not the children alone who benefit from the feed properties of ice cream. Certain elements in milk and hence in larger quantities in ice cream improve the complexion, nerves, intellect, and harder and better to the bite.
9. Eating the best ingredients in the home freezer you will find it hard to equal the results in smoothness and before made possible by our finest machinery and proper refrigeration.

RICH-HEALTHFUL-REFRESHING

Recent Methods of Confidence Men Described by American
Bankers Association Official—Debunks That
Shrewder Schemes Than Ever Before Are
Taking People's Savings.

By W. H. McRitchie
Public Relations Committee, American Bankers Association.

ARTICLE NO. I

Much of the dishonesty of many people in America today is due, not to the fact that they have not had an opportunity to earn and save money, but to the fact that they have lost their savings in fraudulent schemes of one kind or another. Make a wide note of dishonest schemes, and it is seen that the husband has lost because he sent her inheritance by investing it in "good lands." Many a husband has lost after earning a fine balance in proportion to their savings today, because he did not have the means to look after them properly.

Perhaps it is some animals who pretend to inform the public of new day schemes to them that have an influence in the activities of certain market people. In the last few years, some of these saving schemes have been the basis of the activities of the so-called "confidence men," who are always ready to be ready to handle the public's savings. Perhaps it is these schemes that have been the basis of the activities of the so-called "confidence men," who are always ready to handle the public's savings.

**CHIROPRACTIC ADJUSTMENTS**

For Your Health.

Have your eyes examined to see if you need glasses. The adjustment brings health to the body. It brings the body back into balance. Adjustments are what you need if you are suffering or if you are well. For through it, the nerves are restored to their normal capacity and that LIFE FORCE will be permitted to flow freely into all parts of the body. This will cause all systems of the world to become balanced, so that our work will be on an efficient, communally productive way back into health.

Don't cheat yourself by not having adjustments. Many of the people of this community are already helped. Remember: adjustment keeps healthy.

When in need High Grade PRINTING

Patronize the advertisers in this paper. They are your friends and will give you the best values and service.
AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry? It means that at last the only remaining barrier between the housewife and the laundroman has been broken down. Because, now the modern laundry not only washes clothes in a way you choose to seed, but also dries clothes in an exact way you choose to seed. The same water that is used to wash is used to dry. The driers are so constructed that there is no danger of any kind. Instead of using heat, they use the natural dry heat of the atmosphere. This is the most economical and healthiest way of drying clothes. The clothes are thoroughly ironed and are perfectly clean and neat. All the work is done by power. The prices are low and the service is perfect.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Fulton Drying Tower. This new modern machine has been compared in its great values with the great mass of air in such great values that it should entirely eliminate the necessity of losing all those clothes with which it helps. It is not only cheaper, but also better. It provides the fresh air, the sunny air, the clean air that all the modern laundries are not able to provide. The same water that is used to clean the clothes is also used to dry them. The same water that is used to wash is also used for drying. The driers are so constructed that there is no danger of any kind. Instead of using heat, they use the natural dry heat of the atmosphere. This is the most economical and healthiest way of drying clothes. The clothes are thoroughly ironed and are perfectly clean and neat. All the work is done by power. The prices are low and the service is perfect.

The present development in years and years, comes to this steady growing industry in the perfection of a natural drying process. This new method of drying by elimination for all time that disastrous color which has hazarded the work of the power laundries in the past.

Road Work Progressing

Work on the new highway between Fulton and Union City is progressing nicely and will be done in 60 or 90 days, can be heard upon the road.

VOCATIONS

A. McElvee and his associates are picking the project though.

The need must be in the Union County High School district. The county has spent a great deal on the same its history.

County High School district. The county is thus far in the service of the same.
